SOLICITATION OF PROFESSIONAL CONSULTANT SERVICES

PROJECT #: P1131-00

NEW MEADOWLANDS REBUILD BY DESIGN PROJECT
FEASIBILITY STUDY, EIS, DESIGN AND CONSTRUCTION ADMIN. SERVICES (TC-001)

STATE OF N.J., DIVISION OF PROPERTY MANAGEMENT & CONSTRUCTION

The New Jersey Division of Property Management & Construction (DPMC) is seeking to engage the services of a civil engineering consulting firm to provide a feasibility study, Environmental Impact Statement (EIS), design and construction administration services to the N.J. Department of Environmental Protection's (NJDEP) Rebuild by Design unit for the New Meadowlands Project. These consulting services include all work necessary to complete the required feasibility study, environmental impact statement (EIS), permitting, professional engineering design and construction administration services for this project to be funded by HUD CDBG-DR grants. It is the intent of the State to award 3-year term contracts to the selected consultant firms and to engage a primary and alternate consultant for the services required under this contract.

Only those firms having a DPMC "Unlimited" prequalification in the civil engineering discipline (discipline code P05) and hydrology discipline (P47) are eligible to compete for this term contract. Firms that are interested in the contract but not DPMC-prequalified must obtain DPMC prequalification in the civil engineering and hydrology disciplines before September 3, 2015. All joint venture firms must be separately prequalified by DPMC in civil engineering by September 3, 2015. Please visit the DPMC website at www.state.nj.us/treasury/dpmc to obtain a prequalification application (DPMC Form 48A) or contact the DPMC Prequalification Unit at (609) 633-3767.

A mandatory pre-proposal meeting will be held at **10:00 AM, Wednesday, August 5, 2015** in Prudence Hall, Thomas Edison State College, 101 W. State Street, Trenton, NJ. Firms that do not have a representative attend this mandatory meeting will be ineligible to compete for the term contract.

Consultant proposals (an original and five copies) from interested firms that have attended the mandatory pre-proposal meeting are due to DPMC by **NO LATER THAN 2:00 PM, Thursday, September 3, 2015**. Proposals will be accepted only from firms that have the requisite prequalification in civil engineering and hydrology and have attended the mandatory pre-proposal meeting.

The selection committee, comprised of members from the Departments of Treasury and NJDEP, will evaluate the proposals on the basis of the civil engineering firms' (and other proposed team members') experience on large scale projects of a similar scope, the organization and staffing capacity of the proposed project team; proposed approach to project; and the value and competitiveness of proposed hourly rates for the various levels of personnel. The firms must demonstrate in their proposals examples of successful projects, including but not limited to: feasibility studies, environmental impact statements, design development, permitting, bidding and construction administration services.

Interested firms that meet the prequalification criteria may obtain an RFP package and register for the mandatory pre-proposal meeting by contacting Catherine Douglass of DPMC at (609) 777-3094. Firms are limited to two (2) representatives per team for the pre-proposal meeting.

All competing firms are required to comply with the requirements of P.L. 1975, C. 127 (N.J.A.C. 17:27), regarding non-discrimination requirements in the performance of State contracts and P.L. 2005, C. 51 certification and disclosure of political contributions.

This ADDENDUM is issued for the purpose of clarifying and amending certain requirements of the Request for Proposal as noted hereinafter, and is hereby made part of and incorporated in the Consultant's Contract. The consultant is to consider these matters when preparing their technical and fee proposals for this contract. Unless specifically noted or specified hereinafter, all work shall comply with the applicable provisions of the Contract.

- **Reminder:** Technical proposals and fee rates (one original and five copies) are due **no later than 2:00 p.m., September 3, 2015.**
- **Clarification of Scope of Work, Section 7.1, Overview of Services Required By Consultant, Page 17, Bullet 11** - Delete the second sentence as follows, "Please note this is a deliverable as part of the feasibility study."
- The "Key Team Member Project Experience Data Sheet" and "Project Key Personnel" forms are attached. Copies of both forms are also posted to the DPMC website at www.state.nj.us/treasury/dpmc. Click on the "Project Advertisements" link on the left side of the home page and select "A/E Major Contract Advertisements". The forms are posted with the RFP information found under the project number.
- Question asked at Pre-Proposal Meeting regarding requirement under Section 5.2.4, page 13 that all personnel listed at or above Level 4 shall be designated as key personnel. **Replace "Level 4" with "Level 5." Responses to Consultant Questions (*Responses are in Italics*)

AECOM:

1. The RFP section 4.3.1 specifies that the project team must have current DPMC prequalification in Civil Engineer (05), Hydrology (47), Environmental Engineering (11), and Estimating/Cost Analysis (25). The RFP also states that, "Consultants shall also have in-house capabilities or Sub-Consultants pre-qualified with DPMC in all other Architectural, Engineering and Specialty Disciplines necessary to complete the project as described in this RFP." During the mandatory pre-proposal meeting on August 5, DPMC declined to make a determination on what other specific disciplines will be required. From the RFP language and discussion at the pre-proposal meeting, can we assume the following:

- Prequalification in the four disciplines, Civil Engineer (05), Hydrology (47), Environmental Engineering (11), and Estimating/Cost Analysis (25); is sufficient for a project team to complete the work in the RFP.

Answer: Yes, the consulting team must include a prime firm DPMC prequalified in Civil Engineering (with an “unlimited” dollar rating) and Hydrology. The “unlimited” dollar rating applies only to the Civil Engineering discipline. The prime firm must have both disciplines. In addition, the consulting team must include firms (either the prime firm or a sub-consultant) prequalified with the DPMC in Environmental Engineering and Estimating/Cost Analysis. These two disciplines are also not subject to the “unlimited” dollar rating. If the prime firm is prequalified in Environmental Engineering and/or Estimating/Cost Analysis, the prime firm may self-perform these services. If the consulting team does not meet these criteria, the proposal will be deemed non-responsive to the RFP and will not be considered.

- All sub-consultants must be prequalified in their specific area of expertise, if it's listed by the DPMC to participate in the project.

