

Regulations in *red* are new this year.

### 2018 General Trout Fishing Information

- Opening day of trout season: Saturday, April 7, 2018 at 8 a.m.
- To fish for trout or salmon, a valid New Jersey fishing license and trout stamp are both required for residents at least 16 years and less than 70 years of age plus all non-residents 16 years and older.
- **All Brook Trout caught within the "Brook Trout Conservation Zone" must be immediately released unharmed. The zone consists of all waters within the northwest region of the state, where most remaining wild Brook Trout populations occur. The Conservation Zone includes all waters west of I-287 and north of Rt 202, extending to, but not including the Delaware River. See map on page 11.**
- Waters stocked with trout in the spring are listed below (those with no in-season closures) AND on page 20 (those *with* in-season closures). **Note:** Special regulations may apply on some of these waters, or sections thereof.
- During the three weeks prior to opening day, all ponds, lakes or sections of streams are stocked with trout, except Trophy Trout Lakes. These waters are closed to fishing for all species from March 19 to April 7 at 8 a.m. Exceptions: Lake Hopatcong, Mountain Lake, Lake Shenandoah, Lawrence Brook (section from Davidson's Mill Rd. to Farrington Lake dam), Prospertown Lake and Swartwood Lake are open year round to fishing. However, all trout caught during this period (above) must be released immediately. Seasonal and Year-round Trout Conservation Areas and designated Holdover Trout Lakes (see pages 21–23) are also open to fishing but are catch-and-release only for trout. Fishing is not permitted on seasonal trout conservation areas from 12:01 a.m. to 8 a.m. on April 7, 2018. Round Valley and Merrill Creek Reservoirs (Trophy Trout Lakes) are open to year-round fishing; trout may be harvested within the regulations as shown on page 23.
- **After opening day, trout stocked waters are open to fishing, including the days they are stocked, unless specifically listed with in-season closures (page 20). In-season closures also apply to designated Seasonal Trout Conservation Areas (page 21).**
- Only one daily creel limit of trout may be in possession. Once the creel limit is reached, an angler may continue to fish provided any additional trout caught are immediately returned to the water unharmed.
- **When fishing from the shoreline, no more than three fishing rods, hand lines or combination thereof may be used.**
- Separate stringers or buckets must be used for each angler's catch.
- Containers in boats may hold only the combined daily creel limit for each legal angler on board.
- Fish and Wildlife reserves the right to suspend stocking when emergency conditions prevail.

### Spring Trout Stocked Waters With No In-Season Fishing Closures

After opening day, these waters may be fished on the day they are stocked.

**Note:** All waters listed are stocked with trout pre-season (three-week period preceding opening day) except Round Valley and Merrill Creek reservoirs. The number in parentheses shows the anticipated number of in-season stockings (April 9 through May 25). A zero indicates the water will be stocked only during pre-season. For weekly updates on stocking details, call the **Trout Hotline's recorded message at (609) 633-6765.** (Spring stocking: April–May; Fall stocking: October; Winter stocking: November.) Or visit our website at [NJFishandWildlife.com](http://NJFishandWildlife.com) where you will also find directions to public-access portions of trout-stocked waters.
