CHRIS CHRISTIE  
*Governor*

**FISCAL YEAR 2013 BUDGET  
OF  
CHRIS CHRISTIE  
GOVERNOR OF NEW JERSEY  
TRANSMITTED TO THE FIRST ANNUAL SESSION  
OF THE TWO HUNDRED FIFTEENTH LEGISLATURE**

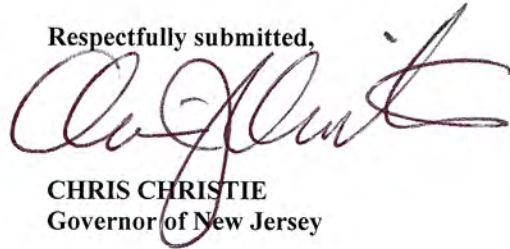

Mr. President, Madame Speaker, Members of the Legislature:

In accordance with the provisions of C.52:27B-20, I hereby submit my budget recommendations for fiscal year 2012 - 2013.

This document provides a summary of my recommendations, and outlines the key aspects of my overall financial plan for the governmental services to be provided by the State to the citizens of New Jersey.

The budget detail, including information on specific line items of appropriations, will be submitted to the Legislature separately.

Respectfully submitted,

CHRIS CHRISTIE  
Governor of New Jersey

Attest:

Charles B. McKenna  
Chief Counsel to the Governor

# THE CHRISTIE REFORM AGENDA

## SECTION I:

### *A Letter from Governor Chris Christie*

**To the People of New Jersey and the Senate and General Assembly of the New Jersey Legislature:**

When I first entered office in 2010, New Jersey was in the most trying fiscal times in recent history. After years of mismanagement, overspending and overtaxing, the State faced an immediate \$2.2 billion shortfall that needed to be closed just to meet our payroll and remain solvent through the end of that fiscal year.

We closed that gap without raising taxes, raiding the shrinking surplus or adding more debt to future generations of New Jerseyans. Despite the fiscal choices we made, the situation remained bleak. There was an \$11 billion budget gap for the coming fiscal year 2011. Job creation had suffered under an oppressive tax structure and confidence in our economy was at all time low.

We had a choice to make about our state's future - continue down the failed path of higher taxes and skyrocketing spending without accountability, or reverse course. In many ways the decision was made for us – the Day of Reckoning for New Jersey was here and it would be irresponsible to double down on failure by taxing our families further, killing more jobs and trying to kick the can down the road.

So instead, for the last two years we have done exactly what I promised you we would do. We have returned to fiscal discipline, controlled spending and enacted bold reforms of our government. And we've done this in a bipartisan way, successfully passing historic reforms that had eluded leaders in Trenton for years by working together, including:

- A 2% cap on property taxes;
- A 2% cap on interest arbitration awards;
- Bipartisan pension and health benefits reforms saving taxpayers over \$120 billion over the next 30 years;
- \$2.35 billion in targeted business tax cuts to create jobs and reforms to make New Jersey competitive again; and
- \$855 million in increased funding for New Jersey's schools.

As we weathered the last two years together, I told the people of our state that making the tough decisions would allow us to make the right ones. Because of our discipline and choices, in this year's budget we provide real tax relief to every New Jerseyan. We make education a priority by increasing funding for the second year in a row to the highest state funding level in New Jersey history. And we target funding and resources towards programs that will help protect many of New Jersey's most vulnerable residents.

After two years of dramatic drops in spending and shared sacrifice, the proposed fiscal year 2013 budget spends \$32.1 billion on key priorities for our state and our families. Still, it remains smaller than the size of the budget in place when I took office.

# THE CHRISTIE REFORM AGENDA

SECTION I:

These are the guiding principles of my budget proposal and what it accomplishes for our state, our people, and our future.

Sincerely,

New Jersey's Economic Outlook for Fiscal Year 2013

Common Challenges: Comparison to the United States and Other States

Revenue Forecast and Historical Perspective

## NEW JERSEY'S FISCAL OUTLOOK

### *New Jersey's Economic Outlook for Fiscal Year 2013*

*The New Jersey Comeback Has Begun*

New Jersey's economy began to build up momentum in 2011 with the private sector adding 39,400 jobs in the state over the 12 months ending in December 2011 for nearly 60,000 private sector jobs since Governor Christie took office. 2011 was the first year since 2007 to see the state's job count rise over the course of the year. The increase in private jobs was the largest in both absolute and percentage terms since 2000.

### Growth of New Jersey Private Wages and Salaries

(In Billions)

Source: The U.S. Bureau of Economic Analysis

Other measures of the state's economy also rose. The personal income of New Jersey residents was \$468 billion (at an annual rate) in the third quarter -- a new high. Indeed, new highs in personal income were marked in each of the first three quarters of 2011. Coincident economic indexes compiled by the Federal Reserve Banks of New York and Philadelphia both showed steady growth in overall economic activity in the

state, and surveys of firms in the state and region, such as those compiled by the Philadelphia Fed, the South Jersey Chamber of Commerce, and the New Jersey Business and Industry Association, were firmly positive as 2011 ended.

Most major private industries saw job growth in 2011, with notable gains in wholesale and retail trade, professional and business services, and education and health. Regionally, job growth was concentrated in the northern half of the state.

The state's unemployment rate edged down from 9.1% in December 2010 to 9.0% in December 2011. The rise in state residents working was the largest since 1996, and was well in excess of the national increase. At the end of 2011, 60.2% of New Jersey's population was employed, up from 59.5% a year earlier, and considerably higher than the national figure of 58.5%.

## New Jersey Unemployment and Nonfarm Payroll Employment

\* Preliminary

\*\* Projections

Source: U.S. Bureau of Labor Statistics

It appears that the strengthening of the state's labor market encouraged a substantial number of discouraged workers—who are not included in the official unemployment count until they actively search for work — to rejoin the labor force and look for jobs. Growth in the number of discouraged workers resuming efforts to find jobs is usually a sign of a strengthening economy. Because so many so-called “discouraged workers” sought employment, New Jersey's labor force grew at a much faster pace than the national rate in 2011. Once those workers rejoined the labor force, they pushed up the unemployment rate.

The state's performance in 2011 was all the more impressive given various obstacles to growth that emerged over the course of the year. As was the case elsewhere in the nation, the availability of motor vehicles on dealer lots was held back by the effects of the Japanese tsunami on the world production chain; spending power was drained by higher energy costs; home building, prices, and purchases continued to be weighed down by the huge stock of foreclosed properties; and consumer confidence and credit markets were disturbed by the mid-year stalemate over the U.S. debt ceiling and the ongoing European financial crisis.

Locally, the weather posed major problems. New Jersey residents and businesses coped with a series of major snow storms at the start of 2011, heavy rain falls and tropical storms in the summer that led to the most serious floods in nearly 40 years, and a freak October snowstorm. New Jersey's ability to move forward in the face of these challenges is testimony to the emerging underlying strength of its economy.

The outlook for 2012 and 2013 is favorable and looking positive as long as the state does not undo the hard work of the last two years. Consumer and business confidence is on the upswing, and both household and business spending are likely to continue to expand. The housing market is expected to make some gains. At the least, homeowners are expected to stop deferring renovations and improvements. In this environment, more jobs should be created as long as New Jersey continues to implement pro-growth policies that foster job creation and instill continued confidence that the New Jersey Comeback has begun.

### *Common Challenges: Comparison to the United States and Other States*

Like New Jersey, the nation as a whole saw moderate job growth in 2011. The national performance was something of a disappointment in light of the economic momentum that had appeared to be developing toward the end of 2010. The catastrophe wrought by the Japanese tsunami, higher energy prices, continued stagnation in home sales and construction, and enhanced household, business, and financial market uncertainty stemming from the U.S. debt ceiling dispute and the European crisis were headwinds that slowed growth in New Jersey and the nation.

Nonetheless, employment and output continued to advance. The unemployment rate moved down about one percentage point, partly reflecting unusually weak growth in the national labor force. Inflation-adjusted Gross Domestic Product (GDP) surpassed its pre-recession peak. Underlying inflation was low, though a spurt in energy prices in the first half of the year temporarily pushed up the inflation numbers in that period.

New Jersey's overall economic performance was across many key dimensions comparable to or better than the nation's and some of our neighbors. Growth in private sector jobs over the last year was virtually the same in New Jersey as in New York. Pennsylvania saw a modestly higher gain in no small part because of jobs created in mining and related industries as drilling expanded in the Marcellus Shale natural gas formation.

The national unemployment rate fell, ending the year at 8.5% and then dropping to 8.3% in January 2012. A close examination shows it would be incorrect to assume that the unemployment figures show that the national economy has done better than New Jersey's. National employment -- the number of people working -- rose only 1.1% from January to December 2011. New Jersey had a 2.1% gain, suggesting the economy actually grew faster here than in the nation as a whole.

In contrast, the number of employed Pennsylvanians rose only 0.8% from the start to end of 2011, while the number of New Yorkers at work actually fell 0.1% in that period. As mentioned, New Jersey's unemployment rate was boosted in 2011 by a surge in our labor force as more formerly discouraged

workers again looked for work. A substantively higher portion of our population is employed than is the case in the nation at large or in New York or Pennsylvania.

Though New Jersey faces significant fiscal challenges, it is in a much better position than those states that did not act as aggressively in past years to deal with economic problems. Most states are seeing some rebound in broad-based taxes, such as income and sales. However, the gains in these categories have done little more than offset the revenue lost with the mid-2011 cutoff of federal stimulus funds.

Meanwhile, spending needs continue to grow, including the growing costs of health care spending for the indigent and for current and retired public employees. Demands for spending for public services such as education and criminal justice are also on the rise.

Many states continue to face longer-term problems of how to fund employee pensions and pay for public infrastructure. Raising taxes for these efforts is difficult because of the risks of reducing or preventing growth in the private sector, of hurting the competitiveness of cities and states, and of slowing or stalling the current economic recovery. Many states, therefore, will continue to face calls for public sector layoffs and/or tax increases. New Jersey was a leader in reducing government employment, and in creating sustainable plans for transportation infrastructure and pensions, taking the necessary steps to help turnaround and fundamentally alter the state's fiscal health. Now other states are coming to terms with their own fiscal realities and just beginning to play catch up.

## Revenue Forecast and Historical Perspective

### Revenue Forecast

Based on estimates from the Department of the Treasury, Office of Revenue and Economic Analysis, New Jersey's total revenues for fiscal year 2013 will be \$31.9 billion, a figure that takes into account the effect of the Governor's proposed tax cuts. Fiscal year 2013 revenues are expected to be \$2.2 billion, or 7.3% above the revised projected fiscal year 2012 level (7.5% above the fiscal 2012 Appropriations Act level).

Revenue growth will primarily result from the continued improvement in the state's economy, which will boost the tax base by generating additional jobs, income, and spending. Employment and wage growth is anticipated to be somewhat higher in calendar years 2012 and 2013 than in 2011, and the unemployment rate is expected to decline.

## FY 2013 Revenues

(In Millions)

	FY 2012	FY 2012	FY 2013	Change to	
	Approp. Act	Revised*	Estimate*	Approp. Act	
	\$	\$	\$	\$	%
Income	\$ 11,132	\$ 11,132	\$ 11,837	\$ 705	6.3 %
Sales	8,153	8,071	8,449	296	3.6
Corporate	2,261	2,314	2,566	305	13.5
Other**	8,095	8,174	9,006	911	11.3
<b>Total</b>	<b>\$ 29,641</b>	<b>\$ 29,691</b>	<b>\$ 31,858</b>	<b>\$ 2,217</b>	<b>7.5 %</b>

\* FY2012 Revenue Estimate includes \$184 million of tax cuts

FY2013 Revenue Estimate includes \$530.8 million of tax cuts

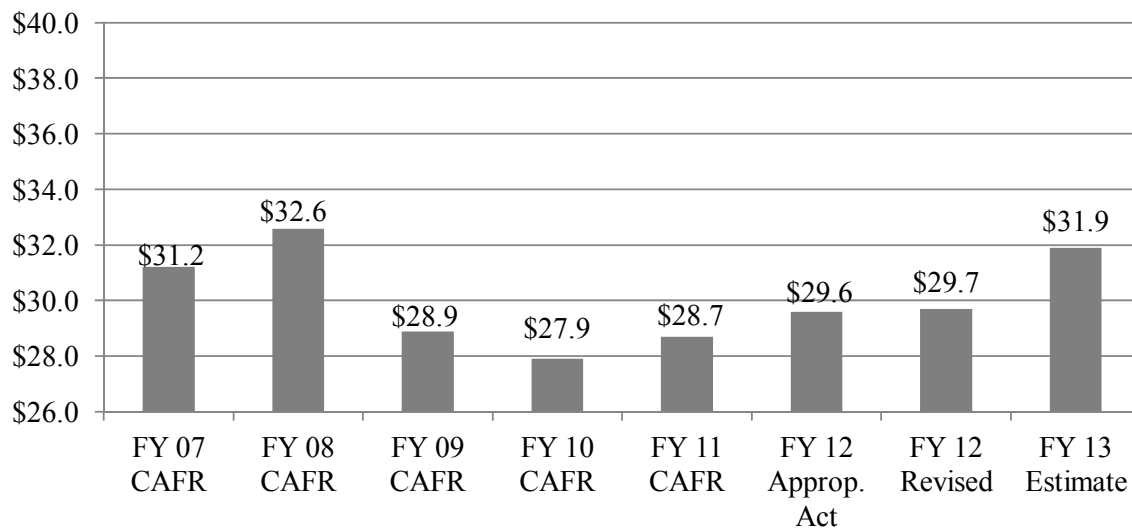

\*\* All Sales Tax and Corporation Business Tax on Energy are included in Other

In general, the outlook for the state's economy is comparable to forecasts of national trends. This is in contrast to the last few decades, when the state's performance persistently trailed that of the nation. Significant and ongoing tax reform and improved governance will continue to boost New Jersey's growth.

