Honorable President and
Members of the Bedminster Township Board of Education
Township of Bedminster
County of Somerset, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Township of Bedminster School District ("District") for the fiscal year ending June 30, 2010 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education ("Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four (4) sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133. "Audits of States and Local Governments, and Non-Profit Organizations", and the State Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid". Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES:

The Township of Bedminster School District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by GASB 14. All funds and account groups of the District are included in this report. The Bedminster Township Board of Education and its school constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 8. These include regular, as well as special education for handicapped youngsters. The District completed the 2009-2010 fiscal year with an enrollment of 593 students, a decrease of 13 students from the previous year's enrollment.

The Honorable President and Members of
 The Board of Education

2003-2004	591.0	4.23%	96.0%
2002-2003	567.3	-4.51%	97.1%
2001-2002	594.1	-0.39%	93.4%
2000-2001	596.4	-2.98%	92.9%

2) ECONOMIC CONDITION AND OUTLOOK: The Township of Bedminster, with approximately 8,498 residents and 26.7 square miles, is one of Somerset County's oldest municipalities, chartered in 1749. Bedminster is steeped in colonial and Revolutionary War history. The Township was founded as an agricultural center and during the 19th century, the beauty of the area attracted many wealthy families who built expensive estates. It remained a quiet rural area until the 1970's when I-78 was opened along its southern edge, and I-287 crossed at the eastern border. The Township is comprised of several villages: Bedminster Village, Burnt Mills, Lamington, Portersville, Pluckemin and Union Grove.

Beginning in the mid 80's, the Hills, with its town homes, condos, and single family houses, was developed on Schley Mountain, east of I-287, tripling the population. Today, approximately sixty-five percent (65%) of Township residents live in the Hills.

Somerset County, located in the heart of the nation's largest metropolitan area, is comprised of twenty-one (21) municipalities, encompasses 305 square miles, offering a diversity of landscape and a balance between urban, suburban and rural neighborhoods. Major goals of the County government include environmental protection, conservation of resources, proper planning for future growth and development of shared services.

During the 2003-2004 school year, the Somerset Hills School District passed a referendum to expand and improve the Somerset Hills Regional School District's facilities. A substantial portion of those funds was used to renovate and expand Bernards High School. As a result, beginning with the 2004-2005 school year, a portion of the interest expenses associated with those funds were borne by the Bedminster Township School District and will continue over the next twenty-five (25) years.

3) MAJOR INITIATIVES:

Monitoring

The school district was monitored by the State Department of Education in January 2010 and the district achieved compliance and received a rating of "High Performing" which is the highest rating possible.

Building

The Bedminster Township Public School District is dedicated to the education of students by instilling a passion for learning and exploration in a creative, nurturing environment. In September 1993, the community celebrated the opening of a state of the art facility to accommodate rapid growth and increased enrollment. By 1998-99, the district completed the second phase of its building program, with a \$5.2 million dollar project, providing the additional second phase of its building program, providing additional space for approximately 220-240 students with the expansion of the core facilities to provide a new multi-purpose room, a new science lab and a new media technology suite.

The completion of the third floor addition in 1999, has allowed the district to enhance and expand its programs and to maintain its preferred class size of 18-22. The Technology Lab is used as a technology resource room in which students and teachers can do research, write reports and work individually or collaboratively on projects. The room adjacent to the Technology Lab is used for Gifted and Talented education and supports long-term projects and creative analyses. The new science lab has provided the opportunity to offer lab experiences to students in grades 5 and 6 and to offer lab experiences coupled with computer simulation and modeling for students in grades 7 and 8. The third floor also houses a middle school guidance counselor, endorsed by the community via special budget question, who serves as a counselor, grade advisor, assist in the transition to high school, assists with State testing, and plans and prepares for character education.

During the fiscal year 2009-2010, all major systems and equipment were inspected and serviced. Comprehensive Maintenance Plan (CMP) activities were completed in accordance with and as scheduled in the CMP. Beginning in the 1999-2000 school year, and every five (5) years thereafter, each district shall prepare and submit to the Commissioner of Education a long-range facilities plan that details the district's school facilities needs and the district's plan to address those needs for the ensuing five (5) years. This plan includes an educational adequacy inventory of the existing school facility, the identification of all deficiencies in the facility and the district's proposed plan for future construction and renovations. During the first cycle, the district's long-range facilities plan was approved by the State Department of Education on July 5, 2001. The district submitted its second plan during the 2005-2006 school year. The Plan was approved by the Department of Education on June 13, 2008.

Student Achievement

Our community holds extremely high expectations for active learning and achievement. The Bedminster student body reflects the aspiration level of our parents, most of who hold high-level management positions. To this end, the Board supports a curriculum that is comprehensive and challenging. Students enjoy opportunities in all "traditional" offerings such as language arts and literature, mathematics, algebra, geometry, inquiry based science, and social studies. Our curricula are aligned with the NJ Core Curriculum Content Standards.

The school also offers an Honors Humanities course, Honors Science course for eligible students and a robust program of School Wide Enrichment which services students who did not qualify for our Gifted and Talented Program. In the past two years the district has made great strides in the infusion of technology, and the current budget supports a pilot for blended 1:1 computers in selected classes. The professional development is provided primarily in a "push-in"

through a partnership with the Rutgers Center for Math, Science and Computer Education. Pupils with unique needs and abilities have access to a host of services including basic skills improvement, English as a Second Language, special education programming, child study team services, occupational therapy, physical therapy and adaptive physical education. To round out their preparation, students are exposed to the visual and performing arts, technology, world languages, family and consumer sciences, health and physical education and school wide enrichment.

