Getting Started

Initiating a new application

This task must be performed by your SAGE Agency Authorized Official or SAGE Agency Administrator.

At the **Start Menu**...

In the **Initiate an Application** box—

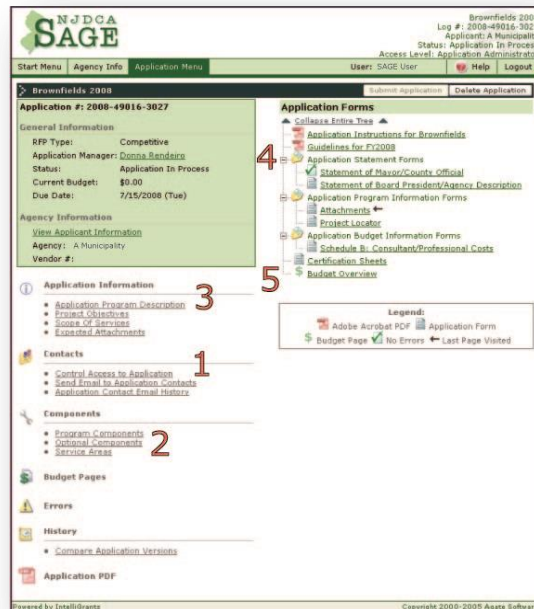

- Select the appropriate RFP (Grant Program) from the pull down list
 - Click **Apply for a New Grant**
 - Click **OK** at the confirmation pop up box
- You will be brought to the **Application Menu**

Completing the Application

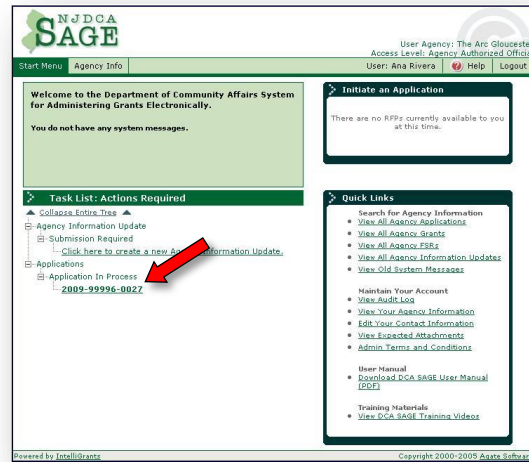

Work on the **Application Menu** in this order—

1. Application Contacts
2. Components
3. Application Information
4. Application Forms
5. Budget

After an application is initiated, it will appear on the initiator's **Task List** under **Application In Process**. When additional staff members are added to the application as Main Contacts, the application will appear on their Task Lists, too.

To access the application, click its application number [hyperlink](#).

1. Application Contacts

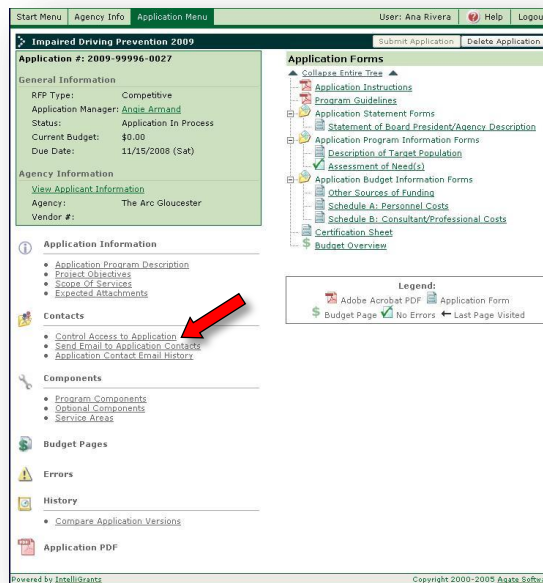

(If the initiator of the application will be the **only** person working on it, proceed to [Program Components](#).)

If additional staff members and/or consultants will be working on this application, you must add them as **Application Contacts**. Only the Application Contacts and the Agency Authorized Official have access to the application.

Adding Staff Members as Application Contacts

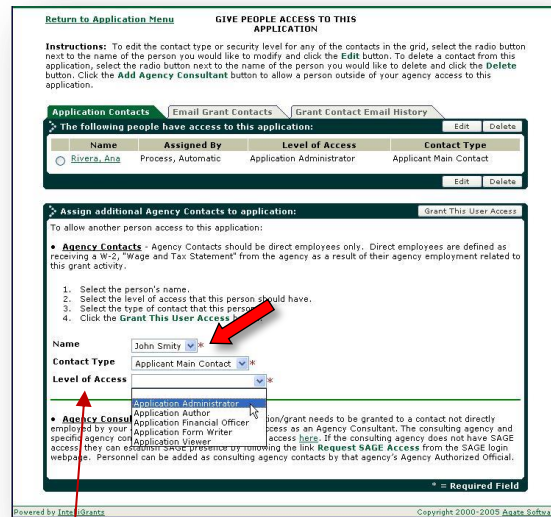

If other members of your staff will be working on this application, in the Application Menu under **Contacts**—

