Honorable President and
Members of the Board of Education
Montvale School District
County of Bergen, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Montvale School District for the fiscal year ending June 30, 2010 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate and is reported in a manner designed to present fairly in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information of the Montvale School District as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America. All disclosures necessary to enable the reader to gain an understanding of the Montvale School District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the Montvale School District's organizational chart, and a list of principal officials. The financial section includes the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The Montvale School District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments," and State Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single Audit Section of this report.

1] REPORTING ENTITY AND ITS SERVICES: The Montvale School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB statement #14. All funds and account groups of the district are included in this report. The Montvale School District Board of Education and all its schools constitute the district's reporting entity. The district provides a full range of educational services appropriate to grade levels K through 8. These include regular and special education for handicapped students. The district completed the 2009-10 fiscal year with

an enrollment of 1096 students, an increase of 53 students as compared to the previous year's enrollment. This is a result of both enrollments of students whose families are occupying new housing and some turn over of existing housing. The following details the changes in the student enrollment of the Montvale School District over the last five years. In anticipation of new housing and kindergarten enrollment determined using the five-year cohort survival method, it is anticipated that future district enrollment will increase approximately 2-4%.

Average Daily Enrollment

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2009-2010	1096.0	+5.08%
2008-2009	1043.0	+3.52%
2007-2008	1007.5	-0.71%
2006-2007	1014.7	-2.00%
2005-2006	1038.0	-1.42%

2] ECONOMIC CONDITION AND OUTLOOK: The Borough of Montvale enjoys very high ratables, due mainly to the large section of the community zoned for offices occupied by major corporations. Property assessments have increased due to new housing construction. Occupation rates of office properties continue to be high.

The community's favorable tax rate, accessibility to major roadways and employment, pleasant suburban atmosphere, and the excellent reputation of its schools make Montvale a very attractive place to live. The community has experienced a growth in the number of townhouses and single family residences in recent years. Construction of a complex of "luxury villas" is in progress yielding the enrollment of four children during the 2009-10 school year. Planning Board approval has been given to an additional 72 unit townhome complex and several single family homes. Better than average taxes for Bergen County and the community's desirability continue to result in home sales at preferred amounts.

All students will be accommodated in the existing Memorial Elementary and Fieldstone Middle Schools for the 2010-11 school year. Class size averages are 17-23 and 20-26 respectively.

3] MAJOR INITIATIVES: The Board of Education annually reviews school building needs and prioritizes the identified items. Recently completed maintenance projects included a partial roofing replacement project at Memorial School, and installation of security cameras at Fieldstone School during the summer of 2009. Projects for the summer of 2010 include gym lighting retrofit projects at both schools and replacement sidewalks at Fieldstone School, for which state funding of 40% has been secured.

The district annually evaluates the results of State testing and set goals for curriculum and teaching improvements to continue to have the district exceed the adequate yearly progress standards as defined in the No Child Left Behind Act. The district utilized the *Learnia* diagnostic assessments through a State Pilot Program. Data will be tracked longitudinally and results used to evaluate the curriculum as well as identify student weaknesses for remediation.

The district continued its commitment to mentoring new staff members, and is providing on-going professional development activities for all teaching staff. In-house workshops are offered in a variety of areas based on needs and interests as determined by a staff survey. Classes in the areas of integrating technology into the curriculum, differentiation of instruction, and using data to drive instruction were provided.

The Montvale Schools continue to improve and upgrade technology in the district. Internet access continues to be available in every classroom and computer lab. Use has increased annually as teaching staff incorporates more project-based assignments. Staff members are proficient in the use

of e-mail to communicate with each other and parents. In an effort to be more “green” all district memos are now distributed via web mail and forms are available on the district web-site. The district web site also includes Board of Education public session agendas and minutes, school calendars, and district newsletters. Parents and students have access to teacher created homework web pages to assist in tracking assignments. Due to the generosity of the community, as organized through the Montvale Educational Foundation, every academic classroom has an interactive white board (Easi-Teach). Accompanying software is available and teachers have received, and continue to receive, training in its use. To improve accessibility to additional Internet band width, during the summer of 2009, the Fieldstone Middle School was re-wired for data access. Re-wiring of Memorial School is a summer 2010 project.

