Project Description:

The proposed action involves streetscape improvements along Main Street from Ansley Boulevard to US Route 40/322 in the City of Pleasantville, Atlantic County, New Jersey. Streetscape improvements consist of the removal of existing sidewalk and curbing and installing new curbing and decorative sidewalks that complement the streetscape improvements that exist north of US Route 40/322. Brick crosswalks and ADA compliant ramps will be provided. Way-finding signage will also be provided to promote the presence of the nearby Bus Terminal. The current sidewalks on Main Street, a County Road (CR 585), are ten feet wide and are in need of replacement or in some areas, are non-existent. As a result of this grant, these sidewalks will be completely replaced and will provide improved access for residents of all ages and abilities. ADA-compliant ramps will be installed along with clearly designated crosswalks. These improvements will not only provide for a safe pedestrian connection to the Bus Station but also to the Downtown Shopping, Washington Street School, City Hall, Police Station, Fire Station, and neighborhoods to the north of US Route 40/322. The planned walkway connects areas of the downtown, Main Street Elementary School and neighborhoods to the south, with the Bus Terminal.