## Fiscal 2013 Revenues Continue the Comeback

(In Billions)

CAFR – Comprehensive Annual Financial Report

**Sales Tax**

The forecast of \$8.4 billion in Sales Tax revenue for fiscal year 2013 is an increase of \$378 million over the revised fiscal year 2012 level (\$296 million above the fiscal 2012 Appropriations Act level). The 4.7% (3.6% vs fiscal 2012 Appropriations Act) growth in sales tax is mainly a consequence of ongoing growth in consumer spending as employment and incomes gradually recover and confidence is restored. In particular, it is anticipated that household outlays will be shifting to big budget taxable items such as motor vehicles and home improvement supplies and furnishings.

**Sales Tax**

(In Billions)

FY 2007 tax increases:

- increased Sales Tax rate from 6% to 7%
- broadened Sales Tax base

FY 2009 includes \$142.5 million received under the Amnesty program

Sales Tax excludes the tax on energy

CAFR – Comprehensive Annual Financial Report

### Corporation Business Tax

The Corporation Business Tax forecast of \$2.6 billion for fiscal year 2013 is \$252 million, or 10.9% above the revised fiscal year 2012 level (\$305 million or 13.5% vs the fiscal 2012 Appropriations Act). The projection is based primarily on a forecast that corporate tax liabilities will grow as the economy and pre-tax earnings expand, as well as a step-up in revenues collected as a result of settlements of pending cases. The forecast also incorporates assumptions about the impact of the 2011 tax reform as well as the resumption of tax credit redemptions under a number of programs.

## Corporation Business Tax

(In Billions)

FY 2009 includes \$392.6 million received under the Amnesty program

FY 2011 4% Surcharge expired

FY 2012 includes \$70.0 million in tax cuts

FY 2013 includes \$127.5 million in tax cuts

Corporation Business Tax excludes the tax on energy

CAFR – Comprehensive Annual Financial Report

Corporate tax payments in a year often differ substantially from liabilities. It appears many corporations smooth after-tax earnings by overpaying liabilities in strong years and applying the excess to later weaker years. It is difficult to project these actions. Also, the long-term growth of the taxable corporate sector, and thus the corporate tax base and revenues, has been slowing as new limited-liability businesses increasingly adopt pass-through forms, such as LLCs, that pay income taxes rather than corporate business taxes.

### Gross Income Tax

For fiscal year 2013 the Gross Income Tax is projected to yield approximately \$11.8 billion. This estimate, which takes into account the first stage of the Governor's proposed three-year 10% reduction in income tax rates, is \$705 million above the fiscal year 2012 figure. The forecast gain in income taxes is 6.3%. The anticipated increase in income tax revenue reflects the continuing pickup in the growth of household income.

New Jersey's income tax revenue is highly sensitive not only to the growth in aggregate income, but also to its distribution. Households reporting more than \$100,000 in taxable income (about 20% of New Jersey taxpayers) have accounted for more than 85% of the State's income tax revenue in most recent years. This group has generally earned less than 70% of the State's aggregate taxable income.

## Gross Income Tax

(In Billions)

FY2009 Incremental change in EITC (\$60 million); Tax Amnesty of \$88.9 million

FY2010 Incremental change in EITC (\$9.9 million); EITC federal reimbursement (\$150 million); Millionaire's tax enacted

FY2011 Income tax surcharge expired

FY2012 includes \$23.0 million in tax cuts

FY2013 includes \$250.3 million in tax cuts

CAFR – Comprehensive Annual Financial Report

The sharp decline in the State's tax revenue from the 2008 peak primarily reflects lower earnings in the high-income group. These incomes, and State revenues, have partly, but not completely, recovered. It is anticipated that with the firming of economic growth a larger share of aggregate income will be subject to tax at the rates in higher brackets, allowing for substantial growth in income tax receipts.

It is critical to note that an upward shift in the distribution of aggregate income reflects the movement into higher brackets by lower income households, as well as gains in taxes collected from those already in that group. The Governor's proposed reduction in tax rates will help the state grow by lessening the tax penalty for earning a higher income, and will also help retain and attract business owners and their employees. However, the income tax projection for fiscal year 2013 is not boosted by any explicit assumptions about these beneficial effects on state economic growth.

The First Two Years: The Difficult Path to New Jersey's Economic Recovery

Fiscal Year 2012: Taking on the Big Things to Start the New Jersey Comeback

## THE NEW JERSEY COMEBACK HAS BEGUN

### *The First Two Years: The Difficult Path to New Jersey's Economic Recovery*

When Governor Christie raised his hand to take the oath of office at the beginning of 2010, it could not be said with certainty that the State would be able to meet its payroll within two months. Gross fiscal mismanagement left an enormous \$2.2 billion deficit in the fiscal year 2010 budget, with less than half of the budget year remaining.

The same shortsighted policies and poor budgeting practices that had plagued Trenton for years were to blame – an unwillingness to recognize economic realities, to plan for eroding revenue sources and an overreliance on quick fixes instead of sustainable ones. As both the state and national economies faltered, spending continued at unsustainable and unupportable levels – increasing 56% from 2001 to 2008.

Without wasting any time, Governor Christie acted to bring the budget back into balance, and did it without raising taxes, raiding the already-shrinking surplus, or increasing debt. Just a month later the Governor would be staring down an \$11 billion budget deficit, making the fiscal year 2011 budget a problem of even greater magnitude.

Again, Governor Christie acted decisively and with bipartisan support to pass a balanced budget that set New Jersey on the difficult, but proper course with a 8.3% decrease in spending from the prior year, cuts in spending across every department and fundamental government reforms, while still acting on a commitment to provide for the most vulnerable New Jerseyans. The result was a balanced budget that put the State on sound financial footing and the pursuit of critical reforms to control the cost of government to ensure that New Jersey never again reaches the brink of disaster as it did in 2010 and 2011 when we faced:

- The highest tax rate in the nation;
- The highest unemployment in a quarter century;
- The largest budget deficit per person of any state in the nation in fiscal year 2011;
- 70% increase in property taxes over the preceding decade; and
- \$121 billion unfunded liability in the State health benefits and pension systems.

### *Fiscal Year 2012: Taking on the Big Things to Start the New Jersey Comeback*

The choices necessitated in fiscal years 2010 and 2011 were tough medicine, but were necessary changes in order to finally get at the root issues that had negatively impacted New Jersey's fiscal health and put the budget in crisis. The groundwork laid by Governor Christie in 2010 to achieve fundamental reform of the way government operates, to maintain fiscal discipline, and to set new priorities for the State continued in 2011 with the Christie Reform Agenda to take on the Big Things.

Governor Christie has acted aggressively to solve the biggest challenges facing the Garden State, with an agenda to reform government, grow the economy, give educational opportunity to every child regardless of zip code, and protect taxpayers by tackling the State's long-term liabilities.

The New Jersey Comeback has begun because of the significant, bipartisan accomplishments that have been enacted over the first two years of the Christie Administration.

***GOVERNOR CHRISTIE'S RECORD OF TAKING ACTION ON HISTORIC, BIPARTISAN REFORMS TO TRANSFORM NEW JERSEY***

- **A 2% Cap on Property Taxes.** Just as the State was forced to make choices to control spending, Cap 2.0 has forced local governments to end the skyrocketing increase in spending and make choices to fund core priorities. The result made New Jersey history, with a 1.7% increase in effective property taxes in 2011, the smallest increase in 20 years.
- **A 2% Cap on Interest Arbitration Awards.** Since the enactment of the 2% property tax cap and interest arbitration reform that has fast tracked decisions, the average of salary increases for 2011 arbitration awards is 1.9%. This is nearly a full percentage point down from 2010's average of 2.8%, and nearly two points down from 2009's average of 3.75%.
- **Historic, Bipartisan Pension and Health Benefits Reforms Saving Taxpayers Over \$120 Billion Over the Next 30 Years.** In September of 2010, Governor Christie put forward a bold, ambitious and unprecedented plan to deal with the enormous \$121 billion unfunded liability in the State's pension and post-retirement medical benefits. By daring to touch the third rail of politics and working with Democrats in the Legislature in the best interests of the people, landmark, bipartisan reforms achieved passage in June of 2011.

These reforms showed once again that New Jersey is a national leader in taking on the toughest challenges facing states today. These reforms made hard choices that not only fixed these systems, but ultimately saved them. Making cost-sharing fairer between taxpayers and beneficiaries for both pensions and health benefits, suspending cost of living adjustments until healthy funding levels are achieved in the pension systems, raising the retirement age, and transforming the health benefits system to create greater choice and lower costs for taxpayers has restored fiscal sanity to the State. In the first year of these reforms, local governments saved \$267 million – direct relief to overburdened property taxpayers in New Jersey.

- **\$2.35 Billion in Targeted, Job Creating Tax Cuts and Reforms.** The Governor's fiscal year 2012 budget tackled New Jersey's worst-in-the-nation business tax climate with tax cuts and reforms that had stalled in Trenton for years, including \$184 million in job creating tax cuts in the first year of enactment. Among the tax reforms included were long-awaited changes to a single sales factor formula that incentivizes businesses to locate in New Jersey; income/loss netting and loss carry-forward reform; a 25% reduction in the minimum tax on S-Corporations, which is how many small businesses file their taxes; research and development incentives; and a phase-out of the Transitional Energy Facility Assessment.

Fully phased-in over five years, these reforms provide \$2.35 billion in tax relief to New Jersey's job creators, spurring economic growth and the creation of sustainable jobs for New Jersey families. The result has been witnessed in the best year of private sector job creation since 2001.

- **The Property Tax Tool Kit.** In May 2010, Governor Chris Christie put forward a bold, fundamental reform agenda for controlling property taxes for New Jersey families, including a 33-measure package of reforms and a cap on property taxes. The legislative package was hailed by local government officials around the state as critical to providing municipalities, school districts, higher education institutions, and county governments with the necessary tools to control their costs and live within the cap. However, to date, legislative inaction has allowed only six of the 20 bills comprising the tool kit to be signed into law.

### *SAVING TAXPAYER DOLLARS THROUGH INCREASED EFFICIENCY AND ACCOUNTABILITY*

Governor Christie enacted reforms at never before seen levels of accountability to ensure a more efficient use of taxpayer dollars from local governments. These included:

- **The Municipal Best Practices Program.** To ensure the sound use of State resources in municipal government, the Christie Administration developed and implemented the Municipal Best Practices program for fiscal year 2011, a checklist of reforms centered on the principles of the efficient, transparent, responsible and ethical use of taxpayer dollars. A municipality's final State aid payment was contingent on compliance with these best practices. The program was continued for a second year in fiscal year 2012 for municipalities and extended to county governments for the first time.
- **A Reformed, Accountable Transitional Aid to Localities Program.** Prior to Governor Christie taking office, the state's distressed municipalities received ever-increasing levels of State taxpayer support, above and beyond that provided by standard State municipal aid. These programs were provided with little to no State oversight, accountability or guidance. These funds came to be relied on as an annual appropriation rather than temporary assistance. By consolidating and reforming the Special Municipal Aid, Extraordinary Aid, and Capital City Aid programs under the Transitional Aid to Localities program, Governor Christie has acted on a commitment to work aggressively as a partner with distressed municipalities and to implement responsible management practices, increase accountability and transition toward self-reliance and away from the need for additional State taxpayer funds.

The Christie Administration has aggressively overseen the Transitional Aid Program by insisting on historic levels of accountability:

- Setting and enforcing conditions for the receipt of aid through Memoranda of Understanding;
- Implementing a meaningful, rigorous application process for aid awards where none existed before;
- Requiring regular oversight meetings with the Department of Community Affairs (DCA) and municipal officials to monitor the use of funds and efforts to control costs;
- Utilizing staff to consult with municipalities and assist with professional reviews of municipal operations;
- Advising and consulting on municipal cost-saving initiatives, including police and fire department restructuring to reduce overhead and ensure public safety programs are both efficient and effective;

- Requiring DCA approval for employee hiring; and
  - Rejecting non-essential hires, raises, contracts, and expenditures and unnecessary travel.
- **A Reformed Homestead Benefits Property Tax Relief Program.** Formerly known as Homestead Rebates, this program was reformed in fiscal year 2011 to provide direct credits against a homeowner's property tax bill, rather than a mailed check with unnecessary processing and borrowing costs. In fiscal year 2012, senior and disabled homeowners with gross income up to \$150,000 received benefits averaging \$516, and non-senior homeowners with gross incomes up to \$75,000 received benefits averaging \$408.

***\$855 MILLION IN INCREASED FUNDING FOR NEW JERSEY'S SCHOOLS AND A REFORM AGENDA TO GIVE EVERY CHILD THE QUALITY EDUCATION THEY DESERVE***

Ensuring every child in every zip code receives a quality education is a cornerstone of Governor Christie's Big Things Reform Agenda. For this reason, Governor Christie continues to increase State funding for education to a higher level in the fiscal year 2012 budget.

- **Governor Christie Put Forward a Comprehensive Reform Agenda for Education Centered on Real Solutions to Fix a Broken System.**
  - The Governor's reform agenda focuses on accountability, makes teacher effectiveness and student achievement the driving forces behind education policy and practices, empowers parents with greater school choice, and expands the availability of high-quality charter schools.
  - These bipartisan reforms are under consideration by the Legislature:
    - The School Children First Act
    - The Opportunity Scholarship Act
    - Charter Reform Legislation
- **Governor Christie Signed Into Law the Urban Hope Act.** This legislation will expand education options in failing schools and school districts in urban communities in New Jersey in order to provide students and their parents with renewed hope and access to quality educational opportunities.
- **Governor Christie has Increased Access to High-Quality Charter Schools.** Governor Christie has improved the authorizing and application process, encouraged more charter school applicants, created greater flexibility with administration and finances, and allowed districts to convert failing public schools into charters.
  - The Christie Administration approved 27 charter schools in 2011, the largest number approved in any one year since the charter law was passed in New Jersey. There are currently 80 public charter schools operating in New Jersey.

