STATE OF NEW JERSEY  
Department of Labor and Workforce Development  
Division of Wage and Hour Compliance - Public Contracts Section  
PO Box 389  
Trenton, NJ 08625-0389

### PREVAILING WAGE RATE DETERMINATION

The New Jersey Prevailing Wage Act (N.J.S.A. 34:11-56.25 et seq.) requires that the Department of Labor and Workforce Development establish and enforce a prevailing wage level for workers engaged in public works in order to safeguard their efficiency and general well being and to protect them as well as their employers from the effects of serious and unfair competition.

Prevailing wage rates are wage and fringe benefit rates based on the collective bargaining agreements established for a particular craft or trade in the locality in which the public work is performed. In New Jersey, these rates vary by county and by the type of work performed.

Applicable prevailing wage rates are those wages and fringe benefits in effect on the date the contract is awarded. All pre-determined rate increases listed at the time the contract is awarded must also be paid, beginning on the dates specified. Rates that have expired will remain in effect until new rates are posted.

#### Prevailing Wage Rate

The prevailing wage rate for each craft will list the effective date of the rate and the following information:

W = Wage Rate per Hour

B = Fringe Benefit Rate per Hour\*

T = Total Rate per Hour

- \* Fringe benefits are an integral part of the prevailing wage rate. Employers not providing such benefits must pay the fringe benefit amount directly to the employee each payday. Employers providing benefits worth less than the fringe benefit amount must pay the balance directly to the employee each payday.

Unless otherwise stated in the Prevailing Wage Rate Determination, the fringe benefit rate for overtime hours remains at the straight time rate.

When the Overtime Notes in the Prevailing Wage Rate Determination state that the overtime rates are "inclusive of benefits," the benefit rate is increased by the same factor as the wage rate (i.e. multiplied by 1.5 for time and one-half, multiplied by 2 for double time, etc.).

#### Apprentice Rate Schedule

An "apprentice" is an individual who is registered with the United States Department of Labor - Office of Apprenticeship and enrolled in a certified apprenticeship program during the period in which they are working on the public works project.

The apprentice wage rate is a percentage of the journeyman wage rate, unless otherwise indicated. The apprentice benefit rate is the full journeyman benefit rate, unless otherwise indicated.

If there is no apprentice rate schedule listed, the individual must be paid at least the journeyman rate even if that individual is in a certified apprentice program for that trade.

If there is no ratio of apprentices to journeymen listed for a particular craft, then the ratio shall be one (1) apprentice to every four (4) journeymen.

## Comments/Notes

For each craft listed there will be comments/notes that cover the definition of the regular workday, shift differentials, overtime, recognized holidays, and any other relevant information.

## Public Works Contractor Registration

The Public Works Contractor Registration Act (N.J.S.A. 34:11-56.48, et seq.) requires that **all** contractors, subcontractors, or lower tier subcontractors who are working on or who bid on public works projects register with the Department of Labor and Workforce Development. Applications are available at [www.nj.gov/labor](http://www.nj.gov/labor) (click on Wage & Hour and then go to Registration & Permits).

Pursuant to N.J.S.A. 34:11-56.51:

*No contractor shall bid on any contract for public work as defined in section 2 of P.L.1963, c. 150 (C.34:11-56.26) unless the contractor is registered pursuant to this act. No contractor shall list a subcontractor in a bid proposal for the contract unless the subcontractor is registered pursuant to P.L.1999, c.238 (C.34:11-56.48 et seq.) at the time the bid is made. No contractor or subcontractor, including a subcontractor not listed in the bid proposal, shall engage in the performance of any public work subject to the contract, unless the contractor or subcontractor is registered pursuant to that act.*

## Snow Plowing

Snow plowing contracts are not subject to the New Jersey Prevailing Wage Act or the Public Works Contractor Registration Act.

THE PARTICULAR PREVAILING WAGE SCHEDULES  
INCLUDED IN THIS CONTRACT ARE NOT REPRINTED HERE  
DUE TO SIZE.

## **NEW JERSEY DEPARTMENT OF TRANSPORTATION CODE OF ETHICS FOR VENDORS**

### **Introduction**

The New Jersey Department of Transportation considers the maintenance of public trust and confidence essential to its proper functioning, and accordingly has adopted this vendors' Code of Ethics. Vendors who do business with the NJDOT must avoid all situations where proprietary or financial interests, or the opportunity for financial gain could lead to favored treatment for any organization or individual. Vendors must also avoid circumstances and conduct which may not constitute actual wrongdoing, or a conflict of interest, but might nevertheless appear questionable to the general public, thus compromising the integrity of the Department.

