Section I – General Information

A. Purpose:

The New Jersey Department of Children and Families (DCF) announces the availability of up to \$550,000 in funding for the purpose of providing evidence-informed trauma treatment and supportive services to child victims of domestic violence.

The goal of this RFP is to increase access to appropriate treatment and support services that mitigate and/or treat the impact of trauma and support the child victims and caregiver(s) in developing healthy relationships.

Funding will be used to develop programming in two pilot counties: Morris and Somerset; up to one award will be made in each of the two identified counties. Each applicant may apply for one or both counties. Separate bids shall be required for each county.

Referrals for these services will come from the county's lead Domestic Violence Service Agencies and Child Protection and Permanency (CP&P) local offices.

B. Background:

The Department is charged with serving and safeguarding the most vulnerable children and families in the State, and our mission is to ensure the safety, well-being, and success of New Jersey's children and families.

The Department is particularly sensitive to the lack of evidence-informed programming readily available to Domestic Violence Lead agencies wanting to refer child victims of trauma and their caregivers. The goal of this RFP is to increase the availability of evidence-informed trauma treatment and supportive services to child victims of domestic violence in two pilot counties: Morris and Somerset. Through this RFP, the Department intends to help ensure children, who become known to Domestic Violence Lead Agencies and/or CP&P and are suspected as a result of their exposure to domestic violence to be in need of assistance, receive timely, high quality treatment and support.

Children and youth exposed to domestic violence are at an increased risk of experiencing abuse (physical, sexual, etc.), developing emotional and behavioral challenges, and experiencing subsequent exposure to trauma and adverse life experiences. According to the National Survey of Children's Exposure to Violence, 40.3% of children surveyed have been exposed to family violence throughout their lifetimes, with 27.7% exposed to physical intimate partner violence among parents.¹ Results of the 2015 National Census of Domestic Violence Services indicate over 56% of the population in shelters and transitional housing provided by domestic violence programs in New Jersey consist of children, and 93% of the services provided by these local programs involve support and advocacy for children.²

Exposure to domestic violence can have profound and lasting traumatic effects on children and their development. Potential impacts include but are not limited to:

- Lower verbal, cognitive and motor skills, and/or delays in childhood development;
- Depression, anxiety, and Post Traumatic Stress Disorder (PTSD);
- Restlessness, impulsivity, and difficulty concentrating;
- Fearful, withdrawn, and inhibited behavior; and,
- Lower self-esteem and shame.³

At the same time, research demonstrates that early intervention with trauma-informed services is critical to a child's recovery. Studies have found that there are protective factors and interventions which can mitigate the impact of exposure to domestic violence.⁴⁵ Protective

factors such as secure maternal attachment, social support to the family, high self-esteem, and child temperament contribute to increased resilience in children exposed to domestic violence. Treatments which build resilience and promote recovery can mitigate the long-term impact of violence exposure. Reliable screening and assessment measures for domestic violence and trauma exposure are also important tools that inform treatment considerations.⁶

C. Services to be Funded:

Up to one award will be made in each of the two identified counties to implement the following required program components. Applicants may apply for one or both counties, but separate applications are required for each county. Applicants may also subcontract program components to qualified agency partners, but a primary agency must be identified, and DCF’s contract will be with the primary agency. The counties of focus for this RFP are:

County	Funding Available	Minimum Annual LOS (unduplicated children)
Morris	Up to \$300,000	75
Somerset	Up to \$250,000	60

Required Program Components:

The grantee for this program must provide:

- Screening and Assessment
- Treatment
- Evaluation, Reporting, and Ongoing Quality Improvement

Applicants shall provide a detailed description of their program approach, including each of the components above. Each family should experience seamless, high quality service and support.

Screening and Assessment

The goal of this RFP is to provide high quality, effective services to child victims of domestic violence who have been exposed to trauma and require treatment. The grantee shall utilize evidence-informed screening and/or assessment tool(s) to determine if services and supports are warranted. Applicants must describe each proposed screening and/or assessment tool and its use with the identified target population. The grantee must also provide training as well as ongoing coaching and support to staff to ensure consistent, reliable use of the screening and/or assessment tool(s).

At the same time, DCF recognizes that many families who become known to domestic violence agencies or CP&P may have existing assessments which can help inform what services and supports are warranted. Where appropriate, providers shall utilize existing assessments and avoid duplication of assessment and/or evaluation of children and families.

The grantee must have procedures in place for children, whose screening and/or assessment indicate either no need for treatment services or a need for a higher level of treatment services. Providers should refer children who are suspected of requiring a higher level of service to PerformCare. In cases where areas of need are identified but treatment is not warranted, the grantee shall work with the referring agency to find appropriate alternative resources in the community. The applicant must describe knowledge of community-based resources.

A grantee is permitted to subcontract all or part of this work to a qualified partner agency. Any subcontracted agency must be trained in the utilization of the assessment and/or screening tool(s) and must agree to comply with DCF requirements and participate in DCF site visits, trainings, monitoring, etc. as needed. The applicant shall provide a Memoranda of Understanding or Agreement documenting the planned formalized partnership(s).