- The Christie Administration approved the expansion of several of the state's highest performing charter schools. TEAM Academy, a network of KIPP (Knowledge is Power Program) schools in Newark, will add a new elementary school campus, ultimately serving 500 additional students. North Star Academy, also in Newark, will continue to grow current schools and plans to add a new elementary and middle school campus, ultimately serving 590 new students.
- The Christie Administration Provided \$45.3 Million in School Improvement Grants. The grants are improving schools and increasing opportunities for thousands of urban children.
- Governor Christie Signed Into Law the Interdistrict School Choice Program. This program is increasing educational opportunities for students and their families by providing students with the option of attending a public school outside their district of residence without cost to their parents. For the 2012-2013 school year, the total number of participating students is projected to be 3,500.
- Governor Chris Christie Announced that Harlem Children's Zone and the City of Paterson Will Partner to Launch a Pilot Program for Children in the City. This program acts on the Governor's commitment to foster innovative and creative solutions to provide high-quality education to every New Jersey child. This initiative is aimed at providing students a unique and comprehensive educational experience modeled after Geoffrey Canada's successful Harlem Children's Zone.

### *INCREASING NEW JERSEY'S COMPETITIVENESS FOR JOB CREATION AND ECONOMIC GROWTH*

Governor Christie's commitment to improving the state's climate for economic growth and job creation is getting results for New Jersey. After years of fiscal irresponsibility fueled by 115 tax and fee increases in the 8 years before taking office, Governor Christie has turned Trenton upside down and put the state on the path to real growth.

- Since Governor Christie has Been in Office, New Jersey has Added Nearly 60,000 Private Sector Jobs and the Unemployment Rate has Declined from 9.8% to 9.1%.
- New Foreign Direct Investment in New Jersey is Expected to Contribute Over \$1.4 Billion of Capital Investment Into New Jersey. These investments will support the creation of close to 2,000 jobs, with at least 410 new, permanent jobs.
- Governor Christie has Continued to Advance Policies that Strengthen New Jersey's Business Climate by:
  - Sunsetting the corporate business tax surcharge;
  - Signing new, robust business attraction and retention legislation;
  - Protecting businesses from an average \$400 per employee, or 52% increase in the unemployment insurance payroll tax; and
  - Pro-growth business tax reforms.
- The Christie Administration Created the Business Action Center (BAC). Led by the Lt. Governor, BAC serves as a single point of contact for the state's business community to access advocacy and other services, including an upgraded on-line business portal to access information.

- **The Red Tape Review Commission Continues the Administration’s Efforts to Streamline State Government in New Jersey.** Established in September 2011, the Commission spurs economic activity by reviewing and eliminating administrative rules and regulations and soliciting public input on regulatory barriers to analyze their impact on job creation, economic growth and investment throughout the state.
- **Governor Christie has Taken Strategic, Comprehensive Efforts to Secure New Jersey’s Leadership as a Premiere Destination for Sports and Entertainment Events.** The Governor’s actions will result in hundreds of millions of dollars in economic growth benefiting businesses – large and small – throughout New Jersey.
  - Super Bowl XLVIII in 2014 has the potential to bring upwards of \$500 million of economic development to New Jersey; and
  - The Garden State will be welcoming the Ironman Triathlon in 2012, WWE’s WrestleMania in 2013, and the 2014 Special Olympics National Games.
- **The Christie Administration Executed Business Employment Incentive Program Grants with 42 Companies to Encourage Them to Relocate to or Expand in New Jersey.** This is leading to the creation of over 4,330 new jobs and nearly \$320 million in leveraged private investment.
- **Business Retention and Relocation Assistance Grant Agreements (BRRAG) with 26 Companies Were Approved to Encourage them to Remain and Grow in New Jersey.** BRRAG grants are expected to keep more than 11,260 New Jersey jobs and are bringing nearly \$185 million in leveraged private investment to the state.
- **12 Large-Scale Redevelopment Projects Received Approval Through the Urban Transit Hub Tax Credit and Economic Redevelopment and Growth (ERG) Programs.** These projects are creating an estimated 6,900 new jobs and more than \$2.2 billion in public/private investment.

Through the Christie Administration’s pro-growth policies, New Jersey has once again become a home for business. From Fortune 500 firms to small and medium-sized businesses, companies in New Jersey have committed to generating and retaining over 28,000 jobs, bringing more than \$4.6 billion in total public-private investment to the Garden State since January 2010.

With New Jersey on the path to sustainable growth, affordable government, and real reform addressing its most pressing challenges, now is the time to continue putting in place policies that deliver relief to taxpayers, foster continued economic growth and job creation, and provide hope and opportunity to every New Jersey family.

## TOUGH CHOICES LEAD TO THE RIGHT ONES

### *An Agenda for Every New Jerseyan*

*“Step one was to stop the bleeding – by stopping the spending. ... That was tough medicine – but it was the beginning of better health. Because we took that medicine, we were strong enough to reduce business taxes and improve New Jersey’s climate for job creation.”*

**- Governor Chris Christie, State of the State Address, 1/17/12**

When Governor Chris Christie first entered office in 2010, New Jersey was in a deep fiscal hole after years of mismanagement, overspending and overtaxing. At the time the situation looked bleak - there was a \$13 billion two-year budget gap, it was going to be difficult to meet State payroll and confidence in New Jersey’s economic viability was at a low. There was a choice to make about New Jersey’s fiscal future and Governor Christie promised a return to fiscal discipline, controlled spending and bold reforms. Governor Christie took office with a promise to pull New Jersey from the brink of catastrophe and followed through.

But turning around New Jersey means more than just making tough choices and reforming a deeply distressed, broken system. It means setting a new direction for New Jersey right now, funding our most important priorities, and continuing New Jersey’s comeback with an agenda that empowers every New Jerseyan to live the kind of life they want and deserve.

Governor Christie is proposing a fiscal year 2013 budget of \$32.1 billion. After two years of dramatic drops in spending and shared sacrifice, the fiscal year 2013 budget is still below the size of the budget in place when he first took office.

Due to the tough choices, successful bipartisan reforms to help control spending and aggressive efforts to cut costs across every department, the fiscal year 2013 budget is on solid fiscal ground. As Governor Christie made clear, making the tough choices would lead to the right ones, and this budget is able to focus on funding critical priorities that speak to the needs of all New Jerseyans from a position of growing fiscal strength.

In total, this year’s budget provides real tax relief to every New Jerseyan, makes education a priority by increasing funding for the second year in a row and targets funding and resources to programs that will help protect many of New Jersey’s most vulnerable residents.

**Governor Christie has committed to delivering tax relief, increasing education funding for schools, and protecting funding and services for the most vulnerable New Jerseyans. These are the guiding principles of his fiscal year 2013 budget proposal.**

- **Income Tax Relief for Every New Jerseyan.** In his 2012 State of the State address, Governor Christie called for a 10% across the board income tax cut benefitting every single New Jersey taxpayer. The Governor’s proposal will give New Jerseyans \$9.35 billion in relief over the next decade. Governor Christie also called for increasing the Earned Income Tax Credit from 20% to 25%, making it

one of the most generous programs in the country and providing an average benefit of \$550 for New Jersey's working families.

- **Increasing State Aid to Education to the Highest Level in New Jersey History.** Governor Christie's fiscal year 2013 budget represents a commitment to provide both the resources and reforms to deliver opportunity to every New Jersey child with \$213 million in increased education aid, the largest appropriation of State dollars for education in New Jersey history, and a bold education reform agenda.

Under the Governor's budget, State aid to education will have been increased by more than \$1 billion since fiscal year 2011, with State education aid totaling \$8.9 billion in the fiscal year 2013 budget.

- **Dedicating More Resources for the Most Vulnerable.** The Christie Administration is continuing its commitment to making sure individuals with mental illness have access to appropriate placements and services. The closure of Hagedorn Psychiatric Hospital on June 30, 2012 will mark a new day in delivering services for those with mental illness that focuses on providing community-based care and housing.

The fiscal year 2013 budget reinvests savings from the closure, providing an additional **\$5.6 million** to the Division of Mental Health and Addiction Services to fund 133 new units of supportive housing, rental assistance for 100 consumers of mental health services, expanded psychiatric services for patients in the community and expanded supportive employment program capacity. In addition, diversion programs offering treatment, stabilization and referral services will become available for an additional 400 clients. **\$5 million** in new funding is also included for the Department of Human Services to fund 245 new community placements for persons diagnosed with mental illness who could be discharged from or would otherwise be committed to a State psychiatric hospital.

- **Expanding Successful Services for Veterans who are Homeless or Need Mental Health Services.** The Christie Administration is expanding the Department of Military and Veterans Affairs (DMAVA) successful Veterans Haven program. The Veterans Transitional Housing Program – Veterans Haven – is a facility for homeless veterans. After being medically evaluated at a VA Medical Center, eligible veterans participate in a long-term program focusing on psychological, social and vocational rehabilitation.

Startup funds totaling **\$2.3 million** are included in DMAVA's and Human Services' fiscal year 2013 budgets for transition services. Federal funding through the U.S. Department of Veterans Affairs will allow DMAVA to provide housing, health services and social and vocational rehabilitation to approximately 50 homeless veterans.

- **Increasing Funding for Placement Services for People with Developmental Disabilities.** The Christie Administration will continue to expand its initiatives for community placements and programs. Governor Christie's fiscal year 2013 budget provides **\$24.7 million** of new funding to develop additional community placements and services, allowing for 130 people to move off of the Community Services Waiting List, and for individuals and families to receive necessary residential and day

services. This funding also supports clients who turn 21 and no longer are eligible for education entitlements.

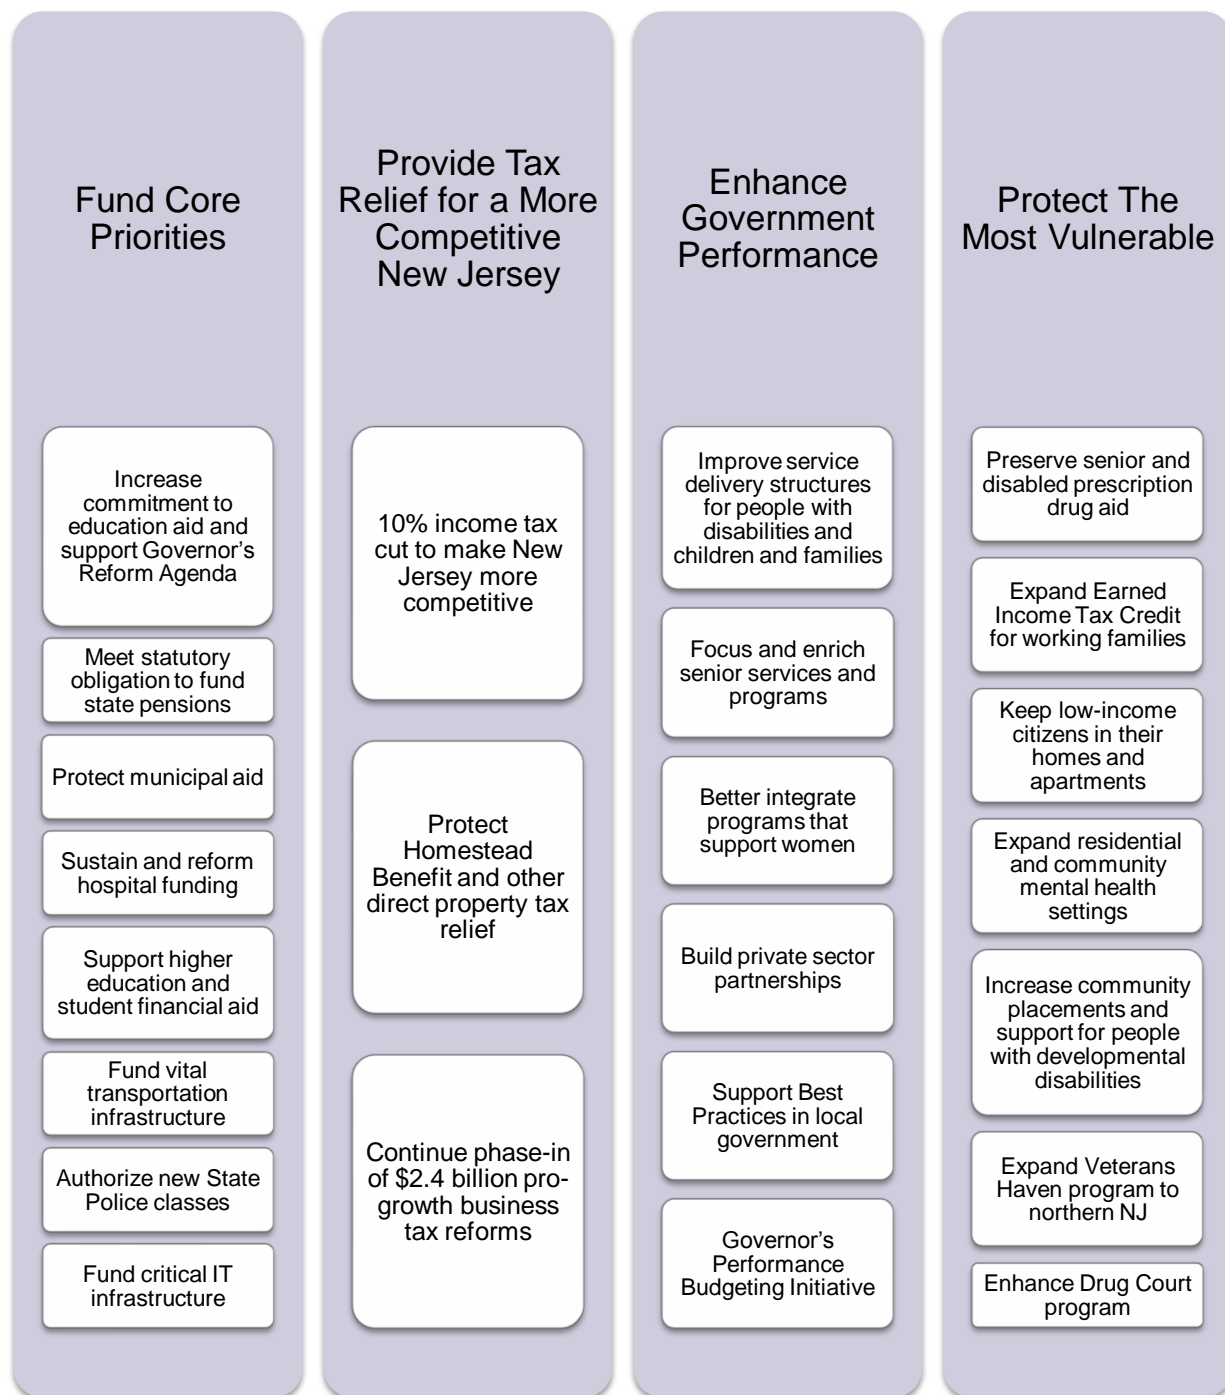

- An additional \$4.6 million is provided to pay for the 600 placements that occurred during fiscal year 2012.
- A total of \$9.7 million will support the Department of Human Services' *Olmstead* initiatives and transition individuals from the seven developmental centers into the community. In addition to funding the 125 placements created during fiscal year 2012, an additional 175 consumers will transition from the institutions to community residential settings.

