OF APPROVAL TO CONTINUE TO CONSTRUCT,)
OPERATE AND MAINTAIN A CABLE TELEVISION)
SYSTEM IN AND FOR THE TOWNSHIP OF TOMS)
RIVER, COUNTY OF OCEAN, STATE OF NEW)
JERSEY)

RENEWAL CERTIFICATE OF
APPROVAL

DOCKET NO. CE10040253

Stryker, Tams and Dill, Newark, New Jersey, by Dennis Linken, Esq., for the Petitioner

Township Clerk, Township of Toms River, New Jersey, by J. Mark Mutter, for the Township

BY THE BOARD:

On January 30, 1975, the Board granted Clear Television Cable Corporation a Certificate of Approval ("Certificate") in Docket No. 746C-6028 for the construction, operation and maintenance of a cable television system in the Township of Dover ("Dover"). After an internal reorganization, the Certificate was held by Clear Cablevision Inc. d/b/a Adelphia Cable Communications ("Adelphia"). On June 18, 1991, the Board issued a Renewal Certificate of Approval to Adelphia for Dover in Docket No. CE89121023. On May 15, 2000, the Board issued a Renewal Certificate of Approval to Adelphia for Dover in Docket No. CE00010029. Through a series of subsequent transfers, with the required Board approvals, the current holder of the Certificate is Comcast of New Jersey, LLC ("Petitioner"). On November 14, 2006, Dover formally changed its name to the Township of Toms River ("Township"). Although the Petitioner's above referenced Certificate expired on January 30, 2010, the Petitioner is authorized to continue to provide cable television service to the Township pursuant to N.J.S.A. 48:5A-25, pending disposition of proceedings regarding the renewal of its Certificate.

The Petitioner filed an application for the renewal of its municipal consent with the Township on or about April 30, 2009, pursuant to N.J.S.A. 48:5A-23 and N.J.A.C. 14:18-13.1 et seq. The Township, after public hearing, adopted an ordinance granting renewal municipal consent to the Petitioner on February 25, 2010. The Petitioner formally accepted the terms and conditions of the ordinance on March 15, 2010.

On April 6, 2010, pursuant to N.J.S.A. 48:5A-16, the Petitioner filed with the Board for a renewal of its Certificate for the Township. The Board has reviewed the application for municipal consent, the petition for a Renewal Certificate of Approval, and the municipal consent

ordinance. Based upon this review and the recommendation of the Office of Cable Television, the Board **HEREBY FINDS** the following:

1. The Petitioner possesses the requisite legal, character, financial and technical qualifications for the awarding of a Certificate of Approval. Further, these qualifications were previously reviewed by the Township in conjunction with the municipal consent process.
2. The design and technical specifications of the system shall ensure that the Petitioner provides safe, adequate and proper service.
3. The Petitioner has represented that all previously required construction within the franchise territory is complete.
4. The franchise period as stated in the ordinance is 15 years, with an automatic renewal provision for a term of ten years thereafter in conformance with N.J.S.A. 48:5A-19 and N.J.S.A. 48:5A-25. The Board finds these franchise periods reasonable.
5. The Township has reserved the right to review the Petitioner's performance with regard to the ordinance. In the event that the Township shall find that the Petitioner has not substantially complied with the material terms and conditions of the ordinance, the Township shall have the right to petition the Board for appropriate administrative action, pursuant to N.J.S.A. 48:5A-47; provided, however, that the Township shall first have given the Petitioner written notice of all alleged instances of non-compliance and an opportunity to cure same within 90 days of that notification.
6. The Petitioner shall provide service to any residence or business along any public right-of-way in the Primary Service Area as indicated on the map on file with the Office of Cable Television at no cost beyond standard and non-standard installation charges. For any extension of plant outside of the Primary Service Area, the Petitioner shall utilize the line extension policy ("LEP") attached to the Certificate (Appendix "I"). The minimum homes per mile ("HPM") figure is 35.
7. The Petitioner's rates shall be regulated and tariffs shall be filed for all services, in accordance with the rules and regulations of the Federal Communications Commission, the Board and the Office of Cable Television. The Petitioner shall maintain informational schedules of prices, terms and conditions for unregulated service, and promptly file any revisions thereto.
8. Pursuant to statutory requirements, the ordinance specifies a complaint officer to receive and act upon complaints filed by subscribers in the Township. In this case, it is the Office of Cable Television. All complaints shall be received and processed in accordance with any applicable rules.
9. The Petitioner shall maintain a local business office or agent for the purpose of receiving, investigating and resolving complaints. The Petitioner currently maintains a local office at 830 Highway 37 West, Toms River, New Jersey.
10. The franchise fee to be paid to the Township is specified to be 2% of the Petitioner's gross revenues from all recurring charges in the nature of subscription fees paid by subscribers for its cable television reception service in the Township or any additional amount required by N.J.S.A. 48:5A-30. Additional regulatory fees shall be

