**Site History:**

The existing Thundering Surf Waterpark and Adventure Golf facility at 300 Taylor Avenue, Beach Haven was reportedly constructed in 1989. To validate the age of the existing facility, available historic orthoimagery was reviewed to determine the timeline of property improvements on this site. Data sources reviewed were:

- Nationwide Environmental Title Research, LLC (historicaerials.com) – *Figures 1 and 3*
- U.S. Geological Survey (USGS), Aerial Photography Single Frame Records (earthexplorer.usgs.gov) – *Figure 2*
- New Jersey Office of Information Technology (NJOIT), 1995 Infrared Imagery (accessed via www.arcgis.com/home/webmap/viewer.html) – *Figure 4*

Review of historic imagery indicate that on and prior to April 1989, a previous recreation facility (slide or similar facility) was located at 300 Taylor Avenue. Between April of 1989 and 1995, imagery depicts the existing waterpark and golf facility as occupying the same site.

While the review of available imagery does not precisely determine the year of construction, historic imagery does validate that the facility was constructed after April 1989.