### **Governor Christie's Fiscal Year 2013 Budget: Providing Real Tax Relief And Funding Key Priorities**

- Provides real tax relief for every single family with a 10% reduction in the income tax for every New Jerseyan;
- Helps New Jersey's working poor by increasing the Earned Income Tax Credit from 20% to 25%, making it one of the most generous programs in the country and providing an average benefit of \$550 for New Jersey's working families;
- Increases aid to education for the second year in a row. The fiscal year 2013 budget increases aid by \$213 million, providing the largest appropriation of State dollars for education in New Jersey history;
- Funds the State's pension contribution at \$1.1 billion, up from the \$484 million paid into the fund during fiscal year 2012 – the largest payment in New Jersey history;
- Protects funding for direct property tax relief;
- Provides more than \$393.2 million in funding for student financial assistance – the highest funding level in State history;
- Increases funding for State and county institutions of higher education;
- Creates a new scholarship program to provide students in New Jersey's urban communities the opportunity they need to succeed. The Governor's Urban Scholarship program is funded with \$1 million in fiscal year 2013;
- Protects overall funding for New Jersey hospitals at \$986 million with the recognition that all hospitals provide care to the uninsured and underinsured. Hospital funding is maintained at its fiscal year 2012 level, which increased aid by \$20 million, and again is tied to the level of charity care;
- Continues the commitment to growing the economy and creating jobs through funding of economic incentive and job training programs and continuing the second year of targeted business tax cuts that first went into effect in fiscal year 2012;
- Allocates an additional \$34.4 million for new community placements and services to help New Jerseyans with disabilities lead richer lives in community-based settings rather than institutions;

- Includes an additional \$2.5 million in funding for the Governor's initiative to establish a mandatory drug court for nonviolent offenders in all 21 New Jersey counties, providing the resources to accommodate additional treatment placements through the Division of Mental Health and Addiction Services;
- Enhances State Police with \$1 million to recruit and select two State Police training classes. These classes are anticipated to enroll 150 new troopers per class enabling State Police to continue effectively managing its workforce levels;
- Provides \$89 million in support of the Governor's \$1.6 billion Transportation Capital Plan; and
- Protects critical funding to keep New Jersey parks and forests open and maintained.

# Building Blocks for the FY 2013 Budget

## Building the New Jersey Comeback

## ***The Christie Reform Agenda: Delivering Real Tax Relief to Every New Jersey Family***

When Governor Christie took office, New Jerseyans paid the highest property taxes in the nation after enduring a 70% increase over the last ten years. New Jersey had the highest unemployment rate in over a quarter-century with nearly \$70 billion in wealth leaving the state between 2004 and 2008. The era of high taxation and job-killing policies needed to come to an end.

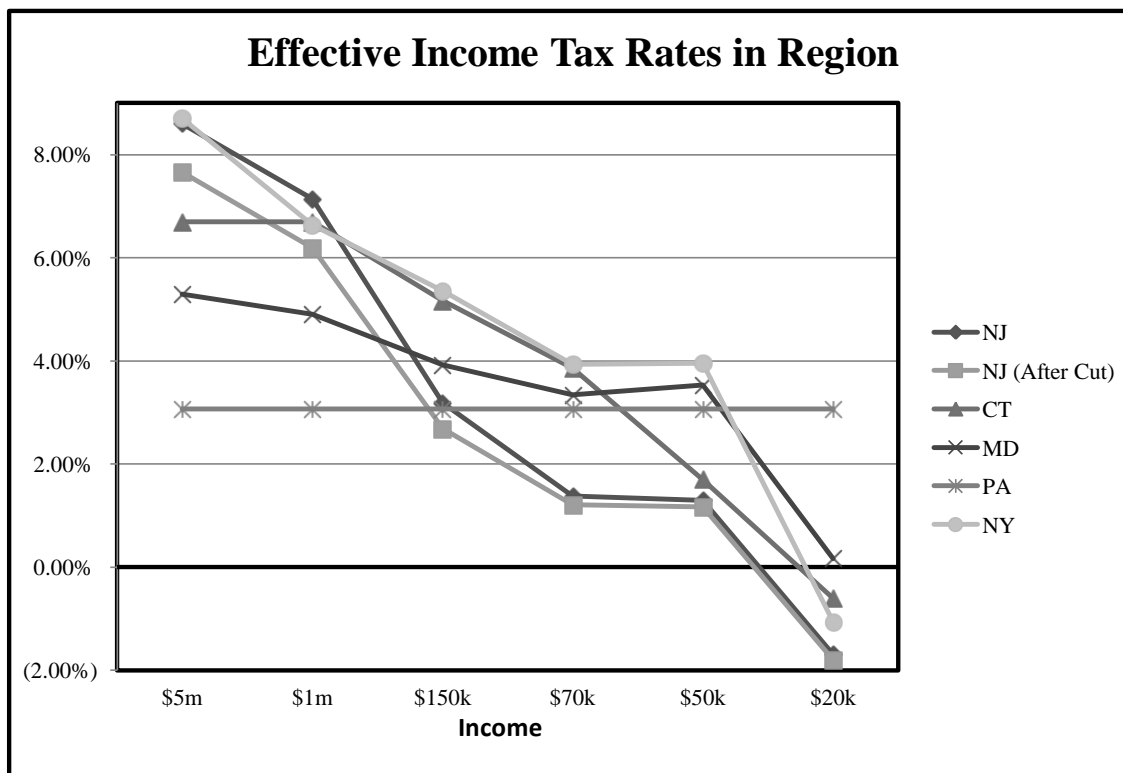

Since 2010, even in the face of strong headwinds, over 60,000 private sector jobs have been added and unemployment is down from 9.8% to 9.0%. This year, property tax growth was at the lowest level in 20 years and \$184 million in targeted tax cuts have been provided to create jobs and help businesses grow.

Now is not the time to stop pursuing policies that give New Jerseyans a break from the state's heavy tax burden and encourage businesses to expand and create new jobs. Now Governor Christie is using the momentum of the last two years to fulfill a promise he first made to the people of New Jersey in 2009 and providing real tax relief to every family.

The fiscal year 2013 budget delivers the first installment of a 10%, across-the-board income tax cut for every family, providing relief from the heavy burden that strangled New Jersey's families and forced many to move away. New Jersey continues to impose some of the highest tax rates on its families and job creators – currently ranked 6<sup>th</sup> worst among states for the individual income tax burden. It's time to help struggling families.

### **Governor Christie Is Proposing a 10% Cut In Every Income Tax Bracket**

- **The Income Tax Cut Will Be Phased in Over Three Years.**
- **Governor Christie's Proposal Will Save New Jersey Taxpayers \$9.35 Billion Over the Next Decade.** New Jerseyans will receive over \$183 million in relief in the first year of the Governor's plan.
- **New Tax Rates Will Make New Jersey More Competitive and Lighten the Tax Burden on Small Businesses and Entrepreneurship.** While other states around the country, including neighboring states like New York and Connecticut, are imposing higher income taxes on their taxpayers, New Jersey is moving in a more affordable and competitive direction.

### Governor Christie Is Providing Relief to Working Families Who Need It Most By Increasing The Earned Income Tax Credit

- **Increasing the EITC Over Two Years Means the Average Eligible Family Will Receive \$550.** The State funding commitment of approximately \$280 million annually will mean the average eligible family will receive a \$495 annual benefit the first year and a \$550 annual benefit once fully phased in.
  - This means real relief for families who need it most and is even more significant when you consider that the working families benefitting from this relief must have household income levels of less than \$49,100 per year to be eligible.
- **Governor Christie is Committed to Putting Working New Jersey Families First Now that the State is Back on a Sustainable Fiscal Path**
  - The State EITC will be increased from 20% to 25% of the federal earning income benefit, making it one of the most generous programs in the entire country;
  - Only six states offer an EITC at higher levels than New Jersey, under Governor Christie's proposal; and
  - Only 24 states and the District of Columbia offer state EITC programs. Pennsylvania offers no EITC.

### Continuing Direct Property Tax Relief With The Homestead Benefit Program

- **A Commitment to Direct Property Tax Relief for New Jersey Families.** While the Christie Administration's reforms to deliver sustainable, long-term relief to the New Jersey property tax crisis continue taking effect, the Governor is continuing to provide immediate relief to property taxpayers with an average Homestead Benefit of \$516 for seniors and disabled homeowners with incomes up to \$150,000, and an average benefit of \$408 for all other homeowners with incomes up to \$75,000.
- **Driving Down the Cost of Government and Controlling the Property Tax Problem.** Recognizing the ongoing burden of property taxes on New Jersey families, Governor Christie has enacted historic reforms to address the root cause of the property tax crisis and deliver sustainable relief to New Jerseyans.
  - Passed a 2% cap on property tax increases that held effective property tax growth to just 1.7% last year, the lowest level in two decades;
  - Secured passage of historic, bipartisan reform of the pension and health benefits systems for public employees, saving New Jersey taxpayers more than \$120 billion over the next 30 years, securing those systems for retirees, and reforming a huge cost driver for local government employee and retiree fringe benefits; and
  - Put a 2% cap on interest arbitration awards, a critical cost-saving tool for local governments.

### Growing New Jersey's Economy And Creating Jersey Jobs With Job-Creating Business Tax Cuts

The Christie Administration's aggressive push to turn around the state's economic climate has resulted in targeted tax cuts to spur job creation, help small businesses, and incentivize business relocations, retentions and expansions. Businesses once again have confidence in New Jersey's future with 2011 producing the best year of private sector job growth since 2000.

Through the Christie Administration's pro-growth policies, New Jersey has once again become a home for business. From Fortune 500 firms to small and medium-sized businesses, the companies listed below have committed to generating and retaining over 28,000 jobs, bringing more than \$4.6 billion in total public-private investment to the Garden State since January 2010.

*Sources: NJ Economic Development Authority/NJ Business Action Center, August 2011*

New Jersey has made progress and is moving in the right direction. But the hard work of turning around the state's economy and creating jobs for New Jersey families is far from finished.

### **The Governor's Fiscal Year 2013 Budget Provides \$347.5 Million in Business Tax Relief, the Second Year of Bipartisan, Job-Creating Business Tax Cuts and Tax Policy**

With these continued reforms, New Jersey's tax policy is reflecting the reality of today's global economy: New Jersey's businesses and workers compete not only with companies in other states, Canada and Mexico, but with manufacturers and service providers in other parts of the Americas, as well as Asia and Europe.

These reforms were crafted with input from job creators around the state, who have stressed the need for tax reforms to increase the state's competitiveness, improve the business climate and create Jersey Jobs. This package of reforms was passed in 2011 with bipartisan support and is being implemented in an economically prudent and fiscally responsible manner. They are now entering their second year of phase-in in the fiscal year 2013 budget:

#### ***Income Tax***

- **Business Income/Loss Netting and Loss Carry-Forward Relief.** Unlike the federal government and most other states, New Jersey penalizes small businesses by only allowing losses in each category of income to be offset against income in the same category. Current law also does not allow losses to be carried forward and used to offset gains in subsequent years. This discourages diversified entrepreneurship and burdens loss-generating business startups. Governor Christie's plan provides a smooth transition toward a fairer method for taxing entrepreneurs and small businesses.

#### ***Corporate Business Tax***

- **Phased-In Single Sales Factor.** By moving to a single sales factor, Governor Christie has removed a barrier to firms seeking to locate and grow their business and jobs in New Jersey, while also helping retain companies with headquarters in the state.
- **Increase in the Research and Development Credit to 100%.** Before this reform, qualified R&D spending in New Jersey could be used to offset only up to 50% of corporate tax liability. Governor

Christie's reforms now allow critical, economically-beneficial research and development spending in the state to be used to offset all of the corporate tax liability, increasing the incentive for research and development investment – the associated economic investment and growth – to take place in the Garden State. This change is helping New Jersey regain and grow its reputation as a home for innovation, particularly in critical industries and economic centers like bio- and life- sciences and pharmaceuticals.

- **Reduce the Minimum Tax on S-Corporations by 25%.** Prior to this reform, every one of New Jersey's neighboring states had lower S-corporation minimum taxes, with three states having no minimum tax whatsoever. Governor Christie's reform is providing relief to New Jersey's existing small businesses and increasing the state's competitiveness by making our tax landscape more attractive to small and startup businesses.

### ***Transitional Energy Facility Assessment***

- **Transitional Energy Facility Assessment (TEFA).** Tax relief in the form of energy cost savings, first promised in 1997, is finally happening under Governor Christie. The TEFA was created as a temporary tax as part of the shift from a gross receipts tax on energy to a combination of Corporation Business and the Sales and Use taxes. The original phase-out schedule for the assessment had it ending on December 31, 2002; however, subsequent Governors and Legislatures extended the sunset. New Jersey's current energy costs are among the highest in the nation. By allowing the TEFA to phase out, Governor Christie is reducing the adverse economic effect of high energy costs for all consumers.

### **Supporting The Atlantic City Comeback**

Governor Christie is continuing his commitment to support the regional and state economies through the ongoing revitalization of Atlantic City's tourism and gaming economies. After historic reforms were signed into law in 2011, including the establishment of an Atlantic City Tourism District administered by the Casino Reinvestment Development Authority, and a Tourism District Master Plan that was adopted just this month, Governor Christie is continuing to provide the resources necessary to support Atlantic City's comeback.