paid to the State in an amount not to exceed 2% of Petitioner's gross operating revenues derived from intrastate operations. The Board finds these fees to be reasonable.

11. The Petitioner shall provide public, educational, and governmental ("PEG") access services, technical support, training and facilities as described in the application and the ordinance. The Petitioner shall continue to provide a governmental access channel and an educational access channel. The Petitioner also provides a system-wide public access channel and a second educational access channel, which is currently run by Ocean County Community College.
12. Within twelve months of the date of issuance of this Certificate, the Petitioner shall provide to the Township a one time technology grant of \$175,000.00, to be utilized by the Township. Upon payment, the Petitioner shall submit proof to the Office of Cable Television of satisfaction of this provision.
13. The Petitioner shall provide installation and Total Preferred cable television service, free of charge, to one outlet to each police, fire, emergency management facility and public library in the municipality. In order to qualify for free installation, the facility must be located within 175 feet of active cable distribution plant. The Township shall pay for each additional outlet installed to any of the above facilities on a materials plus labor basis, however, the Petitioner shall waive monthly service charges for any such additional outlets.
14. The Petitioner shall provide installation and Total Preferred cable television service, on one outlet, free of charge, to each school in the Township, public and private, elementary, intermediate and secondary. In order to qualify for free installation, the school must be located within 175 feet of active cable distribution plant. Each additional outlet installed, if any, shall be paid for on a materials plus labor basis by the school requesting service. The Petitioner shall waive monthly service charges for any such additional outlets.
15. The Petitioner shall provide free Internet service via high-speed cable modem to one non-networked personal computer in any private or public school or library in the Township.

Based upon these findings, the Board **HEREBY CONCLUDES** that, pursuant to N.J.S.A. 48:5A-17(a) and N.J.S.A. 48:5A-28(c), the Petitioner has the municipal consent necessary to support the petition; that such consent and issuance thereof are in conformity with the requirements of N.J.S.A. 48:5A-1 et seq.; that the Petitioner has complied or is ready to comply with all applicable rules and regulations imposed by or pursuant to State and federal law as preconditions for engaging in the proposed cable television operations; that the Petitioner has sufficient financial and technical capacity, meets the legal, character and other qualifications necessary to construct, maintain and operate the necessary installations, lines and equipment; and that the Petitioner is capable of providing the proposed service in a safe, adequate and proper manner.

Therefore, the Petitioner is **HEREBY ISSUED** this Renewal Certificate of Approval as evidence of Petitioner's authority to construct and operate a cable television system within the entirety of the Township. It is noted that while the franchise was granted to the Petitioner for the entirety of the Township, the barrier beach portion of the Township is served by Cablevision of Monmouth, LLC through its Renewal Certificate of Approval in Docket No. CE02070404, issued by the Board on February 19, 2004.

This Certificate is subject to all applicable State and federal laws, the rules and regulations of the Office of Cable Television, and any such lawful terms, conditions and limitations as currently exist or may hereafter be attached to the exercise of the privileges granted herein. The Petitioner shall adhere to the operating standards set forth by the Federal Communications Commission's rules and regulations, 47 C.F.R. § 76.1 et seq., including, but not limited to, the technical standards 47 C.F.R. § 76.601 through § 76.630. Any modifications to the provisions thereof shall be incorporated into this Certificate.