Answer: Yes, in addition to the requirements noted above. Subconsultants in other DPMC prequalified disciplines may be proposed by the consultant in their technical proposal or could be proposed and included in a future work order as determined to be necessary.

2. General Conditions to the Rebuild by Design New Meadowlands Project Term Contract TC-001, Page 10 Time of Completion clause states, “In the event of the failure of the Consultant to complete the work within the time specified solely due to their own cause of delay, the Consultant may be liable to the Owner for all direct and consequential losses or damages that the Owner may incur because of the delay...” The determination of consequential losses or damages is very subjective and can reach beyond the true losses or damages caused by delay of the project by the consultant. The subjectivity of this clause is significant enough to prevent acceptance of the contract terms and conditions and will result in fewer submissions and a less competitive environment for DPMC.

Please consider striking the “and consequential” from this clause so that it reads, “In the event of the failure of the Consultant to complete the work within the time specified solely due to their own cause of delay, the Consultant may be liable to the Owner for all direct ~~and consequential~~ losses or damages that the Owner may incur because of the delay...”.

Answer: The DPMC will agree to this revision to the General Conditions for TC-001. A revised General Conditions to the Rebuild by Design for the New Meadowlands project revised 8/15 is attached and will be posted to the DPMC website.

3. General Conditions to the Rebuild by Design New Meadowlands Project Term Contract TC-001, Page 12 states, “The injured Consultant or Contractor or Owner shall have a right of enforcement in court directly against the culpable party. In addition, the culpable party further agrees to indemnify and save harmless the Owner from all such claims and damages. Nothing contained in this paragraph shall be construed to relieve the culpable Consultant from any liability or damage sustained on account of its acts, errors or omissions.”

The broad indemnification in this clause will invalidate professional liability insurance held by many consultants. Please consider the following change in language (shown in italics/underlined) to ensure that the consultant and DPMC have the benefit of the consultant's professional liability insurance. “The injured Consultant or Contractor or Owner shall have a right of enforcement in court directly against the culpable party. In addition, the culpable party further agrees to defend, indemnify and save harmless the Owner from all such claims and damages to the extent caused by the Consultant's negligent acts, errors or

omissions. Nothing contained in this paragraph shall be construed to relieve the culpable Consultant from any liability or damage sustained on account of its negligent acts, errors or omissions.”

The broad indemnification provisions in this clause are significant enough to prevent acceptance of the contract terms and conditions and will result in fewer submissions and a less competitive environment for DPMC.

Answer: The DPMC will agree to revise the General Conditions TC-001 language in Section 11A on pages 12 and 13. This language is similar but slightly different than what has been proposed. A revised General Conditions to the Rebuild by Design for the New Meadowlands project revised 8/15 is attached and will be posted to the DPMC website.

4. Section 8.2 of the RFP states that, “The State may impose liquidated damages on the Consultant in the event its performance is not timely.” Within the RFP and at the pre-proposal meeting, the DPMC committed to making a good faith effort to estimate the actual damage that will ensue from a breach and/or delay by Consultant and to negotiate this on a work order to work order basis. Many work order schedules may be heavily dependent on performance by parties outside of the consultant’s control. Acquisition of access agreements, the scope and timing of stakeholder input, review of interim work products by NJDEP are just a few examples. Can we assume that the liquidated damages to be negotiated on a work order basis will make recognition of these schedule implications outside of the consultant’s control?

Answer: Yes, liquidated damages will apply only to delays caused by factors within the consultant’s control.

5. Page 6 of the RFP defines what is to be included in the loaded rates which includes among other things “... reproduction, printing...”. While we take no exception to having these items included in our rates for routine copying and printing there are several work products that we anticipate to be Work Order deliverables that have the potential for significant costs that are too ill-defined at this point in the project to quantify. For example printing of the EIS, how many copies, how large a document is expected, will it be one EIS for the entire project or just Pilot Area 1? On page 19 under Section 7.2 Potential Work Order Assignments item 5. Bid Services it states “The Consultant **may be required** to prepare and distribute the entire bid package. ... including printing, **copying, reproducing**, collating... **mailing**...”. Since the number of bids and the number of copies of each item per bid to be printed are not defined, and there is no estimate at this time of the size of each bid set, it is not truly possible to develop an estimate of these costs for a task that only “**may be required**”. Similarly at this time, for the 50%, 95% and 100% submittals, it’s impossible to estimate the size of the specification sets, permit packages, and design drawing sets, nor are the number of copies of each submittal defined. For these large deliverables, per Work Order, will the State consider using an allowance for the cost of these deliverables? If yes will we be required to obtain 3 vendor quotes?

Answer: Yes, the DPMC will eliminate reproduction and printing of deliverable documents from the definition of the loaded hourly rate and an allowance will be designated at the time of work order development for these reproduction costs. The consultant will be required to obtain three vendor quotes for these reproduction costs and use the selected vendor for these services.

6. Will the State pay permit fees directly to the regulatory agencies?

Answer: No, the consultant will be required to pay permit fees to regulatory agencies. These fees will not be part of the loaded hourly rates and would be included in the work order as an allowance and reimbursed to the consultant.

7. When will the forms missing from the RFP be provided?

Answer: As indicate above, the “Key Team Member Project Experience Data Sheet” and “Project Key Personnel” forms are attached. Copies of both forms in electronic format are also posted to the DPMC website at www.state.nj.us/treasury/dpmc. Click on the “Project Advertisements” link on the left side of the home page and select “A/E Major Contract Advertisements”. The forms are posted with the RFP information found under the project number.

8. Can you clarify the number of copies of the proposal that will be required to be submitted?

Answer: Consultants shall submit one original and five copies of the technical proposal and fee rates.

9. Can you clarify the Small, Minority, and Women Business Enterprise (SBE/MBE/WBE) requirements and/or goals for the project and whether you are following State or Federal Business Enterprise designations?