Moreover, our eighth grade students avail themselves to forty (40) hours as volunteers to satisfy a community service requirement. Others, so inclined, may participate in extra and co-curricular activities or a full range of competitive athletics.

As the school district continues to move forward we have identified a number of important priorities to bring us to the leading edge of contemporary pedagogy. There has been a major movement to improve the primary reading and writing program, using a Balanced Approach to Literacy in grades K, 1 and 2, as well as the implementation of the Foundations program, which is heavily supported through phonics education.

The district has made major strides in our special education program by extending our inclusive education model across the span of grades. We have implemented an ABA autistic program, as well as an extended day Pre-K program to meet students' needs in-district, and a pre-school handicapped class for children whose IEP's demand the social interaction with non-classified peers. Last year the district opened a class for Multiply Disabled children, with a particular focus on the needs of intermediate age and middle school age children.

In 2006, the district applied for and was awarded the *Governor's Initiative on Autism Discretionary Grant* in the amount of \$300,000. The new model program has provided services for students on the autism spectrum disorder, as well as students with severe language, fine motor, and gross motor, pre-academic, cognitive, behavioral and social delays. This grant has enabled the district to expand the program to be fully integrated within our school community and to take part in an enriched curriculum such as special area classes.

The district has continued its integration of school-wide technology with full implementation of a wireless system for all staff; they have the capacity to participate in a number of high quality video streaming, the use Active Boards and/or Smart Boards through the building, multiple rolling laptop carts, and 1:1 computers in selected classes. There is an ongoing emphasis on professional development related to instructional infusion, effective communications, and web based applications intended to improve effectiveness and efficiency. That professional development is substantially funded by the Title II NCLB grant. In addition, we are constantly seeking recognition and support for innovative programs. These priorities have been embraced in our annual school improvement goals and are reflected in ongoing professional staff development. We are extremely proud of our web-site, www.bedminsterschool.org, which was developed with Schoolwires to provide flexibility in use and opportunities to interact with the community.

The school district has met and surpassed all State requirements for student achievement of state proficiency levels in cluster 3-5 and 6-8, with the exception of those classified in need of special education services. As the NCLB thresholds continue to increase, children with cognitive deficits and multiple disabilities are having more and more difficulties.

The district's before and after school Academic Support Initiative and the Tutor Mentor Programs for at-risk students were continued with combined support from our Board of Education, the Municipal Alliance and No Child Left

Behind (NCLB) funding: This satisfies our legal obligations to provide remedial services for those children who do not meet proficiency on the NJASK annually testing.

The district has revised all its curricula in the past five (5) years, and continues to update curricula in accordance with the latest New Jersey Core Curriculum Content Standards (NJCCCS). Last year, the district revised its Science Curriculum and Family Consumer Science Curriculum to meet the 2009 State Standards. During the 2010-2011 academic year, we anticipate a revision of the Language Arts Curriculum to make changes to be in conformity with the new State Standards.

After graduation from the Bedminster Township School, the majority of our students attend Bernards High School, part of the Somerset Hills School District in Bernardsville. We work closely with their teaching staff and administration to insure that our curriculum is fully articulated and that our students receive the highest level of preparation for their secondary school experience.

Staff Development

Our faculty members are committed to the constant improvement of their instructional skills and the acquisition of new strategies that are supported by an intensive plan of professional development. Teachers benefit from opportunities for graduate study at colleges and universities, professional development seminars, and in-district workshops to support their needs and desire to grow professionally. The administration fosters an environment of self-reflection and collaboration by scheduling common planning time for teachers.

Throughout the 2009-2010 school year, every one of our teachers participated in at least twenty (20) hours of professional development via in-district workshops, out of district workshops, academic coursework, staff meetings that incorporated professional development and workshop facilitation by turn-key trainers. We are also extremely proud of the fact that our goal planning by the Board, administration, and Local Professional Development Committee served as the guide for critical areas of staff training.

District Focus Areas

- Grade K-2 teachers continued their work during the year to gain a better understanding of the balanced literacy approach to reading and language arts, including meetings and workshops to investigate use of the DRA, the implementation of exemplars and portfolios, writing strategies and Foundations.
- All staff participated in the mandatory HIB Training, Affirmative Action Training, RTK training and suicide prevention. Trainings are now offered through a web based prompt which has eliminated costly out of district trainers.
- A team of teachers attended TECHSPO; one staff member was a present at the New England League of Middle Schools Annual Conference, and a cross section of staff participated in technology workshops to gain knowledge on the use of Active Boards and Smart Boards and to implement the new grade reporting system which makes grades, interim report cards and report cards available to parent on-line.
- Others attended workshops for the NJCCS Standards, the NJ Foreign Language Teachers Association, NJ Science Teachers Associations, NJ Math Teachers Association, the Art Educators of NJ, NJ Association of Physical Education Health and Recreation, NJ G & T, and the Rutgers Literacy Program.

 The Board of Education

- Our teachers planned and coordinated the two (2) annual in-service days, teachers served as facilitators and provided workshops on technology, early literacy mathematics, virtual learning, and the crossover from the NJCCS to the NJASK.