For the fifth year web-based student management software, EduWave, was used for attendance, scheduling, and record management. Training is ongoing for the components in the software that address lesson-planning, curriculum writing, and sharing of teacher created materials. Parents of students sign on to get access to their child’s information, including downloading and printing of report cards.

Voters of the district passed the school budget in April 2010. The school budget has been approved 15 times in the past 17 years.

The many volunteers who participate in the PTO’s safety, educational, and fund-raising programs support the Montvale School District’s programs. They provided assembly programs and various equipment items as requested by the schools. The Montvale Educational Foundation provided several mini-grants to teachers as well as the interactive white boards and a new Apple Mac Mobile Lab. Both groups continue to work with the schools to provide enrichment opportunities.

The Montvale School District continues to move forward on the objectives established in the Strategic Planning Initiative. The Board set and accomplished their annual goals.

4) INTERNAL ACCOUNTING CONTROLS: Administration is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Montvale School District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles [GAAP]. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: [1] the cost of a control should not exceed the benefits likely to be derived, and [2] the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the Montvale School District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluations by the district management.

As part of the Montvale School District’s single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the Montvale School District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by voters of the municipality. Annual appropriated budgets are adopted for the general fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2010.

6) ACCOUNTING SYSTEM AND REPORTS: The Montvale School District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board [GASB]. The accounting system of the district is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statement."

7) DEBT ADMINISTRATION: On May 15, 2000, the district sold 20-year bonds in the amount of \$5,083,000. The district makes interest payments each May and November, and one principal payment each May. The voters approved a referendum in April 2005. Twenty-year bonds in the amount of \$2,371,000 were sold on November 15, 2006. Interest payments are due each May and November, and one principal payment each November.

8) CASH MANAGEMENT: The investment policy of the Montvale School District is guided in a large part by state statute. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ["GUDPA"]. GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law required governmental units to deposit public funds only in public depositories in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT: The Board carried various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

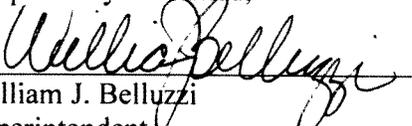

10) OTHER INFORMATION:

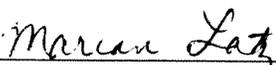

Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. Accountant Timothy Vrabel of T.M. Vrabel and Associates, LLC was appointed by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 and the related OMB Circular A-133 and state Treasury Circular Letter 04-04 OMB. The auditor's report on the general-purpose financial statements and combined individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11) ACKNOWLEDGMENT:

