

RECORD OF COMMUNICATION

Date: January 12, 2016

Communication Between: Beth Williams, Tetra Tech and Steven Gould, USEPA Region II

Subject: EPA Sole Source Aquifer Review for RRE0029262MF

Summary:

On January 12, 2016, Tetra Tech was contacted by Mr. Stephen Gould with USEPA Region 2 via telephone. Mr. Gould indicated that he had been assigned to conduct a Sole Source Aquifer review for Application RRE0029262MF. Mr. Gould indicated that based on the scope of the proposed project, rehabilitation of a residential unit, the proposed project would have no impact on the Coastal Plain Sole Source Aquifer system that underlies the project location. In addition, Mr. Gould stated that USEPA and HUD mutually agreed that the rehabilitation of residential units would not create a significant hazard to public health and that this type of project/activity would not warrant USEPA SSA review.
