<b>Application ID #</b>	SRP0037020		
<b>Applicant Name:</b>	Christopher Alino		
<b>Street Address:</b>	840 Mantoloking Road		
<b>Municipality:</b>	Brick Township	<b>County:</b>	Ocean
<b>PAMS PIN:</b>	1507 592 10 11		
<b>Latitude:</b>	40.052164° North	<b>Longitude:</b>	74128040° West

<b>Undertaking:</b>	<input type="checkbox"/> Rehabilitation:	<input type="checkbox"/> Interior	<input type="checkbox"/> Exterior	<input type="checkbox"/> Both	<input checked="" type="checkbox"/> Elevation
	<input checked="" type="checkbox"/> Reconstruction:	<input checked="" type="checkbox"/> Within Existing Footprint, plus 2 feet		<input type="checkbox"/> Outside Existing Footprint	

<b>Property Description:</b>	<p>The project consists of the reconstruction and elevation of three of the units of a five-unit residential structure located at 840 Mantoloking Road, Brick, Ocean County, NJ.</p> <p>The 0.376-acre property is located within the Special Flood Hazard Area Zone "AE" and Zone X, as shown on the Federal Emergency Management Agency (FEMA) Flood Insurance Rate</p> <p>The structure currently on the lot is of architectural block construction and measures approximately 125 by 30 feet. The Base Flood Elevation of the property is 9 feet.</p> <p>The complex is on a 0.376-acre lot, more than half of which is occupied by the building and parking lot. It does not fall within a positive Historic Archaeological Grid Square, nor are there proximal historic properties or districts. Two soil units are mapped within the bounds of the property. Most of the lot is mapped as Lakewood sand, 5-10% slopes (LasC), with a sliver along the road at the south end of the property mapped as Lakewood sand, 0-10% slopes (LasB).</p> <p>The property has frontage along the Cedar Bridge Branch, which flows into the Metedeconk River approximately 2,500 feet east-northeast of the subject property. The neighborhood is largely residential with some businesses along Mantoloking Road. The property lies between 5 and 10 feet above mean sea level.</p> <p>The ECR for the project details mostly interior work, with some exterior painting and repair. The probability that archaeological deposits would be disturbed during the rehabilitation is considered low.</p>
------------------------------	--

**There are no historic properties affected within the project's area of potential effects, pursuant to 36 CFR 800.4(d)(1) for the following reason(s): [Check All That Apply]**

<b>Historic Architecture:</b>	<input type="checkbox"/> Located in "Green Zone" (Areas determined by FEMA/HPO to have low potential for above-ground historic properties) <input type="checkbox"/> Not 48 Years of Age <input type="checkbox"/> Lacks Integrity of Materials/Design <input checked="" type="checkbox"/> Not Within / In View of a National Register of Historic Places Listed / Eligible Historic District <input type="checkbox"/> Not a Building (per FEMA Definition) <input checked="" type="checkbox"/> Other – Lacks Distinctive Characteristics That Make It Individually Eligible for Listing on NRHP
-------------------------------	---

<b>Archaeology:</b>	<input checked="" type="checkbox"/> Low Archaeological Potential: <input type="checkbox"/> Located on Barrier Island <input checked="" type="checkbox"/> Substantially Conforms to the Original Footprint <input type="checkbox"/> Located on Disturbed Soils <input type="checkbox"/> Not Located within 500 Feet of Waterways and/or Wetlands <input type="checkbox"/> Not Located on Well-drained Soils <input checked="" type="checkbox"/> Not Identified Within a Historic Property / Historic District