Technology

The district continued to implement the strategies for meeting the goals set forth in the three (3) year technology plan. Guided by a technology education curriculum for Kindergarten through grade eight that emphasizes the infusion of technology into all areas of the school curricula, the teaching staff was involved in specific professional development to meet that end. All staff members have made attempts to improve their ability to utilize technology in their teaching. Staff members engaged in self-paced professional learning and the district provided professional development training. We continued to enhance its technology infrastructure and the entire building has wireless network capability, with important upgrades installed recently. Each elementary teacher has access to a laptop computer for instructional use and five (5) sets of wireless-ready laptops are available for classroom use on rolling carts. The district's network switches were upgraded in order to maintain state-of-the-art network performance; the first phase occurred in late 2006 and the second phase was completed in 2007. In accordance with the objectives and implementation strategies of the district's Three-Year Technology Plan, equipment, services and software were added for the 2009-2010 school year to enhance curriculum and instruction. The district's Internet access was updated to 3 Mbps 2xT1 service to accommodate increasing throughput demand. Google Apps services are being utilized by students and teachers to improve collaborative learning. Interactive white boards have been installed in select classrooms, with plans to continue adding interactive boards to classrooms over the next two (2) years. As of the 2009-2010 school year, almost all classrooms were equipped with multimedia projection and sound systems, some of which include the interactive boards. A new student information system was installed in the spring of 2008 and it was activated in September of 2008. To improve communications with students and parents, the new system has a web-based portal that enables parents and students to log on and view up-to-date attendance, grading and assignment information for each of their children. The system also has a web-based teacher grade book, which allows teachers to maintain grades and assignments electronically. The information is then automatically posted to the parent portal.

Pertinent professional development training was conducted throughout the year, which was associated with the use of the new equipment and services, as well as the new curriculum materials. Teachers conducted peer-led in-service sessions, covering such topics as 'Effective Use of Interactive Boards', 'Google Apps in the Curriculum', 'Digital Storytelling', and 'Technology Use in the Inclusion Classroom'. Several teachers were selected to present some of these sessions at TECHSPO 2010. It should also be noted that through a shared service agreement, the Bedminster Board of Education, under the auspices of our Technology Coordinator, has assumed responsibility for the planning, care and maintenance of the Clarence Dillon Public Library technology systems and equipment.

Our school goals are linked to professional development and are an integral element in every teacher's professional improvement plan. It is our belief that systemic change, and the corresponding improvement in student achievement, cannot be realized unless goals, pedagogy, and the professional development of staff, both formally through professional improvement plans, and informally through self-reflection, are institutionalized and supported by resources. During this past year, the professional improvement was guided by a need to improve student writing and the infusion of technology. This goal is manifested in Professional Growth Plans for all teachers and is identified in formal and informal classroom observations.

The district's professional development plan was submitted to the Bedminster Township Board of Education for

approval and was approved by the County Professional Development Board on April 26, 2010.

Community Outreach

As part of the Bedminster Township Board of Education Goals, a comprehensive community survey was completed during the 2008-2009 school year.

A comprehensive Parent Survey was conducted in April of 1995. A general community survey was conducted in April of 1998 and updated in the spring of 2003. The latest report on the community survey was presented to the Board of Education in September 2003. The results of the survey were extremely positive and the general perception of the sample community members was that our school system is of high quality and well-managed, structured, safe and well regarded, with a positive impact on property values. The area of lowest score was the question regarding how well citizens know what the school curriculum covers. Using this information, the Board developed annual Board goals for curriculum, community relations, professional development, and personnel.

The Board of Education has invited and will continue to invite broad representation on critical issues and initiatives.

The Board encourages community input to assist with the strategic planning and decisions about the educational program. In fact, stakeholders are well represented on the Bedminster Technology Steering Committee, Food Advisory Committee, the Somerset Hills Municipal Alliance Meetings, the Graduation Committee, the 8th Grade Committee, the After Care Committee the Governor's Teacher Recognition Committee, Read Across America , and the Parent Teacher Organization.

Community programs and meetings held at the school during the year included the Annual Senior Citizens Brunch, hosted by the school, the DARE program conducted by the Police Department, Somerset Municipal Alliance, the Annual Lions Club and PTO co-sponsored Halloween Parade and Carnival. Intergenerational activities were planned with members of our Senior Community at Fellowship Village, and an extensive Township Recreation Program for both children and adults is held year-round. Shrinking resources however are becoming a concern, and there exists the probability that we will not be able to offer all of these programs in the 2010-2011 school year.

The district's commitment and emphasis on the importance of community volunteerism is demonstrated by the forty (40) hours of community service required by all eighth grade students.

4) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure developed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits required estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for insuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure,

The Honorable President and Members of
The Board of Education
Township of Bedminster School District
Page 8
December 3, 2010

including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the capital projects fund. The final budget amount, as amended, for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance at June 30, 2010.

6) ACCOUNTING SYSTEM AND REPORTS:

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Basic Financial Statements, Note 1".

7) DEBT ADMINISTRATION: On October 14, 1997, the Bedminster Township Board of Education held a special school district election to refinance and cancel its outstanding lease purchase agreement dated March 28, 1991, as well as to issue general obligation bonds in the amount of \$5,285,000 to construct a third story to its existing building. The total of these two (2) issues was \$15,605,000. General obligation payments for 2009-2010 totaled \$975,000.

The Board again was able to take advantage of market conditions and refinanced its 1997 general obligation bonds in October 2005, realizing a direct savings to taxpayers of approximately \$29,000 per year for thirteen (13) consecutive years.

8) CASH MANAGEMENT: The investment policy of the district is guided in large part by State statute as detailed in "Notes to the Basic Financial Statements, Note 3". The district has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires Governmental Units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to general liability, hazard and theft insurance on property and contents and fidelity bonds.

