

NOTES

SUMMARIES OF REVENUES, EXPENDITURES AND FUND BALANCES

The basis of budgeting in New Jersey is in accordance with generally accepted accounting principles (GAAP) as it applies to fund financial statements prescribed by the Governmental Accounting Standards Board (GASB) with certain exceptions. GAAP is the same basis utilized in the preparation of the fund financial statements section of the State's audited Comprehensive Annual Financial Report. In accordance with this basis, revenues are estimated and recognized when they can be accrued; that is, when they become both measurable and available to finance expenditures of the fiscal period.

Appropriations are recommended at a level sufficient to recognize all accrued expenditures applicable to the fiscal period. Goods and services delivered during a fiscal period are accrued as expenditures if not actually paid for by year end. Note that the use of the term "expended" to report the most recent actual year activity in this budget is not in strict accordance with GAAP, in that this amount includes encumbrances which under GAAP are reservations of fund balance. In addition, under GAAP certain grants and other financial assistance programs are required to be recorded as revenues and expenditures but are not part of the budget. The schedules and exhibits contained in this section provide both summary and detailed financial information for all funds maintained by the State. Individual funds are grouped into one of the following categories—General State Funds, Special Revenue, Capital Projects, Proprietary, and Private Purpose Trust Funds.

GENERAL STATE FUNDS include the General Fund, Property Tax Relief Fund, Casino Revenue Fund, Casino Control Fund, and Gubernatorial Elections Fund.

The General Fund is the fund into which all State revenues, not otherwise restricted by statute, are deposited and from which appropriations are made. The largest part of the total financial operations of the State is accounted for in the General Fund. Revenues received from most taxes, federal revenues, and certain miscellaneous revenue items are recorded in the General Fund.

The Property Tax Relief Fund accounts for revenues from the New Jersey Gross Income Tax. Revenues realized from the Gross Income Tax are dedicated by the State Constitution. All receipts from taxes levied on personal income of individuals, estates, and trusts must be appropriated exclusively for the purpose of reducing or offsetting property taxes. In addition to the Gross Income Tax, one-half cent of the one cent increase in the sales tax effective July 15, 2006 was dedicated to property tax relief and is part of this fund. This dedication was approved by the voters in a referendum question which appeared on the ballot in November 2006. Annual appropriations are made from the fund, pursuant to formulae established by the Legislature, to individuals, counties, municipalities, and school districts.

The Casino Revenue Fund accounts for the taxes imposed on the casinos and other related activities. Appropriations from this fund must be used for reductions in property taxes, utility charges and other specified expenses of eligible senior and disabled citizens.

The Casino Control Fund accounts for fees from the issuance and annual renewal of casino licenses, work permit fees, and other license fees. Appropriations are made to fund the operations of the Casino Control Commission and the Division of Gaming Enforcement.

The Gubernatorial Elections Fund is used to account for receipts from the one dollar designations on New Jersey Gross Income Tax returns. When indicated by the taxpayer, one dollar of the tax is reserved from gross income tax revenues (Property Tax Relief Fund) and credited to the Gubernatorial Elections Fund. These funds are available for appropriations pursuant to the New Jersey Campaign Contributions and Expenditures Reporting Act, as amended.

SPECIAL REVENUE FUNDS account for resources legally restricted to expenditure for specified current operating purposes. (While the Property Tax Relief, Casino Revenue, Casino Control, and Gubernatorial Elections Funds actually fall into this category, they are included under General State Funds as they make up an integral portion of the State's Annual Budget).

CAPITAL PROJECTS FUNDS account for financial resources used for the acquisition or construction of major capital facilities for State use.

PROPRIETARY FUNDS are used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as proprietary funds if laws or regulations require that the activity's cost of providing services be recovered with fees and charges.

PRIVATE PURPOSE TRUST FUNDS account for all trust fund arrangements for which principal and income benefit individuals, private organizations, or other governments.

The schedule on the following page displays the information for the State's fiscal years ending June 30.

Revenue Forecasts

Fiscal 2009 Revenue Projections

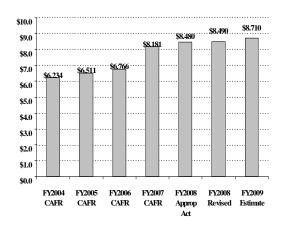

Total revenues for fiscal 2009 are expected to be \$32.5 billion, which is \$497 million or approximately 1.6% above the revised fiscal 2008 anticipated levels. Base revenues are expected to grow moderately in fiscal 2009. Most economic indicators for the nation and New Jersey are projected to be softer in 2008 than they were in 2007, but show some improvement in 2009.

Sales Tax

The forecast of \$8.7 billion in Sales Tax revenue for fiscal 2009 is an increase of \$220 million over the revised fiscal 2008 level. The basic underlying growth rate of 2.5% reflects anticipated slower growth in wages and business investment in calendar years 2008 and 2009.

SALES TAX

(In Billions)

FY2007 had a change in tax policy.

