FIELD INSPECTION REPORT

Application ID:	SBL618330
Applicant Name:	Auricle Communications
Project Name/Location:	Auricle Communications – WFMU Radio Station 43 Montgomery Street Jersey City, Hudson County, New Jersey
Date of Field Inspection:	March 21, 2015
Field Inspector:	Thomas Flis, Tetra Tech

Field Notes Summary:

Thomas Flis, Tetra Tech, visited the Auricle Communications – WFMU Radio Station (WFMU) located at 43 Montgomery Street, Jersey City, Hudson County, New Jersey, on March 21, 2015, to note general project site conditions and document such conditions with photographs. Mr. Flis met with applicant representative Ken Freedman, who showed Mr. Flis the area of the building that is scheduled for rehabilitation. Mr. Flis also observed the exterior of the building from all accessible sides. Mr. Williams also took note of properties that surround the project site. No recognized environmental conditions (RECs) were observed on the project site or surrounding properties.

Mr. Flis walked the project site area and viewed surrounding properties from publicly accessible areas in an effort to identify large (greater than 100-gallon capacity) aboveground storage tanks (ASTs) containing explosive or flammable materials within 1-mile of the project site. Mr. Flis conducted a windshield reconnaissance by vehicle in an effort to identify large ASTs within 1-mile. No large ASTs containing explosive or flammable materials were identified during the field inspection. In addition, Google Earth aerial imagery within 1 mile of the project site was reviewed. No large ASTs were identified during the Google Earth aerial imagery review.
