Honorable President and Members
of the Board of Education
Essex County Schools District
County of Essex
Verona, New Jersey 07044

Dear Board Members:

The Comprehensive Annual Financial Report (CAFR) of the Essex County Vocational Schools District for the fiscal year ended June 30, 2010 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Essex County vocational Schools Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual financial Report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter and a list of principal officials. The financial section includes the general-purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133 "Audits of States, Local governments, and Non-profit Organizations", and the state Treasury Circular Letter 04-04 OMB "single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Pay Payments." Information related to this single audit including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES

As the county regional vocational school system, the district provides a full range of vocational and technical training to adult and high school students residing in Essex County. Over 94% of the district's high school student are full-time and receive a full range of educational services, academic programs and vocational-technical training in grades 9 to 12. About 6% of the high school students receive vocational training only on a shared-time basis with their sending district providing academic programs. The high school programs serve a

www.essextech.org

wide range of student including special education programs for handicapped students and advanced tech prep programs for academically talented students.

Apart from full time day and evening adult programs, the District oversees all apprenticeship training in the County and provides a wide range of part-time vocational-technical training programs, customized training programs and basic skills, GED and ESL programs for adults.

The District reflected a 1.5% increase in average daily enrollment for high school students in 2009-2010. The District operated at full capacity and received two applications for every one student that it accepts into the 9th grade. The following details the changes in the student enrollment of the district over the last ten (10) years.

1) **REPORTING ENTITY AND ITS SERVICES (Continued)**

<u>Year</u>	<u>Average Daily Enrollment</u>	<u>Average Daily Attendance</u>	<u>Attendance Percent</u>	<u>%Change in Average Daily Enrollment</u>
2009-10	2,048.2	1,882.7	91.9	.5%
2008-09	2,095.4	1,936.6	92.4%	1.8%
2007-08	2,089.0	1,891.9	90.6 %	.01%
2006-07	2,137.8	1,935.0	90.5%	(7.70%)
2005-06	2,059.3	1,880.2	91.3%	1.3%
2004-05	2,068.8	1,865.0	90.1%	(.9%)
2003-04	2,072.8	1,886.0	91.0%	1.54%
2002-03	2,041.0	1,865.1	91.40%	(1.62%)
2001-02	2,074.1	1,907.8	92.0%	(1.9%)
2000-01	2,093.0	1,901.0	90.8%	1.95%
1999-00	2,054.0	1,881.0	91.6%	1.8%

2) **ECONOMIC CONDITIONS**

The County of Essex continues to be a vital economic region being a center for insurance, health care, retail trade and transportation services. The total assessed valuation for property in Essex County and the unemployment rate for Essex County for 2009-2010 was or is not available.

3) STATE CERTIFICATION AND PROGRAM IMPROVEMENT

The District underwent monitoring by a team from the Department of Education in the spring of 2002. We received State Board of Education approval for full certification for the next seven years. The next State monitoring is anticipated for the 2009-2010 school year.

The District will continue to perform at a higher level on the State graduation test (HSPA) than comparable urban districts. The anticipated success on the HSPA test will result from an intensified supplemental academic curriculum. The district's success in mathematics is attributable to a Tech prep mathematics Curriculum that requires all students master Algebra II and has many students taking four years of college level laboratory science courses as well. The District's academy program is designed to give students access to competitive four-year colleges. The Academy curriculum includes calculus and high level technology.

4) INTERNAL ACCOUNTING CONTROLS

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable assurance and recognized that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management and GASB 34.

As a recipient of Federal and State financial assistance, the district is responsible for ensuring adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal and State financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

5) BUDGETARY CONTROL

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of School Estimate. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as re-appropriation of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2008.

6) **ACCOUNTING SYSTEM AND REPORTS**

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards board (GASB). The accounting system of the district is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7) **FINANCIAL INFORMATION OF FISCAL YEAR-END**

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the general fund and special revenue fund revenues for the fiscal year ended June 30, 2010, and the amount and percentages of increases in relation to prior year revenues.