10) OTHER INFORMATION: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nisivoccia & Company LLP was appointed by the Board on July 23, 2009. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related OMB Circular A-133 and State Treasury Circular Letter 04-04 OMB. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this

Independent Auditors' Report

The Honorable President and Members
 of the Board of Education
 Township of Bedminster School District
 County of Somerset, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Township of Bedminster School District (the "District") in the County of Somerset as of and for the fiscal year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the foregoing table of contents. These financial statements are the responsibility of the Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Township of Bedminster School District in the County of Somerset as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the fiscal year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2010 on our consideration of the Board of Education of the Township of Bedminster School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

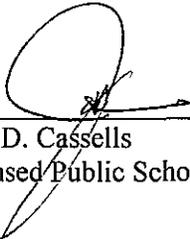

The Honorable President and Members
of the Board of Education
Township of Bedminster School District

The Management's Discussion and Analysis section and Budgetary Comparison Information listed on Exhibits C-1 to C-3 and I-2 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of Education of the Township of Bedminster School District's basic financial statements. The accompanying introductory section, supplementary schedules such as the combining and individual fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. Additionally, the schedules of expenditures of federal and state awards are presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*; and New Jersey's OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and are not a required part of the financial statements. The supplementary schedules and schedules of expenditures of federal and state awards have been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS

**Management Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
(Unaudited)**

This section of Township of Bedminster School District's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2010. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

Financial Highlights

- The District's financial status is stable, in spite of relatively level state aid for several years.
- Overall revenue was \$17.67 million.
- Overall expenses were \$17.07 million.
- Enrollment in the District has decreased approximately 2.14%.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more* detail than the District-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds* statements offer *short-* and *long-term* financial information about the activities the District operates like a business, such as food services.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1

Organization of the School District's Financial Report

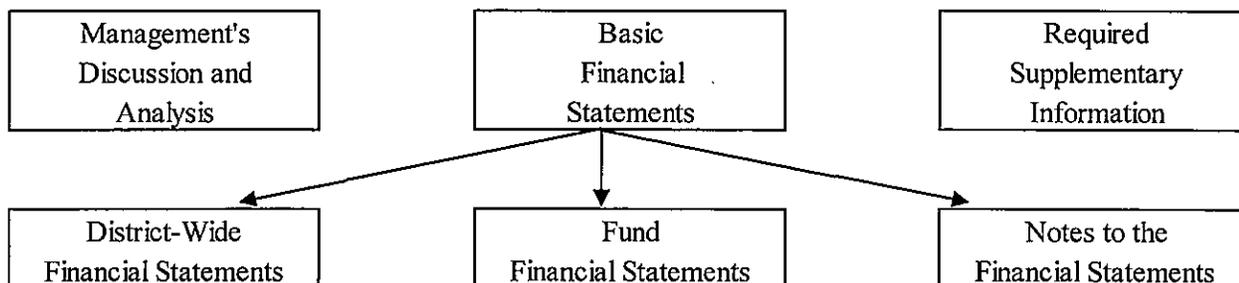

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights that structure and contents of each of the statements.

District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities*: The District charges fees to help it cover the costs of certain services it provides. The District's food service is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenue (such as federal grants).

The District has three kinds of funds:

- *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on {1} how cash and other financial assets that can readily be converted to cash flow in and out, and {2} the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.
- *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows. *Internal service funds* (the other kind of proprietary fund) report activities that provide supplies and services for other programs and activities. The District currently does not maintain any internal service funds.
- *Fiduciary funds*: The District is the trustee, or *fiduciary*, for assets that belong to others, such as scholarship funds and the student activities funds. The District is responsible for ensuring that the assets reported in these

funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

Notes to Financial Statements: Provide additional information essential to a full understanding of the District-wide and fund financial statements.

Financial Analysis of the District as a Whole

Net Assets. The District's combined net assets increased by \$607,329. Net assets from governmental activities increased by \$556,360 and net assets from business-type activities increased by \$50,969. Net assets invested in capital assets increased by \$608,781, restricted net assets decreased by \$47,810, and unrestricted net assets increased by \$46,358.

Changes in Net Assets. The District's combined net assets were \$6,860,757 on June 30, 2010, an increase of \$607,329 or 9.71% more than they were the year before (See Figure A-3). Net Assets Invested in Capital Assets increased by \$608,781 due to the payment of \$975,000 in bond principal, fixed asset additions of \$75,300, an adjustment to the appraisal cost of food services assets in the amount of \$41,240, offset by \$479,541 in depreciation and a net adjustment of \$3,219 due to the disposal of fixed assets. Restricted net assets decreased by \$47,810 due to a \$5 increase in the Capital Reserve offset by a decrease of \$11,583 in encumbrances and a decrease in excess surplus of \$36,232. Unrestricted net assets increased by \$46,358 (See Figure A-3).

Revenue Sources. The District's total revenue for the 2009/10 school year was \$17,671,872. (See Figure A-4). Property taxes and state formula aid accounted for most of the District's revenue, with local taxes accounting for \$15,057,395 of the total, or 85.21 percent. (See Figure A-5). Another 12.81 percent came from state and federal aid and the remainder from miscellaneous sources and charges for services.

The total cost of all programs and services was \$17,064,544. The District's expenses are predominantly related to instructing and providing pupil services (76.50 percent). (See Figure A-6). The District's administrative and business activities accounted for 5.92 percent of total costs. The most significant contributor to the cost of Maintenance and Operations was the increase in energy costs associated with a particularly cold winter. It is important to note that \$479,541 of depreciation is included in expenses for the year.

Governmental Activities

As discussed elsewhere in this commentary, the financial position of the District remains stable. Maintaining existing programs with a slight decrease in enrollment and the provision of special programs and services for disabled pupils, combined with rising salary, benefits and energy costs, place great demands on the District's resources.

