RE: Verizon New Jersey, Docket No. TO12020155

Dear Board Members:

I would like to declare my support for the proposed stipulation between your Board Staff and Verizon as it relates to Opportunity New Jersey. The stipulation will help ensure continued deployment of advanced communications services. Access to these services will not only benefit New Jersey's businesses and nonprofits, but consumers of all ages as well. I'm sure you will agree that advanced communications technologies have revolutionized how all residents and businesses in the Garden State communicate and we must ensure that future innovations by this industry find a home here in New Jersey.

New Jersey has benefitted from the significant investments Verizon has made here to build a robust communications network. Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,  
sharon rockman

P.O. Box 350  
Trenton, NJ 08625-0350

Re: In the Matter of Verizon New Jersey, Inc. (Docket# TO12020155)

Dear Ms. Izzo:

Under the 1993 "Opportunity New Jersey" regulatory agreement, Verizon is obligated to upgrade New Jersey's copper wire network. To fund this expansion, which was supposed to be completed in 2010, Verizon was permitted to collect excess charges from their customers. These charges, which began more than 20 years ago, are still being collected today.

However, Verizon failed to meet its timeframe requirements to New Jersey residents under Opportunity New Jersey. As a result of Verizon's failures, on March 12, 2012, the New Jersey Board of Public Utilities initiated a legal action against Verizon. The Board and Verizon have now entered into a proposed settlement agreement which I believe is inadequate and not in the best interests of myself and other New Jersey consumers who have paid for a service that has not been fully delivered.

I oppose the Board's proposed settlement agreement and ask that the Board of Public Utilities hold Verizon to the requirements of Opportunity New Jersey by expanding broadband service to every customer in the state. The proposed settlement has the potential to cost me and other residents even more money than we have already paid over the last 21 years. The Board of Public Utilities should not allow Verizon to flagrantly disregard the stipulations which are the framework for the charges and tax breaks that the company has enjoyed.

I am asking the Board of Public Utilities to be my advocate and not only require Verizon to give me what I was originally promised under Opportunity New Jersey, but to also investigate where my dollars were spent.

Very Truly Yours,

44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Kathleen Eberle

Re: In the Matter of Verizon New Jersey, Inc. Docket# TO 12020155

Dear Secretary Izzo:

I want to alert you to an urgent matter pending before the New Jersey Board of Public Utilities. Pursuant to a 1993 law called Opportunity New Jersey, Verizon NJ was obligated to upgrade New Jersey's "copper wire" network by 2010. To fund the Opportunity New Jersey expansion, Verizon NJ was permitted to collect excess charges from their customers and received lucrative tax breaks from the State. These charges and tax breaks began in the 1990s and are still being collected today.

Verizon failed to meet its time frame requirements under the Opportunity New Jersey agreement to New Jersey residents. As a result of Verizon's failures, on March 12, 2012, the New Jersey Board of Public Utilities initiated a legal action against Verizon NJ. The Board and Verizon NJ have now entered into a proposed settlement agreement which I believe is inadequate and not in the best interests of myself and other New Jersey residents who have paid for this service that was not fully delivered.

I oppose the Board's proposed settlement agreement and demand that The Board of Public Utilities hold Verizon to the original Opportunity New Jersey agreement which requires Verizon to expand broadband services to every customer in the State. The proposed settlement has the potential of costing myself and other residents even more money than I have already paid for the last 21 years. The Board of Public Utilities should not allow Verizon to flagrantly disregard the stipulations which are the framework for the charges and tax breaks that Verizon has enjoyed for 21 years.

I, personally do not have Verizon FIOS available to me in my neighborhood and am tied to only one cable/internet provider - one which continually raises prices. There is NO COMPETITION because Verizon has not lived up to their promises.

I am asking the Board of Public Utilities to be my advocate and investigate where our dollars were spent and to require Verizon to give me what I was originally promised under Opportunity New Jersey agreement of 1993.

Sincerely,

Julie Puccia

P.O. Box 350 Trenton, NJ 08625-0350

Re: In the Matter of Verizon New Jersey, Inc. Docket# TO 12020155

Dear Secretary Izzo:

Having been a 16-year resident of New Jersey, living in the towns of Bloomfield, Wayne, and Mantoloking, I want to render my opinion in an urgent matter pending before the New Jersey Board of Public Utilities. Pursuant to a 1993 law called Opportunity New Jersey, Verizon NJ (New Jersey Bell) was obligated to upgrade New Jersey's "copper wire" network by 2010. To fund the Opportunity New Jersey expansion, Verizon NJ was permitted to collect excess charges from their customers and received lucrative tax breaks from the State. These charges and tax breaks began in the 1990s and are still being collected today.

