Subject: RE: EA vs. CEST

Hi Laura and Evan,

I discussed with Donna and we concluded that since you did the EA work and since the price difference between your EA cost and your CEST cost is minimal, that there is no need to amend the task order. However, would you please write a memo for the TO 62 files explaining that it was determined $\frac{3}{4}$ of the way through the EA review process through further investigation (the EPSV value from the website) that the projects actually qualified for CESTs and therefore in order to process the applications quicker because of the shorter comment period, that Louis Berger and DEP agreed to process the applications as CESTs. I will also forward you the email from Cathy Dymkoski concerning 58.35(a)(4)(i) which you can reference. Thanks, Diane

Yes of course! Please let Evan know if we need to change the TO-

Hey Laura,

Before you submit these apps as CESTs, let me run it by Donna to make sure she is ok with it. I don't want the change to raise any flags since the task order is for EAs.