Careful management of expenses remains essential for the District to sustain its financial health. Among the many significant cost savings actions implemented during the year were:

- Participation in an insurance pool operated by New Jersey School Boards Association Insurance Group resulting in low cost property, liability and workers compensation insurance.
- Shared services agreement with the Clarence Dillon Library which provides technology services.
- Participation in Joint Transportation Agreements.
- Participation in Joint Purchasing Agreements.
- Participation in the ACT Program for electricity and telecommunications.
- Participation in the natural gas consortium with Middlesex Regional Educational Services Commission.
- Shared services with the Township which provides snowplowing, mowing, painting and minor paving services.

It is crucial that the District examine its expenditures carefully. Increasing staff, parental and student demands for activities, small class sizes and programs must be evaluated thoroughly. District resources are at their tightest level in a decade. Figure A-7 presents the cost of six major District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs).

The net cost shows the financial burden placed on the District's taxpayers by each of these functions:

Business-Type Activities

Net assets from the District's business-type activity increased by \$50,969. (Refer to Figure A-4).

- Food services revenue exceeded expenses by \$3,846 and an adjustment to the appraised value of fixed assets in the amount of \$47,123 accounted for all of the increase in the net assets of the business-type activities.

Financial Analysis of the District's Funds

The District's financial position remains relatively stable despite significant changes in the student clientele and difficult economic times. As the demographics of our geographic area change, additional student needs and expenses arise. Difficult economic times have had a direct impact upon the District's revenue sources.

All of these factors are likely to continue for the next several years. To maintain a stable financial position, the District must continue to practice sound fiscal management, including efficiency/cost containment practices, evaluation of services and programs, energy conservation, and seeking additional sources of revenues.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments are due to changes made within budgetary line items for changes in school-based needs for programs, supplies and equipment.

Long-term Debt

At year-end, the District had \$6,050,000 in general obligation bonds outstanding – a decrease of \$975,000 from last year – as shown in Figure A-9. (More detailed information about the District’s long-term liabilities is presented in Note 7 to the financial statements.)

	<u>\$ 6,132,318</u>	<u>\$ 7,096,686</u>	<u>-13.59%</u>

The District continued to pay down its bonded debt, retiring \$975,000 of outstanding bonds. In fiscal year 2009/10 compensated absences increased by \$10,632.

Factors Bearing on the District’s Future Revenue/Expense Changes

At the time these financial statements were prepared and audited, the District was aware of existing circumstances that could significantly affect its financial health in the future:

- Budget development will continue to be challenging to maintain existing programs given the economic climate, an aging building, rising employee benefits and utility costs, and the State mandated restriction on fund balance of no more than two percent (2%), which has had a substantial impact on the district when unanticipated expenditures occur.

Contacting the District’s Financial Management

This financial report is designed to provide the District’s citizens, taxpayers and creditors with a general overview of the District’s finances and to demonstrate the District’s accountability for the money it receives. AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

Total Net Change in Fund Balances - Governmental Funds (from B-2) \$ (15,911)

Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are Different Because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which depreciation and deleted assets exceeded capital outlays in the period.

	\$	(479,541)	
Depreciation Expense		(3,219)	
Deleted Assets, net of accumulated depreciation		75,300	
Capital outlays		75,300	(407,460)

In the statement of activities, certain operating expenses, e.g., compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).

(10,632)

In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. When the accrued interest exceeds the interest paid, the difference is a reduction in the reconciliation (-); when the interest paid exceeds the accrued interest, the difference is an addition to the reconciliation (+).

15,363

Repayment of serial bonds payable is an expenditure in the Governmental Funds, but the repayment reduces Long-Term Liabilities in the Statement of Net Assets and is not reported in the Statement of Activities.

TOWNSHIP OF BEDMINSTER SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (the "Board") of Township of Bedminster School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board publication, Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources, and significances) should be included in the financial reporting entity. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include an elementary school, located in the Township of Bedminster. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

B. Basis of Presentation:

District-Wide Financial Statements:

The statement of net assets and the statement of activities present financial information about the District's governmental and business type activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

TOWNSHIP OF BEDMINSTER SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation (Cont'd)

Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary and fiduciary - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

General Fund: The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by NJDOE, the District includes budgeted capital outlay in this fund. GAAP, as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund: The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund: The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund: The Debt Service Fund is used to account for the accumulation of resources for and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The District reports the following proprietary fund:

Enterprise (Food Service) Fund: The Enterprise Fund accounts for all revenue and expenses pertaining to the Board's cafeteria operations. The Food Service Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

TOWNSHIP OF BEDMINSTER SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation (Cont'd)

Additionally, the District reports the following fund type:

Fiduciary Funds: The Fiduciary Funds are used to account for assets held by the District on behalf of others and includes the Student Activities Fund, Payroll Agency Fund and the Unemployment Compensation Insurance Trust Fund.

C. Measurement Focus and Basis of Accounting

The district-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net assets may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenue.

Reports for the District's Food Service Fund are prepared following the Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with Governmental Accounting Standards Board (GASB) pronouncements.

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. All budget amendments/transfers must be made by School Board resolution. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budget during the year).

D. Budgets/Budgetary Control (Cont'd)

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The general fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the last two state aid payments for the current year. Since the State is recording the last two state aid payments in the subsequent fiscal year, the District cannot recognize these payments on the GAAP financial statements.

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenue and Expenditures:

	General Fund	Special Revenue Fund
Sources/Inflows of Resources:		
Actual Amounts (Budgetary Basis) "Revenue" from the Budgetary Comparison Schedule	\$ 15,658,077	\$ 476,030
Differences - Budget to GAAP:		
Prior Year State Aid Payments Recognized for GAAP Purposes, not Recognized for Budgetary Statements	91,823	
Current Year State Aid Payments Recognized for Budgetary Purposes, not Recognized for GAAP Statements	(97,465)	
Total Revenues as Reported on the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds	\$ 15,652,435	\$ 476,030

E. Cash and Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less.

New Jersey school districts are limited as to the type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A 17:9-41et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

F. Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing source/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net assets, except for amounts due between governmental and business-type activities which are presented as internal balances.

G. Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

H. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenue at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

I. Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

J. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the general or enterprise funds represent payments made to vendors for services that will benefit periods beyond June 30, 2010.

K. Capital Assets:

During the year ended June 30, 1994, the District established a formal system of accounting for its capital assets. Capital assets acquired or constructed subsequent to June 30, 1994, are recorded at historical cost including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Land has been recorded at estimated historical cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment.

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is \$2,000. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the District-wide statements and proprietary funds are as follows:

	<u>Estimated Useful Life</u>
Buildings	50 years
Site Improvements	20 years
Furniture and Equipment	10 to 15 years
Computer and Related Technology	5 years
Vehicles	8 years

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures in the governmental fund upon acquisition. Fixed assets are not capitalized and the related depreciation is not reported in the fund financial statements.

L. Long Term Liabilities:

In the district-wide and enterprise fund statements of net assets, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or enterprise funds. Bond issuance costs, as well as applicable bond premium and discounts, are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. In the fund financial statements, governmental fund types recognize bond issuance costs as expenditures in the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

M. Accrued Salaries and Wages

Certain District employees, who provide services to the District over the ten-month academic year, have the option to have their salaries evenly disbursed during the entire twelve month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account. As of June 30, 2010, the amount earned by these employees but not yet disbursed was \$77,734.

N. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's various employee contracts/agreements. Upon termination, employees are paid for accrued vacation. The District's various employee contracts/agreements permit employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee contracts/agreements.

In the district-wide *Statement of Net Assets*, the liabilities, whose average maturities are greater than one year, should be reported in two components – the amount due within one year and the amount due in more than one year.

O. Deferred Revenue

Deferred revenue in the special revenue fund represents cash which has been received but not yet earned.

P. Fund Balance Appropriated

General Fund: Of the \$678,463 General Fund fund balance at June 30, 2010, \$106,755 is reserved in the capital reserve account; \$50,000 is reserved in the maintenance reserve account; \$259,690 has been legally reserved for tuition adjustment for the fiscal year ended June 30, 2011 in accordance with N.J.A.C.6A:23-3.1(F)(8); \$36,232 is unreserved-designated for subsequent year's expenditures; and \$225,786 is unreserved and undesignated, which is \$97,465 less than the calculated maximum unreserved fund balance due to the final State Aid payments that are not recognized until the fiscal year ending June 30, 2011.

Calculation of Excess Surplus: In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, C.73 (s1701), the designation for Reserved Fund Balance-Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The District had no excess surplus.

TOWNSHIP OF BEDMINSTER SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

P. Fund Balance Appropriated (Cont'd)

Unreserved and Undesignated fund balance in the General Fund is less on a GAAP basis than budgetary basis in the amount of \$97, 465 as of June 30, 2010 as reported in the fund statements (modified accrual basis). P.L. 2003, C.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the final state aid payments and not the fund balance reported on the fund statement which excludes the last state aid payments noted above.

Q. Net Assets:

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

R. Fund Balance Reserves:

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. Fund balance reserves have been established for a capital reserve, a tuition reserve and a maintenance reserve as defined by State law.

S. Revenue - Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

S. Revenue - Exchange and Nonexchange Transactions: (Cont'd)

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes, interest and tuition.

T. Operating Revenue and Expenses:

Operating revenue are those revenues that are generated directly from the primary activity of the Enterprise Fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the Enterprise Fund.

U. Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40, *Governmental Accounting Standards Board Deposit and Investment Risk Disclosures*, requires disclosure of the level of custodial credit risk assumed by the District in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Interest Rate Risk - In accordance with its cash management plan, the District ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk - The District limits its investments to those authorized in its cash management plan which are those permitted under state statute as detailed below and on the following page.

Deposits:

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments:

New Jersey statutes permit the Board to purchase the following types of securities:

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units;
- (5) Local government investment pools;
- (6) Deposits with the State of New Jersey Cash Management Fund; or

- (7) Agreements for the repurchase of fully collateralized securities if:
- (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) above;
 - (b) the custody of collateral is transferred to a third party;
 - (c) the maturity of the agreement is not more than 30 days;
 - (d) the underlying securities are purchased through a public depository as defined in statute; and
 - (e) a master repurchase agreement providing for the custody and security of collateral is executed.

As of June 30, 2010, cash and cash equivalents and investments of the District consisted of the following:

	<u>Capital and Maintenance Reserves</u>	<u>Cash and Cash Equivalents</u>	<u>Total</u>
Checking Accounts	\$ 156,755	\$ 210,874	\$ 367,629
New Jersey Cash Management Fund		11,842	11,842
New Jersey Asset and Rebate Management		24,680	24,680
	<u>\$ 156,755</u>	<u>\$ 247,396</u>	<u>\$ 404,151</u>

During the period ended June 30, 2010, the District did not hold any investments. The carrying amount of the Board's cash and cash equivalents at June 30, 2010, was \$404,151 and the bank balance was \$704,986. The \$11,842 in the New Jersey Cash Management Fund and the \$24,680 in New Jersey Asset and Rebate Management are uninsured and unregistered.

NOTE 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by Board resolution for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the State Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

NOTE 4. CAPITAL RESERVE ACCOUNT (Cont'd)

The activity for the Capital Reserve for the fiscal year ended June 30, 2010 is as follows:

Beginning Balance, July 1, 2009	\$ 106,750
Interest Earnings	<u>5</u>
Ending Balance, June 30, 2010	<u>\$ 106,755</u>

The balance in the capital reserve account at June 30, 2010 does not exceed the LRFP balance of local support costs of uncompleted capital projects.

