

PSEG's Corporate Sustainability

Angela Ortiz

About PSEG

- One of largest combined electric and gas companies in the nation
- New Jersey's oldest and largest utility
- Serve 75 percent of NJ's residents
 - 2.1 million electric customers
 - 1.7 million gas customers
 - 300 communities, including six largest cities
- Serve all Fortune 500 companies with NJ headquarters
- Varied 2,600 square mile service territory

It's Starts with a Vision....

Leadership in *Green* means...

- Promoting and investing in energy efficiency and renewables
- Fostering clean, central station power, including nuclear
- Reducing the carbon footprint of our facilities and fleet
- Creating clean solutions and a sustainable future for all stakeholders

“Climate change is the preeminent issue of our time, with the power to transform both our company and our industry.”

Ralph Izzo, PSEG's Chairman,
President and CEO

The concept of ***Corporate Sustainability*** provides some structure to a set of existing and emerging societal expectations

Sustainability

Social Responsibility

Environmental Stewardship

Quality

Employee Health, Safety and Quality of Work life