- **Governor Christie's Budget Provides \$290,000 For Public Safety Support in The Atlantic City Tourism District.** In furtherance of the Governor's initiative to revitalize Atlantic City, the budget provides the Attorney General with sufficient funds to develop a robust public safety task force in Atlantic City. This task force, led by a former senior officer of the New Jersey State Police, will focus the efforts of the State Police, the County Prosecutor, the Atlantic City Police Department along with Federal agencies including the ATF and FBI to ensure the safety of the entire city including the Tourism District.

## **Governor Christie's Budget Reinforces Commitment to Protecting New Jersey's Most Vulnerable**

*"New Jersey is one of America's most diverse states. This means we have diverse problems, but also diverse opportunities. It means we must build the skills and improve the opportunities for many types of people, from all backgrounds and all walks of life. And it means we must work in multiple ways to improve the quality of life for everyone. Creating jobs and fixing the schools are probably the two most important ways to do that, but there are other steps we can take as well to improve the quality of life in New Jersey. This leads me to job number three. We need to reclaim our inner cities, respond to underserved regions, and engage our most vulnerable citizens."*

**– Governor Chris Christie, State Of The State Address, 1/17/12**

The Governor's fiscal year 2013 budget represents and reinforces his commitment to protect and care for the most vulnerable among us. Even through two years of fiscal hardship and difficulty, Governor Christie has maintained this core value shared by all New Jerseyans. Today, New Jersey is now in a position to strengthen that commitment, fundamentally rethink how our neediest citizens' are served, and broaden our engagement in a proactive way to reach even more New Jerseyans with the care they need.

- People With Developmental Disabilities or Mental Health Needs
- Low-Income New Jerseyans
- Women and Families
- Seniors
- Non-Violent Drug Offenders and Recent Parolees Re-entering Society

### **PEOPLE WITH DEVELOPMENTAL DISABILITIES OR MENTAL HEALTH NEEDS**

Governor Christie is committed to helping New Jerseyans with developmental disabilities or mental illness lead richer lives. The fiscal year 2013 budget furthers that commitment through enhanced funding provided to support community placements and additional programs and services. In addition, a realignment of programs for children with disabilities or in need of behavioral health services will occur in order to enable the Department of Children and Families (DCF) to provide family-oriented support services that care for the whole child.

#### **Recognizing The Unique Needs Of People With Developmental Disabilities**

This year's budget reaffirms Governor Christie's commitment to a fundamental rethinking of how people with developmental disabilities receive services. Governor Christie has long spoken of the State's moral imperative to recognize the individuality and unique needs of every New Jerseyan with a developmental disability.

#### **Rethinking How To Serve Children With Developmental Disabilities**

The creation of the Division of Child Integrated System of Care Services in the DCF will finally address the holistic needs and concerns of families with children with developmental disabilities in one place. The reorganization is designed to ensure that families of people with developmental disabilities have access to

every possible support that State government provides. The new division will become the departmental “home” for children with multiple needs, bringing together programs now scattered throughout State government. This will allow for a more family-centered approach.

Beginning July 1, 2012 (or January 1, 2013 for family support), children with developmental disabilities who enter the system, regardless of what services they need, will be referred to DCF for services. At age 16, the Division of Developmental Disabilities (DDD) will assess a child for eligibility and provide transitional planning services. All direct services (residential, in-home behavioral, family support, etc.) will continue to be provided by DCF until age 21. Thus, a child will be dually served by both systems between the ages of 16-21, ensuring the opportunity for meaningful and coordinated transition planning so that children and their families can make a seamless transition into adult services. All services after 21 will be provided by DDD.

### **Increasing Funding for Placement Services**

The Christie Administration will continue to expand its initiatives for community placements and programs. Governor Christie’s fiscal year 2013 budget provides **\$24.7 million** of new funding to develop additional community placements and services, allowing for 130 people to move off of the Community Services Waiting List, and individuals and families to receive necessary residential and day services. This funding also supports clients who turn 21 and no longer are eligible for education entitlements.

- An additional **\$4.6 million** is provided to pay for the 600 placements that occurred during fiscal 2012.
- A total of **\$9.7 million** will support the Department of Human Services’ *Olmstead* initiatives and transition individuals from the seven developmental centers into the community. In addition to funding the 125 placements created during fiscal year 2012, an additional 175 consumers will transition from the institutions to community residential settings.
- The Christie Administration is directing resources in the fiscal year 2013 budget to provide funds for placements of individuals on the waiting list.

### **Reinvesting Resources From Hagedorn Psychiatric Hospital**

The Christie Administration continues its commitment to ensure individuals with mental illness have access to appropriate placements and services. Closure of Hagedorn Psychiatric Hospital on June 30, 2012 will enable the Christie Administration to provide new community housing and additional services for those exiting the facility.

- Governor Christie’s fiscal year 2013 budget reinvests savings from the closure, providing an additional **\$5.6 million** to the Division of Mental Health and Addiction Services to fund:
  - 133 new units of supportive housing;
  - Rental assistance for 100 individuals utilizing mental health or substance abuse services;
  - Expanded psychiatric services for patients in the community; and
  - Expanded supportive employment program capacity.

- In addition, diversion programs offering treatment, stabilization and referral services will become available for an additional 400 clients; and
- Governor Christie's fiscal year 2013 budget also provides **\$5 million** in new funding for the Department of Human Services to fund 245 new community placements for persons diagnosed with mental illness who could be discharged from or would otherwise be committed to a State psychiatric hospital.

### **Funding Early Childhood Intervention**

The Christie Administration will continue to provide support to families with children with developmental delays and disabilities from birth to age three. The Early Intervention Program services include developmental intervention, speech, physical and occupational therapy and other services necessary to achieve their full potential.

***\$88.4 million** is budgeted in fiscal year 2013 for the Early Intervention Program. While year-to-year funding for the program is declining, this is only a reflection of current participation trends. No program changes are proposed and all children in need of developmental intervention will receive appropriate services. In 2011, over 22,000 children benefited from this program.*

### **Creating Employment Opportunities for New Jerseyans with Disabilities**

- Funding for Vocational Rehabilitation Services will be protected at the enhanced level provided in the fiscal 2012 budget. Providers will have the resources necessary to offer enhanced work activities for a second year;
- The NJ WorkAbility Program offers full New Jersey Medicaid health coverage to people with disabilities who are working, and whose earnings would otherwise make them ineligible for Medicaid. There are more than 9,200 participants in NJ WorkAbility;
- Through Division of Mental Health and Addiction Services' contracts with supportive employment agencies, approximately 900 individuals obtained competitive employment since January 2010; and
- The Commission for the Blind and Visually Impaired continues to provide job training and placement and assistive technology to over 2,500 clients through its vocational rehabilitation program since January 2010.

### **Helping New Jerseyans With Developmental Disabilities Lead Richer Lives**

Governor Christie's fiscal year 2013 budget reflects a commitment to provide critical programs and services for individuals with developmental disabilities or mental illness and their families:

- **Identifying Children with Autism.** More than 6,000 children with autism have been registered and it is expected that approximately 1,200 children will be registered each year. Once registered, families are referred to a county case manager who works with the family and helps them to access available services.
  - *In fiscal year 2013, \$500,000 is protected for the Autism Registry, which makes it easier for families to be connected to the appropriate diagnostic treatment and support services in their community.*
- **Making Autism Outreach a Priority.** In August 2010, the Christie Administration established the Office on Autism within the Department of Human Services' Division of Developmental Disabilities, creating a centralized location to coordinate autism-related information. The Office has organized an Interdepartmental Work Group, which includes the New Jersey Departments of Human Services; Health; Children and Families; Community Affairs; Education; and Labor and Work Force Development to enhance coordination among agencies charged with providing services to persons with autism spectrum disorder.
- **Providing Transition Services for Adults.** The Christie Administration has dedicated funding for young adults with developmental disabilities who age out of the Department of Education's special education entitlement by ensuring a seamless transition to the Department of Human Services' adult day-programming.
- **Protecting the Dignity of Those with Developmental Disabilities.** In 2010, Governor Christie signed into law the "Central Registry of Offenders Against Individuals with Developmental Disabilities." This law exclusively applies to Department of Human Services' funded, licensed, contracted or regulated programs that provide services to people with developmental disabilities. It requires DHS to maintain a central registry - a confidential list of caregivers working in these programs who have been determined to have abused, neglected, or exploited a person with a developmental disability.

## LOW-INCOME NEW JERSEYANS

### Providing Tax Relief To Working Families

Governor Christie is providing direct tax relief to those who need it most by increasing the Earned Income Tax Credit over two years. The State EITC will be increased from 20% to 25% of the federal earning income benefit, making it one of the most generous programs in the entire country. This means real relief for families who need it most and is even more significant considering that the working families benefitting from this relief must have household income levels of less than \$49,100 per year to be eligible.

*The State funding commitment of approximately \$280 million annually will mean the average eligible family will receive a \$495 annual benefit in the first year and a \$550 annual benefit once fully phased in.*

### Funding New Jersey's Hospitals

Providing the necessary resources to keep safety net hospitals operating, while recognizing that all hospitals provide care to the uninsured and underinsured, remains the principle behind hospital funding in

fiscal year 2013. In response to concerns expressed by hospitals, fiscal year 2013 charity care payments will again be tied to the level of charity care provided during the most recent calendar year for which claims data is available. The amended distribution formula continues the principles of:

- Transparency: Distribution of subsidy amounts will be shared with the industry early in the year.
- Predictability: A portion of the proposed fiscal year 2013 subsidy will be based on the fiscal year 2012 subsidy.
- Equity: A portion of the subsidy will be based on the change in documented charity care from the prior year 2009 to the base year 2010 and no single hospital is significantly advantaged or disadvantaged.

*Despite economic challenges facing the state, hospital funding will be maintained at the enhanced fiscal year 2012 level. A total of **\$956 million** has been provided in the FY 2013 budget for hospital funding through Charity Care, Graduate Medical Education support and Hospital Relief Subsidy Fund.*

- *In addition **\$30 million** will be made available through Hospital Stabilization Aid.*

### **Veterans Haven North**

The Christie Administration is expanding the Department of Military and Veterans Affairs successful Veterans Haven program to provide access to veterans in the northern part of the state. The Veterans Transitional Housing Program – Veterans Haven – is a facility for homeless veterans. After being medically evaluated at a VA Medical Center, eligible veterans participate in a long-term program focusing on psychological, social and vocational rehabilitation. Hagedorn Psychiatric Hospital will provide the location for Veterans Haven North.

Startup funds totaling **\$2.3 million** are included in DMAVA's and Human Services' fiscal year 2013 budgets for treatment services. Federal funding through the U.S. Department of Veterans Affairs will allow DMAVA to provide housing, health services and social and vocational rehabilitation to approximately 50 homeless veterans.

### **WorkFirst New Jersey**

WorkFirst NJ emphasizes work as the first step toward building a new life and a brighter future. The goal is to help people get off welfare, secure employment and become self-sufficient, through job training, education and work activities. WorkFirst NJ provides temporary cash assistance and other support services to families through the Temporary Assistance for Needy Families (TANF) program.

*Governor Christie's fiscal year 2013 budget protects funding for WorkFirst NJ at **\$78.6 million**.*

### **Housing Assistance For Low-Income New Jerseyans**

- **State Rental Assistance Program (SRAP).** Governor Christie is providing funding for SRAP at **\$21 million** in fiscal year 2013, which helps low-income residents afford housing by providing rental assistance grants to individuals and families.

- **Homelessness Prevention Program.** This program provides financial assistance to low- and moderate-income tenants and homeowners in imminent danger of eviction or foreclosure due to temporary financial problems beyond their control. Governor Christie's fiscal year 2013 budget protects funding at **\$4.4 million**.
- **Shelter Assistance.** In fiscal year 2013, the Christie Administration will provide **\$2.3 million** in assistance to homeless shelters in the state.

### **Increasing Participation in Nutritional Assistance Programs**

The Christie Administration has engaged in an aggressive enrollment campaign to ensure that those who qualify for New Jersey's Supplemental Nutrition Assistance Program (SNAP) and the Women, Infants and Children Supplemental Food Program (WIC) receive assistance:

- As of May 2011, 751,446 individuals, including 365,180 children and 81,174 seniors were enrolled in the SNAP program;
- WIC has an average monthly participation in New Jersey of 168,631; and
- There are 135 permanent and satellite WIC clinics statewide in all 21 counties. Over 800 retail grocery stores are authorized to accept WIC checks.

## **WOMEN AND FAMILIES**

The Christie Administration is enhancing the ability of the Department of Children and Families to deliver a wider array of services. Relocating the Division on Women within DCF will bring together programs that benefit women and children into a more comprehensive and coordinated organization.

### **Integrating Services Provided To Women, Children And Families**

The Department of Children and Families will offer a wider array of services to women, children and families, and those in need will be able to access those services more easily than in the past.

- **Easier to Access Family Centered Care.** Families in need of services currently must reach out to numerous New Jersey departments and agencies making it difficult to understand service choices, resulting in missed opportunities and creating duplication. Integration will allow for a coordination of services that will end the fragmentation that has historically been an obstacle to access and quality of care. Additionally, DCF's care will be centered on a family support network that will look at the whole picture in order to improve outcomes for children and adolescents.
- **Strengthening Women's Services.** The functions of the Division on Women in the Department of Community Affairs will be transferred and integrated into DCF's Division of Family and Community Partnerships. DCF will become the primary State agency responsible for domestic violence and child abuse services.
- **Forming a New Division of Child Protection.** Formally known as the Division of Youth and Family Services, the new Division of Child Protection and Permanency will focus exclusively on child protection, providing safety, permanency and well-being to New Jersey's most vulnerable children and families.

- **Providing Care for Adolescent Treatment Services.** The current children's system of care will be broadened to also provide an integrated approach to services for adolescents with substance abuse disorders and co-occurring disorders. As the State has aligned mental health services for adults under DHS and children under DCF, this budget supports the alignment of addiction treatment services for adults and children.