A) **CURRENT GENERAL FUND OPERATIONS**

<u>Revenue</u>	<u>\$ Amount</u>	<u>% of Total</u>
Local Sources	\$ 4,810,611	13.7%
Tuition	13,119,361	37.4%
State Sources	12,486,223	35.5%
Federal Sources	4,697,926	13.4%
Total	35,114,121	100%

The following schedule presents a summary of general fund and special revenue expenditures for the fiscal year ended June 30, 2010.

<u>Expenditures</u>	<u>Amount</u>	<u>% of Total</u>
Instruction	\$13,908,361	39.6%
Support	19,498,185	55.5%
Special School	858,802	2.5%
Capital Outlay	848,773	2.4%
Total	35,114,121	100%

8) **CASH MANAGEMENT**

The investment policy of the District is guided in large part by State statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the governmental Unit Protection Act

“GUDPA”). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey where the funds are secured in accordance with the Act.

9) RISK MANAGMENT

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

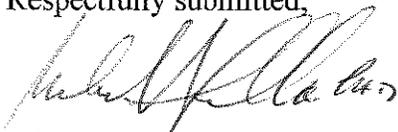

10) OTHER INFORMATION

Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Samuel Klein and Company was selected by the Board to audit the financial statements for the year ended June 30, 2010. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Single Audit Act of Amendments of 1996 and the related OMB Circular A-133, and State Treasury Circular Letter 04-04. The auditors’ report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditors’ report related specifically to the single audit are included in the single audit section of this report.

11) ACKNOWLEDGMENTS

We would like to express our appreciation to the members of the Essex County Vocational School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
of the Board of Education
Essex County Vocational Schools
County of Essex
Newark, New Jersey 07102

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Board of Education of the Essex County Vocational Schools District, in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Essex County Vocational Schools District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Essex County Vocational Schools District in the County of Essex, State of New Jersey as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2010 on our consideration of the Essex County Vocational Schools District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management Discussion and Analysis and Budgetary Comparison Information on pages 13 through 19 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Essex County Vocational Schools District's basic financial statements. The accompanying introductory section, and other supplementary information such as the combining and individual fund financial statements and long-term debt schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and long-term debt schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we express no opinion on them.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

November, 2010

Honorable President and Members
of the Board of Education
Essex County Vocational Schools

Dear Board Members:

Management's Discussion and Analysis for the Fiscal Year Ended June 30, 2010 (Unaudited)

The discussion and analysis of the Essex County Vocational Schools' financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Using this Generally Accepted Accounting Principals Report (GAAP)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Essex County Vocational Schools as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending.

The fund financial statements also look at the School District's most significant funds. In the case of the Essex County Vocational Schools, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2010" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the actual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Nonfinancial factors include the county's property tax base, facility condition, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The School District maintains one business like activity, the Food Service Program.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 26. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, the Special Revenue Fund, and the Capital Projects Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spend in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets for 2010 and 2009.

	June 30, 2010		June 30, 2009	
	Governmental Activities	Business- Type Activities	Governmental Activities	Business- Type Activities
ASSETS				
Current and Other Assets	\$ 12,043,036	\$ 123,771	\$ 11,029,149	\$ 43,414

Capital Projects	7,219,554		5,743,708	
Other Purposes	854,522		3,267,054	
Unrestricted	(1,788,088)	(141,319)	(2,442,785)	(177,630)
Total Net Assets	31,787,949	(43,925)	61,645,311	(59,604)
Total Liabilities and Net Assets	\$ 37,544,998	\$ 221,165	\$ 66,106,484	\$ 161,440

Due to the requirement that the Essex County Vocational Schools prepares its financial statements following GASB Statement 34, compensated absences, along with capital assets (net of accumulated depreciation) are now shown on the Statement of Net Assets. The amount recorded under noncurrent liabilities as detailed below:

Compensated Absences \$ 1,182,937

It must be noted that compensated absences due to retirements or other circumstances have always been paid through current budget appropriations and will continue to be paid. The School District has never failed to meet its contractual obligations.