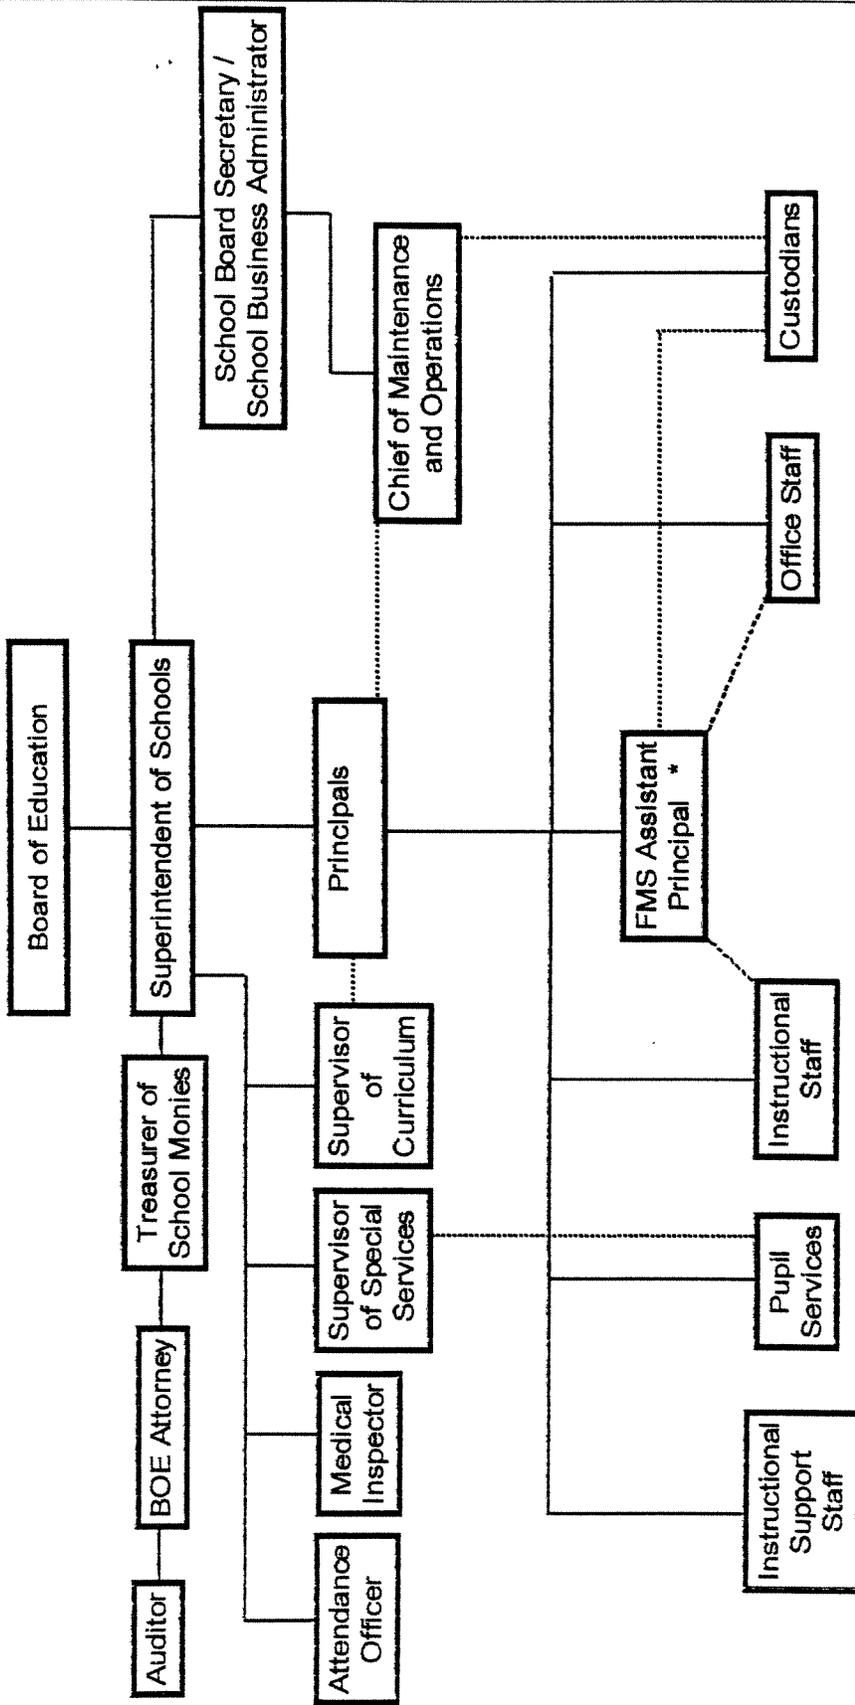

We would like to express our appreciation to the members of the Montvale Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Borough of Montvale School District
County of Bergen, New Jersey

We have audited the accompanying basic financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Montvale School District as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Borough of Montvale School District's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Montvale School District as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated August 25, 2010 on our consideration of the Borough of Montvale School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on page 14 through 20 and budgetary comparison information on schedules C-1 and C-2 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our Audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Montvale School District's basic financial statements. The accompanying introductory section, and other supplementary information such as the combining and individual fund financial statements, long-term debt schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and long-term debt schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and New Jersey OMB's Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

PART I**

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Borough of Montvale School District financial activities for the fiscal year ended June 30, 2010. Please read it in conjunction with the transmittal letter on page 1 and the District's financial statements, which begin on page 23.

