

**CASINO CONTROL COMMISSION - LICENSE DIVISION
EMPLOYMENT BY ATLANTIC CITY CASINO LICENSEES
BY ZIP CODE AND LICENSE CATEGORY**

Information regarding the "*Employment by Atlantic City Casino Licensees by Zip Code and License Category*" report is contained within the three worksheets of this Microsoft[®] Excel 2002 workbook. As can be seen from the sheet tabs, which appear on tabs at the bottom of the workbook window, the names of the worksheets are: General Information, Record Layout and Data.

While reviewing this information, please be aware if no casino employees live in a specific zip code, that zip code will not appear. In addition, only valid New Jersey zip codes appear on the report. The data in this report is as of **October 1, 2009**. Approximately **305** casino employees are not represented in these figures. There are several reasons why this may occur, they are: information is missing from the employment data that is transmitted to the Commission by the casino industry, the employment data contains errors; or, the person has a zip code that is not found in New Jersey.

Listed further is some background information on the "*Employment by Atlantic City Casino Licensees by Zip Code and License Category*" report. When reviewing the report, please be aware that the employment figures are broken down by individual zip codes for the counties located in New Jersey. Residential location is based solely on zip codes supplied to the Casino Control Commission. As you may know, zip codes are an imperfect means of determining city/county of residence. Zip codes correspond to the geographic location of the post office, and are not arranged by municipality or county boundaries.

From 1978 to 1995 all employees of a New Jersey casino licensee were required to be either licensed or registered by the Casino Control Commission. In 1995, the Casino Control Act was amended to remove the registration requirement for employees who did not perform gaming related duties or access the casino floor or restricted areas. Therefore, the workforce of a casino licensee is comprised of the following categories:

1. Casino Key Employees (license required)
2. Casino Employees (license required)
3. Casino Service Employees or CSE (registration required)
4. Non-Credentialed Employees (no license/registration required)

It is possible for persons who are employed in the gaming industry to be licensed to a standard higher than that required for the employed position. The figures presented in the report have been generated from the position in which people are employed, as opposed to the license that person holds. Let's take hypothetical examples of two employees:

1. Mr. Smith is licensed as a Casino Key Employee. Mr. Smith works at the hotel casino in a position that requires a Casino Employee license. On the report figures, Mr. Smith is represented in the Casino Employee license category.
2. Ms. Young is licensed as a Casino Employee. Ms. Young works at the hotel casino in a position that requires a Casino Service Employee (CSE) registration. On the report figures, Ms. Young is represented in the CSE license category.

If you have any questions regarding the "*Employment by Atlantic City Casino Licensees by Zip Code and License Category*" report, please feel free to call Ethel J. Tobin at (609) 441-3443.