- increase in Sales Tax rate from 6% to 7%
- broadened Sales Tax base

Sales Tax excludes the tax on energy CAFR – Comprehensive Annual Financial Report

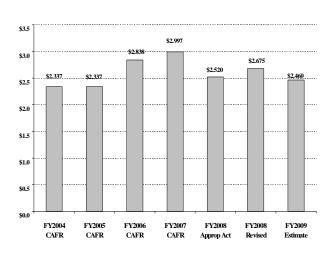

Corporation Business Tax

The fiscal 2009 Corporation Business Tax (CBT) revenue forecast of \$2.5 billion represents a decrease of \$215 million (8%), compared with the revised

fiscal 2008 level. This net downward revision is the result of losses due to: the expiration of the Alternative Minimum Assessment or AMA (-\$76 million); and fully phasing-in full net operating loss (NOL) deductibility (-\$20 million). It also assumes slower growth in payments for calendar year 2008 associated with the anticipated slowdown in corporate pre-tax profit growth. Pre-tax profit growth is projected around 4% for 2007, followed by a 15% decline in 2008.

CORPORATION BUSINESS TAX

(In Billions)

Corporation Business Tax excludes the tax on energy CAFR – Comprehensive Annual Financial Report

Gross Income Tax

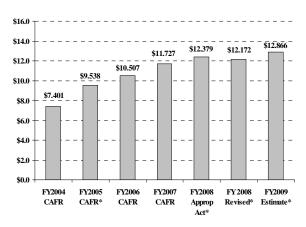

The fiscal 2009 forecast of \$12.9 billion is an increase of \$694 million over the revised fiscal 2008 level. This forecast includes a \$60 million decline, to take into account the expansion of the New Jersey Earned Income Tax Credit (EITC). The basic underlying growth rate of 5.6% over the revised fiscal 2008 level reflects the weakening income growth trends and the probability of a softer financial market. New Jersey Total Income, which is the tax base, increased by 9.6% and 7.7% in tax years 2005 and 2006, respectively. The tax base is projected to grow by 5.9% in tax year 2007 and 1.9% in tax year 2008,

reflecting the outlook for personal income anticipated by a number of independent economic forecasting services. Households reporting over \$100,000 in total income account for almost 85% of the income tax revenue. Growth in income for these households is expected to increase 9.7% in tax year 2007; followed by a slowdown to around 3% in tax year 2008 before improving to around 7.5% in tax year 2009. These increases are well below the double-digit average annual growth rate of 13% experienced in the 2004-2006 expansionary period, following the last economic recession.

The eligibility requirements for the New Jersey EITC have changed-- beginning with tax year 2007 the benefits are available to all taxpayers who are eligible for the federal credit. The percentage used to calculate the expanded NJEITC program was increased from 20% in tax year 2007 to 22.5% of the applicant's federal earned income tax credit for tax year 2008. This is slated to increase further to 25% of the federal earned income credit for tax year 2009 and beyond.

GROSS INCOME TAX

(In Billions)

*These revenues include changes in tax policy.

 $FY\,2005-Tax$ rate increase on incomes of \$500,000 or greater

FY 2008 - EITC Expansion (AA - \$36 million; Revised - \$40 million)

FY 2009 - EITC Expansion (\$60 million)

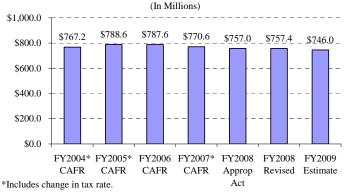

CAFR - Comprehensive Annual Financial Report

Cigarette Tax

For fiscal 2009, the gross cigarette tax collections are estimated to be \$746 million. This estimate assumes an approximate 1.5% decline in consumption from the revised fiscal 2008 estimate for gross collections. From the fiscal 2009 gross collections, \$370 million

is dedicated to the Health Care Subsidy Fund to assist hospitals with charity care and other uncompensated care disproportionate share payments. Also, \$148 million has been pledged to bondholders with the issuance of the Cigarette Tax Revenue Bonds, Series 2004. The remaining funds of \$228 million are available to support the General Fund.

CIGARETTE TAX GROSS COLLECTIONS

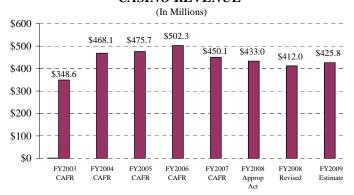

CAFR - Comprehensive Annual Financial Report

Casino Revenue

The fiscal 2009 Casino Revenue forecast of \$426 million represents an increase of \$14 million over the revised fiscal 2008 level. Fiscal 2008 has been revised downward from \$433 million anticipated at the time of the FY2008 Appropriations Act to \$412 million. The decline in casino revenue for fiscal 2008 is primarily due to increased regional slot machine competition; the partial smoking ban; a statutory reduction in the Comp Tax; and a reduction in Room Fees, due to debt service requirements on bonds supported by Room Fees. For fiscal 2009, there are three major hotel expansions that are expected to boost room capacity and casino revenues.

CASINO REVENUE

STATEMENT OF ESTIMATED REVENUES AND EXPENDITURES

A description of the major categories of anticipated revenue sources within the five funds and a description of the principal taxes are discussed in the following.

