(SERVICE LIST ATTACHED)

BY THE BOARD:

On September 14, 2006, United Telephone Company of New Jersey, Inc., d/b/a Embarq (Petitioner or United) filed a petition with the Board of Public Utilities (Board) to introduce a new custom calling service feature, Call Forward Additional Paths.

Call Forward Additional Paths provides for additional call forwarding paths if the number originally called is busy. As such it functions much like the hunting function often associated with a PBX. Use of this feature enables the customer to handle additional call volume without the need to purchase additional lines. This feature is not available with call forward features that allow customers to remotely change the number the call is forwarded to. Call Forward Additional Paths is not available to residential customers. The maxim number of additional paths is 99.

The proposed rate for this service is \$3.00 per month per path.

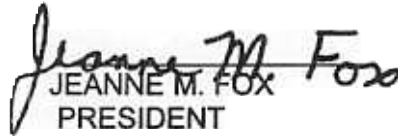

No objections have been raised by any party to the offering of this service.

Accordingly, the Board, having reviewed the terms and conditions of service, HEREBY FINDS that this service may increase competition and service options available to United's customers, and is in keeping with United's responsibility to continue to provide safe, adequate and proper service at just and reasonable rates. For this reason, the Board HEREBY APPROVES this petition.

DATED: 3/5/07