- Click Control Access to Application

In the **Assign additional Agency Contacts to application** section—

- Select a **Name** from the pull down list
- In the **Contact Type** field, select whether this person will be a Main Contact or a Staff Member (Main Contacts see the application on their Task Lists)
- Select the appropriate **Level of Access** from the pull down list
- Click Grant This User Access
- Continue to add staff members, if desired (to add a consultant, see below)

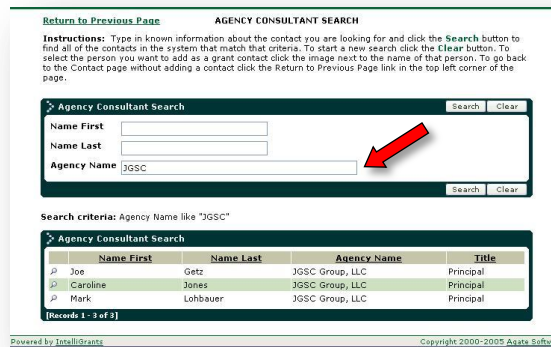

[Agency Consultants hyperlink](#)

When finished, you may return to the **Application Menu** or add a consultant as an Application Contact.

Adding Consultants as Application Contacts

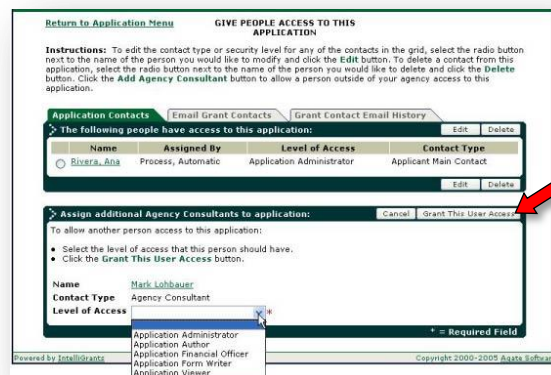

At the bottom of the **Assign additional Agency Contacts to application** section—

- Click the Agency **Consultants** hyperlink
 - At the Agency Consultant Search screen, enter all or part of the consultant's name and/or the consulting firm's name (check alternate spellings)

- Click Search
- Select a consultant by clicking on their magnifying glass.
- Select the Level of Access you want to give to the consultant
- Click Grant this User Access

When finished, return to the **Application Menu**.

