

Somerset County

Bound Brook High School

**LaMonte Building
West 2nd Street
Bound Brook NJ 08805**

**6 – 12 District
1,202 students**

PROGRAM:

The Bound Brook School District is located in a small urban community in Somerset County. Bound Brook was the first school in the state to offer the Project Lead the Way Engineering Program which teaches both theories and applications of engineering principles in our state-of-the-art engineering laboratory. This facility was developed and built in collaboration with the Johnson and Johnson Corporation and Ethicon, our partner in the program. We also boast an Allied Health Bridge to Employment Program in partnership with Somerset Medical Center, Raritan Valley Community College and Rutgers.