Revenues	Governmental Activities		Business-Type Activities

**Table 2
Change in Net Assets**

Table 2 shows the changes in net assets for fiscal year 2010 and fiscal year 2009.

Governmental Activities

A portion of the revenue for the Essex County Vocational Schools is provided by Essex County. Each year the vocational school's Board of Education prepares and delivers to the Essex County Board of School Estimate an itemized statement of the amount of money necessary for the general fund expenses. The Board of School Estimate determines and certifies by action taken at a public meeting an amount of money to be appropriated for the use by the County Vocational Schools. The Essex County Board of Chosen Freeholders appropriates the amount so certified, which is assessed, levied and collected in the same manner as moneys appropriated for other purposes in Essex County. Monies from the County Tax Levy made up 10.130% of revenues for the general fund for the fiscal year ended June 30, 2010.

Instruction comprises 58.19% of district expense and support services 41.81%.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Instruction comprises 58.19% of district expense and support services 41.81%.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Plant Operations and Maintenance	6,237,475
Pupil Transportation	384,294
Special Schools	<u>1,050,552</u>
	<u>\$ 36,283,486</u>

A description of each service provided by the School District is detailed as follows:

Instruction expenditures include activities directly dealing with the teaching of pupils and the interaction between teacher and pupils.

Student and Instructional Related Services expenditures include the activities involved with assisting staff with the content and process of teaching to pupils.

Also included are Attendance and Social Work Services, Health Services and Guidance, Child Study and Educational Media Services.

Board of Education, Administration, Fiscal and Business expenditures are associated with administration and financial supervision of the District.

Operation and Maintenance of Plant expenditures involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil Transportation expenditures include activities involved in the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Employee Benefits expenditures include health insurance benefits, social security contributions, unemployment and workers compensations and tuition reimbursement.

Special Schools expenditures include the post-secondary program, summer school and adult education.

Business-Type Activities

The School District operates business type activities for the Food Service Program. The Food Service operations are managed by Compass Group USA, Inc. (Chartwells Division). The management company receives a fee for each meal served. For fiscal year 2010 a total of 508,102 meals were served to students.

For the current school year, after adjustment of fixed asset valuation, the food service had an increase in net assets of \$11,775.97. Ending net assets for the food service shows a deficit of \$47,828.46. This deficit is shown as follows:

Capital Assets	\$ 97,393.57
Unrestricted	(145,222.03)

General Fund Budgetary Highlights

The School District budget is prepared according to New Jersey Law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

General Fund Budgetary Highlights

The following schedule details variations between the final budget amounts and actual results for the General Fund.

Total Expenditures	<u>\$ 40,495,778</u>	<u>\$ 40,329,794</u>	<u>\$ 165,984</u>

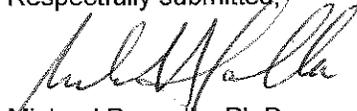

Capital Assets

At the end of fiscal year 2010, the School District had \$25,501,961.99 invested in land, buildings and equipment, net of accumulated depreciation.

For the Future

The Essex County Vocational and Technical School District, through the efforts of our teachers, administrators and support staff, will continue to provide the highest quality of education to all students attending our schools.

Respectfully submitted,

Michael Pennella, Ph.D.
Superintendent

NOTES TO FINANCIAL STATEMENTS

**ESSEX COUNTY VOCATIONAL SCHOOLS DISTRICT
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2010**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Essex County Vocational Schools is a county regional vocational school system. The District provides a full range of vocational and technical training to adult and high school students residing in Essex County. A full range of educational services, academic programs, and vocational-technical training in grades 9 to 12 are provided. The District functions independently of the County Board of Chosen Freeholders through an appointed board of seven members. The District had an approximate enrollment at June 30, 2010 of 2,050 students.

As a reporting entity, the school system is considered a component unit of the primary government County of Essex, State of New Jersey. As a component unit, the Essex County Vocational Schools is responsible for general operations, food service, and student related activities of the School District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Essex County Vocational Schools District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The most significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

1. Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Presentation

2. Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment, which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting (Continued)

1. Governmental Funds (Continued)

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction, and improvement programs.