FINANCIAL HIGHLIGHTS

- The District's net assets decreased \$769 thousand as a result of this year's operations. Net assets of our business-type activities decreased by \$3 thousand, or 23 percent, and net assets of our governmental activities decreased by \$766 thousand or 10.3 percent.
- Total cost of all of the District's programs was \$15.8 million in 2009-2010 compared to \$14.7 million in 2008-2009.
- During the year, the District had expenses for governmental activities that were \$290 thousand more than the \$15.4 million generated in tax and other program revenues.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 23 and 24) provide information about the activities of the District as a whole and present a longer-term view on the District's finances. Fund financial statements start on page 27. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operation in more detail than the government-wide statements by providing information about the District's most financially significant funds

Reporting the District as a Whole

The Statement of Net Assets and the Statement of Activities

Our analysis of the District as a whole begins on page 16. One of the most important questions asked about the District's finances is "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in them. You can think of the District's net assets, the difference between assets and liabilities, as one way to measure the District's financial health, or *financial position*. Over time, *increases* or *decreases* in the District's net assets are one indicator whether its *financial health* is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the District's property tax base, and the condition of the District's capital assets to assess the overall *health* of the District.

In the Statement of Net Assets and the Statement of Activities, we divide the District into two kinds of activities:

- **Governmental activities:** most of the District's basic services are reported here, including general administration. Local taxes, tuition and state and federal aid finance most of these activities.
- **Business-type-activities:** the District has proprietary funds for a milk program, and for a pre-k summer program known as Safety Town. These are shown on pages 32 and 33.

Reporting the District's Most Significant Funds

Fund Financial Statements

Our analysis of the District's major funds begins on page 18. The fund financial statements begin on page 27 and provide detailed information about the most significant funds-not the District as a whole. Some funds are required to be established by State law. The District's two kinds of funds, governmental and proprietary, use different accounting approaches.

Governmental funds: most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliation on page 29.

Proprietary funds: when the District charges customers for the full cost of the services it provides, these services are reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the District's enterprise funds (a component of business type funds) are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for the Unemployment Compensation Trust, Scholarship Funds and Agency Funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets on pages 35 and 36. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE DISTRICT AS A WHOLE

The District's *combined* net assets changed from a year ago, *decreasing* from \$7.439 million to \$6.670 million. Looking at the net assets and net expenses of governmental and business-type activities separately, different stories emerge. Our analysis below focuses on the net assets (Table 1) and changes in net assets (Table 2) of the District's governmental and business-type activities as of June 30.

Table 1

Net assets of the District's governmental activities decreased by .10.3 percent. Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – decreased \$35 thousand. Restricted net assets, those restricted mainly for capital projects decreased by \$804 thousand. Both net asset categories benefited from increased economic activity, which resulted in actual revenues exceeding budgeted revenues. The investment in capital assets, net of debt category increased by \$72 thousand.

Business-type Activities

District’s major Enterprise Funds consist of the Food Service (milk program) and a pre-k summer program (Safety Town). The basic financial statements for the major funds are included in this report. Because the focus on business-type funds is a cost of service measurement or capital maintenance, we have included these funds in Table 4, which demonstrates return on ending assets and return on ending net assets.

BUDGETS

The variances between the originally adopted budget for the 2009-2010 year, and the final budget were caused by the treatment of encumbrances that are added to the original budget, and the appropriation of prior year state aid (extraordinary aid).

In addition, savings were generated by:

- Unanticipated changes in staff. Qualified, certified, replacements with less experience were hired.
- Providing in-house professional development activities.
- Continued shared services for speech services through a joint agreement with the River Vale School District and for occupational and physical therapy services through Region II.
- Reduction of one out of district special education placements.