NOTE 5. MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account in the amount of \$50,000 was established by the Township of Bedminster School District on June 11, 2009. The funds for the establishment of this reserve were withdrawn from undesignated unreserved general fund balance. These funds may be used for specific activities necessary for the purpose of keeping a school facility open and safe for use or in its original condition, and for keeping its constituent buildings systems fully and efficiently functional and for keeping their warranties valid but cannot be used for routine or capital maintenance. The purpose of the reserve is to provide funds for anticipated expenditures required to maintain a building.

Pursuant to N.J.A.C. 6A:26A-4.2 funds may be deposited into the maintenance reserve account at any time by board resolution to meet the required maintenance of the district by transferring undesignated, unreserved general fund balance or by transferring excess, undesignated, unreserved general fund balance that is anticipated to be deposited during the current year in the advertised recapitulation of balances of the subsequent year's budget that is certified for taxes. Funds may be withdrawn from the maintenance reserve account and appropriated into the required maintenance account lines at budget time or any time during the year by board resolution for use on required maintenance activities by school facility as reported in the comprehensive maintenance plan. Funds withdrawn from the maintenance reserve account are restricted to required maintenance appropriations and may not be transferred to any other line-item account. In any year that maintenance reserve account funds are withdrawn, unexpended required maintenance appropriations, up to the amount of maintenance reserve account funds withdrawn, shall be restored to the maintenance reserve account at year-end. At no time, shall the maintenance reserve account have a balance that exceeds four percent of the replacement cost of the current year of the district's school facilities. If the account exceeds this maximum amount at June 30, the excess shall be reserved and designated in the subsequent year's budget. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

NOTE 7. LONG-TERM LIABILITIES (Cont'd)

B. Compensated Absences Payable:

The liability for compensated absences of the governmental fund types is recorded in the current and long-term liabilities. The current portion of the compensated absences balance of the governmental funds is \$-0- and is separated from the long-term liability balance of compensated absences of \$82,318.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2010, no liability existed for compensated absences in the Proprietary Funds.

The General Fund will be used to liquidate the governmental funds Compensated Absences Payable. The bond payments will be paid from the Debt Service Fund.

NOTE 8. PENSION PLANS

Substantially all of the Board's employees participate in one of the two contributory, defined benefit public employee retirement systems: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employee's Retirement System (PERS) of New Jersey. These systems are sponsored and administered by the State of New Jersey. The TPAF is considered a cost-sharing, multiple employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other noncontribution employers. The PERS is also considered a cost-sharing, multiple-employer plan.

Employees who are members of TPAF or PERS and retire at or after age 55 are entitled to a retirement benefit based upon a formula which takes 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Vesting occurs after 8 to 10 years of service.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

The contribution policy is set by New Jersey State Statutes and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey regulation. Employee contributions are based on percentages of 5.50% for TPAF and 5.50% for PERS of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits, and post-retirement medical premiums. Under current statute, the District is a noncontributing employer of the TPAF.

NOTE 8. PENSION PLANS (Cont'd)

Three-Year Trend for PERS			
Year Funding June 30,	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2010	\$ 72,724	100.00%	\$ 72,724
2009	49,235	100.00%	49,235
2008	54,136	80.00%	43,309

Effective July 1, 2003, Chapter 108, P.L. 2003 provides for a reduction or “phase-in” of the required pension contribution to PERS for local employers for State fiscal years 2005-2008. The local employer PERS normal and accrued liability contributions required for State fiscal years 2005-2008 are as follows:

- 20% for payments due in State fiscal year 2005
- Not more than 40% for payments due in State fiscal year 2006
- Not more than 60% for payments due in State fiscal year 2007
- Not more than 80% for payments due in State fiscal year 2008

NOTE 9. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. Chapter 103 of Public Law amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2009 there were 84,590 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994

The State made post-retirement (PRM) contributions of \$1.38 billion for fiscal year 2009 and \$3.22 million for fiscal year 2008.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a Board of Education or County College with 25 years of service. The State paid \$116.9 million toward Chapter 126 benefits for 13,320 eligible retired members in Fiscal Year 2009.

The State’s on-behalf Post Retirement Medical Contributions to TPAF for the District amounted to \$299,309, \$298,377 and \$264,842 for 2010, 2009 and 2008, respectively. These amounts have been included in the District-wide financial statements and the fund-based statements as revenues and expenditures in accordance with GASB Statement No. 24.

NOTE 10. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. The District obtains their health benefit coverage through Horizon Blue Cross/Blue Shield of NJ and dental insurance coverage through Delta Dental Plan of NJ.

NOTE 10. RISK MANAGEMENT (Cont'd)

Property and Liability Insurance

The District is a member of the New Jersey School Boards Association Insurance Group (the "NJSBAIG"). This public entity risk management pool provides general liability, property and automobile coverage and workers' compensation for its members. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. The NJSBAIG is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep local property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the NJSBAIG are elected.

As a member of the NJSBAIG, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the NJSBAIG were to be exhausted, members would become responsible for their respective shares of the Fund's liabilities. The NJSBAIG can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided among the members in the same ratio as their individual assessment related to the total assessment of the membership body.

Selected, summarized financial information for the Fund as of June 30, 2009 is as follows:

	<u>N.J. School Board Association Insurance Group</u>
Total Assets	\$ 224,271,687
Net Assets	\$ 49,065,640

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

2007-2008	-0-	58	8,474	12,930	10,870

NOTE 11. ECONOMIC DEPENDENCY

The Board of Education receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the Board of Education's programs and activities.

