	Flagged Lea Berry 06/30/2020 11:20 AM	<p>At lunch, production records must document that both daily and weekly minimum quantities for each component are offered. Other supporting documentation (including but not limited to the USDA Food Buying Guide, food labels, CN labels, manufacturers product formulation statements, standardized recipes, etc.) must be used to determine the creditable amount each menu item contributes to the meal pattern to assure that required minimum quantities are offered.</p> <p>An Insufficient amount of beans/peas were offered for the review week.</p> <p>Hummus was served twice during the review week. The amount on the production record was 2 ounces which credits 1/8 cup. 1/4 of a cup was served over the week. The meal pattern states that a 1/2 cup of the beans/peas subgroup must be offered over the week.</p> <p>This is an initial violation, however if any portion issues are found on the next review it would be a repeat violation.</p> <p>Explain in detail, how the finding will be corrected and the measures taken to ensure that it will not reoccur in the future. Indicate the date of implementation.</p>
