All, we have had two agency inquiries concerning these proposed notices. I have responded to Carlo Popolizio from the USF&WS to determine his exact comment and upon receipt of his response I will provide to you for use in your alternatives analysis. I also have a comment from Sam Reynolds that is attached as relates to the projects. He did not specify to which projects they are relevant so we should include it in each.

His comment and my response (for what is relevant) is attached.

Hi Donna,

We don't see in this notice your determination - as the non-federal entity designated by HUD to conduct Endangered Species Act consultation with the USFWS, we need your determinations on these projects and all other projects:

**No Effect:** your determination does not require our concurrence.

**Not Likely to Adversely Affect:** your determination requires our concurrence.

**May Affect:** your determination may require formal consultation with us, unless specific conditions are included to keep consultation at the informal level.

You need to send the latter two determinations to my attention as individual, separate projects with all information included.

Thank you, Carlo
