ANIMAL EXHIBITORS & ANIMAL THEATRICAL AGENCIES

If the regulated wildlife in your program - circus - performance is leased, on loan or under contract, you and the owner(s) of the regulated wildlife are required to obtain separate New Jersey Animal Exhibitor or Animal Theatrical Agency permits.

Regulated exotic and nongame wildlife entering the state must have the appropriate, current health certificates to ensure that they do not pose a threat to humans, native wildlife or agriculture, and that they are capable of performing as indicated in your application.

It is the responsibility of the permittee to act in accordance with state, federal and worldwide health organization mandates regarding any current applicable circumstance, restriction, quarantine, etc. for the exhibition of health risk or restricted regulated wildlife species.

The Division of Fish and Wildlife's primary concern is public safety and animal welfare.

☞ NEW JERSEY IS A **NO CONTACT STATE**. WILDLIFE MUST BE EXHIBITED IN SUCH A MANNER AS TO PREVENT ANY POSSIBILITY OF PUBLIC CONTACT. NON-COMPLIANCE WITH ANY REGULATION COULD RESULT IN FINES, PENALTIES AND REVOCATION OF PERMIT. ☞

EXAMPLES OF PROHIBITED CONTACT INCLUDE BUT ARE NOT LIMITED TO THE FOLLOWING:

- **Picture taking of the public holding regulated exotic and nongame wildlife.**
- **Hand feeding of regulated exotic and nongame wildlife by the public.**
- **Exhibition of any potentially dangerous wildlife outside of approved cage.**

*Elephant rides** and Camel rides (on backs only) are the only public contact allowed via ramp if your permit application has been approved. IMPORTANT NOTE: New Jersey Elephant Rides Policy and Separate Application is available upon request. If you intend to provide elephant rides, the Wildlife Permits Unit must have RECEIVED and APPROVED your elephant ride application prior to any elephant rides being given in New Jersey.*

It is the applicant's responsibility to provide for veterinary care and provide the proper diet while in New Jersey. **In order to avoid problems with animal health and to ensure public safety, feeding of regulated exotic and nongame wildlife by the public is strictly prohibited.**

Caging will be evaluated to ensure that there is no chance of escape or injury to the regulated wildlife or the public through direct contact. The type of act or performance should be described in enough detail for our staff to evaluate public and animal safety. Perimeter fences at least 3.5 feet in height and at least 4 feet from the main cage must be used to prevent contact with the regulated wildlife. Alternately, Plexiglas type caging is allowed if it is ascertained to be safe by the Division of Fish and Wildlife. **(See Criteria for the Transport - Caging - Exhibition of regulated wildlife, beginning on page 10).**

If you plan to exhibit potentially dangerous wildlife in a cage different than the transport cage, the type of public protection during transfer from one cage to the other must be described in detail. Any ramp used must be sturdy and be capable of preventing escape during transfer. **WALKING POTENTIALLY DANGEROUS WILDLIFE ON LEASHES TO THE ARENA CAGE IS STRICTLY PROHIBITED!**

The name of the on site supervisor along with a pager, telephone or fax number to allow us to contact him/her must be provided on the application.

NOTE: *Exhibit animals must never be left unattended by staff whether "on" or "off" exhibit.*

N.J.A.C. 7:25-4.6(h) states: “Animal exhibitors and animal theatrical agencies shall notify the Division no less than two weeks prior to any scheduled activity in New Jersey covered by permit in order to permit inspection of the activity by Division personnel”.

IMPORTANT NOTE: If an amendment is requested (other than any New Jersey Staff clerical error) after an Exotic & Nongame current year permit is issued, a \$5.00 amendment processing fee will be required, per amendment.

Effective immediately under the authority of the New Jersey Division of Fish and Wildlife: Captive Game and Exotic and Nongame regulations, **THERE IS A BAN UNTIL FURTHER NOTICE ON THE IMPORTATION OF WHITE-TAILED DEER, BLACK-TAILED DEER, MULE DEER, RED DEER, ELK AND MOOSE INTO THE STATE OF NEW JERSEY.** This is due to the growing concern of the spread of **CHRONIC WASTING DISEASE** into wild and farmed herds of animals in the deer family throughout the United States.

All Applicants bringing regulated hooved stock from outside of New Jersey **MUST PROVIDE** a photocopy of their **CURRENT USDA PERMIT**. Also **ATTACH PHOTOCOPIES OF CURRENT PERMITS AND HEALTH CERTIFICATES FOR MAMMALS**. All applicants bringing in any regulated hooved stock from outside of New Jersey must supply copies of health certificates certifying that the wildlife is free of Tuberculosis and Brucellosis and any other communicable disease. It is mandatory to comply with the USDA Tuberculosis Eradication in Cervidae: Uniform Methods and Rules (Cervid UM&R). Cervids not known to be affected with or exposed to tuberculosis that originate from other herds (i.e. non-Accredited, non-Modified or non-Qualified herds) may be moved interstate if they are accompanied by a certificate stating that such cervids have been classified negative in two official tuberculosis tests that were conducted no less than 90 days apart, that the second test was conducted within 90 days prior to the date of movement, and **that the animals were isolated from all other members of the herd during the testing period**. Additionally, the Cervid UM&R has **NO** minimum age standards for testing of cervids for interstate movements from herds that are unclassified. Photocopies of health certificates must be submitted with your application. For more information contact the United States Department of Agriculture.
