PHASE I ENVIRONMENTAL SITE ASSESSMENT Site Reconnaissance Questionnaire

Site Inspector:	Malik Rasool		URS Office:	Clifton, NJ
Date of Inspection	October 21	, 2014	Inspector's Phone # 201-390	5-5206
Facility Na	nme: City Of Perth Ar	nboy		
			Zip: 08861	
			County: Middlesex	
State:	NJ Weather: s	sunny / <u>overcast</u> / ra	in / snow / windy	Temp (approx.)
2. Identify all	persons interviewed o	onsite		
Name		Title	Phone #	# of yrs at the property
Andrew T	oth	Grants Advisor	973-826-0290, Ext	4046. 2 years
			ximately 30 years ago. prepare a sketch of the site. Ple	
contamin asbestos additions	nation, sensitive areas: samples if a blueprint	wells, drums, transfi is not available for r ginal buildings. Also	parking areas, areas of existing or parking areas, areas of existing or parkers, pits, sumps, and dry well toting locations. Indicate if there Indicate immediately surrounding	ls. Show locations of have been any
Site Acre	eage:			
No. of b	uildings currently onsit	te (Include separate	utility or storage buildings)?	two
Name		No. of stories	Dimensions or Square Footage	e Year Built
Area 1 -	City Wastewater	one		
station_				
Area 2-	Harborside Marina	one		
What is	the current property us	e? (Describe all onsi	te activities. If the site is an IMP	indicate here)
Public p	laces, Recreation area,	open spaces, parks,	fishing, jogging, walking etc	
5. What we	ere the previous site use	es?		
Use	1		Dates (from - to)	Source of information

	Same as above						
6.	Describe the basic construction of the building (s) onsite. (circle all that apply and indicated locations of different types)						
	Basic structure: concrete block / wood frame / steel frame / concrete tilt-up / other If other, please explain: This is the Public park area						
	What type of exterior finish does the building have? wood / brick / stucco / other If other, please explain:						
	What interior finishes are present? Floors: vinyl tile / ceramic tile / linoleum / carpet / wood / other If other, please explain:						
	If other, please explain: Walls: drywall / masonry / corrugated steel walls / other If other please explain:						
	If other, please explain: Ceilings: drywall / acoustic tiles / drop ceiling / other If other, please explain:						
7.	Please list other current onsite support activities, including asking the following questions:						
	Does the facility wash vehicles (trucks, cars, trailers) or heavy equipment onsite? Yes No If so, where (Indicate on site sketch)?						
	Is vehicle or heavy equipment maintenance conducted onsite? Yes No. If so, where (Indicate on site sketch)?						
	Is vehicle fueling conducted onsite? Yes No If so, where (Indicate on site sketch)?						
8.	Does the site contact have any of the following historic documentation? (Check next to each document included with questionnaire)						
	Prior Phase I/Phase II ReportsGroundwater Monitoring ReportsGeotechnical ReportsReal Estate AssessmentReal Estate FlyerTitle SearchUnderground TanksReports not available at time of visit, copies requested.Yes.						
9.	Is there apparent evidence site was constructed on fill (i.e. subject property is higher or lower than immediately surrounding area)? Yes No						
	If yes, does the site contact know the source of fill? Some areas may be built on fill.						
10.	Are there any indications or evidence of the following potential environmental issues on site? (If yes, TAKE A PICTURE and INDICATE LOCATION ON THE SITE SKETCH):						
	Stressed vegetation? Yes / No Comments:						
	Liquid waste dumping? Yes / No Comments: Combined CSO system						
	Solid waste dumping? Yes / No Comments:						

