This data reflects penalties assessed through Notices of Civil Administrative Penalty Assessment (NOCAPA). This data does not include penalties demanded through Notices of Violation and Offers of Settlement, or through Superior Court Judgments.

The penalties collected are the amount of monies received in a specific calendar year regardless of when it was assessed and includes penalties received in settlement, before a NOCAPA is issued. This explains why the Penalties Collected amount may be greater than the Penalties Assessed amount for a given year.

Calendar year 2016 year to date numbers are as of June 10, 2016
