The Bureau of State Use Industries (RS 30:4-98), operates self-sustaining work-training projects in the institutions. Functions include planning and maintenance of industrial output, training of personnel, procurement of equipment and materials, distribution of finished products, accounting, billing and cost control systems similar to any diversified manufacturing operation. Products manufactured in State Use Industries are sold only to tax supported agencies, institutions and units of State, county and municipal governments both within and outside of New Jersey. Under current law, products

manufactured by inmate labor through DEPTCOR/Bureau of State Use Industries must not be sold in competition with the products of free enterprise on the open market.

On July 1, 1990 the Bureau formally registered with the New Jersey Department of State the trademark/servicemark "DEPTCOR". The DEPTCOR trade name now represents the complete line of products and services offered by the Bureau of State Use Industries.

Under the direction of the Chief Information Officer and with oversight by a public and private sector board, the OIT assumed all the responsibilities of the former Office of Telecommunications and Information Systems. The OIT has operational responsibility for the State's major data centers and the Garden State Network, a statewide integrated communications network which carries data and voice transmissions.

The OIT processes information for a wide variety of department and agency programs including, but not limited to, centralized payroll, budget, revenue, general accounting, pensions, nursing home claims,

food stamps, public assistance, institutional patient billings, caseload activities, unemployment compensation, disability insurance, employment and personnel services, engineering services, air monitoring, and criminal justice.

The fiscal data displayed below reflects the authorized spending level for the OIT. The amount appropriated for the Office of Information Technology is distributed directly to State user agencies from a combination of State, federal and dedicated (i.e., All Other Fund) resources. State user agencies reimburse OIT for information processing services provided.