NOTE 12. INTERFUND RECEIVABLES AND PAYABLES

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 332,870	
Special Revenue Fund		\$ 332,842
Fiduciary Fund		28
	<u>\$ 332,870</u>	<u>\$ 332,870</u>

The interfund receivable of \$332,842 in the General Fund is an interfund loan to the Special Revenue Fund for the amount of the cash deficit in the Special Revenue Fund due to a timing lag in reimbursement of grant funds from the State. The interfund receivable of \$28 in the General Fund is interest earned in the Fiduciary Fund due to the General Fund as of June 30, 2010.

NOTE 13. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency.

The plan administrators are as follows:

AXA Equitable
AIG Valic
Ameriprise

Lincoln Financial
Metropolitan Life

NOTE 14. TAX CALENDAR

Property taxes are levied as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year. The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10. Taxes are collected by the constituent municipality and are remitted to the local school district on a predetermined mutually agreed-upon schedule.

NOTE 15. CONTINGENT LIABILITIES

Grant Programs

The School District participates in state and federally assisted grant programs. The programs are subject to program compliance audits by grantors or their representatives. The School District is potentially liable for expenditures which may be disallowed pursuant to terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

Litigation

The District is periodically involved in pending lawsuits. The District estimates that any potential claims against it resulting from such litigation and not covered by insurance would not materially affect the financial statements of the District.

NOTE 16: TRANSFERS TO CAPITAL OUTLAY

During the year ended June 30, 2010 the District did not make any transfers to the capital outlay accounts that require County Superintendent's approval.

BUDGETARY COMPARISION SCHEDULE
NOTE TO RSI
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest most specific level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. All budget amendments/transfers must be made by School Board resolution. All budgeting amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the last two state aid payments for the current year. Since the State is recording the last two state aid payments in the subsequent fiscal year, the District cannot recognize these payments on the GAAP financial statements.

Note:

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation.

a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net Valuation Taxable.

b Rates for debt service are based on each year's requirements.

Sources: Assessed value data used to estimate applicable percentages provided by the Somerset County Board of Taxation; debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Bedminster. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.

^a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the district's boundaries and dividing it by each unit's total equalized property value.

Independent Auditors' Report on Internal Control over Financial Reporting and
 on Compliance and Other Matters Based on an Audit of Financial Statements
 Performed in Accordance with *Government Auditing Standards*

The Honorable President and Members
 of the Board of Education
 Township of Bedminster School District
 County of Somerset, New Jersey

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Township of Bedminster School District, in the County of Somerset (the "Board") as of, and for the fiscal year ended, June 30, 2010, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 3, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey (the "Department"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Board's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

The Honorable President and Members
of the Board of Education
Township of Bedminster School District
Page 2

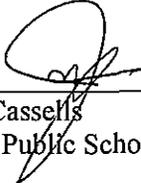

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain matters that we have reported to the Board in a separate report, the *Auditors' Management Report on Administrative Findings -- Financial, Compliance, and Performance*.

This report is intended solely for the information and use of management, the members of the Board of Education, and to meet the requirements for filing with the New Jersey State Department of Education, and other state and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program on Internal Control Over Compliance in Accordance with OMB Circular A-133 and New Jersey's OMB Circular NJOMB 04-04

The Honorable President and Members
of the Board of Education
Township of Bedminster School District
County of Somerset, New Jersey

Compliance

We have audited the compliance of the Board of Education of the Township of Bedminster School District in the County of Somerset (the "Board") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* and the *New Jersey State Aid/ Grant Compliance Supplement* that could have a direct and material effect on each of its major state programs for the fiscal year ended June 30, 2010. The Board's major programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major state programs is the responsibility of the Board's management. Our responsibility is to express an opinion on the Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey (the "Department"); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; New Jersey's OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*; and Federal Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*. Those standards, Federal OMB Circular A-133, and New Jersey's OMB Circular NJOMB 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Board's compliance with those requirements.

In our opinion, the Board complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major state programs for the fiscal year ended June 30, 2010.

Internal Control Over Compliance

The management of the Board is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Board's internal control over compliance with requirements that could have a direct and material effect on a major state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the *New Jersey State Aid/Grant Compliance Supplement*, but not for the purpose of expressing our opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over compliance.

The Honorable President and Members
of the Board of Education
Township of Bedminster School District

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the members of the Board of Education, and to meet the requirements for filing with the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

TOWNSHIP OF BEDMINSTER SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 1. GENERAL

The accompanying schedules of expenditures of federal and state awards include all of the federal and state award activity of the Board of Education, Township of Bedminster School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies are included on the schedules of expenditures of federal and state awards.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal and state awards are presented using the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. The information in these schedules is presented in accordance with the requirements of Federal OMB Circular A-133, *Audits of State and Local Governments, and Non-Profit Organizations* and New Jersey's OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. These bases of accounting are described in Note 1 to the Board's basic financial statements. These bases of accounting are described in Note 1 to the Board's basic financial statements. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$5,642) for the general fund. See Note 1D for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and the special revenue funds. Additionally, the schedule of expenditures of state awards does not include the on-behalf Post Retirement Contributions revenue of \$299,309 or the \$15,936 of TPAF Non-Contributory Insurance. Revenue from federal and state awards are reported in the Board's basic financial statements on a GAAP basis as presented below:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund		\$ 1,743,931	\$ 1,743,931
Special Revenue Fund	\$ 427,181	41,150	468,331
Food Service Fund	40,335	2,476	42,811
Total Awards	<u>\$ 467,516</u>	<u>\$ 1,787,557</u>	<u>\$ 2,255,073</u>
