	CAP Submitted LISA DINOVI 07/16/2020 10:12 AM	We will procure and serve a 2 oz equivalent of grain for dinner/hot dog roll starting Sept 2020.			
	Flagged Lea Berry 07/14/2020 11:53 AM	<p>At lunch, portion sizes planned for each component must meet both daily and weekly minimum requirements for each appropriate grade group. When planning menus, refer to the Lunch Meal Pattern Charts, available on the Department of Agriculture's Form web site for specific component and minimum quantity requirements.</p> <p>At lunch, production records must document that both daily and weekly minimum quantities for each component are offered. Other supporting documentation (including but not limited to the USDA Food Buying Guide, food labels, CN labels, manufacturers product formulation statements, standardized recipes, etc.) must be used to determine the creditable amount each menu item contributes to the meal pattern to assure that required minimum quantities are offered.</p> <p>Hot dog bun is only 1.50 oz equivalent of grain.</p> <p>Chicken Drumstick with dinner roll 1.75 oz equivalent of grain.</p> <p>They meet the daily requirement, not the weekly requirement.</p> <p>There is not fiscal for this on this review, however if found on the next review it would be a repeat violation and meals may be taken back.</p> <p>Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.</p>