	Discolored flowing or standing water? Yes / No Comments:
	Abnormal odors? Yes / No Comments:
	Evidence of remedial activities (soil drums or soil stock piles)? Yes / No Comments:
	Other:
11.	Heatha facility and have maded as a "materially managed blackers" for a Computer deita? Way / No.
11.	Has the facility ever been named as a "potentially responsible party" for a Superfund site? Yes / No (attach relevant documents):
	N/A
12.	Who are the Utility Service Providers to the facility? (if service is not used on site indicate who provides it
	in the area)
	Potable Water Service by: <u>Utility Services Associates of Perth Amboy (USAPA)</u>
	(if other than municipal service, i.e. well or bottled, indicate details in drinking water section below)
	Wastewater Service by: <u>Utility Services Associates of Perth Amboy (USAPA)</u>
	Electric Service by: PSE&G
	Gas Service (indicate): Natural gas by Elizabeth Town Gas
	Liquid Propane by
	(list the number of bulk tanks below in the AST section)
	SURROUNDING AREA
	Usage (check all that apply) rural / residential / commercial / light industrial / heavy industrial
	List ALL adjacent roadways and properties. Provide the name and address of all adjoining properties.
	(attach additional sheets as needed) CHECK YOUR DIRECTIONS
	North Public Park
	Northwest Residential
	Northeast Bay Area
	East Bay Area
	South Park Area
	Southeast Residential Area
	Southwest Residential Area

ABOVEGROUND AND UNDERGROUND STORAGE TANKS

Obtain a copy of tank registration. Obtain any leak detection reports, inventory reports, or reports regarding releases or tank removal. Be sure to include the locations of CURRENT and HISTORIC tanks on the site sketch!

15. Have there ever been tanks historically located on site? No Yes, list below - Not in Area 1, Aea 2 may have AST/UST for Marina, Unknown to the City Engineer, unable to contact the site personnel for confirmation.

Type (A or U)	Tank Vol.(Gal.)	Contents	Date of removal	Location

^{*}Attach additional sheets if needed. Document each tank location with photos and show on

site sketch

16. Are there any ASTs / USTs present at the site currently? No Yes, list below

Type (AST or UST)	Tank Vol. (Gal.)	Contents	Registered Tank? Y/N/UNK	Tank Material	Leak Detection Type	Install Date?	Active(A) Closed in Place (C)

*Att	ach additional sheets if needed. Document each tank with photos and show on site sketch
17.	Who owns the tanks? property owner / property occupant / other
18.	What type(s) of secondary containment is (are) present?
	None / Berm / trench and sump system / containment pallets / steel or concrete containment wall
19.	Are there any tank tightness documents available? Yes (Attach most recent available test results) / No
20.	Has there ever been a release from the tank(s)? No Yes List the dates
	What agency was the release reported to? <u>N/A</u>
	What is status of incident? Open / Open, but closure pending / Closed (include a copy of closure letter or final monitoring report if available)
	Comments:
	*If the site is an IMP, skip to the IMP section for the remainder of the questionnaire if not continue with the next question
21.	Does the facility currently or has it previously generated hazardous wastes? No, Skip to Question 25
	Yes, Facility RCRA ID Number: No
	Generator Status (circle): LQG / SQG / Conditionally Exempt SQG / Non-Generator (a site that
	previously generated wastes, but is not currently doing so, and has filed or will file for a change in

	status)		
22.	What wastes are produced? (i.e. solvents	s, sludge, ignitable liquids, etc.)_	
22	W/h are and the superton stand do		
23.	Where are the wastes stored?		
	-		
24.	Who is the transporter? N/A		
	(please include a copy of the available m	nanifests)	
CHEN	MICAL SUBSTANCES		
CIII			
25.	What chemicals are used onsite?	1	1 1100 1 1 4 1 1 1 1
	Indicate chemicals observed or reported Obtain MSDS for significant (greater tl		
	onsite. None	100-5015 of 500-105) amount	is of elements stored of used
	Soap- amt	Paint (latex, oil, enamel) - amt	; - <u> </u>
	Detergent - am t	Disinfectant - amt -	
	Bleach - amt -		
	Window cleaner - amt-		
	Degreaser - amt -		
	General purpose	Helium - No. of cylinders	
	surface cleaner - amt -		
	Floor cleaner - amt -		
	Carpet cleaner - amt -	-	
	Water based Ink and Ammonia for labelling	ng purpose - amt	
26.	Where are these chemicals located on sit	te? (show chem. storage areas on	site sketch as well) N/A
27.	Were all containers properly labeled? Y	Yas No	
21.	were an containers property labeled: 1	es 110,	
PETR	OLEUM PRODUCTS		
28.	What kinds of petroleum products does t	the facility use (Other than bulk t	fuels listed in IJST/AST section
20.	above)?	the facility use (Other than burk I	dels listed in OST/AST section
	Check if observed and indicate total amo	ount (Attach additional sheets as	needed)
	No	petroleum products used on sit	e
	motor oil - amt cutt	ing oil - amt	Gasoline - amt -
	transmission	Kerosene - amt	Anti- Freeze - amt -
	fluid/oil - amt		
	Solvents (parts cleaner-show on sketch	h, degreasers, etc.) - amt	
	hydraulic		