Answer: As per the requirements set forth in Section “H” of the Statement of Assurances document attached to the RFP, the consultant will be required to take affirmative steps to ensure contracting opportunities are provided to small business enterprises as designated by the State of New Jersey. Specific goals are not set or provided under this section, therefore a specific goal will not be set by the State for this term contract. However, since this contract will be funded using CDBG-DR grant funds, it must comply with HUD requirements. Therefore, the prime consultant will be required to demonstrate that affirmative steps are being taken to ensure contracting opportunities are provided to SBE firms and that the affirmative steps outlined in Section “H” (2 a-e) are being pursued. Consequently, the prime consultant should ensure that they demonstrate these affirmative steps by identifying subconsultants designated as SBEs in their firm’s technical proposal in response to the RFP and in their future work order proposals for subconsultants and subcontractors. Additionally, the prime firm may identify potential services in their technical proposal that will be considered for SBE firms. The prime firm’s affirmative steps will be reviewed at the technical proposal review phase by the selection committee as part of the evaluation criteria for the RFP and also at the time a specific work order proposal is evaluated.

10. Will selection for this contract as the prime or secondary contractor preclude you from being selected in the future CM/PM contract? If yes, and selected as the secondary firm, can the firm turn down that selection?

Answer: Selection of a firm as part of the primary or alternate consultant team will not preclude the firm from participation in the future CMF/PM contract (CMF-003) for the Rebuild by Design and Other Flood Mitigation Projects since this CMF contract will be awarded to multiple firms. However, assignments will be competitively solicited among the CMF firms/teams awarded a CMF 003 term contract and if an assignment is offered under the CMF contract for services involving the New Meadowlands project, the Consultant awarded a primary or alternate contract would not be permitted to participate in the competition for that specific project assignment. They would only be permitted to compete for project assignments not related to the New Meadowlands project. Additionally, the alternate firm

may request to be excluded from the Alternate Consultant designation at the time the intent to award is received, if they so choose.

Langan Engineering and Environmental Services, Inc.

1. Can professional consulting services such as urban planning, community outreach, socioeconomic analyses and real estate analyses, which do not appear to fall within any of the current DPMC Prequalification categories, be performed by specialty team members not pre-qualified by the DPMC?

Answer: Yes, the DPMC does not have prequalification disciplines for these specialty consultants.

2. Do sub-consultants/contractors like geotechnical drillers, testing laboratories and aerial photography, need to be listed in the proposals, or can they be hired through a competitive bidding process during work order implementation?

Answer: Subconsultants and subcontractors can be contracted during work order implementation through a competitive bidding process. They do not need to be listed in the consultant's technical proposal. SBE firms should also be considered for these contracting opportunities.

3. Is there a specific target percentage of work for Small Business Enterprises (SBEs) for this contract?

Answer: No, see response to Question 9 above on page 4.

4. Do all of the forms required under 5.2.5 and 5.2.6 need to be completed by all team members?

Answer: The administrative forms listed in Sections 5.2.5 and 5.2.6 of the RFP are required only of the prime firm.

CDM Smith

1. Please confirm that DPMC pre-qualification is not required for cost benefit analysis, community outreach, urban planning, grant support and economic redevelopment activities.

Answer: Confirmed, the DPMC does not have prequalification disciplines for these consultants, so prequalification will not be required.

2. Please confirm that the all-inclusive labor rates do not include costs for subcontracted items such as; land surveying, drilling, laboratory analysis, permits etc. We understand these activities will be bid out competitively once contract has been awarded.

Answer: Confirmed, these subcontracted services are not to be included in the labor rates and will be handled separately in each work order as necessary. These fees would be included in the work order as an allowance and reimbursed to the consultant.

3. Please confirm that the following sentence will be removed from Bullet 11 page 17 of the RFP:

- Please note that this (...engineering design, construction plans, drawings and specifications.....) is a deliverable as part of the feasibility study.

Answer: The sentence is deleted. Please see Bullet #2 above.

Tetra Tech

1. Is the EIS required for the entire New Meadowlands area or only Pilot Area #1?

Answer: The EIS will address Pilot Area #1 and adjacent areas or municipalities that are deemed necessary to include.

2. Is the consultant's proposed project manager required to have a NJ PE license at the time of the submittal or can the PE license be pending?

Answer: Yes, the project managers NJ PE license must be active at the time of the firm's proposal submittal.

3. Please clarify if an allowance for subcontractor services that cannot be predicted at this time (i.e. drilling test borings or lab analysis) would not be included in the personnel rates and that the assumed value of the allowance would not be included as one of the selection criteria.

Answer: Confirmed, these subcontracted services are not to be included in the labor rates and will be handled separately in each work order. These fees would be included in a future work order as an allowance and reimbursed to the consultant upon invoicing. No allowance value need be submitted with the firm's technical proposal.

4. Please clarify if legal access required to perform on-site activities (e.g., surveying, test borings) will be obtained for the successful bidder by others and that any associated fees are not required to be included in the personnel rates.

Answer: Legal access agreements will be executed by the NJDEP with assistance as necessary from the Attorney General's Office. However, the consultant may be required to provide technical consulting assistance in support of the State's efforts. Services provided for the consultant by specialty consultants (e.g. surveying, test borings) are not required to be included in the personnel rates. See response to Question 3 above also.

1.0 PURPOSE, INTENT AND GENERAL GUIDELINES

This Request for Proposal (RFP) is issued by the Department of the Treasury, Division of Property Management and Construction (DPMC) on behalf of the New Jersey Department of Environmental Protection, Office of Flood Hazard Risk Reduction Measures (NJDEP). The purpose of this RFP is to solicit proposals from DPMC-prequalified CIVIL ENGINEERING/HYDROLOGY firms to perform the tasks necessary to complete the feasibility study, environmental impact statement (EIS), professional engineering design and construction administration services for a Department of Housing and Urban Development (HUD)-selected Rebuild by Design (RBD) project concept for the State of New Jersey (State). The Consultant firm will be responsible for preparing the necessary studies, design and bid documents to be advertised for bid to DPMC classified construction contractors and providing permit applications, permit coordination, bidding support and construction administration services.

