Property Description:	<p>The property included in the Brighton Avenue Streetscape project lies along Brighton Avenue between Ocean Avenue to the east and the railroad west of Sairs Avenue to the west. The APE includes the sidewalks in front of the buildings on both sides of Brighton Avenue and the street between them from the western to the eastern limits. Project activities for streetscape improvement projects typically include the installation of shade trees, street lighting units, sidewalks, and crosswalks. The proposed plans represent a continuation of the streetscape evolution over time and will occur in previously disturbed areas.</p> <p>No historic properties, historic districts, or historic streetscape features have been identified within the APE. The western end of the project area abuts the New York and Long Branch Railroad Historic District (NY&LBRR HD), which is aligned north-south. It has been determined eligible for listing on the NRHP. The proposed streetscape improvements will have no adverse effects on this historic resource. At the western end of the APE, the NY&LBRR HD consists of rails set in asphalt, overhead powerlines, and modern red and white railroad crossing controls.</p>
