Important Notes:

***K-8 Meal Pattern**

The K-8 meal pattern is only for schools with grade configurations that prevent students from being separated into the required grade groups (K-5 and 6-8) at lunch. Examples include schools with grades K-8 or grades 5-8 where students from different grade groups eat together during the same lunch period. **If students can be served separately in their appropriate grade groups, schools must use the required meal patterns for grades K-5 and 6-8.**

****Weekly Grains and Meat/Meat Alternate Ranges**

THERE IS NO MAXIMUM GRAIN OR MEAT/MEAT ALTERNATE REQUIREMENT. Menus are not required to comply with the maximums indicated, but must meet the minimum requirements and stay within the calorie ranges. The weekly maximums provide a guide to help schools plan age-appropriate meals that meet the calorie, saturated fat and sodium requirements.

Meat/Meat Alternate:

- The serving size refers to the edible portion of cooked lean meat, poultry or fish served (i.e. cooked lean meat without bone)
- Meat/meat alternates must be served in a main dish or a main dish and one other food item
- A 1 ounce equivalent (oz. eq.) serving equals:
 - 1 oz. lean meat, poultry, fish or cheese
 - ¼ cup cooked beans/peas (legumes)
 - ½ large egg
 - 2 Tbsp. nut butters
 - 1 oz. nuts or seeds
 - ½ cup yogurt or soy yogurt
 - ¼ cup commercial tofu containing at least 5 grams protein

Fruit

- Fruit juice may only be offered to meet 50% of the weekly fruit component. Only 100% full strength pasteurized juice is allowed

- Fruit includes fresh, frozen, canned in light syrup, water or juice and dried.
- All fruits credit based on volume except dried fruit credits as twice the volume served (e.g. ¼ cup dried fruit credits as ½ cup fruit)
- Larger amounts of fruit may be offered if meals do not exceed the weekly limit for calories, saturated fat and sodium

Vegetables:

- All vegetables credit based on volume except raw leafy greens count as half the volume served (e.g. 1 cup equals ½ cup vegetable)
- Vegetable subgroup requirements are weekly, however, daily minimum vegetable requirements must be met. Refer to the *School Lunch Meal Pattern Subgroup Fact Sheet (#138)* for specific vegetables in each subgroup.
- Any vegetable subgroup may be offered as “additional” vegetables to meet the total weekly vegetable requirements
- Larger amounts of vegetables may be offered if meals do not exceed the weekly limit for calories, saturated fat and sodium

Grains:

- All grains must be whole grain-rich (WGR), i.e., the product contains at least 50 percent whole grains, any remaining grains are enriched and any non-creditable grains are less than 2 percent (¼ ounce equivalent) of the product formula. For more information, see *Whole Grain Resource for NSLP and SBP Manual*
- All grains must meet the serving sizes specified in the *WGR Ounce Equivalent Requirements for School Nutrition Programs Chart*
- Up to 2 oz. eq. per week may be a grain based dessert as long as menus meet all dietary specifications

Milk:

At least two varieties must be offered daily from the following choices only:

- Low fat (1%) unflavored
- Fat free unflavored or flavored

Nutrient Standards:

- Nutrient standards are daily amounts based on the average for a five day week
- The sodium limit (first target) applies through June 30, 2017.