	oil/fluid - amt
	spray lube - amt
	(WD-40, etc.) - amt
29.	Does this facility generate used oil? (this question refers to petroleum not cooking oil) No Yes,
	Is the oil recycled by an outside contractor? burned on site? Who is the contractor or where is it burned?
SOLI	D WASTE GENERATION
30.	Solid waste generated on site consists of: <u>N/A</u>
	Wastepaper General Packaging
	Cardboard (see below) Food scraps (food service establishments)
	Used cooking grease (sites with food service)
	No solid waste currently generated on site
	What type of container is solid waste accumulated in (check all that apply):
	Compactor Dumpster Cans. How many of each is located on site?
	Dumpsters, Compactors, Cans (show each on the site sketch)
	Who hauls the trash:
	Is there a used cooking grease bin? No / Yes
	Who services the grease bin?
	(Note: a grease trap is not the same as a grease bin)
33.	Is the storage location secure (i.e. locked)? Yes / No - N/A
34.	Does the facility generate any of the following: No/Yes
	Oily rags - collected by:
	Used oil filters - collected by:
	Used tires - recycled by:
	Used lead-acid batteries - recycled by:
35.	Is there any recycling of the following: No / Yes
	Cardboard - recycled by:
	Scrap metal - recycled by:
	Wooden pallets - recycled by:
	Aluminum - recycled by:
	Office paper - recycled by:
	Other materials - recycled by:

If the site was built before 1980 there is a potential for ACM (asbestos containing material) to have been used on site Site was built around 1980

36. Did you observe any of the following at the site? No / Yes, list below (attach additional sheets as needed)

Suspect ACM	Location	Condition (good, fair, poor)
Floor tile (12"x12" or 9"x 9")		
Ceiling tile (12" x 12" not the 3'x 2')		
Boiler insulation		
Pipe insulation		
Roof materials		
other		

37.	Hacan	ΛCM	survey been	conducted	on the	property?	Vac	/ N	Ja
	mas an	AUN	survey been	conducted	on the	property:	res	/ 1	1()

Was asbestos found onsite? No / Yes, (include a copy of report if available or indicate location(s) of samples below -attach additional sheets as needed)

Location (building name or ID)	Material	Friable (F)or Non-friable (N)	Condition (G) good (F) fair (P) poor)
		_ F N	G F P
		_ F N	G F P
		_ F N	G F P
		F N	G F P

38.	If there are ACMs, is there an Operation & Maintenance (O & M) Plan for managing the ACMs?	Yes .	/ No
	Date of O&M plan:		

POTENTIALLY PCB CONTAINING EQUIPMENT

Transformers: **EVERY** commercial facility has at least one transformer. It or they may be pole mounted and located in a right of way that is adjacent to the subject site, but if the cable connects it or them to the building on site, then Note it below, take a picture and indicate the location on the site sketch.

39.	How many transformers are located on site (including those that may be located in right of ways adjacent to
	the property boundaries)?

Detail each unit below. Use additional sheets as needed.

