## PROTECT YOUR TENANTS - LIMIT YOUR LIABILITY - COMPLY WITH THE LAW

In May of 2005, New Jersey adopted regulations requiring the lead-safe maintenance of multi-family rental housing constructed prior to 1978. All individuals performing work on pre-1978 multi-family rental housing are required to complete a one-day course on lead-safe building maintenance practices and applicable NJ law. For a limited time only, the Department of Community Affairs will sponsor this training and offer the course at a reduced rate of \$35 per student. Failure to use properly trained individuals to perform work on pre-1978 multi-family rental housing will be a violation of N.J.A.C. 5:10-6.6(g) and may result in monetary penalties.

For questions regarding the regulation, please visit the website at <http://www.state.nj.us/dca/dcr/leadsafe/landlords.html>

### 2009 Fall Course Schedule
