The company dieticians run most of the items sold through the Smart Snacks calculator and provides Food Service Directors with that information. Any item that has not been verified by the dieticians will be run through the calculator by the FSD or their supervisor. Date of implementation 1-29-2020.

The requirements apply to items sold anywhere on the school campus (including but not limited to the cafeteria, vending machines, school store, etc.) The Alliance for a Healthy Generation calculator can be used to determine if a food or beverage meets Smart Snack requirements. A link to the calculator is available under Resources in SNEARS. Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.