It is the intent of the State to award this term contract for a base period of three years to one Primary Consultant and one Alternate Consultant. The State shall have the unilateral option of extending this term contract for additional option periods per Section 6.7. The highest ranked firm will be designated as the Primary Consultant. The second highest ranked firm will be designated as the Alternate Consultant. It is the State's intent to engage a Primary Consultant for the following project:

Rebuild by Design – New Meadowlands Project “Protect, Connect, Grow”

It is anticipated that the first, highest ranked Primary Consultant will be engaged for the Rebuild by Design – New Meadowlands project (Protect, Connect, Grow) for Feasibility, Environmental Impact Statement, Design and Construction Administration services. In the event the Primary Consultant Contract is terminated, the Primary Consultant cannot proceed with the project for any reason, or DPMC determines that there is need for a second Consultant, then the Alternate Consultant will be engaged for work. It should be clearly understood that by submitting a bid proposal, a firm agrees to accept its position as Primary or Alternate Consultant in this contract.

The Consultant must be able to provide the variety of services needed to complete the work described herein, including having senior level and mid-level staff within the different disciplines that may be required to complete the NEPA process and to design projects with multiple components and varying scope of work needs, including but not limited to surveying, well drilling, sampling, and sample lab analysis. The Consultant may meet this requirement either through in-house staffing or through use of Sub-Consultants or by subcontracting through a competitive bid process.

Work under this contract will require the services of NJ Licensed Professional Engineers (PEs) and may require the services of a NJ Licensed Site Remediation Professionals (LSRPs).

The State/DPMC reserves the right to perform the services described in this RFP itself or to contract out separately for these services if deemed to be in the best interest of the State.

2.0 BACKGROUND

This project concept originated with RBD: a design competition sponsored by the HUD that utilized a collaborative process to find effective ways to protect people, homes, businesses and infrastructure, and to increase resilience in Sandy-affected regions as part of recovery from the storm. At the conclusion of the RBD competition, HUD selected two winning projects for the State, with designs that will help densely populated communities with repetitive flooding challenges. The State will receive \$150 million in Community Development Block Grant-Disaster Recovery (CDBG-DR) funds to implement the first phase of the flood mitigation project known as “New Meadowlands - Protect, Connect, Grow” (New Meadowlands) in “Pilot Area 1” (encompassing portions of Carlstadt, Little Ferry, Moonachie, South Hackensack and Teterboro). The successful proposal is available online at http://portal.hud.gov/hudportal/documents/huddoc?id=MIT_IP_Briefing_Book.pdf. The NJDEP has been designated to oversee this project on behalf of the State.

As noted in the Federal Register notice at 79 Fed. Reg. 62182 (Oct. 16, 2014), RBD addresses structural and environmental vulnerabilities that Superstorm Sandy exposed in communities throughout the region and develops fundable solutions to better protect residents from future disasters. Information about RBD can be found at:

<http://portal.hud.gov/hudportal/HUD?src=/sandyrebuilding/rebuildbydesign> and <http://www.rebuildbydesign.org>. More information regarding the history of the competition can be found in the Federal Register at 78 Fed. Reg. 45551 (July 29, 2013) and 78 Fed. Reg. 52560 (Aug. 23, 2013).

The purpose of the New Meadowlands project is to evaluate and build upon the successful proposal (http://portal.hud.gov/hudportal/documents/huddoc?id=MIT_IP_Briefing_Book.pdf) in order to determine the best, most cost effective way to implement that proposal based on the \$150 million award. The Consultant will be required to complete a feasibility study and necessary National Environmental Policy Act (NEPA) analysis, which will include drafting and finalizing an Environmental Impact Statement (EIS) for the New Meadowlands Project. The Consultant will also be required to provide design and construction administration services. As per the Federal Register notice, the Consultant may (but is not required to) subcontract with or seek input from the design team (or members of the design team) that participated in the development of the successful RBD proposal for the HUD-sponsored competition. The activities contemplated also include other technical and programmatic services, including assistance with reporting and grant compliance obligations and other "as directed" assistance.

As noted in the Federal Register notice, the Disaster Relief Appropriations Act (Pub. L. 113-2) requires that funds for this project be obligated not later than September 30, 2017. This obligation is tied to approval of a CDBG-DR Action Plan Amendment that only can be prepared following the completion of a Draft EIS. As a result, **the Consultant must deliver the completed Draft EIS no later than May 30, 2017, TIME BEING OF THE ESSENCE.**

The scope of this overall project is comprised of multiple tasks; the Consultant will be provided with a scope of work for each required task and will provide a Work Order proposal for review and approval prior to proceeding with any services. To the extent feasible, the Consultant may be required to complete tasks concurrently, in order to complete all tasks within the timeframe.

Additional information regarding contract scope of work requirements is included in Section 7.0 Scope of Work of this RFP.

Consultant Additional Requirements – The work under this contract will be funded and/or reimbursed in whole or in part with CDBG-DR funding from HUD. The Consultant must comply with all requirements applicable to CDBG-DR funded projects, as referenced in the Statement of Assurances annexed to this RFP. If other State or federal programs (e.g., FEMA) provide funding or reimbursement for services or work under this Contract, the Consultant may be directed to meet other federal and/or State program requirements in order for services/work to be funded or reimbursed by the respective funding agencies or Programs.

Following the completion of rate schedules for each of the three contract periods, the Consultant shall enter the "average rate" for each contract period at the bottom of the form (under "Level 1" rates). These average rates shall be derived by calculating the mathematical average of the rates for all seven Personnel Levels, for each contract period.

The "Term Contract Rate Schedule by Personnel Level" form must be signed in ink by an authorized person and submitted with the bid proposal. Typed, stamped or penciled signatures are not acceptable. For a proposal by a joint venture, the rate schedule sheet must be signed by an officer of each joint venture. 6.0 PROPOSAL EVALUATION AND CONTRACT AWARD

6.1 GENERAL CRITERIA

Proposals will be evaluated by an Evaluation Committee convened by the DPMC Contracting Officer, comprised of representatives from the NJDEP and the Department of the Treasury.