I speak to my own interests, as well as the interests of the citizens of New Jersey, and I do not here represent the interests of Verizon. Verizon failed to meet its timeframe requirements under the Opportunity New Jersey agreement to New Jersey residents. As a result of Verizon's failures, on March 12, 2012, the New Jersey Board of Public Utilities initiated a legal action against Verizon NJ. The Board and Verizon NJ have now entered into a proposed settlement agreement which I believe is inadequate and not in the best interests of New Jersey residents who have paid for this service that was not fully delivered.

I oppose the Board's proposed settlement agreement and demand that The Board of Public Utilities hold Verizon to the original Opportunity New Jersey agreement which requires Verizon to expand broadband services to every customer in the State. The proposed settlement has the potential of costing New Jersey residents even more money than they have already paid for the last 21 years. The Board of Public Utilities should not allow Verizon to flagrantly disregard the stipulations that are the framework for the charges and tax breaks that Verizon has enjoyed for 21 years.

I am asking the Board of Public Utilities to investigate where New Jersey residents' dollars were spent and to require Verizon to give them what they were originally promised under the Opportunity New Jersey agreement of 1993.

Sincerely,

Bard Finlan

To the Members of the New Jersey Board of Public Utilities:

I am writing to express my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Thanks to Verizon's commitment to building an advanced communications network in New Jersey, consumers and businesses in our state have access to high-speed broadband. Access to advanced communications technologies is no longer a luxury; it's a necessity. Because Verizon has invested billions of dollars in our state over the last decade, consumers here can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. And, the future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and I am confident that you can continue to count on Verizon to work with the communities it serves to deliver the benefits of broadband services through this program.

I sincerely appreciate the work you, your Staff and Verizon have done to make New Jersey a broadband leader and hope you will move forward with the proposed stipulation without any reservations.

Sincerely,

Mike Weston

This is an outrage, my family has had verizon for a while now and when I moved out, I was informed by Verizon that I would have FiOS in my are within the year. It's been 2 yrs now and I have been placed on an "email notification list" to be contacted when it's coming available. This is obviously a lie, and Verizon needs to be held to the proposal. They need to finish the job they have been over paid to do. I will be contacting my senators.

**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Shreya Mehta

Verizon collected all that money from us and should be forced to hold to their original agreement - this watered down version is bogus! I want FIOS in my neighborhood, if nothing else than to have competition - my high speed is going up 10% every year and there is no lower cost alternative except over-priced, slow DSL.

Don't sell out NJ consumers!

**RE: Docket No. TO12020155 (Verizon New Jersey)**

To the Members of the New Jersey Board of Public Utilities:

I am writing to express my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Thanks to Verizon's commitment to building an advanced communications network in New Jersey, consumers and businesses in our state have access to high-speed broadband. Access to advanced communications technologies is no longer a luxury; it's a necessity. Because Verizon has invested billions of dollars in our state over the last decade, consumers here can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. And, the future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and I am confident that you can continue to count on Verizon to work with the communities it serves to deliver the benefits of broadband services through this program.

I sincerely appreciate the work you, your Staff and Verizon have done to make New Jersey a broadband leader and hope you will move forward with the proposed stipulation without any reservations.

Thank you for considering my views,

Thomas MacNabb  
Bernardsville, NJ

RE: Verizon New Jersey, Docket No. TO12020155

Dear Board Members:

I would like to declare my support for the proposed stipulation between your Board Staff and Verizon as it relates to Opportunity New Jersey. The stipulation will help ensure continued deployment of advanced communications services. Access to these services will not only benefit New Jersey's businesses and nonprofits, but consumers of all ages as well. I'm sure you will agree that advanced communications technologies have revolutionized how all residents and businesses in the Garden State communicate and we must ensure that future innovations by this industry find a home here in New Jersey.

New Jersey has benefitted from the significant investments Verizon has made here to build a robust communications network. Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

I support innovation in New Jersey.

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,  
Rebecca Strug

The stipulation will help ensure continued deployment of advanced communications services. Access to these services will not only benefit New Jersey's businesses and nonprofits, but consumers of all ages as well. I'm sure you will agree that advanced communications technologies have revolutionized how all residents and businesses in the Garden State communicate and we must ensure that future innovations by this industry find a home here in New Jersey.

New Jersey has benefitted from the significant investments Verizon has made here to build a robust communications network. Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

Steve Schuman

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,  
Steve Schuman

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Edoardo Ferrante  
78 E 23rd St

Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

I personally have FIOS and it is so much faster than our old cable company. We currently have 75/35 service which is great.

I know there are plenty of people in our area that can't get FIOS or any kind of really high speed Internet.

I think continued development of high speed Internet helps all members of New Jersey and should be supported.

