INTRODUCTORY SECTION

HAWORTH SCHOOL DISTRICT

◆
Paul Arilotta, Ed. D., Superintendent & Board Secretary
Deborah B. Jancek, Assistant Principal

November 11, 2010

Honorable President and
Members of the Board of Education
HAWORTH SCHOOL DISTRICT
205 Valley Road
Haworth, New Jersey 07641

Dear Board Members:

The comprehensive annual financial report of the Haworth School District (District) for the fiscal year ended June 30, 2010, is hereby submitted. Responsibility for both the accuracy of the date and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U. S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments", and the state Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) **REPORTING ENTITY AND ITS SERVICES:** The Haworth School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. The Haworth Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational, services appropriate to grade levels K through

8. These include regular as well as special education for handicapped youngsters. The district completes the 2009-2010 fiscal year with an enrollment of 487 students, which is 19 students less than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last six years.

Average Daily Enrollment

Fiscal	Student Enrollment	Percent Change
2004 – 2005	523	+ 1.4%
2005 – 2006	545	+ 4.4%
2006 – 2007	528	- 3.1%
2007 – 2008	495	- 6.3%
2008 – 2009	506	+ 2.2%
2009 – 2010	487	

2) **ECONOMIC CONDITION AND OUTLOOK:** The Borough of Haworth is a small community within the County of Bergen. Its economic condition and population is stable. No new housing developments are expected within the near future. Therefore, no substantial increase to the annual daily enrollment is expected in the short term.

3) **MAJOR INITIATIVES:** Students continued to score above the state and national averages on the NJ ASK tests. We have established and met our goals in technology and science, as well as in curriculum, community relations and staff development. We have a 0% drop out rate. One hundred percent of our children go on to secondary education.

4) **INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal, control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

HAWORTH BOARD OF EDUCATION

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) **BUDGETARY CONTROLS**: In addition to internal accounting controls, the District maintains budgetary controls. The objective of the budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund.

The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2010.

6) **ACCOUNTING SYSTEM AND REPORTS**: The District's accounting records reflect generally accepted accounting principles, promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", note 1.

HAWORTH BOARD OF EDUCATION

7) **FINANCIAL INFORMATION AT FISCAL YEAR-END:** As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the general fund, special revenue fund and debt service fund revenues and expenditures for the fiscal year ended June 30, 2010, and the amount and percentage of increases in relation to prior year revenues.

REVENUE	AMOUNT	PERCENT OF TOTAL	INCREASE/(DECREASE) FROM 2007	PERCENT INCREASE/(DECREASE)
Local Sources	\$7,584,640	87.18%	\$211,606	.28%
State Sources	\$965,403	11.09%	\$36,117	.38%
Federal Sources	\$149,527	1.73%	\$45,995	44.42
TOTAL	\$8,699,570	100%		

The increase in Local Sources is attributed to an increase in the local tax levy of \$285,312, and decreases in Miscellaneous Revenue of \$28,429 and Tuition decrease of \$45,277.

The increase in State Sources is attributed to an increase in General Fund State Sources of \$36,117.

The increase in Federal/Other Sources is attributed to an increase in grant awards of \$45,995.

EXPENDITURES	AMOUNT	PERCENT OF TOTAL	INCREASE (DECREASE) FROM 2009	PERCENT INCREASE/(DECREASE)
Current Expense:				
Instruction	\$3,356,506	39.73%	\$(177,064)	(5.01%)
Support Services	4,317,529	51.12	(15,967)	(.036)
Capital Outlay			(47,646)	(100)
Special Revenue:				
Federal	150,292	1.78	46,760	45.16
Debt Service:				
Principal	459,693	5.44	36,844	8.71

TOTAL	\$8,446,440	100%	(230,620)	TOTAL

HAWORTH BOARD OF EDUCATION

8) **DEBT ADMINISTRATION:** On June 30, 2010, the District's outstanding debt included two loans and serial bonds as follows:

	OUTSTANDING LOAN AMOUNT	RATE
Small Project Loan	\$ 207,475.00	5.288%
Safe School Low Interest Loan	\$ 52,368.00	1.5%
1999 Serial Bonds	\$2,137,000.00	3.75-4.00%
2004 Serial Bonds	\$2,315,000.00	2.00-5.00%

