Made possible by a grant from:

Excellence in Environmental Education Guidelines for Learning (K-12) Workshop

The *Guidelines for Learning (K-12)* set a standard for high quality EE across the country, based on what an environmentally literate person should know and be able to do. They draw on the best thinking in the field to outline the core ingredients for EE.

Join in either session of this interactive full-day workshop to develop an in-depth understanding of the Guidelines for Learning, how they relate to the ELP, and how they can help you improve both formal and nonformal programs and instruction.

Date: Saturday, 23 February 2013
Location: New Jersey Audubon Plainsboro Preserve, Plainsboro, NJ
Time: 8:30 AM to 4:45 PM

Date: Tuesday, March 19 2013