### **Protecting Health Care Coverage for Uninsured Children**

The Christie Administration has demonstrated its commitment to providing health care coverage for uninsured children by maintaining the income eligibility level for children's coverage at 350% of the federal poverty level – the second highest coverage level in the country. Recently the Department of Human Services was recognized for performance excellence in enrolling over 700,000 children in the Family Care program. The State received a \$16.8 million performance bonus payment award from the Centers for Medicare and Medicaid Services (CMS) for surpassing enrollment targets and improving children's access to health care.

*During fiscal year 2013, New Jersey Family Care will use more than **\$1 billion** of State and federal resources to provide or subsidize health insurance for 162,088 children and 192,571 adults.*

### **Increasing Access to Health Centers**

Governor Christie is maintaining overall funding for Health Centers in fiscal year 2013. Since 2010, the Christie Administration has increased funding of New Jersey community health centers by \$6.4 million:

- More than 400,000 patients receive care at 20 Federally Qualified Health Centers (FQHCs) with 95 licensed satellite sites that provide well woman, dental, pediatric and other health exams;
- 75% of those who receive health care through FQHCs are women and children; and
- The total number of patient visits each year exceeds 1.3 million. Nearly half of the patients are uninsured and 41% are on Medicaid.

### **Ensuring Children Receive Access to Health Care**

The Christie Administration is leading the nation in coordinating access to health care for children in out-of-home placements through Child Health Units, co-located in each of the local offices of the Division of Child Protection and Permanency.

According to the most recent statistics:

- More than 94% of children in out-of-home placements age two and above were up to date with their annual well child exams;
- 93% of the youngest children were up to date, far exceeding the national average, which ranges between 60 to 64%;
- 86% of children three and older were up to date with semi-annual dental exams, surpassing the national average of 60%; and
- 95% of children in out-of-home placements were up to date with immunizations.

*The Child Health Unit program receives **\$17.76 million** in State funding. The total funding for the program is **\$35.5 million**, split equally between State and federal funds.*

### **Wynona's House**

Using **\$537,000** in federal funds, Governor Christie was able to support Wynona's House in fiscal year 2012. With these funds unavailable in fiscal year 2013, Wynona's House will receive a matching amount of State funds.

### **Increasing Funding For 24-Hour Mobile Response**

Mobile Response and Stabilization Services are available 24 hours a day, seven days a week, to help children and youth who are experiencing emotional or behavioral crises. The services are designed to defuse an immediate crisis, keep children and their families safe, and maintain the children in their own homes or current living situation (such as a foster home, treatment home or group home) in the community.

*The Christie Administration is increasing funding by \$6.6 million over fiscal year 2012 to a total of **\$18 million** in fiscal year 2013.*

### **Expanding Early Detection**

Over 23,000 low-income individuals receive screening for breast, cervical, prostate and/or colorectal cancer. This was funded with \$9 million in federal and State funds (\$6 million State dollars and \$3 million from the U.S. Center for Disease Control). All 21 New Jersey counties have a lead agency and there are a total of 235 screening sites across the state.

### **Advocating for Abused Children**

The Christie Administration has ensured that abused children have access to the resources needed to thrive, including:

- **Child Advocacy Centers (CACs)** are community-based, child-friendly, multidisciplinary services for children and families affected by sexual abuse or severe physical abuse. CACs bring together, often in one location, child protective services investigators, law enforcement, prosecutors, and medical and mental health professionals to provide a coordinated, comprehensive response to victims and their caregivers.
- **Regional Diagnostic and Treatment Centers (RDTC)** are located across the state, four in total.

These centers:

- Evaluate and treat child abuse and neglect;
- Provide resources for the region and develop additional resources within the region;
- Conduct training and consultative services;
- Available for emergency phone consultation 24 hours a day; and
- Serve as a source for research and training for additional medical and mental health personnel dedicated to the identification and treatment of child abuse and neglect.

## Providing Critical Services To New Jersey Women And Families

Governor Christie's fiscal year 2013 budget protects and enhances his commitment to providing a wide array of critical programs and services for women and families throughout New Jersey:

- **Funding Family Support Services.** Family Support Services are family-run, county-based organizations that provide direct family-to-family peer support, education, advocacy and other services to family members of children with emotional and behavioral problems.
  - *Funding in fiscal year 2013 is increased to **\$14.9 million**.*
- **Giving Families the Tools to Succeed.** Family Success Centers are community-based grassroots organizations that provide services ranging from basic needs like day care, resume writing, and parenting classes, to more complex needs such as accessing mental health support, domestic violence prevention and substance abuse services for people in their own communities.
  - *Governor Christie protected funding at **\$9.5 million** in State funds along with **\$2.5 million** in federal funds.*
  - *The number of Family Success Centers in New Jersey will increase from 42 to **49**.*
- **Helping Young Adults Transition to Independence.** New Jersey's Child Health Units are engaged in a special outreach project to reach young adults (18-21) aging out of care. The program helps young adults understand their health care needs and prepares them to take appropriate responsibility for their own health. Young adults aging out of care are receiving their health histories, a current healthcare plan, and information and assistance with establishing a medical home during meetings with their nurse and caseworker.
- **Providing Protective Care for Pregnant Women and Children.** The Home Visitation Program provides services to families challenged by complex health-related and/or social problems. This program focuses on young families who are at risk for abuse and neglect with primary prevention and early intervention services for pregnant women and children up to age five.
  - *Found in all 21 counties, funding for the Home Visitation Program is protected at **\$4 million** in State funding for fiscal year 2013.*
- **Reuniting Families Separated Due to Abuse.** Therapeutic visitation services safely reunite families separated due to abuse or neglect by teaching personal responsibility and parenting skills in a respectful, nurturing, home-like environment to reduce child abuse and neglect, decrease the time children spend in foster care, and strengthen families throughout the community. With the support of trained staff, the home setting allows families to model healthy family activities such as preparing meals together. This is a statewide initiative with eight agencies serving multiple counties.
  - *Governor Christie increased funding in fiscal year 2011 by **\$900,000** and protected the enhanced funding for fiscal year 2012 and fiscal year 2013.*

- **Providing Young People with Needed Help.** The NJ 2NDFLOOR Youth Helpline is a statewide, 24-hour interactive telephone line for youth and young adults (ages 10-24), staffed by counseling professionals and specially trained volunteers. The overall goal is to promote healthy youth development by providing immediate interactive, respectful professional helpline services with linkage to information and services that address the social and health needs of youth.
  - *Governor Christie's fiscal year 2013 budget protects funding for NJ 2NDFLOOR at \$791,000.*
- **Protecting Funding for Special Child Health Services Case Management.** Counties provide case management services to 12,000 medically fragile children birth through age 21 in need of assistance to access comprehensive health services. Eligible children without insurance get assistance with hearing aids, orthotics, prostheses and pharmaceuticals to treat asthma and/or cystic fibrosis.
- **Securing Child Support.** New Jersey ranks seventh in the nation for the collection of child support with a distribution of more than \$1.1 billion to custodial-parent families, 90% of whom are women. New Jersey's Child Support program handles over 384,000 cases.
- **Providing Youth in Foster Care Internship Opportunities.** The Transitions for Youth Summer Housing and Internship Program (SHIP) provides youth involved in foster care ages 18-21 the opportunity to receive quality housing and paid internship positions throughout the summer. Each member is assigned a SHIP Coach who is available to mentor, offer support and guide youth through program requirements, work with youth to pursue personal goals, and address any issues or concerns.
  - *The Christie Administration protected State funding at over \$420,000 in the fiscal year 2013 budget.*

## SENIORS

Governor Christie is proposing a new vision for coordinated senior services by bringing together programs that serve both long- and short-term services for seniors into a new Division of Aging Services within the Department of Human Services (DHS). Governor Christie's budget for fiscal year 2013 maintains funding for long-term supports and services, as well as for Pharmaceutical Assistance to the Aged and Disabled (PAAD), and the Senior Gold program.

### Providing Property Tax Relief For New Jersey Seniors

The fiscal year 2013 budget maintains funding for critical tax relief programs for seniors through the Homestead Benefit Program, the Senior and Disabled Citizens' Property Tax Freeze and the Senior and Disabled Citizens' Property Tax Deductions.

- **Senior and Disabled Citizens' Property Tax Freeze funded at \$213.5 million.** This program reimburses eligible seniors or disabled citizens for the difference between the amount of property taxes paid in the first year of eligibility and the amount paid in the current year.

- Benefits 203,100 senior and disabled citizens.
- **Homestead Benefit Program funded at \$398.5 million.** Eligible homeowners receive a homestead benefit as a credit to their property tax bill. The amount of the benefit is based on income and property taxes paid.
  - Benefits 475,400 seniors or disabled citizens and 347,300 non-seniors.
- **Senior and Disabled Citizens' Property Tax Deductions funded at \$16 million.** Provides an annual deduction of up to \$250 from property taxes for homeowners 65 or older or disabled who meet certain income and residency requirements.
  - Benefits 62,700 senior and disabled citizens.

### Providing A Single Point Of Entry For Senior Long-Term Care Services

Governor Christie is providing a new vision for providing integrated senior care with the creation of the Division of Aging Services. As part of the Department of Human Services, the Division will be better able to link supports and services by providing a single point of access and assuming responsibility for all senior programs currently housed in the Department of Health including long-term supports and services, both those provided at nursing homes and community-based services; other senior benefits such as Pharmaceutical Assistance to the Aged and Disabled; Senior Gold pharmaceutical assistance, and the Lifeline Utility Assistance Program.

Each New Jersey senior has a different set of circumstances and the best way to provide better and improved support is to treat all of their needs holistically.

### Helping Low-Income Seniors with Utility Costs

The Christie Administration continues to support the Lifeline Utility Assistance Program, which provides \$225 checks to almost 300,000 low-income seniors and other recipients to offset utility costs.

In August 2011, Governor Chris Christie announced that approximately 135,000 seniors and disabled households throughout New Jersey would receive a \$100 supplemental benefit to help with home cooling expenses in addition to winter home heating assistance through the federally-funded Low Income Home Energy Assistance Program (LIHEAP).

### Ensuring Access to Vital Drugs and Medical Devices

The Governor's fiscal year 2013 budget protects funding for the Pharmaceutical Assistance to the Aged and Disabled and the Senior Gold prescription drug assistance programs without any co-pay increases or eligibility changes. Senior Gold and PAAD, in coordination with Medicare Part D, assist approximately 164,000 low-income seniors.

*Fiscal Year 2013 funding of **\$85.1 million** maintains New Jersey's programs as some of the most generous State prescription assistance programs in the nation.*

## NON-VIOLENT DRUG OFFENDERS AND RECENT PAROLEES RE-ENTERING SOCIETY

Taking action to build on the nationally recognized success of New Jersey's prisoner re-entry, rehabilitation and prevention programs, Governor Chris Christie has outlined a cross-departmental administration initiative to help even more offenders get the support they need to successfully re-enter society, break the cycle of criminality and lead productive lives. These changes will allow New Jersey's re-entry and rehabilitation efforts and programs to work together, to be guided and properly resourced based on results, and to ensure effective programs are expanded to serve as many individuals as possible.

*The Governor's initiative includes an additional **\$2.5 million** in funding for fiscal year 2013. Additional drug courts will be established so that access will be available in all 21 counties. Funding for additional treatment placements and services will allow the Division of Mental Health and Addiction Services to proceed with the Governor's initiative.*

### Expansion of the Drug Court Program

Governor Christie firmly believes that no life is disposable and has proposed expanding the drug court program for non-violent drug offenders, because everyone deserves a second chance. According to the Judiciary's October 2010 Drug Court Report, the rate at which drug court graduates are re-arrested for a new indictable offense is 16% and the reconviction rate is 8%. This is compared to re-arrest rates for drug offenders released from prison that stand at 54% with a re-conviction rate of 43%. According to that report, an average institutional cost per inmate is approximately \$38,900, whereas the cost for an active drug court participant is roughly \$11,379.

*Included in the additional funding, **\$1.5 million** will be available for Drug Courts during fiscal year 2013 while **\$1 million** will be available for the corresponding treatment needs.*

### Governor's Office Coordinator for Prisoner Re-entry

Governor Christie has appointed a Coordinator for Prisoner Re-entry to convey and implement his vision. The Governor's Coordinator for Prisoner Re-entry will co-chair the Task Force for Recidivism Reduction and serve as the principle policy adviser to the Governor on re-entry and recidivism reduction policy.

### The Governor's Task Force for Recidivism Reduction

To address the current lack of coordination among the many treatment and re-entry programs across State government, Governor Christie signed Executive Order 83, creating the Governor's Task Force for Recidivism Reduction. The Task Force will be led by both the Chairman of the State Parole Board and the Governor's Coordinator for Prisoner Re-entry. Day-to-day implementation of the Governor's initiative will be led by the task force, including the ongoing elements of the proposal such as collecting and analyzing performance data from various State departments for budgeting, programming and procurement purposes.

### Ongoing Program Assessment And A Real-Time Recidivism Database

The path forward to improve prisoner re-entry requires the Administration to gauge the successes, failures and the depth of gaps in program delivery – inside and outside of prison. Programming gaps will be rectified by expanding existing, successful programs and hitting capacity thresholds, particularly relating to

program delivery within prison. Data will be used to populate a real-time recidivism database, which will allow the Administration to track outcomes for individuals and trends and level of effectiveness in programs in a real-time manner.

## ***Delivering the Promise of a Quality Education for Every Child in New Jersey***

*Governor Christie's Budget Increases Education Spending and Outlines a Bold Reform Agenda*

### **One Billion Dollars In Education Funding Increases Over Two Years**

Governor Christie's fiscal year 2013 budget represents a commitment to provide both the resources and reforms to deliver opportunity to every New Jersey child with \$213 million in increased education aid and a bold reform agenda for education in New Jersey.

- In fiscal year 2012, Governor Christie increased education spending by \$855 million;
- Governor Christie increases his commitment to New Jersey schools and students by providing an additional \$213 million; and
- Under Governor Christie, State aid to education will have been increased by more than \$1 billion since fiscal year 2011, with State education aid totaling \$8.9 billion in the fiscal year 2013 budget.

This is the largest appropriation of State education aid in New Jersey history.