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District’s finances and to show the District’s accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mrs. Marian Latz, School Business Administrator, Montvale Public School District, 47 Spring Valley Road, Montvale, New Jersey.

to the Statement of Activities**
For the Year Ended June 30, 2010

Total net change in fund balances - governmental funds (from B-2)		(733,365.41)
<p>Amounts reported for governmental activities in the statement of activities (A-2) are different because:</p>		
<p>In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. The difference in accrued interest is an addition in the reconciliation. (+)</p>		
Interest paid	285,209.26	
Interest accrued	<u>(283,121.76)</u>	2,087.50
<p>Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.</p>

BOARD OF EDUCATION
BOROUGH OF MONTVALE

NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2010

Note I: Summary of Significant Accounting Policies

A. Basis of Presentation

The financial statements of the Board of Education (Board) of the Borough of Montvale School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District is required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the District has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the District has chosen not to do so. The more significant accounting policies established in GAAP and used by the District are discussed below.

In June 1999, the GASB issued Statement No. 34, Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments. This Statement established new financial reporting requirements for state and local governments throughout the United States. It required new information and restructuring much of the information that governments had presented in the past. The District began implementing these standards for the fiscal year ending June 30, 2004.

Other GASB Statements were also required to be implemented in conjunction with GASB Statements No. 34. Therefore, the District implemented for the fiscal year ending June 30, 2004, Statement No. 37 – Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments: Omnibus, and Statement No. 38 – Certain Financial Statement Note Disclosures.

B. Reporting Entity

The Borough of Montvale School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District’s reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include one elementary and one middle school located in Montvale. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

C. Basic Financial Statements- Government-Wide Statements

The statement of net assets and the statement of activities display information about the District. These statements include the financial activities of the District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

D. Basic Financial Statements- Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the District:

Governmental Fund Types

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund – The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution and, excluding equipment, with County Superintendent approval.

Note I: Summary of Significant Accounting Policies (Continued)

D. Basic Financial Statements- Fund Financial Statements (Continued)

Special Revenue Fund – The Special Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund – The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specially authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Proprietary Fund Type

The focus of Proprietary Fund measurement is upon determination of net income, changes in net assets, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

Enterprise Funds – The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the District has decided that the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund are comprised of the Special Milk and Safetytown operations.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Special Milk Program:	
Equipment	12 Years
Light Trucks and Vehicle	4 Years
Heavy Trucks and Vehicle	6 Years

Fiduciary Fund Types

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net assets and changes in net assets and are reported using accounting principles similar to proprietary funds.

The District's fiduciary funds are presented in the fiduciary fund financial statements by type (Unemployment Compensation and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

BOARD OF EDUCATION
BOROUGH OF MONTVALE

NOTES TO BASIC FINANCIAL STATEMENTS

Note I: Summary of Significant Accounting Policies (Continued)

E. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include state and federal aid, property taxes, grants entitlements and donations.

Government funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

F. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the county office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. All budget amendments must be approved by School Board resolution. Appropriation of additional fund balance in the amount of \$50,000.00 and prior year encumbrances in the amount of \$44,222.71 were made during the year ended June 30, 2010. The significant budget transfers and amendments approved in the school year are presented on Exhibit C-1.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

F. Budgets/Budgetary Control (Continued)

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The reconciliation of the general and special revenue funds from the budgetary basis of accounting to the GAAP basis of accounting is presented on Exhibit C-3.

G. Assets, Liabilities and Fund Equity

1. Deposits and Investments

Deposits are cash and cash equivalents including petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Other than Certificates of Deposit, deposits with maturities of greater than three months are considered to be Investments. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

2. Short – term Interfund Receivables/Payables

Short – term interfund receivables/payables represents amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

3. Inventories

Inventories, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditure during the year of purchase.

4. Capital Assets

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on the following assets is provided on the straight – line basis over the following estimated useful lives:

Buildings	20-50 years
Machinery and Equipment	5-10 years
Land Improvements	10-20 years
Other Infrastructure	10-50 years

Land and Construction in Progress are not depreciated.

Note I: Summary of Significant Accounting Policies (Continued)

G. Assets, Liabilities and Fund Equity (Continued)

4. Capital Assets (Continued)

GASB No. 34 requires the District to report and depreciate new infrastructure assets effective with the beginning of the current year. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The retroactive reporting of infrastructure is subject to an extended implementation period and is first effective for fiscal years ending in 2006.

5. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for the compensated absences. The noncurrent portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the fund and government – wide presentations. (See Note IX)

6. Deferred Revenue

Deferred revenue in the special revenue fund represents cash which has been received but not yet earned. See Note 1(F) regarding the special revenue fund.

7. Long – term Obligations

Long – term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long – term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The noncurrent portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the fund and government – wide presentations.

8. Fund Equity

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

9. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reports, amounts and disclosures. Accordingly, actual results could differ from those estimates

Explanation of Differences between Governmental Funds Balance Sheet and the Statement of Net Assets

"Total fund balances" of the District's governmental funds in B-1 differs from "net assets" of governmental activities reported in the statement of net assets in A-1. This difference primarily results from the long - term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

Explanation of Differences between Governmental Funds Operating Statement of Activities

The "net change in fund balances" for governmental funds in B-2 differs from the "change in net assets" for governmental activities reported in the statement of activities in A-2. The difference arise primarily for the long - term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

A. Deposits and Investments

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey which are insured by the Federal Deposit Insurance Corporation (FDIC), the Savings Association Insurance Fund, or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

N.J.S.A. 17:9-41 et. Seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

At June 30, 2010 the Borough of Montvale School District's cash and cash equivalent's amounted to \$2,338,023.51. Of this amount, \$250,000.00 was covered by federal depository insurance (F.D.I.C.) and \$735,829.24 was covered by a collateral pool maintained by the banks as required by GUDPA

At June 30, 2010, the Borough of Montvale School District's participation in the State of New Jersey Cash Management Fund amounted to \$1,352,194.27.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires the disclosure of bank deposits that are subject to custodial credit risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Borough of Montvale School District will not be able to recover deposits or will not be able to recover collateral securities that may be in the possession of an outside party.

As of June 30, 2010, \$1,352,194.27 of the Borough of Montvale School District's cash and cash equivalents of \$2,338,023.51 was exposed to custodial credit risk as follows:

Investments

New Jersey statutes (N.J.S.A. 18A:20-37) permit the Borough of Montvale School District to purchase the following types of securities:

a. When authorized by resolution adopted by a majority vote of all its members the board of education of any school district may use moneys which may be in hand for the purchase of the following types of securities which, if suitable for registry, may be registered in the name of the school district;

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations of the school district or bonds or other obligations of local unit or units within which the school district is located;
- (5) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by school district;
- (6) Local government investment pools;
- (7) Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C.52:18A-90.4) or
- (8) Agreements for the repurchase of fully collateralized securities, if:
 - (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection a;
 - (b) the custody of collateral is transferred to a third party;
 - (c) the maturity of the agreement is not more than 30 days;
 - (d) the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C.17:9-41) and for which a master repurchase agreement providing for the custody and security of collateral is executed.

B. Capital Reserve Account

During fiscal year 1996-1997 the Board passed a resolution for the establishment of a capital reserve account. The 1997-1998 certified budget included a \$200,000.00 Board approved transfer from excess unreserved fund balance for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Note VI: Pension Plans

Description of Systems

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the New Jersey Division of Pensions and Benefits. The Teachers' Pension and Annuity Fund retirement system is considered a cost sharing plan with special funding situations as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The PERS is considered a cost sharing multiple-employer defined benefit plan.

The Public Employees' Retirement System (PERS) was established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8 to 10 years of service for pension benefits and 25 years for post – retirement health care coverage.

The Teachers' Pension and Annuity Fund (TPAF) was established in January 1955, under the provisions of N.J.S.A. 18:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post – retirement health care coverage.

According to the state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement systems terminate. The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits issues a publicly available financial report that includes the financial statements and required supplementary information of each of the above systems. The financial reports may be accessed via the New Jersey Division of Pensions and Benefits website at www.state.nj.us/treasury/pensions

Retirement Benefits

For PERS and TPAF employees, the benefits will be 1/55 of the average of the three highest years compensation for each year of service. However, for PERS and TPAF who are veterans of the U.S. armed forces, the benefits will be 1/55 of final compensation for each year of service.