Pole or Pa	PCB Content Non-PCB (labeled) or Suspect (not labeled)	Serial #	Condition of Unit(s)	Indication of leaks? (i.e. staining on pad or body of transformer)

40.	Elevators Are there any elevators on site? No / Yes, What type? Hydraulic			
	How many? Age?			
	Serviced by?	Last service Date?		
	Cable Lift			
	How many?Age?			
	Serviced by?	Last service Date?		
	Condition of wench equipment:			
41.	Other hydraulic equipment Are there any of the following on site?			
	Fork lifts - How many? Powered by? propane / gasoline / diesel / batteries (indicate sketch)			
	Are the forklifts: maintained by on site personnel_/ maintained by an off site contractor?			
	Vehicle lifts - How many:			
LEAD	D-BASED PAINT			
12.	If the site was constructed pre-1978 - N/A What was the condition of painted surfaces observed? Good or I Flaking or peeling noted, Where was the damage observed?			

FACILITY WATER

Drinking Water

43. What is source of drinking water at the site? Municipal / Well (see section below) / Bottled

If wells are used for drinking water at the site, is water quality data available? No / Yes, (please attach a copy of most recent analysis. See question on wells below)

W	ast	tew	at	er
---	-----	-----	----	----

44.	What type of wastewater is generated by the facility (check all that apply)?				
	Sanitary Non-contact Process, vol	lume:	Gal/Day		
	Process, volume:	Gal/Day	None		
Disch	arge Features				
45.	Indicate the number and location of any of	the following an	d show their locations on the site sketch;		
	Floor Drains SumpsPits	_ Drainage ditc	thes, circle: lined / unlined		
46.	Did you observe any staining near or in any				
47.		What type of wastewater treatment is conducted on site? <u>N/A</u>			
	Grease trap (this is not the same as a grease bin, it is connected to the plumbing and is usually an in-ground unit with a manhole cover that may or may not be marked as a sewer)				
	septic (see below),				
	pH adjustment,				
	equalization,				
	Dissolved air flotation,				
	other				
48.	Where does the wastewater discharge to (check all that apply)?				
	Does a Permit Exist? Yes				
	Discharge to municipal sewer system	Yes / No (Not	te: If the facility discharges anything		
			other than sanitary there should be a permit)		
	Streams, rivers, etc (show on site sketch)	<u>Yes</u> / <u>No</u>			
	Land application discharges	Yes / No			
	Deep well injection Surface impoundments	Yes / <u>No</u> Yes / <u>No</u>			
	If permit(s) for wastewater discharges exi	ist, obtain a cop	by of the current permit. Review any available		

If permit(s) for wastewater discharges exist, obtain a copy of the current permit. Review any available monitoring reports and indicate if there are any violations. (Do not copy reports unless a problem is identified). Copy any notices of violation, orders, findings, or other documentation indicating any issues. Copy any compliance schedules. Identify and note if there are any required management plans, but don't copy unless there is a problem.

49. Is there a permit for the septic system (show Loc. of system on site sketch)? Yes / No N/A

	What kind of septic system does the subject property operate?				
	Tank / Tank w/ leach field / Sand mound				
	Who services the system? Last date of service?				
STOI	RMWATER				
50.	How is stormwater is managed:				
	Unmanaged / Storm drains / Drainage Ditches / Detention/Retention				
	Drywells What was the condition of any features noted?				
	Any staining? No / Yes, Where?				
51.	Does the stormwater flow to a combined sewer? Yes / No				
52.	Does stormwater run-off from neighboring facilities and have potential to impact this facility? \underline{No} / Yes				
	Describe:				
53.	Has the facility applied for a National Pollution Discharge Elimination System (NPDES) stormwater: Per				
	<u>City Engineer, this is for the CSO discharge</u> . discharge permit? No / <u>Yes</u> , type: Individual / <u>General</u>				
54.	Has the facility received a NPDES stormwater discharge permit? No / Yes				
55.	Are there any industrial activities exposed to stormwater on site? No / Yes				
	If so, describe. Examples include; outdoor equipment storage, outdoor vehicle washing, outdoor equipment				
	washing, bulk chemical or material storage in uncovered areas, including petroleum. Note areas of concern				
	on site sketch.				
	<u> </u>				
XX7 A /T	DED WELLC LCDOUNDWATED				
WAI	ER WELLS and GROUNDWATER				
56.	Are there any groundwater wells on site? No / Yes (show the location of each well on the site sketch)				
50.	Check all that apply: Supply (potable water and production) / Irrigation (non-potable)				
	Date of last inspection or sampling event (for supply or monitoring wells)?				
	Are there any regulatory agency inspection reports available? No / Yes (include a copy)				
57.	Is there known groundwater contamination at this facility? No / Yes				
37.	· —				
	If yes, list the contaminants identified or attach a copy of the most recent monitoring report:				
58.	What is the source or cause of the contamination? None				
59.	Are there any monitoring wells? Ask and LOOK No / Yes, (Indicate the location on the site sketch)				
	How often are these monitoring wells sampled? monthly quarterly semi-annually annually Unknown				
	What are the wells sampled for? None				