9) **CASE MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in "notes to the Financial Statements", Note 2. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

10) **RISK MANAGEMENT:** the Board carries various forms of insurance, including but limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

11) **OTHER INFORMATION:** Independent Audit -State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Samuel Klein & Co., P. C. CPAs, was selected by The Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 and related OMB Circular A-133 and state Treasury Circular Letter 04-04 OMB. The auditor's report on the general statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

HAWORTH BOARD OF EDUCATION

12) **ACKNOWLEDGEMENTS:** We would like to express our appreciation to the members of The Haworth School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the administrative support staff of the school district.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
of the Board of Education
Haworth Borough School District
County of Bergen
Haworth, New Jersey 07641

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Haworth Borough School District in the County of Bergen, State of New Jersey, as of and for the year ended June 30, 2010, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Haworth Borough School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Haworth Borough Board of Education, in the County of Bergen, State of New Jersey, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 15, 2010 on our consideration of the Haworth Borough Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management Discussion and Analysis on pages 15 through 21 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Haworth Borough Board of Education's basic financial statements. The accompanying introductory section and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and long-term debt schedules listed in the table of contents have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we express no opinion on them.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

REQUIRED SUPPLEMENTARY INFORMATION - PART I

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Haworth School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2010. Please read it in conjunction with the District's financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts - *management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

Figure A-1, Required Components of the District's Annual Financial Report

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.
- *The governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
- *The proprietary fund* statements reflect operations that are financed and operated in a manner similar to private business enterprises.
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net assets - the difference between the District's assets and liabilities—is one way to measure the District's financial health or position.

- Overtime, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base, facility conditions, required educational programs and other factors.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities. The School District maintains one business-like activity, the After School Program.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds* - not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes. The School District's major governmental funds are the General Fund, the Special Revenue Fund, and Debt Service Fund.

The District has the following kinds of funds:

- *Governmental Funds* - Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.
- *Proprietary Funds* accrued to report the cost of providing goods and services to students on a continual basis where the intent is to recover said costs through user charges.
- *Fiduciary Funds* - The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's Net Assets at June 30, 2010 and 2009.

Compensated Absences due to retirements have always been paid through the general fund budget appropriation and will continue to be funded in this manner. The School District has never failed to meet its contractual obligation for Compensated Absences.

The State of New Jersey due to its financial condition withheld from all school districts their obligation to fully fund the District's State Aid amount by not paying the final two aid payments in June 2010.

The majority of all revenue for the Haworth School District is collected through property taxes. Property taxes made up a total of 94.2% of revenues for governmental activities for the District. Annually, the school district must seek voter approval of the tax levy to support the District's operations. Formula State Aid made up only 5.64% of revenues for governmental activities.

The largest share of the program expenses for the District is for the cost of direct services to the District's students. These services cover (see Table 2) Instruction, Special Education, Other Special Instruction, Other Instruction, Special Schools Student and Instruction-Related Services and make up a total of \$5,001,695.64 or 66.95% of the total expenses for fiscal year 2010.

The next display, Table 3, shows the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

A description of each service provided by the School District is detailed as follows:

Instruction expenditures include activities directly dealing with the teaching of pupils and the interaction between teacher and pupils.

Tuition expenditures are for Education Services for pupils residing in the School District and include placements in private, county, and state facilities.

Student and Instructional Related Services expenditures include the activities involved with assisting staff with the content and process of teaching to pupils. Also, included are Attendance and Social Work Services, Health Services and Guidance, Child Study and Educational Media Services.

Board of Education, Administration, Fiscal and Business Expenditures are associated with administration and financial supervision of the District.

Operation and Maintenance of Plant expenditures involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation is the expenditure for conveying students between home and school and from school to other school activities as provided by state and federal law.

Interest on long-term debt expenditures are for interest on outstanding bonds.

Business-Type Activities

The School District operates a business-type activity for the After School and Enrichment Programs. The programs are self-supporting and did not require board contributions to support operations during fiscal year 2010.