Significant Legislation

P.L. 2009, c.19, effective March 17, 2009 provides an option for local employers to contribute 50 percent of the normal and accrued liability contribution amounts certified by the PERS for payments due in State fiscal year 2009. This law also provides that a local employer may pay 100 percent of the required contribution. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries for PERS will determine the unfunded liability of the retirement system, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the State fiscal year ending June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

P.L.2008, c.89, effective November 1, 2008, increased the TPAF and PERS eligibility age for unreduced benefits from age 60 to age 62 for members hired on or after November 1, 2008; changed the early retirement provisions; increased the minimum annual compensation required for membership eligibility for new members on or after the effective date of this law.

Significant Legislation (Continued)

P.L. 2007, c.103, certain parts effective July 1, 2007, provided for the following: changed employee contribution rates of TPAF, State PERS, and DCRP to 5.5 percent of annual compensation; imposed an annual maximum wage contribution base and a new retirement age to new employees; implemented changes to State Health Benefits Program (SHBP) and established an employee contribution of 1.5 percent of the employee's base salary.

Contribution Requirements

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and participating employers. Plan member and employer contributions may be amended by State of New Jersey legislation, with the amount of contributions by the State of New Jersey contingent upon the annual Appropriations Act. The pension funds provide for employee contributions based on 5.5 percent for TPAF and 5.5 percent for PERS of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in all Funds. The actuarially determined employer contribution includes funding for cost-of living adjustments and noncontributory death benefits in the TPAF and PERS. In the PERS and TPAF, the employer contribution includes funding for post-retirement medical premiums.

During the year ended June 30, 2009, for TPAF, which is a cost sharing plan with special funding situations, the annual pension cost differs from the annual required contribution. For PERS, which is a cost sharing multi-employer defined benefit pension plan, annual pension cost equals contributions made.

Contributions – Actual

The District's total payroll for the year ended June 30, 2010 was \$9,229,293.10 and covered payroll was \$7,036,814.00 for TPAF and \$1,415,464.00 for PERS. Contributions to the TPAF and the PERS for the years ended June 30, 2008, 2009 and 2010 made by the employees, the Board, and the State of New Jersey on behalf of the Board were as follows:

		TPAF	Percent of Covered Payroll	PERS	Percent of Covered Payroll
Employees	6/30/08	\$ 334,461.19	4.95%	\$ 69,520.25	5.76%
	6/30/09	338,519.56	4.92%	71,444.82	5.61%
	6/30/10	342,702.57	4.87%	78,714.70	5.56%
Board of Education	6/30/08	N/A	N/A	75,909.60	6.28%
	6/30/09	N/A	N/A	93,040.60	7.31%
	6/30/10	N/A	N/A	114,527.00	8.09%

	6/30/09	478,186.00	6.95%	N/A	N/A
	6/30/10	475,936.00	6.76%	N/A	N/A

In accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$543,269.06 during the year ended June 30, 2010 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount and the State of New Jersey's Contribution to the TPAF have been included in the basic financial statements and the budgetary comparison schedule – General Fund as a revenue and expenditure in accordance with GASB 24.

Note VII: Post-Retirement Medical Benefits

P.L. 1987, c.384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund and the Public Employees' Retirement System, respectively, to fund post-retirement medical benefits for those employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2008, there were 80,181 retirees receiving post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c.126 which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$116.9 million toward Chapter 126 benefits for 13,320 eligible retired members in Fiscal Year 2009.

Note VIII: Risk Management

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State.

The following table is a summary of district contributions, employee contributions, reimbursements to the state for benefits paid and the ending balance of the district's trust fund for the current and previous two years:

<u>Fiscal Year</u>	<u>District Contributions</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2009-2010	\$ 50,000.00	\$ 13,780.52	\$ 58,115.09	\$ 100,732.26
2008-2009		12,474.58	13,441.26	94,791.35
2007-2008		12,623.16	26,585.46	93,447.78

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District is a member of the South Bergen Workers Compensation Plan (the “Plan”). The Plan is a self-administered group of school districts established for the purpose of providing certain low-cost workers' compensation insurance coverage for member school districts in order to keep local property taxes at a minimum. The District pays an annual assessment to the Plan and should it be determined the payments received by the Plan are deficient, additional assessments may be levied.

