	CAP Submitted PATRICIA MOREL 07/22/2020 09:08 AM	Before re-opening in September, all staff will be retrained on portion sizes and offer vs serve. Menus will be planned so that at least 1/2 cup of legumes are offered each week, and if hummus is offered, it will be offered daily for the week to ensure that the district meets the weekly legume requirement of 1/2 cup. All legume offerings will be included on production records so that the correct weekly portions are documented. If the "Mean Green Hummus" is offered again, we will take into account how much of the recipe would be the spinach, and increase the serving size and or amount of offerings for the week so that we can accurately meet the weekly required amount of 1/2 cup legumes. These menu, production record and offering changes will occur upon reopening in September.			
	Flagged Amy Martin 07/09/2020 08:50 AM	<p>At lunch, portion sizes planned for each component must meet both daily and weekly minimum requirements for each appropriate grade group. When planning menus, refer to the Lunch Meal Pattern Charts, available on the Department of Agriculture's Form web site for specific component and minimum quantity requirements. At lunch, the "Mean Green Hummus" only provides 3/8 cup of the legume vegetable subgroup per the recipe breakdown. The other 1/8 cup is from spinach (dark green subgroup). Per the production records, the legume vegetable subgroup was only offered once during the review week (Monday 2/24/2020). This does not meet the weekly legume vegetable subgroup requirement of 1/2 cup for the K-5 age/grade grouping.</p> <p>Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.</p>