For the current school year, the After School Program had a increase in net assets of \$19,156.64. Ending Net Assets for the After School Program was \$38,252.30. Ending Net Assets for the Enrichment Program was \$419.72.

Financial Analysis of the District's Funds

The District's governmental funds are accounted for using the modified accrued basis of accounting. Revenues from Governmental Fund types totaled \$8,699,570.20. The largest part of revenue comes from the local tax levy, which makes up 87% of the total revenues. The increasing reliance on local tax levy is caused by the lack of increasing State funding.

General Fund Budgeting Highlights

The District's budget is prepared according to the State of New Jersey budget laws and is based on receipts, disbursements and an encumbrance system. The most significant budgeted funds are the General Fund, Special Revenue Fund and Debt Service Fund.

During the fiscal year 2010, the District amended its budget several times by Board approved transfers. The State of New Jersey budget guidelines provide flexibility for school districts to amend budget line items upon the Board of Education's approval when the district's priorities are modified during the year.

The General Fund final budget revenue was \$7,904,227.14 representing an \$234,951.92 (3%) increase from fiscal year 2009. The net increase was primarily due to increased local tax levy and a decrease in state aid. Fiscal year 2010 General Fund budget expenditures were \$7,674,034.57, representing a decrease of \$240,677.07 (3%) from the previous year. Regular Instruction accounted for most of the budget's decrease.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2010, the Haworth School District had \$9,199,246.47 in building and improvements, \$1,324,500.00 in land, \$1,007,854.98 in equipment.

Table 4 below shows the Net Capital Assets after total accumulated depreciation:

Debt Administration

At June 30, 2010, the District had \$4,452,000.00 in bonds outstanding, \$375,000.00 due within one year. More detailed information about the District's debt is presented in the notes to the financial statements.

Economic Factors and Next Year's Budget

The largest factor that will affect the School District budget in the next fiscal year is the amount of State Aid the District will receive from the State of New Jersey. The District's reliance on local tax levy will continue to dominate the revenue picture unless the State begins to fund their legal fair share of education expenses. The projection for State Aid is still flat based upon the current economic trends.

On the expenditure side, the cost of educating Special Education students is still rising and this trend appears to be continuing. The cost of contractual obligations for employee health care is still an uncontrolled expense.

If estimates are realized, the District's budgeting fund balance is not expected to change appreciably by the close of 2010.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the funding it receives. If you have any questions about this report or need additional financial information, you can contact the Board Secretary/Business Administrator's office at Haworth School District, 205 Valley Road, Haworth, New Jersey 07641

Amounts reported for governmental activities in the Statement of Net Assets (A-1) are different because:

The costs associated with the issues of the various bonds are expensed in the governmental funds in the year the bonds are issued but are capitalized on the statement of net assets. The bond issuance costs are \$33,914.97 and the accumulated amortization is \$14,231.53 (See Note 6). 19,683.44

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of capital assets is \$11,531,601.45 and the accumulated depreciation is \$4,414,566.98 (See Note 7). 7,117,034.47

Long-term liabilities, including bonds, loans and leases payable are not payable in the current period and therefore are not reported as liabilities in the funds (See Note 8). (4,811,358.14)

Certain Liabilities are not due and payable in the current period, and therefore, are not reported in funds:

Accrued Interest Payable:

(Accrued Interest is a current liability that will be paid from the debt service fund. Therefore, the liability reduces the restricted for debt service net asset balance.)

NOTES TO THE FINANCIAL STATEMENTS

HAWORTH BOROUGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2010

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Haworth Borough School District (the "District") is a Type II District located in the County of Bergen, State of New Jersey. As a Type II District, the District functions independently through a Board of Education (the "Board"). The Board is comprised of seven members elected to three-year terms. The purpose of the District is to educate students in grades K-8. The Haworth Borough School District had an approximate enrollment at June 30, 2010 of 485 students.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Haworth Borough School District, this includes general operations, latchkey, and student related activities of the School District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- . the organization is legally separate (can sue or be sued in their own name)
- . the District holds the corporate powers of the organization
- . the District appoints a voting majority of the organization's board
- . the District is able to impose its will on the organization
- . the organization has the potential to impose a financial benefit/burden on the District
- . there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Haworth Borough School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The most significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

1. Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Presentation (Continued)

1. Government-Wide Financial Statements (Continued)

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

2. Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance.

Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles (GAAP) as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting (Continued)

1. Governmental Funds (Continued)

General Fund (Continued)

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Permanent Fund - The Permanent Fund is used to account for assets held under the terms of a formal trust agreement, whereby the School District is under obligation to maintain the trust principal. Resources are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting entity's programs - that is, for the benefit of the school district. The District presently has no resources that are considered permanent funds.

2. Proprietary Fund Type

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The accounting principles generally accepted in the United States of America are those similar to businesses in the private sector. The following is a description of the Proprietary Fund of the District.

Enterprise Fund - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the After School Latchkey Program and the Enrichment Program.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting (Continued)

2. Proprietary Fund Type (Continued)

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

3. Fiduciary Funds

Fiduciary Fund reporting focuses on net assets and changes in net assets. They are used to account for assets held in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. There are four fiduciary fund types - pension (and other employee benefit) trust funds, investment trust funds, private-purpose trusts and agency funds. The overarching rule for these funds is that they should never be used to report resources that can be used for programs of the reporting district.

Agency Funds - Agency Funds are used to account for the assets that the District holds on behalf of others as their agent. These funds are custodian in nature and do not involve measurement of results of operations. Agency Funds include payroll and student activities funds.

4. Long-Term Debt

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt, not in the governmental funds. This includes serial bonds outstanding that are expected to be financed from governmental funds, the outstanding principal balance on capital leases, the outstanding principal on outstanding loans, compensated absences, claims and judgments, early retirement incentive programs and rebatable arbitrage.

C. Measurement Focus

1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the School District are included on the Statement of Net Assets.

2. Fund Financial Statements

All Governmental Funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus (Continued)

2. Fund Financial Statements (Continued)

All Proprietary Funds are accounted for on a flow of economic resources measurement focus. With this measurement, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e. revenues) and decreases (i.e. expenses) in net total assets.

Fiduciary Funds are reported using the economic resources measurement focus.

D. Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's Proprietary Funds have elected not to apply the standards issued by FASB after November 30, 1989.

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

E. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year, subject to the limitation of P.L. 2004, c. 73 (S1701).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgets/Budgetary Control (Continued)

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

E. **Budgets/Budgetary Control (Continued)**

The following presents a reconciliation of the General Fund Revenue and Special Revenue Fund revenue from the budgetary basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - General, Special Revenue and Debt Service Funds to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

G. Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited to the types of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks, (both state and national banks) and savings banks, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

H. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when final costs have been determined.

I. Tuition Payable

Tuition charges for the fiscal years 2008-2009 and 2009-2010 were based on rates established by the school district. These rates are subject to change when the actual costs have been determined.

J. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, other than those recorded in an Enterprise Fund, are recorded as an expenditure during the year of purchase.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Short-Term Interfund Receivables/Payables

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

L. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Asset Class</u>	<u>Estimated Lives</u>
School Buildings	50 Years
Building Improvements	20 Years
Electrical/Plumbing	30 Years
Vehicles	8 Years
Office and Computer Equipment	5-10 Years
Instructional Equipment	10 Years
Grounds Equipment	15 Years

M. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire sick leave and vacation leave liabilities are reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the governmental funds. However, the noncurrent portion of capital leases, compensated absences and loans payable that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable, available financial resources.

O. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

P. Deferred Revenue

Deferred revenue in the Special Revenue Fund represents cash that has been received but not yet earned.