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,  
Robert Ripper

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Michael Conniff

RE: Verizon New Jersey, Docket No. TO12020155

Dear Board Members:

I would like to declare my support for the proposed stipulation between your Board Staff and Verizon as it relates to Opportunity New Jersey. The stipulation will help ensure continued deployment of advanced communications services. Access to these services will not only benefit New Jersey's businesses and nonprofits, but consumers of all ages as well. I'm sure you will agree that advanced communications technologies have revolutionized how all residents and businesses in the Garden State communicate and we must ensure that future innovations by this industry find a home here in New Jersey.

New Jersey has benefitted from the significant investments Verizon has made here to build a robust communications network. Our state is now the most wired broadband state in the country and continued investment in broadband technologies will be critical to New Jersey's ongoing economic competitiveness.

Thank you for considering my views and for examining this issue so closely. I strongly urge you to approve the proposed stipulation without further delay.

Sincerely,  
Mike Strug

44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

John Hanser  
262 Church St  
Belford, NJ 07718-1581

Dear friends:

There are many reasons why Verizon should be required to fulfill its commitment to provide services to rural areas such as in Cumberland County. I trust this matter will get your full attention and that the decision will benefit all citizens of our county.

Yours truly,

Raymond H. Maier  
50 Vine Street

Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Arpine McQueen  
24 Camelot Ter  
Jackson, NJ 08527-4227

**Sent:** Thursday, March 20, 2014 10:32 AM  
**To:** Secretary, Board  
**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Maria Cascio  
286 Cedar Knolls Rd  
Cedar Knolls, NJ 07927-1603

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Frank Dipre

**Sent:** Thursday, March 20, 2014 10:24 AM  
**To:** Secretary, Board  
**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

**Sent:** Thursday, March 20, 2014 10:19 AM  
**To:** Secretary, Board  
**Subject:** Cumberland County Verizon Fios

I'm emailing you to voice my opposition to Verizons stipulation #12020155.

I live in an area of limited cell service and need to have phone and internet connections. Verizon needs to provide these basic services to everyone.

Please vote this stipulation down and force verizon to provide equal services to all!

Thank You!

Benjamin Westog

The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Wim Eisma

**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Joseph Post  
44 Gentry Dr  
Fair Haven, NJ 07704-3435

**From:** Rodney Thomas <rodney.thomas@verizon.com>  
**Sent:** Thursday, March 20, 2014 10:13 AM  
**To:** Secretary, Board  
**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Rodney Thomas  
25 Clifton Ave  
Newark, NJ 07104-1861

The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

John Genovese

**To:** Secretary, Board  
**Subject:** Verizon New Jersey, Docket No. TO12020155

Dear Ms. Kristi Izzo, Secretary:

New Jersey Board of Public Utilities  
C/O Ms. Kristi Izzo, Secretary  
44 South Clinton Avenue, 9th Floor  
Post Office Box 350  
Trenton, N.J. 08625-0350

To the Members of the New Jersey Board of Public Utilities:

As a New Jersey resident and Verizon employee, I am expressing my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and, under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Access to advanced communications technologies is no longer a luxury; it's a necessity. Thanks to Verizon, New Jersey consumers and businesses can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. The future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and you can count on Verizon to continue working with communities across the State to deliver the benefits of broadband services through this program.

Please approve the proposed stipulation without further delay. Thank you for taking the time to consider my view and for all you do for the people of New Jersey.

Sincerely,

Dana Kahney

**RE: Docket No. TO12020155 (Verizon New Jersey)**

To the Members of the New Jersey Board of Public Utilities:

I am writing to express my support for the proposed stipulation between BPU Staff and Verizon. The proposed stipulation is fair and balanced and under your guidance, will build on the success that the Board and Verizon have achieved in making the Garden State one of the most wired broadband states in the country.

Thanks to Verizon's commitment to building an advanced communications network in New Jersey, consumers and businesses in our state have access to high-speed broadband. Access to advanced communications technologies is no longer a luxury; it's a necessity. Because Verizon has invested billions of dollars in our state over the last decade, consumers here can harness the power of these technologies like never before. By leveraging new and innovative technologies like 4G LTE and fiber, Verizon has helped put the power of the Internet into more consumers' hands across the state and fulfilled its Opportunity New Jersey obligations. And, the future holds even more promise.

Few companies have made the kind of critical infrastructure investments in New Jersey that Verizon has made and I am confident that you can continue to count on Verizon to work with the communities it serves to deliver the benefits of broadband services through this program.

I sincerely appreciate the work you, your Staff and Verizon have done to make New Jersey a broadband leader and hope you will move forward with the proposed stipulation without any reservations.

Thank you for considering my views,

Alan Brahamsha  
Director –Dispatch Resource Centers  
Office -215-949-6275
