PROGRAM:

The Mt. Ephraim School District was established in the early 1900's and is a centerpiece of the community. It consists of the Mary Bray Elementary School housing Pre-K to fourth grades, and the Raymond W. Kershaw Middle School holding fifth through eighth grades. We have recently re-established a full-day kindergarten program. Each student in the middle school has an individual Learning Academic Plan Portfolio to help them and their parents follow their academic progress. There is a fully-equipped media center, technology lab and science lab. Audubon High School is the sending district for the graduates of the middle school.
