The greatest ally a firefighter can ask for is a community that is aware of the risk fire presents and is armed with the knowledge of what they can do as individuals to prevent it. More firefighters need to spread the word on community risk reduction. Sadly, not enough of them speak up about this issue. Use the opportunity to give the people you risk your lives for a chance to save yours.

Download the plan. Study it. Use it. Speak up. The NJDFS State Fire Marshal Message will include this feature and a reminder to download it going forward.

The Edgewater fire should remind you to inform your local officials, state and federal representatives of the dangers of lightweight construction. Download and present this [NFPA PowerPoint](#) and invite them to view it at the firehouse.

SAFER GRANT DEADLINE IS 3/6/15