Consistent with N.J.S.A. 52:34-6, N.J.S.A. 52:34-9.7 and N.J.S.A. 52:34-12, award shall be made with reasonable promptness by written notice to the responsible Consultant(s) whose proposals, conforming to the project solicitation, will be most advantageous to the State, price, and other factors considered. All proposals may be rejected when the Contracting Officer of the DPMC determines that it is in the public interest so to do.

Following receipt, proposals will be evaluated in accordance with the following procedure:

1. First, proposals will be checked for compliance with all mandatory requirements in the RFP. Those proposals that are automatically rejected for failure to comply with the mandatory requirements will not be further reviewed.
2. Second, the “Term Contract Rate Schedule by Personnel Level” of each proposal will be checked to ensure the “average rate” for each contract period is correct. Any mathematical errors will be corrected in accordance with Section 6.2.
3. Third, after the proposals are reviewed, one, some or all of the consultants may be asked to clarify certain aspects of their proposals. A request for clarification may be made in order to resolve minor ambiguities, informalities or clerical errors. Clarifications cannot correct any deficiencies or material omissions or revise or modify a proposal, except to the extent that correction of apparent clerical mistakes results in a modification. The Consultant may be required to give an oral presentation to the State concerning its proposal or to provide written responses to questions regarding its proposal.
4. Fourth, the Evaluation Committee will evaluate and score the proposals on their technical merit and review of proposed hourly rates, based upon the criteria and relative weights pre-determined on the “Evaluation Criteria” form. This qualitative technical evaluation, along with the acceptability of the rate schedule, will be the primary determining factors of the firms whose proposals are most advantageous to the State, and of the subsequent selection of Consultants to be awarded a term Contract. Interviews of the top-ranked firms may be required prior to a final determination by the Evaluation Committee.

6.1.1. EVALUATION CRITERIA

The proposals of those Consultants who have been determined to be responsive and responsible will be ranked according to the technical quality of their proposal and acceptability of proposed hourly rates. The qualitative factors to be used in this evaluation are as follows:

1. The relative strengths of the Consultant’s proposed project organizational plan and personnel/staffing capability including Sub-Consultants included in the proposal (25%).

2. The relative strengths of the Consultant's and Sub-consultant's proposed project personnel and their qualifications and experience on large scale projects/contracts of a similar nature (35%).
3. The Consultant's proposed approach to completing all required activities and tasks on Rebuild by Design project Assignments as described in this RFP. (25%).
4. The value and competitiveness of the Consultant's proposed hourly rates per the "Term Contract Rate Schedule by Personnel Level," both for the seven levels of personnel type/disciplines listed, and for the average rates derived from those disciplines (15%).

Consistent with N.J.S.A. 52:34-6, N.J.S.A. 52:34- 9.7 and N.J.S.A. 52:34-12, and this RFP, the State will award term contracts to the Consultants whose proposals are determined to be the most advantageous value to the State, price and other factors considered. Consultants are advised that a contract will not necessarily be issued strictly to the lowest priced Consultant who has met the minimum established requirements. The final ranking of the firms by the Committee will determine the order of the awarded contracts. The top-ranked Consultant will be ranked first and will be designated at the "Primary" Consultant and the second ranked Consultant will be designated as the "Alternate" Consultant.

6.2 AVERAGE RATE DISCREPANCIES

In evaluating bids, discrepancies between the indicated average rates for any contract period and the correct average thereof will be resolved in favor of the correct average of the submitted rates for the contract period.

6.3 RIGHT OF FINAL PROPOSAL ACCEPTANCE

The DPMC reserves the right to reject all proposals, or to award contracts to those firms deemed to be in the best interest of the State. The CO shall have authority to award contracts to the Consultants that best meet the contract specifications and proposal conditions, and are determined to have offered the most advantageous bid proposals to the State, price and other factors considered.

6.4 NOTICE OF INTENT TO AWARD

The DPMC will notify all competing Consultants in writing of the CO's intent to award term contracts. If a Consultant firm determines that it will seek a hearing or file a protest regarding the award, it must submit a letter setting forth its specific grounds for protesting the intended awards or rejection within five (5) days of issuance of the intent to award letter. The CO will review the request in accordance with N.J.A.C.17:19-5.2.

6.5 JOINT VENTURE REQUIREMENTS

In the event that the award-winning proposal is from a Joint Venture, a copy of the proposed joint venture agreement between the venture partners shall be submitted for review and approval by the State. This agreement shall address issues such as: 1) the management structure of the Joint Venture and the duties and authorities of the singular program manager who shall interface with the State on all contractual and technical matters; 2) the organization functioning to control all financial matters in interaction with the State and flow of payments between the Joint Venture partners under the Contract; and 3) the partner/corporate function assigned the lead position for quality control under the Contract.

6.6 CHAPTER 51 REQUIREMENTS

In accordance with P.L. 2005, Chapter 51 (formerly Executive Order 134), all Consultants with which the State intends to contract must complete and submit the "Contractor Certification and Disclosure of Political Contributions" form (Form DPPc51, copy and instructions attached). All firms selected for this Contract must be in compliance with Chapter 51 requirements, and must agree to adhere to all continuing obligations contained in this law regarding contributions and disclosures as required. For more information on Public Law 2005, Chapter 51, please visit the following website:

Services shall be provided under this Contract from the date of award until the completion of any or all options exercised under this Contract.

6.6.1. BASE PERIOD

The base period of performance of this Contract shall be three years commencing on the date of the contract award, during which time Work Orders may be issued by the State. Actual performance of Work Orders may extend beyond this Contract period until completion of all services are provided under the approved Work Orders, and the terms of this Contract shall extend until completion of the service(s).

6.6.2. RENEWAL OPTIONS

The State shall have the unilateral option of extending this Contract for one additional period of two (2) years, and shall have one last unilateral extension option of one (1) year with the same terms and conditions as are contained in this Contract at the time said option(s), if any, are exercised.