This code, originally adopted on December 16, 1987, is based upon the principles established in Executive Order 189 and laws governing the Executive Commission on Ethical Standards, N.J.S.A. 52:13D-12 et seq., which, while not strictly applicable to contractors, provide general guidance in this area. Also, this code has been established pursuant to the authority embodied in N.J. S.A. 27:1A et seq., and for good cause.

This Code of Ethics shall be made part of each Request for Proposal (REP) promulgated by the Department and be attached to every contract and agreement to which the NJDOT is a party. It shall be distributed to all parties who presently do business with the Department and, to the extent feasible, to all those parties anticipating doing business with the Department.

### **NJDOT Code of Ethics for Vendors**

1. No vendor\* shall employ any NJDOT officer or employee in the business of the vendor or professional activity in which the vendor is involved with the Department officer or employee.
2. No vendor shall offer or provide any interest, financial or otherwise, direct or indirect, in the business of the vendor or professional activity in which the vendor is involved with the Department officer or employee.
3. No vendor shall cause or influence, or attempt to cause or influence any NJDOT officer or employee in his or her official capacity in any manner which might tend to impair the objectivity or independence of judgment of that NJDOT officer or employee.
4. No vendor shall cause or influence, or attempt to cause or influence any NJDOT officer or employee to use or attempt to use his or her official position to secure any unwarranted privileges or advantages for that vendor or for any other person:

(Continued on Page 2)

5. No vendor shall offer any NJDOT officer or employee any gift, favor, service or other thing of value under circumstances from which it might be reasonably inferred that such gift, service or other thing of value was given or offered for the purpose of influencing the recipient in the discharge of his or her official duties. In addition, officers or employees of the NJDOT will not be permitted to accept breakfasts, lunches, dinners, alcoholic beverages, tickets for entertainment and sporting events or any other item which could be construed as having more than nominal value.

*Note: This section would permit an NJDOT officer or employee to accept food or refreshments of relatively low monetary value provided during the course of a meeting, conference or other occasion where the employee is properly in attendance (for example, coffee, donuts, tea or soda served during a conference break).*

*Acceptance of unsolicited advertising or promotional material of nominal value (such as inexpensive pens, pencils, or calendars) would also be permitted.*

Any questions as to what is or is not acceptable or what constitutes proper conduct for a Department officer or employee should be referred to the Department's Ethics Liaison Officer or his or her designee.

6. This code is intended to augment, not to replace, existing administrative orders and the current Department Code of Ethics.

\*Vendor is defined as any general contractor, subcontractor, consultant, person, firm, corporation or organization engaged in or seeking to do business with the NJDOT.

### The following are questions received from plan holders and the responses to those questions:

Question 1 from Metro-Tech Sales: Bid Items #274 & #287 are for sign lighting. Contract drawing #579, Note #1 states "When Sign Lighting is required, an approved sign lighting system shall be provided." Contract drawing #580 does not indicate anything about Lumi-Trak. Please confirm if the Lumi-Trak sign light retrieval system is to be supplied.

Response: The standard fixed lighting system (no retrieval system) is to be used on this project and is to be provided by the Contractor.

Question 2 from JBL Electric: In the JCP&L Specifications, the work request for the distribution is noted as 54547646. The transmission work is noted to be on a separate work order, but this work order is not shown in this file. Is the transmission work elsewhere or has it not been posted yet?

Response: The JCP&L Transmission Work Package is now posted on BIDX.

Question 3 from Allan Britreway Electric: I don't see the Transmission portion (prints and or Plan and profile) of the JCP&L package included. It is referenced by work request # 55937735

Response: The JCP&L Transmission Work Package is now posted on BIDX.

Question 4 from Northeast Remsco Construction: Planset. Plans are very difficult to read. We kindly ask for plans that make the proposed work more distinguishable.

Response: No changes will be made.

Question 5 from Northeast Remsco: Construction Staging. Due to the nature of the project and subsequent staging we kindly request quantities per staging on drawings TC-4 & TC-5.

Response: As per NJDOT standard, the quantities are calculated and prepared on the individual plan sheet and are not broken up for each stage of construction.
