

NJ Certified Scales

The following information is provided by the NJDEP Division of Fish and Wildlife as a courtesy to the public and does not constitute an endorsement of any business listed.

To locate a certified scale, the New Jersey Division of Weights and Measures [Herbert Segal, (732) 815-4853] suggests contacting these types of establishments:

Recommended sources

- Warehouse with a shipping department
- Junk yard
- Scrap metal recycler
- Marina with party / charter boat fishing

Possible sources:

- Bait and tackle shop
- Sporting goods store
- Local deli, butcher, grocer
- Contact your county office of weights and measures

Note: Truck scales are **not** accurate for weighing deer as the 20-pound scale increments are too large and may *under* represent a deer's weight.

A certified scale has a blue seal about 1 ½" across. The seal will state the year and quarter certified.

To register for certification a scale up to 1,000 pounds, contact Division of Weights and Measures: \$20 application fee. Call first to see if manufacturer's scale is one that is able to be approved.