Permanent Fund - The Permanent Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. Resources are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting entity's programs - that is for the benefit of the school district. The District presently has no resources that are considered Permanent Funds.

2. Proprietary Fund Type

The focus of Proprietary Fund measurement is upon determination of net income, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the District:

Enterprise Fund - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Food Service Fund:	
Equipment	12 Years
Light Trucks and Vehicles	4 Years
Heavy Trucks and Vehicles	6 Years

3. Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. They are used to account for assets held in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. Fiduciary fund categories include pension (and other employee benefits) trust funds, investment trust funds, private-purpose trust funds, and agency funds. The overarching rule for these funds is that they should never be used to report resources that can be used for programs of the reporting district.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting (Continued)

3. Fiduciary Funds (Continued)

Unemployment Insurance Trust - The SUI Trust Fund accounts for resources held and administered while acting in a fiduciary capacity for individuals or other government agencies. Assets are held in trust for members of the defined contribution plan.

Agency Funds - Agency Funds are used to account for the assets that the District holds on behalf of others as their agent. Agency Funds are custodial in nature and do not involve measurement of results of operations. Agency Funds include payroll and student activities funds.

C. Measurement Focus

1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the School District are included on the Statement of Net Assets.

2. Fund Financial Statements

All government funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Fiduciary funds are reported using the economic resources measurement focus.

D. Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds, and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered an "accounts receivable".

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989.

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgets/Budgetary Control (Continued)

	<u>General Fund</u>	<u>Special Revenue Fund</u>
Sources/Inflows of Resources:		
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedule	\$ 40,679,190.21	\$ 4,753,422.63
Difference - Budget-to-GAAP:		
State aid payment recognized for GAAP statements in the current year previously recognized for budgetary statements.	1,965,306.00	
State aid payment recognized for budgetary purposes, not recognized for GAAP statements until the subsequent year.	<u>(2,069,904.00)</u>	<u> </u>
Total revenues as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds.	<u>\$ 40,574,592.21</u>	<u>\$ 4,753,422.63</u>
Uses/Outflows of Resources:		
Actual amounts (budgetary basis) "total outflows" from the budgetary comparison schedule	\$ 40,329,794.06	\$ 4,753,422.63
Difference - Budget-to-GAAP:		
Transfers to and from other funds are presented as outflows of budgetary resources but are not expenditures for financial reporting purposes. Net transfers (outflows) from general fund	<u> </u>	<u> </u>
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds including transfers.	<u>\$ 40,329,794.06</u>	<u>\$ 4,753,422.63</u>

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all liquid investments with maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited to the types of investments and types of financial institutions they may invest in. New Jersey State 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks, (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

H. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

I. Tuition Payable

Tuition charges for the fiscal years of 2008-09 and 2009-10 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

J. Short-Term Interfund Receivables/Payables

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Depreciation</u>	<u>Estimated Lives</u>
Building and Improvements	50 - 100 Years
Furniture and Equipment	5 - 20 Years
Vehicles	18 Years

L. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire sick leave and vacation leave liabilities are reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

In the proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the governmental funds. However, the noncurrent portion of capital leases, compensated absences and loans payable that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

O. Deferred Revenue

Deferred revenue in the special revenue fund represents cash that has been received but not earned.

P. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes, and bonds.
- Government money market mutual funds.
- Any federal agency or instrumentality obligation authorized by Congress that matures within 397 days from the date of purchase, and has a fixed rate of interest not dependent on any index or external factors.
- Bonds or other obligations of the school district or local unit of which the school district is a part.
- Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments, New Jersey State Department of Treasury.
- Local government investment pools.
- New Jersey State Cash Management Fund.
- Repurchase agreements of fully collateralized securities, subject to special conditions.

