Honorable President and
Members of the Board of Education
Township of Mount Laurel School District
County of Burlington, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Township of Mount Laurel School District for the fiscal year ended June 30, 2010, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the School District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the governmental activities, the business type activities, and each major fund of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Management's Discussion and Analysis and the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of OMB Circular A-133, "Audits of States, Local Governments, and Nonprofit Organizations," and the State Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: The Township of Mount Laurel School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All major funds of the District are included in this report. The Township of Mount Laurel School District and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 8. These include regular, as well as special education for handicapped students. The District's average daily enrollment for 2009-10 was 4,343. The following details the changes in the student enrollment of the District over the last ten years.

1) REPORTING ENTITY AND ITS SERVICES (CONT'D):

Average Daily Enrollment

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2009-10	4,343	-0.11%
2008-09	4,348	-1.40%
2007-08	4,410	-2.14%
2006-07	4,506	-0.74%
2005-06	4,540	-0.75%
2004-05	4,574	-0.02%
2003-04	4,575	-0.77%
2002-03	4,610	3.28%
2001-02	4,464	2.41%
2000-01	4,359	1.06%

2) ECONOMIC CONDITIONS AND OUTLOOK: Commercial development, population and residential housing construction within the Township have remained relatively unchanged over the past couple of years. The Township's population has more than tripled over the past 25 years. The latest official census of 2000 recorded the population at 40,221 residents.

3) MAJOR INITIATIVES AND ACCOMPLISHMENTS: Major initiatives and accomplishments for 2009-2010 in the academic and instructional programs include the following:

A total of 493 students were enrolled in accelerated, compacted or advanced Math classes this year, representing 15% of the entire Grade 2-8 population.

Enrollment in Algebra classes at the middle school for credit at Lenape Regional High School, increased significantly over last year to 137 students.

A total of 28-percent of our eighth-grade graduates left our schools holding high school credit. Nearly one-third of all 7th-graders are taking some form of advanced math and will also graduate with high school credits in 2011.

Board of Education approved increased security measures in all schools as well as a solar energy initiative.

Community support from our seven Parent-Teacher Organizations and the Mount Laurel Public Education Fund Inc. allowed district to restore clubs and extra-curricular activities for students in all schools following budget reductions.

The district saved \$28,000 by joining other Lenape Region schools to secure banking services. Securing school supplies through a similar venture has saved \$150,130 this year, and our participation in the federal E-Rate Program has saved \$98,000.

Our Community Education Program served approximately 594 registrants in summer programs for all ages, including 563 students in summer day camps and enrichment programs.

Our Child Study Team Services offered an extended school year to 243 students with special needs in pre-school through eighth-grade.

Orientation programs were implemented to acclimate students entering the transitional years of fifth and seventh-grade at the Hartford School and Harrington Middle School.

Curriculum revisions were undertaken and completed in the district's Guidance Curriculum.

Eighteen of our teachers underwent extensive training in Understanding By Design, and will turnkey this professional development to peers during our November in-service days.

3) MAJOR INITIATIVES AND ACCOMPLISHMENTS (CONT'D):

Maintained low class sizes, well within established board policy, in all grade levels, despite budget failure and subsequent reductions.

Superintendent of Schools Dr. Antoinette Rath was named to Rutgers University Gifted Education Advisory Board.

Parent participation in our new online payment system for school lunches was high, resulting in \$98,000 in lunch transactions in the 2009-2010 school year.

Mount Laurel School District was named Best Workplace in New Jersey by the Greater Philadelphia Newspaper Group.

Mount Laurel Schools conducted comprehensive in-school vaccination clinics for students and staff in answer to the H1N1 precautions issued by the Burlington County Board of Health.

Harrington Middle School's Battle of the Books Team placed first in county-wide competition; Hartford's Team placed second.

Hartford School placed first in Burlington County and third in NJ among 193 schools in Math League Competition.

Four Hartford School students were selected to participate in the All South Jersey Elementary Choral Festival.

Two Fleetwood students were winners of the "Best of the Best" Journalists for the Celebrate NJ program.

Harrington Middle School's Boys and Girls' Basketball Teams both captured their league championships.

Six teams of students from the Harrington Middle School participated in the Corielle Science Fair.

Six middle school students participated in the Burlington County Youth Achiever's Science Fair.

4) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30.

6) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect accounting principles generally accepted in the United States of America, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

7) FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

8) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with failed banking institutions in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT: The District carries various forms of insurance, including but not limited to workers compensation insurance, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

A professional appraisal firm is retained by the District to provide up-to-date insurable values of equipment, property and buildings.

The District is a member of the Burlington County Insurance Pool - Joint Insurance Fund.

10) INDEPENDENT AUDIT: State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Bowman & Company LLP was selected by the District. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of OMB Circular A-133 "Audits of States, Local Governments and Non-Profit Organizations" and State Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid". The auditor's report on the basic financial statements, required supplemental information and supplemental information are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11) ACKNOWLEDGEMENTS: The preparation of this report would not have been possible without the dedication and skill of the Business Office staff. We would also like to express our appreciation to the members of the Township of Mount Laurel School District Board of Education for their support in providing a sound financial operation.