	What regulatory agencies involved with monitoring? None					
	Current status of investigation/remediation?					
WET	TLANDS					
60.	Does the site contact know if there are any delineated wetlands on site? No_/ Yes,					
	(Indicate location on sketch)					
61.	Did you observe any evidence of saturated soils or marshy ground noted onsite? No. / Yes,					
	(Indicate location on sketch)					
62.	Did you observe any wetland vegetation present (e.g., cattails, sedge grasses, etc)? No / Yes,					
	(Indicate location on sketch)					
RAD	ON					
63.	Are there any basement (sub-grade) areas in the building? No / Yes N/A					
64.	Does the site contact know if radon sampling ever been conducted on site? No / Yes (attach a copy of					
	sample results if available).					
65.	If there was an assessment and elevated radon levels were detected, is there any mitigation in place?					
	No /Yes,					
	Describe					
AIR I	EMISSIONS					
66.	Does the facility operate any equipment (other than heating and air conditioning), or conduct any process or activity (other than food preparation) that produces smoke, vapors, fumes or particulate matter that is vented or may escape to the outside air? Examples include; paint booths, media blasting (sand blasting), parts washers, etc.					
	No / Yes, include the details below.					
	None					
SPIL	LS					
67.	Has this facility ever had a spill or release of chemicals, or hazardous materials? No / Yes, City Engineer not aware of any kind of spills					

Complete the following information for spills which have occurred:

Date	Substance Spilled	Spill Location	Cleaned Up Yes No	Report ed Yes No

OTH	ER			
68.	Are any pesticides used onsite? <u>No</u> / Yes.			
	Are any herbicides used onsite? <u>No</u> / Yes, list type and contractor name if applicable:			
69.	Are lead acid batteries stored or used onsite? <u>No</u> /Yes, indicate location of battery storage on site sketch			
70.	Is there equipment that contains ozone depleting substances (e.g., freon) at the facility? $\underline{\mathbf{No}}$ / Yes, is the			
	equipment maintained by onsite personnel? No / Yes, are they properly trained? No / Yes			
71.	Are there any other state or local regulations that affect the facility? No / Yes, if so, describe:			
	TIONAL NOTES eport was prepared with the assistance of City Engineer (Mr. Andrew Toth, City Office (260 High St, Perth			
	y, NJ 08861) and is working for the City for last two years. The general scope of work to			
	ding/refurbishment of the existing tennis courts, new storage location for kayak/boats, construction of approx.			
	ll concrete wall including railing, restoring the site after super storm Sandy. The proposed work also includes,			
	amp refurbishment, volley ball courts including bleachers, dune grass planation including fence, seasonal open			
	shower and sand wash down station will be constructed in Area 1 location.			
	a -2 new fishing pier, elevated promenade and wave scour pad will reconstructed, sidewalk reconstruction,			
	caping, and other related. However at the time of visit, the Engineer indicated that the scope of work was			
	d from the earlier scope. Copy of revised scope of work requested.			
	City pumping station at the start of Area 1 and Harbor side Marina buildings in Area 2 was not assessed during			
the sit	e visit. The refurbishment work between Lewis St and Yacht club will commence soon.