Risk Category

As of June 30, 2010, the Board had funds invested and on deposit in checking and money market accounts. These funds constitute "deposits with financial institutions" as defined by GASB Statement No. 3 as amended by GASB No. 40.

As of June 30, 2010, cash and cash equivalents of the District consisted of the following:

	<u>Cash and Cash Equivalents</u>
Checking Accounts	\$4,184,989.84
MBIA	1,010,875.06
Investments	<u>1,015,854.25</u>
	<u>\$6,211,719.15</u>

4. CAPITAL ASSETS

	Beginning Balance July 1, 2009	Additions	Retirements	Ending Balance June 30, 2010
<u>Governmental Activities</u>

	<u>\$ 118,025.66</u>	<u>\$ (20,632.09)</u>	<u>\$ -</u>	<u>\$ 97,393.57</u>

5. GENERAL LONG-TERM DEBT

During the fiscal year ended June 30, 2010, the following changes occurred in liabilities reported in the general long-term debt account group:

	Balance <u>June 30, 2009</u>	<u>Increase</u>	<u>Decrease</u>	Balance <u>June 30, 2010</u>
Compensated Absences Payable	\$ 2,640,728.00	\$ -	\$ 1,457,791.11	\$ 1,182,936.89

6. PENSION PLANS

Description of Plans

All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both systems will be assumed by the State of New Jersey should the systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees' Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability, and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related noncontributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability, and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county; municipality, school district, or public agency, provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the system.

6. PENSION PLANS (Continued)

Vesting and Benefit Provisions (Continued)

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Pension benefits for members enrolled in the system after May 21, 2010 would be based on 1/60th of the average annual compensation for the last five years of service or any five fiscal years of membership that provide the largest benefit to the member of the member's beneficiary.

Significant Legislation

During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997) changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by ½ of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the District's normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and the change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated, except for the unfunded liability for local early retirement incentive benefits; accordingly, the pension costs for TPAF and PERS were reduced.

Contribution Requirements

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18A:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for both cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute, the District is a noncontributing employer of the TPAF.

Three Year Trend Information for PERS

<u>Year Funding</u>	<u>Pension Cost (AFC)</u>	<u>Net Cost to District</u>	<u>Percentage of APC Contributed</u>
June 30, 2010	\$ 272,666	\$ 272,666	100%
June 30, 2009	N/A	N/A	
June 30, 2008	N/A	N/A	

6. PENSION PLANS (Continued)

Contribution Requirements

Three Year Trend Information for TPAF (Paid On-Behalf of the District)

<u>Year</u> <u>Funding</u>	<u>Annual</u> <u>Pension</u> <u>Cost (APC)</u>	<u>Percentage</u> <u>of APC</u> <u>Contributed</u>	<u>Total</u> <u>On-Behalf</u> <u>Medical</u> <u>Benefits</u>
June 30, 2010	\$ 66,260	100%	\$ 1,244,459
June 30, 2009	54,706	100%	1,043,645
June 30, 2008	56,227	100%	1,192,758

During the fiscal year ended June 30, 2010, the State of New Jersey contributed \$66,260.00 to the TPAF for pension and \$1,244,459.00 for post-retirement medical benefits on-behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$1,400,975.96 during the year ended June 30, 2010 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the general-purpose financial statements, and the combining and individual fund and account group statements and schedules as a revenue and expenditure in accordance with GASB 24.

7. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c. 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for State employees and retired educational employees. As of June 30, 2009, there were 84,590 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c. 62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$116.9 million toward Chapter 126 benefits for 13,320 eligible retired members in Fiscal Year 2009.

8. COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

8. COMPENSATED ABSENCES (Continued)

It is the policy of the Board to pay teachers, secretaries, and administrators for accumulated sick days upon retirement after at least 15 years of service. The employee shall receive terminal leave allowance of one day's salary for each four days of accumulated unused sick leave not to exceed a total of 70 days of salary. This became effective July 1, 1954. The liability of the board at June 30th for the three prior years is as follows:

<u>Year</u>	<u>Amount</u>
2008	\$ 994,437.00
2009	2,640,728.00
2010	1,182,936.89

These amounts were recorded in the General Long-Term Debt Account Group, since they do not require the use of available spendable resources.

