Standard issue rate for DMAP permits is one permit per 10 acres.

Total number of DMAP permits requested:

#### This page is required for all applications, including renewals.

#### Map of DMAP Area

The map may be drawn in the box below or printed on a separate  $8 \frac{1}{2}$  x 11" sheet of paper.

<u>Aerial photos</u> can be printed and clearly marked with a pen. The link is to I-MapNJ, an environmental mapping tool that can provide you information on your neighborhood, county, or State (NJ). (Because of the large amount of data available you may have to wait for images to load if on dial-up connection. It takes several clicks to zoom in until aerial photo displays).

#### ÔŔ

Use satellite-derived images available at <u>www.maps.google.com</u> .

#### Maps must include the following items:

- 1. Boundaries of DMAP area and how boundaries are marked (ex. Fence line, signs, field edge, painted trees, etc). Boundaries must be clearly identifiable so that hunters will be able to stay on your property while hunting deer.
- 2. Description of area including:
  - a. cover types (forested, non-forested, agricultural field, etc),
  - b. principal land uses,
  - c. huntable areas
  - d. safety zones
- 3. Location of DMAP area referenced to highways, roads, rivers and streams, and distance to nearest to town. The DMAP area should be able to be located based on the map you provide.

#### NOTE: You are required to give this map to every permit recipient.

#### **Management Plan for DMAP Area**

Responses may be completed on a separate  $8 \frac{1}{2} x 11$  sheet of paper, but all information requested must be included.

- 1. Number of deer hunters hunting area in past years?\_\_\_\_\_
- 2. Describe deer management problem on this area. Include number of deer estimated or observed to be on property, the desired number of deer for the property, and describe and quantify amount of damage to crops, forests, landscaping, or other deer-related damage or impacts.

3. Describe past management actions, and current deer management goals and objectives for this area, and why these objectives cannot be met under the current deer hunting season format.

*Please list DMAP hunters below.* Attach additional page if necessary. Hunters will not be issued a permit without Division notification from the Applicant.