The option period shall extend the performance period of the Contract commencing on the expiration of the preceding base contract performance period. The State may exercise an option to extend by issuing a written notification (mailed or otherwise furnished) to the Consultant(s) at least 30 calendar days prior to the expiration date of the preceding base or option performance period. In the event the services of the Consultant are still required past the last renewal period, the State and Consultant may enter into negotiations to extend the contract period and rates, in order to complete the required project work.

J. EQUAL EMPLOYMENT OPPORTUNITY

1. All federally assisted construction contracts must include the equal opportunity clause provided under 41 CFR §60-1.4(b). Federally assisted construction contracts include any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the federal government. Construction work is defined as “the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the

supervision, inspection, and other onsite functions incidental to the actual construction.” 41 CFR 60-1.3.

2. Pursuant to 41 CFR §60-1.4(b), the following language shall be included in all federally assisted construction contracts and subcontracts:

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to

section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

TC 001 TERM CONTRACT RATE SCHEDULE - INSTRUCTIONS AND GUIDELINES

SERVICES AND PRICES/COSTS

A. Contract Hourly Rates

- (a) The DPMC has specified certain Personnel Levels/Labor Categories for contract performance, (see attached Personnel Type/Level Description/Examples sheet). These Personnel Levels are indicated on the Term Contract Rate Schedule for the base years and option years at the end of Section B. The Consultant is to propose hourly rates for each Personnel Level/Labor Category in the Rate Schedules. The hourly rates for each Personnel Level will be used for pricing task orders in each of the respective performance periods.
- (b) The hourly rates proposed by the Consultant and accepted at contract award for each respective performance period, i.e., the base year or option years, are to be fixed for the duration of that period. Hourly rates are to be listed in whole numbers, no cents please.
- (c) In developing the required all inclusive, “loaded” hourly rates for the various Personnel Levels, the Consultant should include all costs required for each personnel type, including, all direct labor costs, overhead costs, fringe benefits, supplies, equipment, communication services, administrative costs, insurance, in-State travel, meals and lodging, professional fees and profit associated with this contract as defined in Section 5.2.4 of the RFP. Price increases will not be granted for any alleged omissions or miscalculations of contract pricing.
- (d) The hourly rates listed by the Consultant and accepted at contract award will be the rates that will be used as the basis for pricing task orders issued under this contract. The base year and each option year period are to be separately priced based on the Term Contract Rate Schedule provided by the Consultant.

B. Additional Instructions

- (a) Firms are cautioned that any proposal/offer may be rejected as non-responsive if it is materially unbalanced as to prices for the base and/or the optional contract periods. An offer is unbalanced when it is based on prices/rates that are significantly understated for some service levels and prices/rates that are significantly overstated for other service levels.
- (b) Firms must propose prices/rates for all Personnel Levels/Labor Categories in order to be considered for award. Consultants may not use pricing alternatives, which differ from these instructions.
- (c) The Consultant shall maintain Professional Liability Insurance with a \$2,000,000 minimum limit and a \$100,000 maximum deductible for this Term Contract. See Consultant Agreement, Section D, Professional Liability and General Condition to Term Contract TC-001, Section 27 for additional insurance information and requirements.

1. ANTI-COLLUSION CLAUSE

Pursuant to *N.J.S.A. 52:34-15*, the Consultant, by signing the Proposal, does hereby warrant and represent that this agreement has not been solicited, secured, or prepared directly or indirectly, in a manner contrary to the laws of the State of New Jersey and that said laws have not been violated and shall not be violated as they relate to the procurement or the performance of the agreement by any conduct, including the paying or giving of any fee, commission, compensation, gift, gratuity or consideration of any kind directly or indirectly, to any state employee, officer or official.

2. CONFLICT OF INTEREST

The Consultant shall notify to the Owner in writing of any interest in, or association with, any Contractor, subcontractor, material supplier, Consultant or manufacturer or other party which has any interest in this Project as soon as the potential for such interest is reasonably foreseeable by the Consultant.

3. OFFER OF GRATUITIES

N.J.S.A. 52:34-19 makes it a misdemeanor to offer, pay or give any fee, commission, compensation, gift or gratuity to any person employed by the Owner. It is the policy of the Owner to treat the offer of any gift or gratuity by any company, its officers or employees to any person employed by the State of New Jersey as grounds for debarment or suspension of such company from submitting proposals on and providing work or materials on State contracts.

a. No vendor shall pay, offer to pay, or agree to pay, either directly or indirectly, any fee, commission, compensation, gift, gratuity, or other thing of value of any kind to any State officer or employee or special State officer or employee, as defined by *N.J.S.A. 52:13D-13b.* and *e.*, in the Department of the Treasury or any other agency with which such vendor transacts or offers or proposes to transact business, or to any member of the immediate family, as defined by *N.J.S.A. 52:13D-13i.*, of any such officer or employee, or any partnership, firm, or corporation with which they are employed or associated, or in which such officer or employee has an interest within the meaning of *N.J.S.A. 52:13D-13g.*

b. The solicitation of any fee, commission, compensation, gift, gratuity or other thing of value by any State officer or employee or special State officer or employee from any State vendor shall be reported in writing forthwith by the vendor to the Attorney General and the Executive Commission on Ethical Standards.

c. No vendor may, directly or indirectly, undertake any private business, commercial or entrepreneurial relationship with, whether or not pursuant to employment, contract or other agreement, express or implied, or sell any interest in such vendor to, any State officer or employee or special State officer or employee having any duties or responsibilities in connection with the purchase, acquisition or sale of any property or services by or to any State agency or any instrumentality thereof, or with any person, firm or entity with which he is employed or associated or in which he has an interest within the meaning of *N.J.S.A. 52:13D-13g.* Any relationships subject to this provision shall be reported in writing forthwith to the Executive Commission on Ethical Standards, which may grant a waiver of this restriction upon application of the State officer or employee or special State officer or employee upon a finding that the present or proposed relationship does not present the potential, actuality or appearance of a conflict of interest.

d. No vendor shall influence, or attempt to influence or cause to be influenced, any State officer or employee or special State officer or employee in his official capacity in any manner which might tend to impair the objectivity or independence of judgment of said officer or employee.

e. No vendor shall cause or influence, or attempt to cause or influence, any State officer or employee or special State officer or employee to use, or attempt to use, his official position to secure unwarranted privileges or advantages for the vendor or any other person.

f. The provisions cited above in paragraph 3a. through 3e. shall not be construed to prohibit a State officer or employee or special State officer or employee from receiving gifts from or contracting with vendors under the same terms and conditions as are offered or made available to members of the general public subject to any guidelines the Executive Commission on Ethical Standards may promulgate under paragraph 3c.