Q. Fund Equity

Contributed capital represents the amount of fund capital contributed to the Proprietary Funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

R. Fund Balance Reserves

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

S. Proprietary Funds Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a Proprietary Fund's principal ongoing operations. The principal operating revenues of the School District Enterprise Fund (the After School Latchkey Program) are charges to customers for after school care. The principal operating revenues of the School District Enterprise Fund (the Enrichment Program) are charges to customers for after school enrichment programs. Operating expenses for Enterprise Funds include the cost of payroll expense, program costs, and supplies. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

T. Rebatable Arbitrage

Rebatable arbitrage results from investing the proceeds of borrowed funds either directly or indirectly into investments that are higher in yield than the bond yield incurred on the borrowed funds. In accordance with GASB 34, rebatable arbitrage is treated like a claim or judgment. All interest income is reported as revenue of the Capital Projects Fund. The liability, if any, is recorded in the "Statement of Net Assets".

U. Allocation of Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Employee benefits, including the employer's share of social security, workers compensation and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is reported separately on the Statement of Activities. No expenses were allocated as "Indirect Expenses".

V. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments. The School District is in compliance with GASB Statement No. 3, as amended by GASB Statement No. 40.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

Deposits (Continued)

As of June 30, 2010, cash and cash equivalents of the District consisted of the following:

	<u>Cash and Cash Equivalents</u>
Checking Accounts	<u>\$ 578,513.41</u>
<u>Allocation of Cash and Cash Equivalents</u>	
Unrestricted	\$ 298,040.51
Restricted	<u>280,472.90</u>
	<u>\$ 578,513.41</u>

Investments

New Jersey statutes permit the Board to purchase the following types of securities:

- . Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes and bonds.
- . Government money market mutual funds.
- . Any federal agency or instrumentality obligation authorized by Congress that matures within 397 days from the date of purchase, and has a fixed rate of interest not dependent on any index or external factors.
- . Bonds or other obligations of the school district or local unit of which the school district is a part.
- . Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments, New Jersey State Department of Treasury
- . Local government investment pools.
- . New Jersey State Cash Management Fund.
- . Repurchase agreements of fully collateralized securities, subject to special conditions.

There were no outstanding investments as of June 30, 2010.

4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Haworth Borough Board of Education by inclusion of \$29,107.00 on March 8, 2005 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The total capital reserve account as of June 30, 2010 was \$202,491.63. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

4. CAPITAL RESERVE ACCOUNT (Continued)

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a District may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes. A District may also appropriate additional amounts when the excess approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:26-9.1(d) 1, of the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

5. INTERGOVERNMENTAL ACCOUNTS RECEIVABLE

Intergovernmental Accounts Receivable at June 30, 2010 consisted of State sources and a capital project grant. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables is as follows:

A. Bonds Payable

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds.

8. **LONG-TERM DEBT (Continued)**

A. **Bonds Payable (Continued)**

General Serial Bonds:

\$2,682,000 General Obligation Bonds, Series 2004 - annual maturities of \$140,000 to \$250,000 through August 15, 2019 at interest rates ranging from 3.75% to 4.00%. The Bonds are not subject to redemption prior to maturity. \$ 2,137,000.00

\$2,560,000 Refunding General Obligation Bonds, Series 2009 - annual maturities of \$200,000 to \$275,000 through February 15, 2019 at interest rates ranging from 3.00% to 5.00%. The Bonds are not subject to redemption prior to maturity. 2,315,000.00

\$ 4,452,000.00

School District Bonds, Series 2004

On August 15, 2004 the District sold General Obligation Bonds totaling \$2,682,000.00. The Bonds bear interest from 3.75% to 4.00% per annum payable on February 15, 2005 and semiannually thereafter on August 15 and February 15 in each year until maturity. While the Depository Trust Company ("DTC") is acting as securities depository for the Bonds, principal of and interest on the Bonds will be payable to DTC or its nominee, which is obligated to remit such principal and interest to DTC Participants. DTC Participants and Indirect Participants will be responsible for remitting such payments to the beneficial owners of the Bonds.

The Bonds are not subject to redemption prior to maturity.

School District Bonds, Series 2009 Refunding Issue

On June 30, 2009, Bergen County Improvement Authority sold General Obligation Bonds On-Behalf of the District totaling \$2,560,000.00. The Bonds bear interest from 2.00% to 5.00% per annum payable on February 15, 2010 and semiannually thereafter on August 15 and February 15 in each year until maturity. While the Depository Trust Company ("DTC") is acting as securities depository for the Bonds, principal of and interest on the Bonds will be payable to DTC or its nominee, which is obligated to remit such principal and interest to DTC Participants. DTC Participants and Indirect Participants will be responsible for remitting such payments to the beneficial owners of the Bonds.