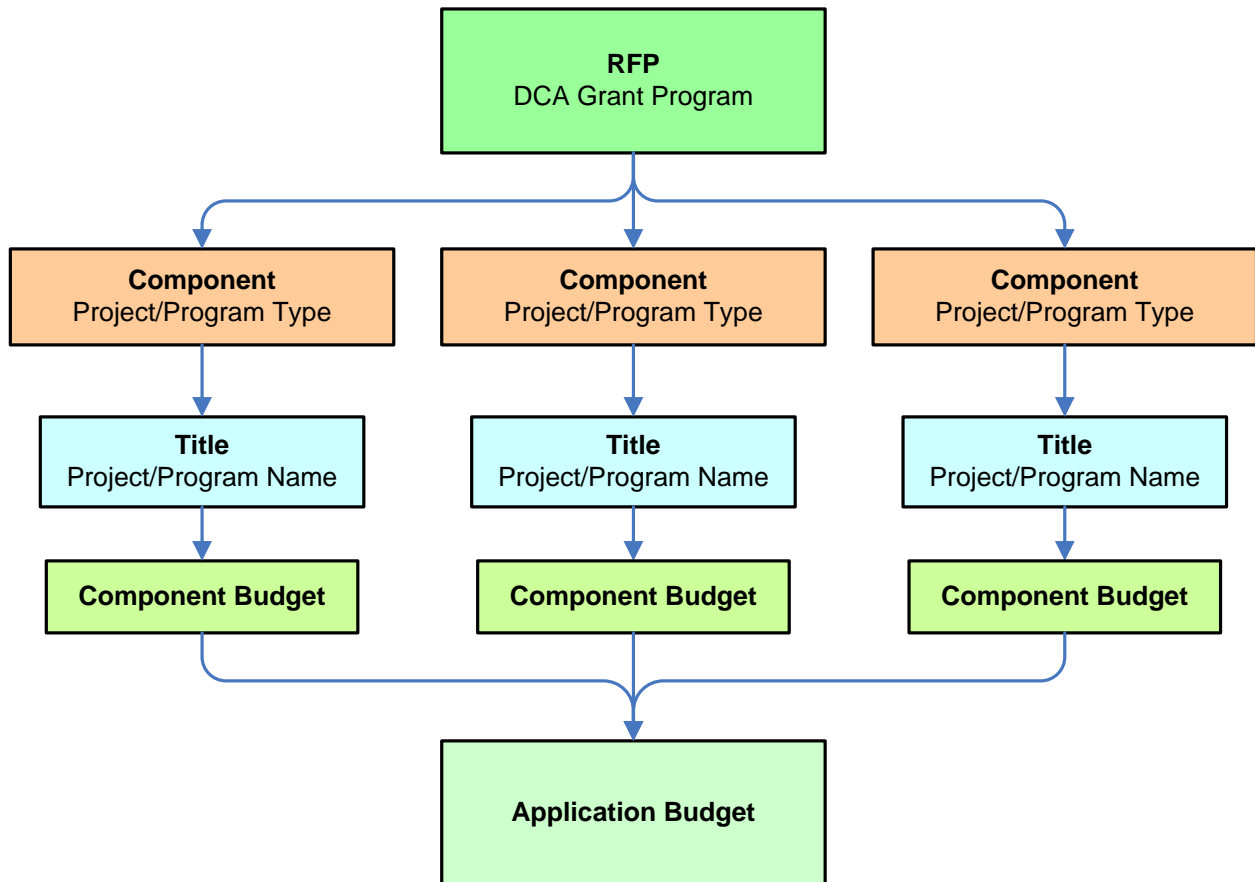

If the consulting firm you want to use is not on the list, it means that they are not registered in SAGE. They can apply for SAGE access by clicking **Request SAGE Access** at the SAGE login screen. After the consulting firm has been approved by DCA, go back into the **Assign additional Agency Contacts to application** section and **Add** them to the Application Contact list.

DO NOT add outside consultants as Agency Contacts.

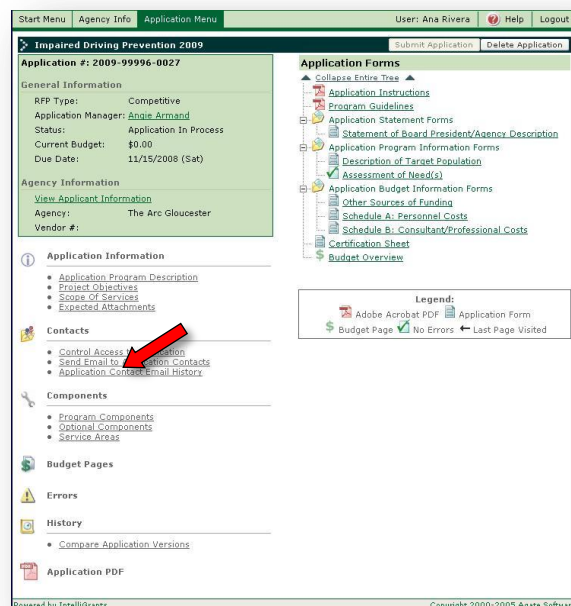

2. Components

The **RFP** is the DCA Grant Program. A **Component** is a Program Type (a “component” of the project as a whole) that will be implemented if a grant is awarded. Some RFPs have only one Component; others have more than one, and *may or may not* allow you to pick more than one. Each application must have at least one component.

Program Components

- Click **Program Components** on the left side of the Application Menu

- In the **Program Type/Sub-Type** field, select a Component from the drop down list
- In the **Name** field, enter a name for the Component (what you will call this part of the grant program)
- For **Location**, specify the municipality (city and county) of the program
- In the **Address** fields, provide the address of the program's day-to-day administrator

If your program has multiple components, repeat the steps above until you have selected and described each component that will be a part of your program.

When finished, select the **Service Areas** tab, or return to the **Application Menu**

Special Program Component Instructions

The DCA Program Manager or Application Manager will enter special instructions for completing the Program Components section here, if applicable.

Service Areas

In this section, indicate the areas (counties and/or municipalities) that will benefit from *this* grant program – which may or may not be the area that your agency serves as a whole.

- Click on **Service Areas**

If your program/project has multiple Components, you will get a list of the Components you chose.

You need to assign a Service Area for **each** Component.

IMPORTANT:

If your grant program (or component of the grant program) benefits an **entire county** or counties, or the **entire State of NJ**, select the **Counties** tab.

If the grant program (or component of the grant program) will benefit one or more **municipalities** – but **not the entire county** – select the **Municipalities** tab

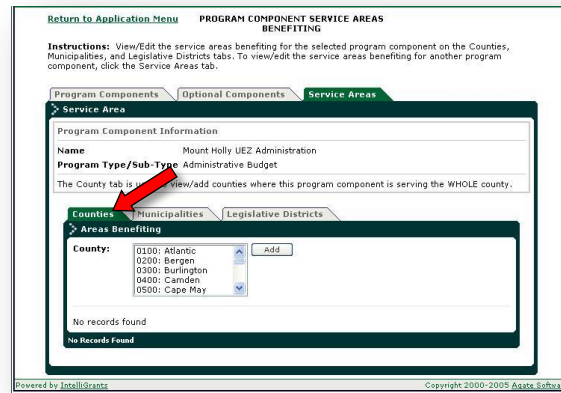

Counties Tab

- Select the county or counties to be served
- Click **Add**.

If this program benefits the **entire State of NJ**—

- Scroll down to the bottom of the **Counties** list and select **2200: State Wide (NJ)**

 - Application Program Component – Use the drop down menu to select the Program Component that corresponds to this Objective (not necessary if your program has only one Component)
 - **Save**
