

## **Hold the Date!**

The New Jersey Department of Environmental Protection & New Jersey Solid Waste Advisory  
Council

Present:

### **Recycling in Urban Communities**

New Jersey's urban areas face unique challenges in maximizing their recycling while holding down associated costs. The Department of Environmental Protection and the New Jersey Solid Waste Advisory Council are hosting a workshop to identify those challenges, exchange experiences in implementing recycling programs (both good and bad), and to develop best practices in recycling designed specifically for urban areas. In order to facilitate this exchange, please identify what you feel are the three biggest obstacles to maximizing recycling in your community. Additionally, if you are unable to attend or send a representative, please indicate why you are unable to attend. Thank you for your attention to this matter.

Recommended attendees: Mayors, Recycling Coordinators, DPW Managers

**June 28, 2012**

**9:00 a.m. – 1:00 p.m.**

**NJDEP Public Hearing Room**

**401 E. State St.**