The liability for vested compensated absences of the governmental fund types is recorded in the Statement of Net Assets. The current portion of the compensated absences balance of the governmental funds is reported separately on the Statement of Net Assets.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2010, no liability existed for compensated absences in the Food Service Fund.

9. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. The plan administrators are as follows:

- PRU - Financial NJ School Adm
- Equitable - Equi Vest
- Fidelity Investment
- Vanguard TSA
- Met Life Investors (Capital)
- AFLAC
- Lincoln Investment Planning
- NEA - Travelers companies
- Great American Advisors Inc.

10. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

10. RISK MANAGEMENT (Continued)

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current year and previous year:

<u>Fiscal Year</u>	<u>Interest Earned</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2009 - 2010	\$ -	\$ 44,805	\$ 72,516	\$ 53,567
2008 - 2009	1,071	62,645	101,763	81,279
2007 - 2008	1,321	37,802	163,692	119,327

11. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2010:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 175,033.53	\$ 3,284,024.06
Special Revenue Fund	84,024.06	
Proprietary Fund		175,033.53
Capital Projects Fund	<u>3,200,000.00</u>	
Total	<u>\$ 3,459,057.59</u>	<u>\$ 3,459,057.59</u>

12. INVENTORY

Inventory in the Food Service Fund at June 30, 2010 consisted of the following:

Food	<u>\$ 977.49</u>
------	------------------

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1984) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

13. DEFICIT FUND BALANCES

The District has a surplus of \$3,449,370.42 in the General Fund as of June 30, 2010 as reported in the fund statements (modified accrual basis). P.L. 2003, c. 97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the State records the payable.

14. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Essex County Vocational School's Board of Education by inclusion of \$1,100,000.00 on June 17, 2008 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23-2.13(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2009 to June 30, 2010 fiscal year is as follows:

Beginning Balance, July 1, 2009	\$ 2,200,000.00
Deposits:	
June 14, 2010 Resolution	1,000,000.00
Transferred to Capital Projects Fund	<u>3,200,000.00</u>
Ending Balance, June 30, 2010	<u>\$ -</u>

15. FUND BALANCE APPROPRIATED

General Fund - Of the \$3,449,370.42 General Fund fund balance at June 30, 2010, \$854,521.67 is reserved for encumbrances and \$(605,151.25) is unreserved and undesignated.

16. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18:7F-7, the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. There is \$ - 0 - excess surplus as of June 30, 2010.

17. RECONCILIATION OF FUND BALANCE - GENERAL FUND

The Surpluses are Presented on a GAAP Basis and a Reconciliation to the Budget Basis is as follows:	Unreserved and <u>Designated</u>
Balance on a Budget Basis on the General Fund Budgetary Basis Comparison	\$ 2,319,274.42
Less: Allocation of State Aid Payment of \$2,969,904.00 Not Recognized on a GAAP Basis	<u>2,069,904.00</u>
Balances on a GAAP Basis on the Governmental Fund Balance Sheet	<u>\$ 249,370.42</u>

18. CONTINGENT LIABILITIES

A. Litigation

The Board Attorney's letter did not indicate any litigation, claims or contingent liabilities that are either not covered by the Board's insurance carrier or would have a material financial impact on the Board.

B. Federal and State Awards

The School District participates in several federal and state grant and aid programs which are governed by various rules and regulations of the grantor agencies, therefore, to the extent that the School District has not complied with the rules and regulations governing the grants or aid, refunds of any money received may be required and the collectivity of any related receivable at June 30, 2010 may be impaired. In the opinion of the management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants, therefore no provisions have been recorded in the accompanying general-purpose financial statements for such contingencies.

C. Commitments and Contingencies

In October 2006 the School District was approved for funding to have a vendor install network cable runs to the District's four schools. This was completed and in accordance with e-rate rules the District paid the vendor 10% or \$143,139.50 of the cost of the project. USAC paid the balance of \$1,288,255.50 directly to the vendor.

