The Tuckerton Elementary School is located in the historic seaport town of Tuckerton, famous for its clamming, fishing and crabbing industries. The nearby Tuckerton Seaport Museum and the historic Fish Factory provide points of interest for visitors during the busy tourist season, and the area boasts beautiful Victorian era homes. The school has been newly renovated with state-of-the-art technology and air conditioning systems. Full-day kindergarten has been offered since 1999, and the school now also offers a comprehensive preschool program for four year olds.
