1.	Page 3 of the RFP states the following: "Total annualized funding for this RFP is $720,000 subject to State appropriations...DMHAS anticipates making six (6) awards up to $120,000 each to providers." Page 10 of the RFP also states the following: "The contract awarded as a result of this RFP is anticipated to have an initial term of December 1, 2024 through November 30, 2025. The contract may be renewable for up to four (4) additional one-year terms, at DMHAS' sole discretion." Just to make sure that I understand correctly, will a total of $720,000 be available per contract year or is $720,000 the cumulative total amount available for all contract terms? Similarly, is the maximum award amount of $120,000 for each contract year, or all contract years?	A total of $720,000 annualized will be available for this RFP for six (6) awards. The maximum amount per award is $120,000 annually.	I. Purpose and Intent V. General Contracting Information	3 10