5. NON-DISCRIMINATION

During the performance of this contract, the contractor agrees to comply with the following Mandatory Equal Employment Opportunity Language (N.J.S.A. 10:5-31 et seq. (P.L. 1975, C. 127)):

For Goods, Professional Service and General Service Contracts: The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for

employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union of the contractor's commitments under this chapter and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to make good faith efforts to meet targeted county employment goals established in accordance with N.J.A.C. 17:27-5.2.

The contractor or subcontractor agrees to inform in writing its appropriate recruitment agencies including, but not limited to, employment agencies, placement bureaus, colleges, universities, and labor unions, that it does not discriminate on the basis of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

In conforming with the targeted employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor shall submit to the public agency, after notification of award but prior to execution of a goods and services contract, one of the following three documents:

- 1) Letter of Federal Affirmative Action Plan Approval
- 2) Certificate of Employee Information Report
- 3) Employee Information Report Form AA302 (electronically provided by the Division and distributed to the public agency through the Division's website at ww.state.nj.us/treasury/contract_compliance).

The contractor and its subcontractors shall furnish such reports or other documents to the Division of Purchase & Property, CCAU, EEO Monitoring Program as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Purchase & Property, CCAU, EEO Monitoring Program for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code at N.J.A.C. 17:27.

For Construction Contracts: The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be

limited to the following: employment, up- grading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27- 7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27- 7.2. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5- 31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

(1) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

(i) The contractor or subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

(iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by

custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA 201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Division and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on- the- job and/or off- the- job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

5A. Anti-Discrimination Provisions (NJSA 10:2-1)

Every contract for or on behalf of the State or any county or municipality or other political subdivision of the State, or any agency of or authority created by any of the foregoing, for the construction, alteration or repair of any public building or public work or for the acquisition of materials, equipment, supplies or services shall contain provisions by which the contractor agrees that:

- a. In the hiring of persons for the performance of work under this contract or any subcontract hereunder, or for the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under this contract, no contractor, nor any person acting on behalf of such contractor or subcontractor, shall, by reason of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex, discriminate against any person who is qualified and available to perform the work to which the employment relates;
- b. No contractor, subcontractor, nor any person on his behalf shall, in any manner, discriminate against or intimidate any employee engaged in the performance of work under this contract or any subcontract hereunder, or engaged in the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under such contract, on account of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex;

- c. There may be deducted from the amount payable to the contractor by the contracting public agency, under this contract, a penalty of \$ 50.00 for each person for each calendar day during which such person is discriminated against or intimidated in violation of the provisions of the contract; and
- d. This contract may be canceled or terminated by the contracting public agency, and all money due or to become due hereunder may be forfeited, for any violation of this section of the contract occurring after notice to the contractor from the contracting public agency of any prior violation of this section of the contract.

6. TIME OF COMPLETION

In the event of the failure of the Consultant to complete the work within the time specified solely due to their own cause of delay, the Consultant may be liable to the Owner for all direct losses or damages that the Owner may incur because of the delay; such as, but not limited to, added costs of the project and the cost of furnishing temporary services and facilities, if any.

Any such sums for which the Consultant is liable may be deducted by the Owner from any monies due or to become due to the Consultant.

7. FEES AND INVOICING

The Consultant's fee for tasks performed during the design phase and for all technical and administrative tasks during the construction and close-out phases, such as the review of Contractor submittals, preparation and distribution of minutes, on-site observation during construction, etc., will be a lump sum amount unless stated otherwise. The Consultant's lump sum fee shall be further broken down by phase depending on the contract. In the event that any of the project phases or services are extended for reasons other than the fault of the Consultant, then the Consultant may submit an amendment for additional costs associated with the extension or additional services. Such costs shall be based on direct costs. The Consultant will not be entitled to an automatic extension of the monthly rate for that phase or any subsequent phase.

Invoices for materials and labor expenses shall be submitted on an Invoice Form provided by the Owner, accompanied by appropriate backup as required by the Owner. Copies of all bills for reimbursables allowed by contract must be attached to the invoice form.

Invoices during the design phase may be submitted monthly to the Owner or when work is completed, reviewed and accepted by the Owner. - c. In the event that an invoice is found to be deficient and returned to the Consultant, the “billing date” shall be calculated from the date that a corrected invoice is received.
- d. Payment shall be considered to have been made on the date on which a check for such payment is dated.

8.4.1 Disputes regarding nonpayment of a Consultant’s invoice under this Article 8 may be submitted to non-binding Alternative Dispute Resolution (ADR) upon mutual agreement of the Owner and the Consultant. In such event, the Owner and the Consultant shall share equally the fees and expenses of the selected mediator, arbitrator, umpire or other ADR neutral. Provided, however, that nothing herein shall be construed, in whole or in part, as a waiver, release or modification of the provisions of the New Jersey Contractual Act, N.J.S.A. 59:13-1 et seq. as it governs claims against the State.

8.4.2 A Consultant not paid sums due under an approved invoice within thirty (30) days of the billing date may suspend performance without penalty for breach of contract, but only after providing the Owner with seven (7) days written notice of non-payment, and only in the event that the Owner fails to furnish the Consultant, within that seven

No such extension shall be made prior to the beginning of such delay, and a written request for additional time shall be filed with the Owner.

11. CONSULTANT'S CLAIMS FOR DAMAGES

13. DISPUTES

The Consultant may at any time request a Contracting Officer's Conference of any claim, dispute or matter in question arising out of or relating to this AGREEMENT. However, it shall not be a condition precedent to the Consultant's right to file a legal action upon such claim, dispute or matter that it be first considered and addressed at a Contracting Officer's Conference.