PLEASE NOTE: DCF reserves the right to determine the standard screening and/or assessment tool that will be utilized in both pilot counties. The grantee must be flexible and willing to use a tool that the grantee did not propose in the submitted application. DCF is committed to collaborating with grantees to help make this determination.

Treatment

The grantee shall use an evidence-informed trauma treatment modality and may propose additional supportive services. The grantee must have the capacity to utilize Trauma-Focused Cognitive Behavioral Therapy

(TF-CBT) by certified therapists as one of their available treatment modalities. If the applicant needs to build this capacity, the applicant must provide a detailed plan outlining how this will be accomplished and within what timeframe it will be completed. (Applicants may find it useful to reference this website: <https://tfcbt.org/tf-cbt-certification-criteria/>.)

According to the California Evidence-Based Clearinghouse: “TF-CBT is a conjoint child and parent psychotherapy model for children (ages 3-18 years old) who are experiencing significant emotional and behavioral difficulties related to traumatic life events. It is a components-based hybrid treatment model that incorporates trauma-sensitive interventions with cognitive behavioral, family, and humanistic principles.

The overall goal of TF-CBT is to address symptoms resulting from a specific traumatic experience or experiences. This includes:

- A. Improving child PTSD, depressive and anxiety symptoms
- B. Improving child externalizing behavior problems (including sexual behavior problems if related to trauma)
- C. Improving parenting skills and parental support of the child, and reducing parental distress
- D. Enhancing parent-child communication, attachment, and ability to maintain safety
- E. Improving child's adaptive functioning
- F. Reducing shame and embarrassment related to the traumatic experiences”⁷

Applicants may propose other evidence-informed treatment modalities in addition to TF-CBT. Applicants must provide a detailed description of each treatment modality and evidence to support its use with the identified treatment population. The applicant must describe how they will use the proposed screening and/or assessment tool(s) to determine the most appropriate treatment modality.

The grantee is permitted to subcontract with partner agencies to provide treatment services. Applicants must specify which treatments will be provided by which agencies, and a description of each partnership must be documented in a Memoranda of Understanding or Agreement.

The grantee is expected to partner and collaborate with CP&P when delivering services to CP&P involved families. This may include providing collateral information, participating in case conferences, and Family Team Meetings as appropriate.

Evaluation, Reporting, and Ongoing Quality Improvement

The applicant must provide an evaluation plan that identifies specific treatment outcomes, which align with the goals of the program and the needs of the target population, and details their plans to monitor those outcomes. In addition, grantees are expected to engage in a process of evaluation planning with DCF to finalize state-level outcome indicators that all grantees will be responsible for reporting to DCF.

Therefore, grantees must:

- Have capacity to measure and report on DCF identified outcome indicators and any other outcomes proposed in their application;
- Develop and maintain clear and organized systems of data collection to seamlessly distribute reports to DCF; and,
- Meet with DCF staff and/or DCF consultants at regular intervals to ensure evaluation and data reporting requirements are met.

DCF practices Continuous Quality Improvement (CQI) to identify and analyze strengths and areas needing improvement. DCF is committed to the process of ongoing evaluation as a vehicle to learn and develop solutions to improve the quality of services. It is expected that the grantee will engage in ongoing CQI to ensure programs are systematically and intentionally increasing positive outcomes for individuals and families they serve.

As this is a pilot program, DCF will likely seek the assistance of a third party evaluator. The grantees must agree to partner with DCF and any outside evaluator DCF may contract with to assess the impact of the program.

Staffing

The proposal must include a well-developed staffing model. Staff must be qualified to administer the screening and/or assessment tool(s) and provide the proposed treatment modalities and supportive services.

Transportation/Service Availability

The applicant must describe accessibility of services for the target population in the identified county, how they will eliminate barriers to treatment, what transportation support will be provided, and include their plans for service availability.

Other Requirements

All applicants are advised that any software purchased in connection with the proposed project must receive prior approval by the New Jersey Office of Information Technology.

Applicants are also advised that any data collected or maintained through the implementation of the proposed program shall remain the property of DCF.

Organ and Tissue Donation: As defined in section 2 of P.L. 2012, c. 4 (N.J.S.A.52:32-33), contractors are encouraged to notify their employees, through information and materials or through an organ and tissue awareness program, of organ donation options. The information provided to employees shall be prepared in collaboration with the organ procurement organizations designated pursuant to 42 U.S.C. §1320b-8 to serve in this State.

D. Funding Information:

For the purpose of this initiative, the Department will make available up to \$550,000 in funding, including up to \$300,000 for Morris County and up to \$250,000 for Somerset County. The Department anticipates the funding will be ongoing; however, continuation funding is contingent upon the availability of funds in future fiscal years and the grantee's performance under the provisions of this RFP and the resulting contract.