Failure to comply with all applicable laws, rules, regulations and orders of the Board or the Office of Cable Television and/or the terms, conditions and limitations set forth herein may constitute sufficient grounds for the suspension or revocation of this Certificate.

This Renewal Certificate is issued on the representation that the statements contained in the Petitioner's applications are true, and the undertakings contained therein shall be adhered to and be enforceable unless specific waiver is granted by the Office of Cable Television pursuant to the authority contained in N.J.S.A. 48:5A-1 et seq.

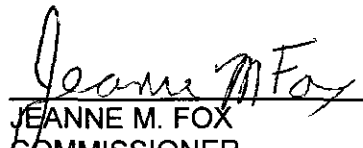

This Certificate shall expire on January 30, 2025.

APPENDIX "I"
Office of Cable Television
Line Extension Policy

Company	Comcast of New Jersey, LLC
Municipality	Township of Toms River

A cable operator is required to absorb the cost of extensions to the system in the same proportion that the extension is to the remainder of the system.

Actual subscribers served by the extension are required to absorb the remainder of the cost.

If new subscribers are added to the extension the cost is adjusted and those who previously paid receive an appropriate rebate.

1. # of homes in extension
mileage of extension = homes per mile (HPM)
of extension
2. HPM of extension
Minimum HPM that
company actually
constructs in the
system * = ratio of the density
of the extension to the
minimum density which the
company constructs in the
system ("A")
3. Total cost of building
the extension times "A" = company's share of
extension cost
4. Total cost of building
extension less company's
share of extension cost = total amount to be
recovered from
subscribers
5. Total amount to be
recovered from subs
Total subscribers in
extension = each subscriber's share

In any case, the company shall extend its plant along public rights of way to:

1. All residences and businesses within 150 aerial feet of the operator's existing plant at no cost beyond the normal installation rate.
2. All residences and businesses within 100 underground feet of the operator's plant at no cost beyond the normal installation rate.

* The minimum HPM that the company actually constructs in the system or municipality is the minimum number of homes which the company has historically constructed at its own cost. This is a function of the operator's break even point and its rate of return. Unbuilt systems will use the primary service area rather than construction.

The operator's installation policies shall apply to construction beyond the public right of way.

Detailed accounting and/or financial information to support the minimum HPM shall be supplied to the Office for its approval in such form as required. The minimum HPM shall be updated as appropriate.

When a request for service is received, and unless good cause is shown, cable companies shall:

1. Provide a written estimate within 30 days of such a request.
2. Begin construction within 60 days of receipt of any deposit monies from potential subscribers.
3. Complete construction within six months of receipt of any deposit monies from potential subscribers.
4. Inform each home passed along the extension of the potential costs for subscribers.

Subscribers who pay for an extension shall be entitled to rebates in the following manner:

1. If the company acquires new subscribers subsequent to the initial calculation of step 5 above, the formula will be adjusted and those who have previously paid for the extension will be entitled to an appropriate rebate. In no event shall the amount of the rebate exceed the subscriber's contribution.
2. The company shall keep accurate records of the cost of the extension, the amounts paid by subscribers and any appropriate adjustments.
3. The company shall notify subscribers in the extension of their rights and responsibilities concerning the extension.
4. Once an individual dwelling has paid its share of the extension cost future reconnections or installations shall be made at the company's standard rates.
5. After a period of five years from the installation of the first dwelling unit in the extension no further adjustments shall be made. Installations after five years shall be at the company's standard rate.
6. Once a subscriber is installed, that person shall not normally be entitled to a refund of any monies paid for the installations, except in accordance with the rebate procedure outlined in this policy.

Definitions

Primary Service Area

The Primary Service Area (PSA) can be an entire municipality but in many instances, the PSA is a limited area within a community outside of which a line extension policy may apply. The PSA is depicted by a franchise map and narrative, presented and recorded during the franchise proceedings. It normally remains a fixed geographic area throughout the life of the franchise.

Line Extension Survey

Potential subscribers residing outside the PSA who request service are entitled to an estimate of their share of the cost to secure service. When conducting a survey and estimating costs, a cable company should factor-in all potential subscribers who could practicably be included in the extension and give consideration to apparent residential construction in areas contiguous to the proposed extension.