Disputes regarding whether a party has failed to make payments required under the New Jersey Prompt Payment Act, N.J.S.A. 2A:30A-1, et seq., shall be governed by the provisions of paragraph 8.4.1 of these General Conditions.

An AGREEMENT modification shall be executed between the Owner and the Consultant providing an adjustment to the Consultant's compensation which the Owner and Consultant deem proper after reviewing submissions by the Consultant relating to increased costs which the Consultant has actually incurred as a direct result of the suspension.

None of the above provisions shall negate any other terms of this AGREEMENT.

When such a suspension is determined by the Owner to be the fault of the Consultant, the Owner may, at its option, suspend all payments to the Consultant. Payment may be reinstated by the Owner upon completion of the Work in accordance with the other provisions of the AGREEMENT. There shall be no upward adjustment in direct or indirect costs or in any other costs. In such case an appropriate written notice shall be issued deducting from the payments then or thereafter due the Consultant the cost of correcting such failure including compensation

for other Consultant or Contractor additional services made necessary by such failure. If the payments then or thereafter due the Consultant are not sufficient to cover such amount, the Consultant shall pay the difference to the Owner. Any action by the Owner under this provision shall be without prejudice to the Owner's rights under this AGREEMENT and shall not operate to release the Consultant from any of its obligations under the AGREEMENT.

A.3 CONSTRUCTION ADMINISTRATION PHASE

- A.3.1 If a project scope of work assignment includes construction administration services, the following shall apply:

- A.3.2 The Consultant shall visit the site at scheduled intervals appropriate to the stage of construction of the Project to become generally familiar with the quality and progress of the construction work that has been completed and to determine, in general, if the construction work is being performed in a manner indicating that, when completed, the work will be in accordance with the contract documents. The Consultant shall not be required to make continuous and/or exhaustive on-site inspections to check the quality or the quantity of the construction work. On the basis of the on-site observations, the Consultant shall keep the Owner informed of the progress and quality of the construction work in order to endeavor to guard the Owner against defects and deficiencies in the work.
- A.3.3 At all times the Consultant shall have access to the work to determine if it is proceeding in accordance with the Contract documents. However, neither the Consultant nor its sub-consultants shall have control over or be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the work; these are solely the Construction Contractor's obligations under the contracts for construction. The Consultant shall not be responsible for Construction Contractor's schedules or failure to carry out the work in accordance with the contract documents. Except as otherwise provided in this AGREEMENT, the Consultant shall not have control over or charge of acts and omissions of the contractor's, construction subcontractors, or their agents or employees, or any other persons performing the work.
- A.3.4 Based on the Consultant's observations and evaluations of the construction contractor's Applications for Payment, the Consultant shall certify the amounts due to the construction contractor(s).
- The Consultant's certification of payment shall constitute a representation to the Owner, based on the Consultant's observations at the project site, and the data contained in the construction contractor's Applications for Payment, that the construction contractor's work on the project has progressed to the point indicated and the quality of the construction work is generally in accordance with the contract documents. The former representations are subject to an evaluation of the construction work for conformance with the contract documents upon substantial completion, to results of subsequent tests prior to completion and specific qualifications expressed by the Consultant. The issuance of Certificate of Payment shall further constitute a representation that the construction contractor's subcontractors for the project are entitled to payment in the amount certified. Issuance of Certificates of Payments are not a representation that the Consultant has (1) made continuous and exhaustive inspections to check the quality or quantity of work, (2) reviewed the construction contractor's construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from construction contractor's subcontractors and material suppliers and other data requested by the Owner to substantiate construction contractor's right to payment or (4) ascertained how and for what purpose the construction contractor's has used money previously paid on account of contract sum. These are the construction contractor's responsibilities under the contracts for construction.
- A.3.5 Within ten (10) working days of the date that it receives a change order request from the Owner, the Consultant shall evaluate and make specific written recommendations, including verification of costs, on all contractor change orders that relate to the execution and progress of the work and on all matters or questions related thereto and, upon notification, shall attend and actively participate at administrative hearings or settlement conferences in connection with such change orders. If the nature of the work described in the change order is complex, the Owner representative may grant the Consultant additional time, if requested in writing by the Consultant, to evaluate the change order.
- A.3.6 The Consultant shall have the authority to reject construction work on a project that does not conform to the contract documents. In such cases the Consultant will advise the Owner of the rejection. Whenever the Consultant considers it necessary or advisable for implementation of the

intent of the contract documents, the Consultant will have the authority to require additional inspection or testing of the work in accordance with the contract documents, whether or not such work is fabricated, installed or completed. However, neither the authority of the Consultant nor a decision made in good faith either to exercise or not to exercise such authority shall create a duty or responsibility of or by the Consultant to the construction contractor's construction subcontractors, material and equipment suppliers, their agents or employees or other persons performing portions of the construction work on the project.

A.3.7 The Consultant shall review and approve or take other appropriate action upon the construction contractor's submittals such as shop drawings, product data and samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the contract documents. The Consultant's action shall be taken with such reasonable promptness as to cause no delay on the construction work on the project, while allowing for sufficient time in the Consultant's professional judgment for adequate review. Since it is the construction contractor's responsibility to do so under the contracts for construction, review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities or for substantiating instructions for installation and performance of equipment or systems designed by the construction contractor's. Unless otherwise provided in this AGREEMENT, these remain the responsibility of the construction contractor's to the extent required by the contract documents. The Consultant's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Consultant, of construction means, manners, methods, techniques, sequences or procedures. The consultant's approval of specific items shall not indicate approval of an assembly of which the item is component. When professional certification of performance characteristics of materials, systems or equipment is required by the contract documents, the Consultant shall be entitled to rely upon such certifications to establish that the materials, systems, or equipment will meet performance criteria required by the contract documents.

A.3.8 The Consultant's responsibilities for Construction Administration commences with the award of the construction contract by the Owner and terminates at the earlier of the issuance to the Contractor of a Final Certificate of Payment or sixty (60) working days after the date of substantial completion of the construction work.