The District is also a member of the School Alliance Insurance Fund (the “Fund”). The Fund is both an insured and self-administered group of school districts established for the purpose of providing certain low-cost Property Damage, Employer's Liability, Automobile and Equipment Liability, Environmental Liability, School Board Legal Liability and Boiler and Machinery insurance coverage for member school districts in order to keep local property taxes at a minimum. The District pays an annual assessment to the Fund and should it be determined that payments received by the Fund are deficient, additional assessments may be levied. Additionally, the Fund maintains a contract of excess insurance with a commercial reinsurer to secure the payment of benefits.

Note VIII: Risk Management (Continued)

The District continues to carry commercial insurance coverage for all other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note IX: Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted vacation and sick leave in varying amounts under the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee upon reaching eligibility for retirement under a state retirement plan.

In the district-wide *Statement of Net Assets*, the liabilities whose average maturities are greater than one year are reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2010, no liability existed for compensated absences in the Special Milk Program or Safety Town Funds.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President
Members of the Board of Education
Borough of Montvale School District
County of Bergen, New Jersey

We have audited the basic financial statements of the Borough of Montvale School District as of and for the year ended June 30, 2010, and have issued our report thereon dated August 25, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and in compliance with audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Borough of Montvale School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Montvale School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Borough of Montvale School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Email: tmvrabeldvc@optonline.net

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough of Montvale School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Governmental Auditing Standards and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended solely for the information and use management, the Borough of Montvale School District and the New Jersey Department of Education and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133 AND
NEW JERSEY OMB CIRCULAR LETTER 04-04

The Honorable President
Members of the Board of Education
Borough of Montvale School District
County of Bergen, New Jersey

Compliance

We have audited the compliance of the Borough of Montvale School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey State Aid/Grant Compliance Supplement that are applicable to each of its major state programs for the year ended June 30, 2010. Borough of Montvale School District major state programs are identified in the Summary of Auditor's Results Section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major state programs is the responsibility of Borough of Montvale School District's management. Our responsibility is to express an opinion on Borough of Montvale School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and New Jersey Office of Management and Budget Circular Letter 04-04 Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, OMB Circular A-133 and New Jersey OMB's Circular Letter 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Borough of Montvale School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Borough of Montvale School District's compliance with those requirements.

In our opinion, the Board of Education of the Borough of Montvale School District, in the County of Bergen, State of New Jersey, complied, in all material respects, with the requirements referred to above that are applicable to each of its major state programs for the year ended June 30, 2010

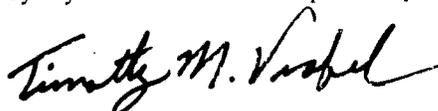

Internal Control Over Compliance

The management of Borough of Montvale School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to state programs. In planning and performing our audit, we considered Borough of Montvale School District's internal control over compliance with requirements that could have a direct and material effect on a major state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB's Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Montvale School District's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Borough of Montvale School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state will not be prevented or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Borough of Montvale School District, the New Jersey State Department of Education and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

BOARD OF EDUCATION
BOROUGH OF MONTVALE
NOTES TO SCHEDULES OF EXPENDITURES OF AWARDS AND FINANCIAL ASSISTANCE
YEAR ENDED JUNE 30, 2010

Note 1: General

The accompanying schedules of expenditures of awards and financial assistance present the activity of all federal and state programs of the Borough of Montvale School District Board of Education. The Board of Education is defined in Note I:B. to the Board's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

Note 2: Basis of Accounting

The accompanying schedules of expenditures of awards and financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes I:E and Note I:F. to the Board's basic financial statements. The information in the schedules is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in the schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 3: Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, payments are not recognized until the subsequent year due to the state deferral and recording of the state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more deferred June state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.