### **The Governor's Urban Scholarship Will Give Students Greater Opportunities**

Governor Christie's budget creates a new scholarship program to provide students in New Jersey's urban communities the opportunity they need to succeed. The scholarship will be known as the Governor's Urban Scholarship and is funded in the fiscal year 2013 budget at \$1 million. Keeping true to the Governor's commitment that no child's educational destiny should be predetermined by zip code, this scholarship will specifically target children in New Jersey's urban communities.

### **Recognizing And Addressing New Jersey's Achievement Gap**

Simply putting more and more money into a broken system has not and will not turn around failing districts or deliver the promise and hope of a quality education to students trapped in chronically underperforming schools. Despite some of the highest levels of education spending in the entire nation and a majority of students who continue to perform well, New Jersey's public schools continue to confront a critical achievement gap that has shortchanged generations of children. Today alone there are over 100,000 children across the state trapped in failing schools.

- New Jersey ranks **3rd** in the nation in school expenditures per student, more than 60% above the national average.
  - New Jersey spends \$17,076 per student, compared to the national average of \$10,591.
- Overall, New Jersey students continue to perform well, ranking between 2nd and 4th in the country on the National Assessment of Educational Progress.
- However, New Jersey ranks **50th** in the size of our achievement gap in 8th grade reading, behind only Alaska, and **46th** in the size of our gap in 8th grade math.
  - On the NJASK, 76% of our economically advantaged students are proficient, compared to 45% of our economically disadvantaged students.
  - And in some places the gap is growing. The Language arts literacy gap has increased by 5 points since 2005, from 26% to 31%.

### **Governor Christie's Reform Legislation Will Fix New Jersey's Broken Education System By Putting Children First**

Working with the Legislature on a bipartisan basis, Governor Christie has put forward a package of bills that will address the biggest challenges facing public education in New Jersey and put children before special interests. Throughout the course of the last year, these proposals have been debated, discussed and deliberated. Now, in 2012, it is time to act to match New Jersey's strong financial commitment to schools with real, meaningful reforms that seek to ensure every child in New Jersey is given the opportunity to succeed regardless of zip code.

#### **The School Children First Act**

The quality of the teacher in front of the classroom is the most important in-school factor affecting student achievement. New Jersey must establish a system that rewards the many quality educators in our state, provide support to those who need improvement, and, when necessary, remove those who are unable to improve.

Modeled after Governor Christie's proposals, the School Children First Act reforms the rules for teacher evaluation, tenure and compensation to ensure that teachers and schools are held accountable for student progress while rewarding excellence:

- **Evaluating Teacher Effectiveness.** This bill establishes an evaluation system for teachers based on multiple performance measures:
  - There will be four annual rating categories: ineffective, partially effective, effective, and highly effective;
  - Teacher evaluations will be based in part on classroom observation;

- 50% of the evaluations will also be based on objective, quantifiable measures of student learning;
  - Struggling teachers will be provided meaningful opportunity to improve before receiving an ineffective rating; and
  - This evaluation system will be used in making decisions such as compensation and the awarding of tenure.
- **Tenure Based on Effectiveness.** The bill will change the state's antiquated tenure rules so that teachers will keep or receive tenure based on what matters the most – whether students are actually learning.
    - Teachers will earn tenure if they are rated effective or highly-effective for three years in a row.
    - A teacher will lose tenure if they are rated ineffective for one year or partially effective for two consecutive years, and may be subject to dismissal by either the board of education or the school principal.
  - **Compensation Based on Need.** The bill requires school districts to adopt a compensation policy designed to attract and retain effective teachers, especially in New Jersey's most challenging schools and fields.
    - Teaching in a failing school and teaching in a difficult to staff subject area will be factors that determine a teacher's compensation.
  - **Protecting Quality Teachers.** The bill also stipulates that teacher layoffs must take into account effectiveness rather than relying solely on seniority, ensuring that New Jersey public schools retain the best teachers.
  - **End Forced Placement.** A teacher will no longer be assigned to a school without the mutual consent of the teacher and principal of the school.
    - If a principal does not consent, the teacher may continue to receive compensation as they continue to search for a mutually agreeable placement.
    - If such a placement is not found after 12 months, the teacher may be placed on permanent unpaid leave.

### The Opportunity Scholarship Act

Every child deserves a high-quality education, but too often, low-income and lower middle-income children are trapped in failing schools. The Opportunity Scholarship Act, that was introduced last legislative session, will help thousands of children escape their chronically failing schools by establishing a tax credit program to fund scholarships for low-income students in the state's lowest performing public schools. The scholarships will enable students to attend out-of-district public schools, or non-public schools anywhere in the state that choose to participate in the program.

- The bill establishes a five-year pilot program to provide tax credits to entities contributing to scholarships for certain low-income students in districts with chronically failing schools.

- The bill defines a chronically failing school as one in which, for the past two school years:
  - More than 40% of the students did not pass the language arts and math subject areas of State assessments;
  - Or more than 65% of students did not pass either the language arts or mathematics subject areas.
- The bill also establishes a five-year Educational Innovation Pilot Program in the Department of Education, under which the DOE will award competitive grants to chronically failing schools to implement innovative educational programs.

### **Charter Reform Bill**

Sweeping changes to New Jersey's charter school laws are needed to remove barriers and roadblocks to the growth of high-quality charter schools. The current laws and rules governing charter schools act as a deterrent to growth instead of fostering expansion. It is time to aggressively encourage some of the nation's most-respected and successful charter school operators to come to New Jersey while making it possible to implement the same model of innovation and results in other new and existing charter schools.

The Charter Reform bill will encourage greater expansion and innovation of high-quality charter schools in failing districts:

- Permitting public higher education institutions as well as local boards of education to act as charter school authorizers.
  - These authorizers will also be responsible for soliciting, approving, overseeing and evaluating charter schools.
- Expanding the list of entities that may establish a charter school, including private for-profit operators.
- Permitting local boards of education to convert a district school to a charter school, and the commissioner to convert a failing public school to a charter school.
- If the charter school founder has been designated a "high performing charter school," or if the charter school founder is designated as an "approved operator" their application will be eligible for a streamlined application process.
- The bill also makes several changes to help charter schools succeed:
  - Eliminates the requirement that all teachers and support staff at a charter school hold the appropriate New Jersey certification;
  - Extends the limited length of charter school renewals; and
  - Gives charter schools the right of first refusal to purchase or lease at or below fair market value a closed public school facility or property.

## ***Greater Support For New Jersey's Higher Education System and Students***

### **Provides Additional \$108 Million For Higher Education Institutions**

Governor Christie pledged to increase State support for New Jersey's colleges and universities once the State's fiscal problems were addressed and the economy began growing again. Governor Christie's fiscal year 2013 budget follows through on that commitment by providing \$108 million in increased State support for institutions of higher education and student assistance.

- **Governor Christie's Fiscal Year 2013 Budget Increases Resources for Higher Education Institutions and Students by Approximately \$108 Million.** Under the Governor's proposal, total State support will increase from \$1.97 billion to \$2.08 billion.
- **\$80.1 Million of the Additional Funding Goes Directly to the Twelve State Colleges and Research Institutions.** Total State support for State colleges and research institutions increases by 6% to over \$1.4 billion, supporting day-to-day operations and to pay for the cost of employee fringe benefits.
- **State Funding for County Colleges Increases by \$6.6 Million.** The Governor's budget provides \$175.4 million in aid to county colleges, a \$1.4 million increase. A total of \$37.4 million, a \$5.2 million increase in funding, is provided to support county colleges for debt-associated costs, known as Chapter 12 financing.

### **Expands Opportunities For Students With \$393.2 Million In Financial Assistance**

Governor Christie's budget also increases financial support for New Jersey students attending in-state institutions to an all-time high. More than \$393.2 million is recommended for the various programs that make up the State's student financial assistance package.

- **\$37.5 Million Increase for the Neediest Students Through Tuition Aid Grants (TAG).** \$341.4 million in State funding is provided in total for TAG programs.. This level of support will allow the average award in each sector to increase. Additionally, the Higher Education Student Assistance Authority (HESAA) will align its regulations with those of the Free Application for Federal Student Aid (FAFSA) regarding family size. Previously, HESAA calculated family size based on the size of the family at the time of the tax year. HESAA now will include those who will be born before the end of the award year when calculating family size.
- **Increased Funding for the New Jersey Educational Opportunity Fund (EOF) for the First Time in Four Years.** More than \$38.8 million is provided for annual EOF grants ranging from \$200 to \$2,500 to the economically and educationally disadvantaged students who need it most. EOF grants assist low-income residents who are capable and motivated but lack adequate preparation for college study.
- **\$1 Million in Funding for the Governor's Urban Scholarship Program.** Governor Christie acts on his commitment to provide college access for high-achieving students from economically disadvantaged areas of the state with \$1 million in funding for the Governor's Urban Scholarship Program. Aid will be available to those in eligible areas who are in the top 5% of their high school class and who choose to attend a New Jersey institution of higher education.

## ***The Christie Reform Agenda: Common Sense Government That Works Smarter and Better***

*“Reform government to cost less and operate better. And restore some sense of balance to the obligations we take on -- so that in the future they are both sensible and sustainable. In short, we can forge a new course. One that brings spending in line with revenues. One that attacks our problems directly so they are shrinking, not growing. And most importantly, one that lays the groundwork for a better tomorrow.”*

**- Governor Chris Christie, 3/16/10**

### **Focusing On The Individual, Not The Department**

Currently, programs that serve some of New Jersey’s most vulnerable groups – families, women, children, seniors – often overlap across and among different divisions, departments and agencies of State government. New Jersey’s populations who would benefit most from services and programs that complement one another too often face challenges and frustration because of structural impediments and a disaggregated organization of services that is difficult or even prohibitive to navigate.

At the core of Governor Christie’s proposed reorganization is the idea of focusing services on the individual, not the department. Using this philosophy as a guiding principle, the fiscal year 2013 budget calls for centering services around families, women, children and seniors and putting them in one place.

Governor Christie is taking action to reorganize government around key principles – simplicity, accessibility, and comprehensiveness. Just by making common sense changes to the way government has traditionally operated means a smarter and better government for New Jerseyans who need it most.

### **Creating A Division That Focuses Exclusively On Care For The Whole Child**

This year’s budget reaffirms Governor Christie’s commitment to a fundamental rethinking of how individuals with developmental disabilities receive services. Governor Christie has long spoken of the State’s moral imperative to recognize the individuality and unique needs of every New Jerseyan with a developmental disability, and this budget represents a philosophical change in approach.

Governor Christie is committed to helping New Jerseyans with developmental disabilities and mental illness lead their fullest lives. The fiscal year 2013 budget furthers that commitment through enhanced funding provided to support community placements and additional programs and services. In addition, a realignment of programs for children with disabilities or in need of behavioral health services will enable the Department of Children and Families (DCF) to provide family-oriented support services that better care for the whole child.

The creation of the Division of Child Integrated System of Care Services within DCF will more holistically address the needs and concerns of families with children with developmental disabilities and other complex needs in one place. This will leverage DCF’s existing infrastructure to serve the whole child.

The reorganization is designed to ensure that families of children with developmental disabilities have access to every possible support that State government provides. The new division will become the

departmental “home” for children with complex needs, bringing together programs now scattered throughout State government. This will allow for a more family-centered approach.

This structural change will ensure a simpler, more effective and more complete delivery of services to New Jersey families and children who need it most, better supporting these children’s transition into adulthood.

- **Easier Access to Family Centered Care.** Using its existing infrastructure, DCF will develop an integrated service system (Division of Child Integrated System of Care Services) which will incorporate services for children. Families in need of services currently must reach out to numerous New Jersey departments and agencies making it difficult to understand service choices, resulting in missed opportunities and creating duplication. Integration will allow for a coordination of services that will end the fragmentation that has historically been an obstacle to access and quality of care. Additionally, DCF’s care will be centered on a family support network that will provide comprehensive services to ensure a holistic approach for children and adolescents in need of services.
- **Rethinking How to Serve Children With Developmental Disabilities.** The creation of this new integrated system will also provide children with intellectual and developmental disabilities a single point of entry and enhanced access to needed services. Underlying this change is the view that children with developmental disabilities and their families should not be “carved out” of generic supports and/or the systems of care that serve other children and families in New Jersey. Services should be integrated, provided as part of a continuum, and responsive to the whole child and the whole family.

The Departments of Human Services and Children and Families will work together to ensure that the transition to this new integrated system will occur smoothly, as children with developmental disabilities who enter the system, regardless of their needs, are referred to DCF for services. At age 16, the Division of Developmental Disabilities (DDD) will assess a child for eligibility and provide transitional planning services. All direct services (including residential, in-home behavioral, and family support and the like) will continue to be provided by DCF until age 21. Thus, a child will be dually served by both systems between the ages of 16-21, ensuring the opportunity for meaningful and coordinated transition planning so that children and their families can make a seamless transition into adult services. All services after 21 will be provided by DDD.

- **Providing Care for Adolescent Treatment Services.** The current children’s system of care will be broadened to also provide an integrated approach to services for adolescents with substance abuse and co-occurring disorders. In fiscal year 2013, DCF will assume responsibility for the provision of behavioral health services for all eligible youth. Addiction services for adolescents up to age 18 and those 18-21 already known to DCF will be transferred to DCF and all 18-21 year olds currently receiving mental health services and known to DCF will be transitioned to DCF during fiscal year 2013. During fiscal year 2013, DHS and DCF will examine existing statutes and regulations in order to reconcile services for 18-21 year olds not under DYFS supervision or receiving DCBHS services. Until such time, 18-21 year olds will continue to be served by the DHS Division of Mental Health and Addiction Services. As the State has aligned mental health services for adults under DHS and children under DCF, this budget supports the alignment of addiction treatment services for adults and children.

- **Forming a New Division of Child Protection.** Formerly known as the Division of Youth and Family Services, the new Division of Child Protection and Permanency will focus exclusively on child protection, providing safety, permanency and well-being to New Jersey's most vulnerable children and families. In addition to investigating allegations of abuse and neglect, the Division will provide support and services that will enable families to remain together or work toward reunification. When it is not in the child's best interest to remain in his or her own home, the Division will prioritize finding life-long permanency with relatives and with forever-families near their own communities, schools and supports.

