RE: Verizon New Jersey, Docket No. TO12020155

Dear Board Members:

I would like to declare my support for the proposed stipulation between your Board Staff and Verizon as it relates to Opportunity New Jersey. The stipulation will help ensure continued deployment of advanced communications services. Access to these services will not only benefit New Jersey's businesses and nonprofits, but consumers of all ages as well. I'm sure you will agree that advanced communications technologies have revolutionized how all residents and businesses in the Garden State communicate and we must ensure that future innovations by this industry find a home here in New Jersey.

New Jersey has benefitted from the significant investments Verizon has made here to build a robust communications network. Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

Phil & Maria Coenraad

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,
Phil & Maria Coenraad

Verizon New Jersey, Docket No. TO12020155

Please do not let Verizon off the hook of its obligation to wire all of NJ with fiber optic cabling. Verizon has been getting tax breaks and funding for years without having to fulfill its side of a \$15 billion dollar agreement. They promised to help the people of NJ and are now spending our tax dollars on lobbyists to change the laws in their favor rather than have to follow the laws that they already agreed to. Please do not let them off the hook. The people of NJ do not deserve to be treated like this. Wireless is not a substitute for fiber optic cabling. It falls way short and charges the customer way more.

Dear Sirs,

As a resident of Burlington NJ I am appalled that this commission is even considering letting Verizon not be held to the agreement they made with the State of New Jersey in regards offering FIBER OPTIC connection to all residents of the state. That was the agreement that allowed for Verizon to directly surcharge New Jersey residents to the tune of \$15 BILLION Dollars!!!! Your commission is a disgrace to the residents of New Jersey. You are supposed to be a fair arbiter of business versus public. Taking up this proposal shows that all government is about anymore is CORPORATIONS!!!! Why is the commission even giving VERIZON this option? They were able to pocket upwards of \$15 Billion dollars since 1991 and what did the State get back for this? Yes Verizon will claim that they have put a lot of improvements into the system they run in New Jersey. Yes they have but these were improvements that they would have done anyway to keep up with competition both from wired and wireless providers. Did Comcast, T-Mobile, AT&T, Dish Network get to surcharge and rate increase everyone in New Jersey like Verizon did? When are our Representatives both elected and appointed going to make Corporations like Verizon accountable? Start NOW make VERIZON honor their original agreement they signed in 1991!

Thank You ,

Re: In the Matter of Verizon New Jersey, Inc. (Docket# TO12020155)

Dear Ms. Izzo:

Under the 1993 "Opportunity New Jersey" regulatory agreement, Verizon is obligated to upgrade New Jersey's copper wire network. To fund this expansion, which was supposed to be completed in 2010, Verizon was permitted to collect excess charges from their customers. These charges, which began more than 20 years ago, are still being collected today.

However, Verizon failed to meet its timeframe requirements to New Jersey residents under Opportunity New Jersey. As a result of Verizon's failures, on March 12, 2012, the New Jersey Board of Public Utilities initiated a legal action against Verizon. The Board and Verizon have now entered into a proposed settlement agreement which I believe is inadequate and not in the best interests of myself and other New Jersey consumers who have paid for a service that has not been fully delivered.

I oppose the Board's proposed settlement agreement and ask that the Board of Public Utilities hold Verizon to the requirements of Opportunity New Jersey by expanding broadband service to every customer in the state. The proposed settlement has the potential to cost me and other residents even more money than we have already paid over the last 21 years. The Board of Public Utilities should not allow Verizon to flagrantly disregard the stipulations which are the framework for the charges and tax breaks that the company has enjoyed.

I am asking the Board of Public Utilities to be my advocate and not only require Verizon to give me what I was originally promised under Opportunity New Jersey, but to also investigate where my dollars were spent.

Very Truly Yours,

Charles Fitzpatrick

Please do not let Verizon skate on their requirement to install fiber in my area. Providing Comcast with a monopoly is not fun for us consumers and we want a choice besides Comcast. Verizon has already reaped the benefits of this deal and they have no kept up their end of the deal. Either take the money back or force them to finish the job!!!

RE: Verizon FIOS in South Jersey

I have lived in Riverton, NJ for the past 12 years and have been waiting for Verizon to install FIOS in the area for at least half of that time. Now it seems that you are going to let Verizon off the hook for providing this service so that I and many people in New Jersey, especially South Jersey, will have no choice but to deal with the Comcast monopoly for broadband service and television. I don't know why should have I expected you to do anything to benefit consumers in this state, and I don't know why I am even bothering to write this since the decision has been made long ago. This is probably as big a waste of time as all of the time I spent over the years checking the Verizon website for any updates on when FIOS would be available in my area.

Thank you for giving me even more reason to hate New Jersey.

And thank you Verizon for nothing.

Hello,

I think it is a crime that Verizon has not been able to offer my town, Wenonah, NJ, FiOS. I have been waiting years for this service. Please make Verizon honor their agreement and bring FiOS to the entire state, not just the municipalities that are the most cost effective for them.

Thank you,
Joe Eimer
