School-to-Career and College Pathways Features:

- At least one-third of the courses in each Pathway represent an immersion into the identified career path and more traditional courses are adapted to integrate into that career path.
- Students can earn up to 51 college credits in dual credit courses with the Pathways.
- Flexible schedules facilitate heightened intensity in the skills and content of each course.
- Programs boast interactive video distance learning courses that can bring instruction and virtual field trips from all over the country.
- Most Pathways include a workplace internship in the fourth year to make the final connection between classroom learning and workplace performance.