### **Strengthening Women's Services**

The functions of the Division on Women in the Department of Community Affairs will be transferred and integrated into the Department of Children and Families. DCF will become the primary State agency responsible for domestic violence and child abuse services bringing these issues together under DCF's newly created Office on Women. This will enhance the network of community supports developed for women, children and families while creating a continuity of services provided to children by incorporating services and programs developed for women. Finally, there will be integration to address the co-occurrences that exist between child abuse and domestic violence.

### **Taking Care Of New Jersey's Seniors**

Governor Christie's Medicaid reforms are providing a new vision for providing integrated and holistic care for seniors with the creation of the Division of Aging Services in the Department of Human Services (DHS). This new Division will be better able to link all necessary supports and services by providing a single point of access, including long-term supports and community-based services. Each New Jersey senior has a different set of circumstances and the best way to provide better and improved support is to treat all of their needs. This is why Pharmaceutical Assistance to the Aged and Disabled, Senior Gold pharmaceutical assistance, and the Lifeline Utility Assistance Program are included in this transition. A Deputy Commissioner will oversee the Division on Aging Services and report directly to the Commissioner.

- **Single Point of Access Regardless of Medicaid Eligibility.** New Jersey is continuing its commitment to changing the way New Jersey provides long-term care for the state's senior population in order to create choice, improve health outcomes, ensure appropriate care in the appropriate setting, coordinate wrap-around services, and establish opportunities for aging adults to remain at home.

Additionally, the planned movement to managed long-term care will continue New Jersey's commitment to allow seniors to work and live in their communities for as long as possible, while at the same time rebalancing the disproportionate costs of long-term care services and leveraging all federal Medicaid funding through the Comprehensive Medicaid Waiver. To best improve the efficiency and effectiveness of Medicaid-funded programs, DHS will become the principal administrator of aging services.

- **Improved Coordination to Deliver Key Senior Benefits.** With this movement, it is imperative that other services and supports for seniors be coordinated and have an interface with Medicaid. As such, the administration is ensuring that seniors no longer have to seek out information across departments and are better positioned to take advantage of the benefits currently available both for their short and long-term needs.
  - Senior Gold
  - PAAD
  - Older Americans Act programs
  - State Respite Care
  - Alzheimer's Adult Day Services
  - Congregate Housing Services
  
- **Coordination with the Division of Disability Services.** This alignment of services will be coordinated with existing Division of Disability Services consumers who, as they age, will find that their service needs can be addressed within one department – continuing to provide specialized services for their physical or late-onset disability.

### **Sharpening the Focus on Health**

Currently programs that administer hospital funding are split between two different departments – creating confusion and redundancy. To ensure dollars are going where they are needed, the fiscal year 2013 budget proposes directing all hospital funding programs through the Department of Health. As such, Charity Care, the Health Care Stabilization Fund, the Hospital Relief Subsidy Fund, and Graduate Medical Education will all be administered by one department. This common sense step will mean that the Department of Health is the sole agency responsible for hospital policy, licensure and funding for New Jersey hospitals.

A single Department of Health administered funding system will ensure the State's budget supports hospitals most in need. Additionally, the Department will be responsible for oversight and monitoring.

### **Reforming Government To Cost Less And Operate Better**

**Strengthening Ethics in Government.** Oversight of local government ethics for municipal and county officials and for school board members and school administrators will be removed from current oversight boards and assigned to the State Ethics Commission. Currently, the Local Finance Board in the Department of Community Affairs is charged with the oversight function for local government officials while the School Ethics Commission in the Department of Education serves a similar purpose for school board members and school administrators.

Recent reports, including a September 2010 report of the Governor's Local Government Ethics Task Force and an earlier 2005 report of the Special Counsel to Acting Governor Codey, were highly critical of this fragmented regulatory scheme. The State Ethics Commission will be able to utilize its expertise to carefully oversee the current laws, along with any stricter laws that may be enacted in the future.

**Focusing on Tourism with a New Role for the NJSEA.** The Christie Administration has focused on economic development and job creation in the state, improving marketing and outreach efforts to attract businesses to New Jersey. As part of this effort, the New Jersey Sports and Exposition Authority (NJSEA) will operate statewide as the lead agency to facilitate and attract major sports and entertainment events. Its main focus will no longer be on building venues or otherwise managing facilities, but coordinating economic development and promotional efforts related to tourism, entertainment and sports.

The Christie Administration has successfully pursued and attracted major sporting events to the state, and during the next 24 months will host Grand Prix Auto Racing, WWE's WrestleMania, the U.S. Special Olympics, and the Super Bowl. The NJSEA will become responsible for building on these successes by promoting the state as a destination for events.

The new NJSEA will be relocated from the Department of Community Affairs to the Department of State, where it will work in close collaboration with the Business Action Center and the Office of Foreign Investment and Protocol. Also proposed is the relocation of the Division of Travel and Tourism and the New Jersey Motion Picture and Television Commission to the NJSEA.

**Enhancing Efficiency and Record Keeping.** The Department of State's records management program, excluding the State Archives, will relocate to the Department of Treasury. The restructuring will put all core records management and records processing services under one organization. This will centralize scanning and indexing operations, eliminate redundancy, minimize the use of archaic and expensive microfilm technologies for storing records, and reduce the State's reliance on paper-based records systems. The Division of Revenue will house the consolidated operations.

### Summary Charts and Tables

Corzine	2010	-
	Cumulative Totals	<u>\$ 2,175,596</u>
Christie	2011	\$ -
Christie	2012	484,102
Christie	2013	1,071,135
	Cumulative Totals	<u>\$ 1,555,237</u>

(a) Pension contribution amounts from FY 1995 to FY 2005 include funding for non-contributory life insurance; life insurance costs are not included thereafter.

(b) As of June 30, 1997, \$2.75 billion in proceeds from the issuance of Pension Obligation Bonds was contributed to the State funded pension systems. Additionally, corresponding legislation enacted authorized the use of excess assets in the systems to fund any contribution requirements going forward.

(c) Beginning in FY 2004, excess assets were exhausted in most pension funds and the State was required to resume making full pension contributions; however, due to budgetary constraints, the State began "phasing-in" required contributions. In addition, in PERS and TPAF, funds accumulated in the Benefit Enhancement Fund were used to cover the phased-in contributions for these two pension funds in FY 2004, FY 2005 and FY 2006.

(a) Includes appropriations for both direct operating support and net fringe benefits.

(b) Includes funding from Supplemental Workforce Fund for Basic Skills of \$16.3 million in FY 2012 and FY 2013.

(c) In addition, \$6 million from prior-year carryforward will support Tuition Aid Grants in FY 2013.

(d) FY 2013 is the last year of a planned phase-out for the following programs: Coordinated Garden State Scholarship Programs, Veterinary Medicine Education Program, and Martin Luther King Physician-Dentist Scholarship Act of 1986. The final year of phase-out for Ferguson Law Scholarships was FY 2012.

(e) Includes use of off-budget fund balances totaling \$8 million in FY 2012.

# Hospital Funding

(In Millions)

	<b>FY 2012 Adjusted Approp.</b>	<b>FY 2013 Budget</b>	<b>Change</b>
Charity Care	\$ 675.0	\$ 675.0	\$ -
Health Care Stabilization Fund	30.0	30.0	-

Graduate Medical Education	90.0	90.0	-
<b>TOTAL</b>	<b>\$ 986.3</b>	<b>\$ 986.3</b>	<b>\$ -</b>

Maintains funding while better integrating hospital subsidies to achieve equity, transparency and predictability

Managing and Budgeting for Performance

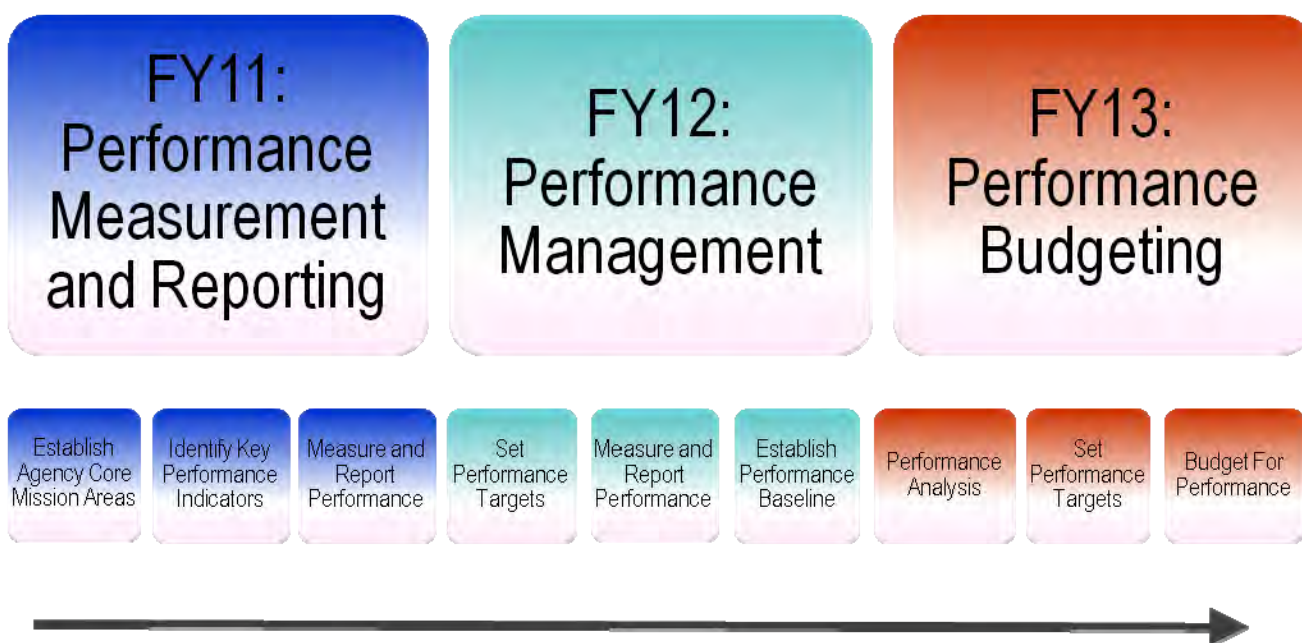

## MANAGING AND BUDGETING FOR PERFORMANCE

Governor Christie's Executive Order 8 (January 21, 2010) launched the Governor's Performance Budgeting Initiative, an ambitious, multi-year performance and efficiency program. The Initiative's goals include:

- Ensuring budget priorities align agencies' missions and most important projects,
- Focusing managers on achieving positive results and outcomes for citizens and taxpayers,
- Building a culture of innovation and continuous improvement, and
- Making government more transparent and accountable to citizens and taxpayers.

### Governor's Performance-Based Budgeting Initiative

Accountability, Continuous Improvement, Better Outcomes

Over the past two years, the Department of the Treasury has partnered with New Jersey's largest departments and agencies to implement the first two levels or phases of the Performance Budgeting Initiative: *Performance Measurement and Reporting*, under which a total of 22 state departments and agencies are posting up-to-date performance metrics and data organized by Core Mission Areas on the Governor's Performance Center section of the Governor's Transparency website, <http://www.yourmoney.nj.gov>; and *Performance Management*, under which each agency is now reporting actual performance against specific performance targets and tracking year-to-date expenditures against Core Mission Area budget allocations for fiscal year 2012 (see Allocation of Budget by Core Mission Areas, Fiscal Year 2012 Budget Summary, at page 55.)

**YOURMONEY.NJ.GOV BY THE NUMBERS**

- 3.1 million property tax records
- 110,281 public employee payroll records
- Performance budgeting data from **twenty-two** agencies

The planning process of fiscal year 2013 incorporated two innovations that mark the start of *Performance Budgeting*, the third and final level or phase that is linking budget decisions to priority performance outcomes.

First, this year's allocation of the budget by core mission, detailed in Core Mission Summaries (following), includes Key Performance Indicators for each agency's Core Mission Areas and—more significantly—specific performance targets for each Key Performance Indicator. At a high level, this represents the first time that New Jersey's public budget documents have connected actual budget dollars to performance, giving policymakers new opportunities to manage priorities and taxpayers new tools for assessing accountability.

Second, Treasury's Office of Management and Budget reengineered this year's technical budget planning process to include a requirement that agencies identify and analyze quantitative impacts on performance whenever possible when presenting potential new initiatives, program changes, or savings opportunities. The result was a better-informed internal dialogue and a much greater awareness of the role that performance must play in everyday management and priority-setting.

(thousands of dollars)

The following financial data is provided in accordance with the provisions of Executive Order 8, signed by Governor Chris Christie on January 20, 2010. It reflects amounts, by fund source, that are represented in the Fiscal 2013 Governor's Budget. Separately, it also includes revenues that are uniquely available to State authorities and colleges and universities for which the State is financially accountable. The bottom line of this reports shows the full value of services provided by State government and its associated entities.

**Notes:**

- (a) Revenues do not include state appropriations.
- (b) Authority operates on a calendar year budget. In these instances, FY 2012 represents calendar-year ending 12/31/2011, and FY 2013 represents calendar-year ending 12/31/2012.

**SUMMARY OF APPROPRIATIONS  
MAJOR INCREASES AND DECREASES**

This table summarizes the major increases and decreases in the fiscal year 2013 budget, and is organized by category.

Categories of recommended appropriations are defined as follows:

**State Operations** consists of programs and services operated directly by the State government. The largest single component is for the salary and benefits of State employees. This portion of the budget is subject to the spending limitations imposed by the Cap Law.

**Grants-in-Aid** appropriations are for programs and services provided to the public on behalf of the State by a third party provider, or grants made directly to individuals based on assorted program eligibility criteria. The Medicaid program, Tuition Aid Grant Program, Homestead Benefit Program, and funding for New Jersey Transit and State colleges and universities fall into this category.

**State Aid** consists of payments to or on behalf of counties, municipalities, and school districts to assist them in carrying out their local responsibilities. This category of expenditure includes school aid and municipal aid. It also includes funding for county colleges, local public assistance and county psychiatric hospital costs.

**Capital Construction** represents pay-as-you-go allocations and debt service for construction and other infrastructure items.

**Debt Service** payments represent the interest and principal on capital projects funded through the sale of general obligation bonds.