GENERAL FUND

Major Taxes

The Major Taxes category is composed of thirteen taxes or fees which are levied within the State. The majority of the revenue is generated from the sale and use of goods and services; general business taxes, which are received from various corporations; motor vehicle fees; and other excise taxes. A description of principal sources, all raising more than \$200 million, follows:

The Sales and Use Tax Act imposes a tax on receipts from retail sale, rental or use of tangible personal property; retail sale of producing, fabricating, processing, installing, maintaining, repairing, storing and servicing tangible personal property; certain advertising services; sales of restaurant meals; rental of hotel and motel rooms; telecommunications; alcohol; cigarettes; non-prescription drugs; soaps and detergents; disposable paper products; and certain admission charges. Sales of food, clothing, and personal and business services not specifically enumerated in the law are exempt. A tax rate increase of 1% from 6% to 7% was effective beginning July 15, 2006. Of the one cent increase, one-half cent was dedicated to property tax relief. In addition to the tax rate increase, there was an expansion of the sales tax base effective October 1, 2006.

The Corporation Business Tax imposes a franchise tax for the privilege of having or exercising a corporate charter or doing business, employing or owning capital or property, or maintaining an office in New Jersey. The corporate tax or alternative minimum assessment is applicable to every corporation not expressly exempted and may be affected by certain phase out provisions under the alternative minimum assessment. There is a 4.0% surcharge on all corporations for privilege periods ending on or after July 1, 2006 but before July 1, 2009.

The Motor Fuels Tax applies to sales of gasoline, diesel fuel, or liquified petroleum gas and compressed natural gas used in motor vehicles on public highways. The tax is \$.105 per gallon for gasoline and \$.135 per gallon for diesel fuel, and half the gasoline rate for other gases.

The Cigarette Tax is imposed at a rate per cigarette. The tax is collected primarily from licensed distributors who receive the cigarettes directly from out-of-state manufacturers.

The Insurance Premium Tax applies to premiums collected on insurance risks by every insurance company transacting business in New Jersey. The tax base is gross contract premiums less specified deductions.

The Transfer Inheritance Tax applies to the transfer of personal property and New Jersey real property in estates. The tax rates depend on the amount received and the relationship between the decedent and the beneficiary. No tax is imposed on immediate family or spouses.

The Motor Vehicle Fees include automobile and truck registrations, drivers' licenses, and miscellaneous fees collected by the Motor Vehicle Commission.

The Petroleum Products Gross Receipts Tax is imposed on all companies engaged in the refining/distribution of petroleum products in the State. It only applies to the first sale (not exports) of petroleum products in the State.

The Realty Transfer Fee is imposed upon the recording of deeds evidencing transfers of title to real property in the State of New Jersey and is calculated based on the amount of consideration paid.

Miscellaneous Taxes, Licenses, and Other Departmental Fees

This category includes revenues received by the various State agencies. Typical items include license and inspection fees, recreation and boating fees, institutional and patient fees, investment earnings, and other similar items.

Interfund Transfers

The Interfund Transfer category includes monies which were received into various capital projects, special revenue, proprietary, and private purpose trust funds because of legal or statutory requirements, and then subsequently transferred into the General Fund as anticipated revenue for expenditure purposes. Included in these types of revenue are the monies received by the State Lottery and interest earned on investment of bond funds.

PROPERTY TAX RELIEF FUND

The Gross Income Tax is a graduated tax levied on gross income earned or received by New Jersey resident and non-resident individuals, estates and trusts. All monies in the fund must be appropriated exclusively for reducing or offsetting property taxes. In addition to the Gross Income Tax, one-half cent of the one cent increase in the sales tax effective July 15, 2006 was dedicated to property tax relief and is a part of this fund.

GUBERNATORIAL ELECTIONS FUND

A taxpayer can voluntarily indicate that \$1 of income tax can be set aside into this special fund. Such monies are used to finance a portion of the expenses of gubernatorial primary and general elections.

CASINO REVENUE FUND

An 8 percent tax on the gross revenue of all casinos is deposited into the Casino Revenue Fund. In addition, there are four other taxes/fees imposed as follows: Casino Complimentary Tax, Casino Room Fee, Progressive Slot Tax, and Casino Parking Tax. All monies in this fund must be used for reduction in property taxes, and utility and rental charges of eligible disabled and senior citizens.

CASINO CONTROL FUND

License fees for the issuance of annual renewal of casino licenses, slot machines, non-refundable deposits for each application for a license, and fees for the issuance of various work permits are deposited into the Casino Control Fund. Such revenues are used to support the operation of the Casino Control Commission and the Division of Gaming Enforcement.

Comparing Approp Act to Approp Act

^{*} Of the FY 2007 amount, \$650 million was related to Sales Tax Revenue deferred for Property Tax Relief purposes.

^{**} FY 2008 Budget assumed federal funding shortfall which did not materialize.

^{***} Certain actions reflected on past versions of this chart were removed if the diversion was maintained for at least three years and is expected to continue.