In June 2008 the Universal Service Administrative Company (USAC), the administrator of the Universal Services Schools and Library Programs (e-rate), initialed a Cost Effectiveness Review (CER) of the School District's funding request.

If the USAC finds against the District the USAC will issue a Commitment Adjustment (COMAD) letter reducing the funding approval to \$ - 0 - and requesting the District pay \$844,565.50 within 30 days.

Management has indicated that given the unprecedented review of a funding request after payment has been made, and in consultation with their e-rate consultant who believes the District will not prevail, it is only prudent to establish this liability on the balance sheet under Commitments and Contingencies.

Source: Municipal Tax Assessor:

Real property is required to be assessed at some percentage of true value (fair or market value) established by each County Board of Taxation.

Note:

Reassessment occurs when the County Board of Taxation requests the Treasury to order a reassessment.

(a) Taxable value of machinery, implements and equipment of telephone, telegraph and messenger system companies.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable President and Members
of the Board of Education
Essex County Vocational Schools District
County of Essex
Newark, New Jersey 07102

We have audited the financial statements of the Board of Education of the Essex County Vocational Schools District, in the County of Essex, State of New Jersey, as of and for the fiscal year ended June 30, 2010 and have issued our report thereon dated November 10, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Essex County School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Essex County Vocational Schools District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Essex County Vocational Schools District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Essex County Vocational Schools District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

We noted certain matters that we reported to the Board of Education of the Essex County Vocational Schools District in a separate report entitled *Auditor's Management Report on Administrative Findings - Financial, Compliance and Performance* dated November 10, 2010.

This report is intended solely for the information and use of the audit committee, management, the Essex County Vocational Schools District, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH FEDERAL OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04**

The Honorable President and Members
of the Board of Education
Essex County Vocational Schools District
County of Essex
Newark, New Jersey 07102

Compliance

We have audited the compliance of the Board of Education of the Essex County Vocational Schools, in the County of Essex, State of New Jersey, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement*; and the *New Jersey State Aid/Grant Compliance Supplement* that are applicable to each of its major federal and state programs for the fiscal year ended June 30, 2010. Essex County Vocational Schools major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the Essex County Vocational Schools management. Our responsibility is to express an opinion on the Essex County Vocational Schools compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133 *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Those standards, OMB Circular A-133 and New Jersey OMB's Circular 04-04, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Essex County Vocational Schools compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Essex County Vocational Schools compliance with those requirements.

In our opinion, the Board of Education of the Essex County Vocational Schools, in the County of Essex, State of New Jersey, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the fiscal year ended June 30, 2010.

Internal Control Over Compliance

The management of the Board of Education of the Essex County Vocational Schools is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered the Board of Education of the Essex County Vocational Schools internal control over compliance with requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Essex County Vocational Schools internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, the Essex County Vocational Schools, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

ESSEX COUNTY VOCATIONAL SCHOOLS
NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE
JUNE 30, 2010

1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Essex County Vocational Schools. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed-through other government agencies is included on the Schedules of Federal Awards and State Financial Assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 2 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-4.2.

ESSEX COUNTY VOCATIONAL SCHOOLS

NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE

JUNE 30, 2010
(Continued)

3. RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS (Continued)

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$104,598.00 for the general fund and \$ - 0 - for the special revenue fund. See Exhibit "C-3" (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 3,367,073.17	\$ 19,305,654.96	\$ 22,672,728.13
Special Revenue Fund	4,627,350.11	45,913.72	4,673,263.83
Food Service Fund	<u>985,394.50</u>	<u>49,506.50</u>	<u>1,034,901.00</u>
Total Awards and Financial Assistance	<u>\$ 8,979,817.78</u>	<u>\$ 19,401,075.18</u>	<u>\$ 28,380,892.96</u>

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with amounts reported in the related federal and state financial reports.

5. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions, respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the State On-Behalf of the District for the year ended June 30, 2010. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2010.
