## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NOTICE OF A PUBLIC COMMENT PERIOD ON  
A HAZARDOUS WASTE FACILITY AMENDED CLOSURE/POST- CLOSURE PLAN  
UNDER RESOURCE CONSERVATION AND RECOVERY ACT**

The New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste, hereby gives notice that it has received an amended closure/post-closure plan submitted by Solutia Inc., Bridgeport, Gloucester County, for its hazardous waste disposal facility known as the East Landfill. This plan was submitted in accordance with the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act (RCRA) on the Federal level.

The East Landfill is located within Solutia's property (also known as the Delaware River Property), Route 130, Logan Township, Gloucester County, New Jersey. The landfill operated from 1978 to 1987 during which it received both hazardous and non-hazardous (municipal sludge) waste. A closure/post-closure plan for the landfill was originally approved by the Department on March 10, 1988 which included installation of a conventional (soil/clay) final cover after dewatering and consolidation of the landfill. However, dewatering and consolidation of the landfill sludge proved ineffective thereby rendering the landfill unable to support a soil/clay cap. Therefore, Solutia has amended the closure/post-closure plan to include an alternative cap system. If approved, the amended closure/post-closure plan will supersede the currently approved plan.

Under the amended closure/post-closure plan, closure of the landfill shall be accomplished by installation of a light weight, exposed geomembrane to cover the landfill. This shall be followed by a thirty (30) year post-closure period during which Solutia shall adhere to a testing/monitoring program to ensure the integrity of the geomembrane cover as well as adequate dewatering and consolidation of landfill sludge. During the post-closure period, the geomembrane cover shall be replaced as necessary, based on results of the testing/monitoring program. Upon completion of the post-closure period and having ensured adequate consolidation of the landfill (no less than 90%), Solutia shall install a conventional clay cover to cap the landfill.

Copies of the amended closure/post-closure plan and facility files are available at the office of the Department's Division of Solid and Hazardous Waste. Anyone wishing to obtain a copy of the amended closure/post-closure plan or to arrange to review the administrative record should first contact:

Mail Code: 401-02C

401 East State Street, P.O. Box 420  
Trenton, New Jersey 08625-0420

Comments regarding the plan must be submitted no later than thirty (30) days from the date of publication of this notice. Direct all written comments to Mr. Robert Confer at the above address. All comments submitted during the comment period will be considered in making the final decision on approval of the amended closure/post-closure plan. In response to a request or at its own discretion, the Department may hold a public hearing whenever such a hearing might clarify one or more issues concerning this amended closure/post-closure plan as provided at 40 CFR265.112(d)(4).