The Bonds are general obligations of the Board and are secured by a pledge of the full faith and credit of the Board for the payment of the principal thereof and the interest thereon and, unless paid from other sources, the Bonds are payable from ad valorem taxes to be levied on all taxable real property in the school district, without limitation as to rate or amount. The Bonds are additionally secured by the provisions of the New Jersey School Bond Reserve Act.

The District, in conjunction with the issuance of the Bonds, has agreed to undertake and provide certain information to Bondholders on a continuing basis. The Securities and Exchange Commission ("SEC") Rule 15c2-12(b)(5) "Continuing Disclosure" requirements, which the District has adopted, requires that various financial information about the District and the Municipality be provided annually to various information repositories. This requirement is effective for the fiscal years ended June 30, 2005 and thereafter.

There were no capital leases payable at June 30, 2010.

9. PENSION PLANS

Description of Plans

All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both systems will be assumed by the State of New Jersey should the systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees' Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related noncontributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6 for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Pension benefits for members enrolled in PERS after May 21, 2010 would be based on 1/60th of the average annual compensation for the last five years of service or any five fiscal years of membership that provide the largest benefit to the member of the member's beneficiary. Early retirement is available to those under age 60 with 25 or more years of credited service. Anyone who retires early and is under age 55 receives retirement benefits as calculated in the above-mentioned formula but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age 55). The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the system.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

9. PENSION PLANS (Continued)

Significant Legislation

During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997) changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by ½ of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the District's normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and the change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated, except for the unfunded liability for local early retirement incentive benefits, accordingly, the pension costs for TPAF and PERS were reduced.

Contribution Requirements

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for both cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a noncontributing employer of the TPAF.

**Three-Year Trend Information for TPAF
(Paid On-Behalf of the District)**

<u>Year Funding</u>	<u>Annual Pension Cost (APC)*</u>	<u>Percentage of APC Contributed</u>	<u>Retirement Medical Benefits</u>
June 30, 2010	\$12,041.00	100%	\$ 226,147.00
June 30, 2009	10,658.00	100%	203,322.00
June 30, 2008	80,084.00	100%	185,978.00

During the fiscal year ended June 30, 2010, the State of New Jersey contributed \$12,041.00 to the TPAF for normal pension and \$226,147.00 for post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$273,638.94 during the year ended June 30, 2010 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the individual fund statements and schedules as a revenue and expenditure in accordance with GASB 24.

9. PENSION PLANS (Continued)

Contribution Requirements (Continued)

Legislation enacted during 1993 provided early retirement incentives for certain members of TPAF and PERS who met certain age and service requirements and who applied for retirement between certain dates in the 1994 fiscal year. The early retirement incentives included: (a) an additional five years of service credit for employees at least age 50 with a minimum of 25 years of service; (b) free health benefits for employees at least 60 years old with at least 20 years of service; and (c) an additional \$500 per month for two years for employees at least age 60 with 10 but less than 20 years of service. The Board assumed the increased cost for the early retirement as it affected their District.

10. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2009, there were 84,509 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with Chapter 62, P.L. 1994. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$116.9 million toward Chapter 126 benefits for 13,320 eligible retired members in fiscal year 2009.

11. COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the right to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types is recorded in the Statement of Net Assets. The current portion of the compensated absences balance of the governmental funds is reported separately on the Statement of Net Assets.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2010, no liability existed for compensated absences in the Enterprise Fund.

12. DEFERRED COMPENSATION

The Board offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plan, which is administered by the Division of Pensions, permits participants to defer a portion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, retirement, death or unforeseeable emergency. The Plan Administrator is the Prudential Insurance Company of America.

13. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance

The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Contributory Method". Under this plan, the District is required to remit to the New Jersey Unemployment Trust Fund the employee contributions.

14. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2010:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 143.68	\$304.60
Enterprise Funds	304.60	
Trust and Agency Fund		143.68
	<u>\$ 448.28</u>	<u>\$448.28</u>

15. FUND BALANCE APPROPRIATED

General Fund - Of the \$479,504.38 General Fund fund balance reported in Statement "B-1" at June 30, 2010, \$59,827.75 is reserved for encumbrances, \$0 has been appropriated and included as anticipated revenue for the year ending June 30, 2011; \$202,491.63 is for capital reserve and \$217,185.00 is unreserved and undesignated.

Debt Service Fund - Of the \$35,868.33 Debt Service Fund fund balance at June 30, 2010, \$270.00 has been appropriated and included as anticipated revenue for the year ending June 30, 2011 and \$35,598.33 is unreserved and undesignated.

16. CONTINGENT LIABILITIES

A. Litigation

Board's general counsel and management have indicated that the Board is not involved in any matters of litigation that would have a material adverse impact in the financial condition of the District.

B. Federal and State Awards

The School District participates in several federal and state grant and aid programs which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the School District has not complied with the rules and regulations governing the grants or aid, refunds of money received may be required and collectibility of any related receivable at June 30, 2010 may be impaired. In the opinion of the management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants, therefore, no provisions have been recorded in the accompanying general purpose financial statements for such contingencies.

17. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, c.73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Education Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. There was no excess fund balance at June 30, 2010.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable President and Members
of the Board of Education
Haworth Borough School District
County of Bergen
Haworth, New Jersey 07641

We have audited the financial statements of the Board of Education of the Haworth Borough School District, in the County of Bergen, State of New Jersey, as of and for the fiscal year ended June 30, 2010, and have issued our report thereon dated September 15, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Haworth Borough Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Haworth Borough Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Haworth Borough Board of Education's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Haworth Borough School Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

We noted no matters that we reported to the Board of Education of the Haworth Borough School District in a separate report entitled *Auditor's Management Report on Administrative Findings - Financial, Compliance and Performance* dated September 15, 2010.

This report is intended solely for the information and use of the audit committee, management, the Haworth Borough Board of Education, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133 AND STATE OF NEW JERSEY OMB CIRCULAR 04-04**

The Honorable President and Members
of the Board of Education
Haworth Borough School District
County of Bergen
Haworth, New Jersey 07641

Compliance

We have audited the compliance of the Board of Education of the Haworth Borough School District in the County of Bergen, State of New Jersey, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* and *New Jersey State Aid/Grant Compliance Supplement* that are applicable to each of its major state programs for the fiscal year ended June 30, 2010. Haworth Borough Board of Education's major state programs are identified in the Summary of Auditor's Results Section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major state programs is the responsibility of the Haworth Borough Board of Education's management. Our responsibility is to express an opinion on the Haworth Borough Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133 *Audits of States, Local Governments and Non-Profit Organizations*, and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, OMB Circular A-133 and New Jersey OMB's Circular 04-04 require that plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Haworth Borough Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Haworth Borough Board of Education's compliance with those requirements.

In our opinion, the Board of Education of the Haworth Borough School District, in the County of Bergen, State of New Jersey, complied, in all material respects, with the requirements referred to above that are applicable to each of its major state programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the Board of Education of the Haworth Borough School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Haworth Borough Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Haworth Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, the Haworth Borough Board of Education, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

HAWORTH BOROUGH SCHOOL DISTRICT

NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS AND FINANCIAL ASSISTANCE

JUNE 30, 2010

1. GENERAL

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance included the activity of all federal awards and state financial assistance programs of the Board of Education, Haworth Borough School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the Schedule of Federal Awards and State Financial Assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Note 2 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133 Audits of States, Local Grants and Non-Profit Organizations and New Jersey OMB 04-04. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the General Fund and Special Revenue Fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the General Fund and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General Fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, the payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The Special Revenue Fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The Special Revenue Fund also recognizes the one or more state aid June payments in the current budget year, consistent with N.J.S.A. 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$1,901.00 for the general fund and none for the Special Revenue Fund. See Exhibit "C-3" (the Notes to Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the General and Special Revenue Funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$	\$ 864,770.94	\$ 864,770.94