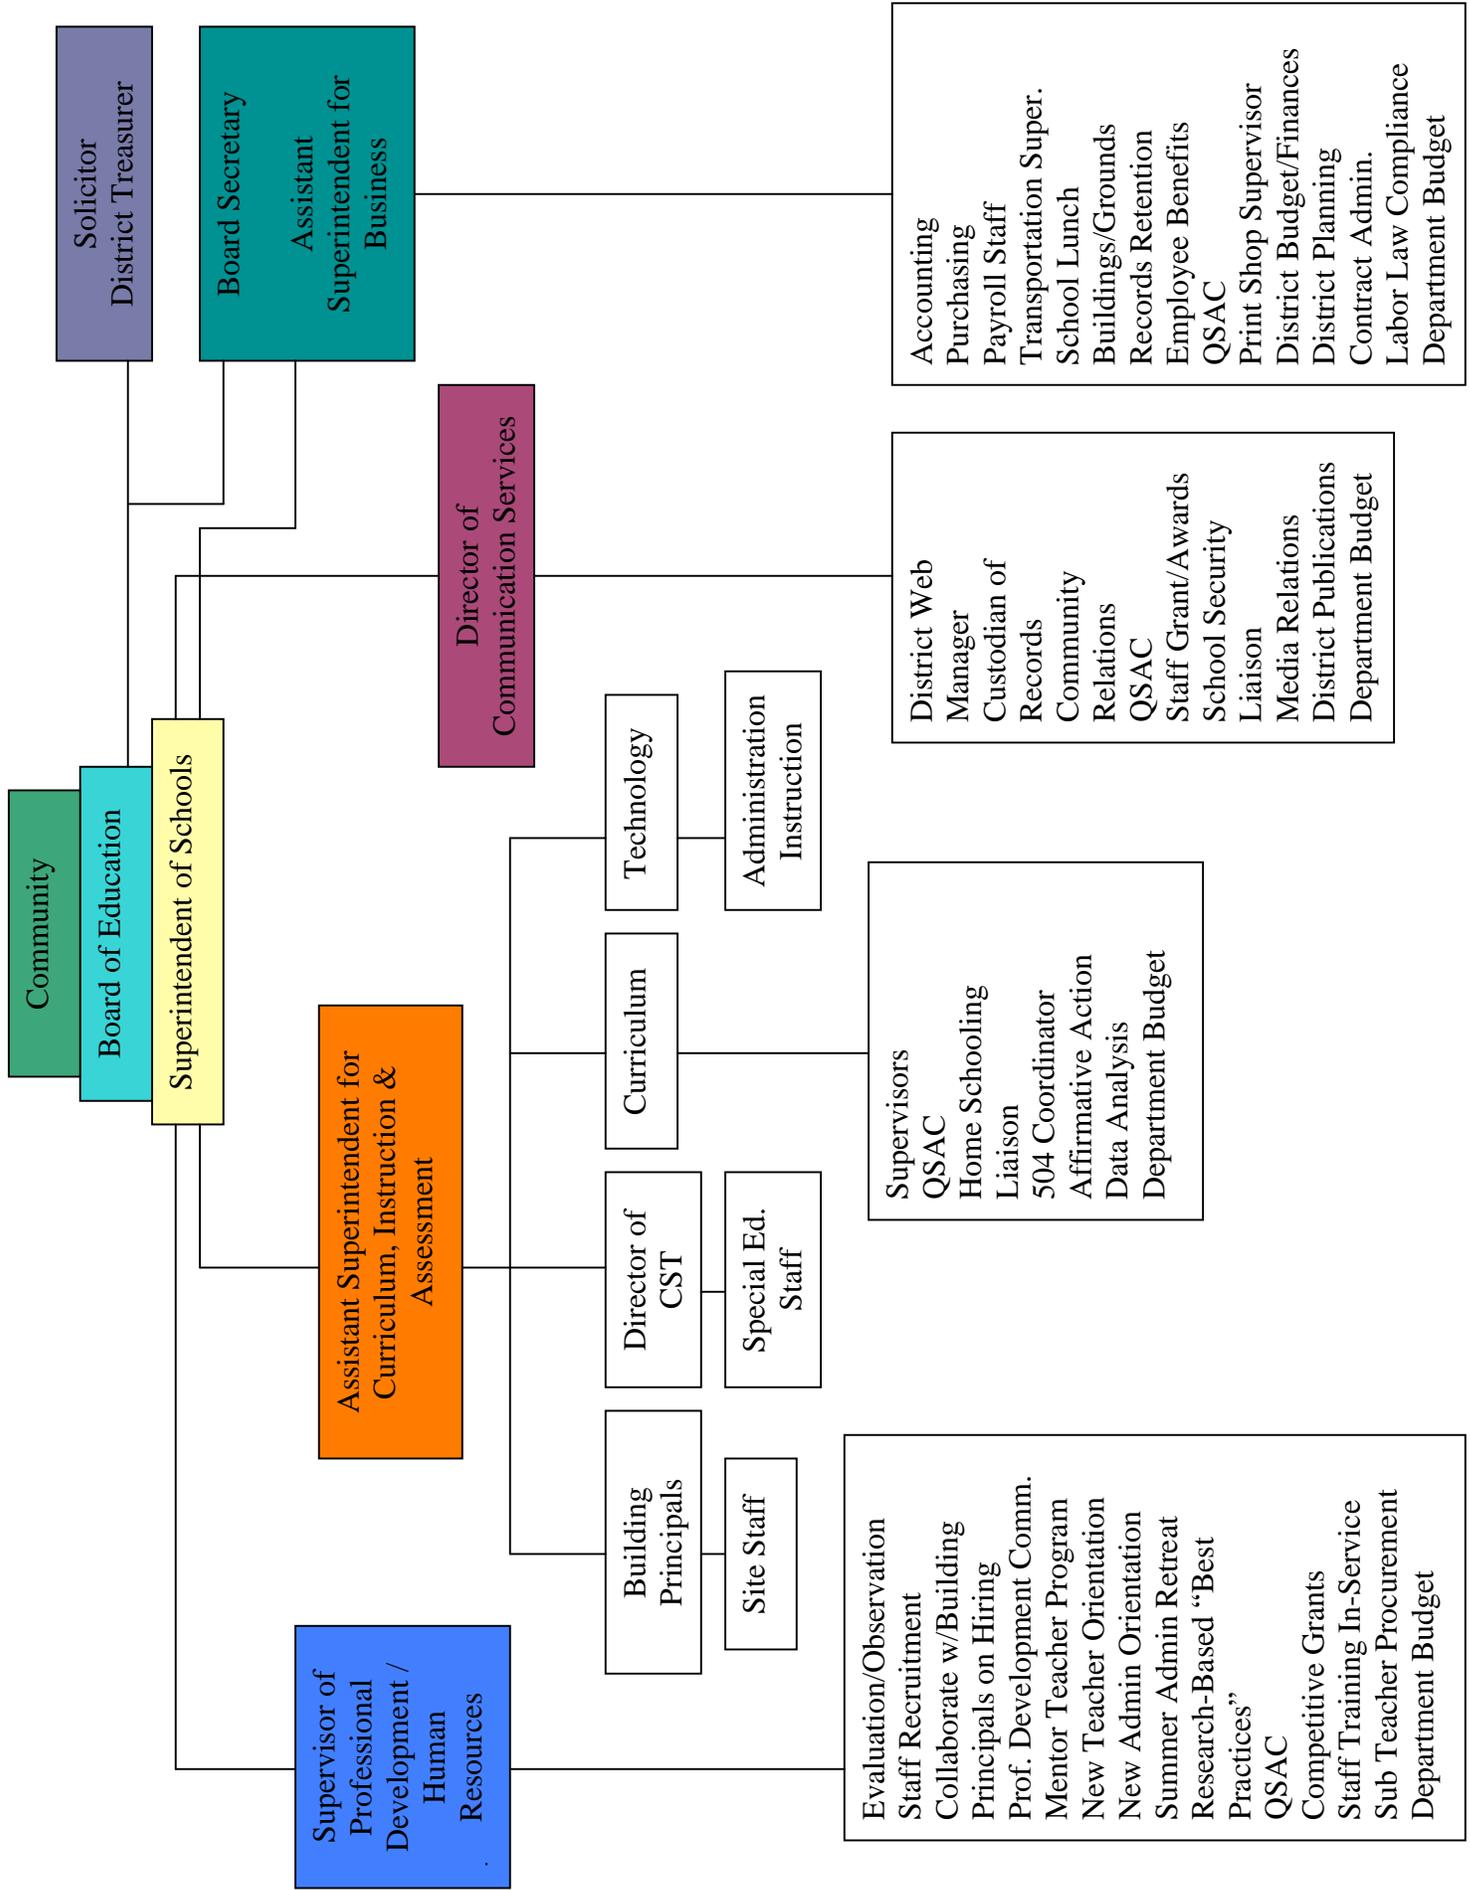

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Township of Mount Laurel School District
Mount Laurel, New Jersey 08054

We have audited the accompanying financial statements of the governmental activities, the business type activities, and each major fund of the Township of Mount Laurel School District, in the County of Burlington, State of New Jersey, as of and for the fiscal year ended June 30, 2010, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Mount Laurel School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Township of Mount Laurel School District in the County of Burlington, State of New Jersey as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 11, 2010 on our consideration of the Township of Mount Laurel School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in assessing the results of our audit.

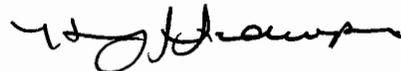

The accompanying management's discussion and analysis and budgetary comparison information as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Mount Laurel School District's basic financial statements. The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and State of New Jersey Circular 04-04-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, and are not a required part of the financial statements. In addition, the introductory section, combining statements and related major fund supporting statements and schedules, and statistical section listed in the table of contents are also presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedules of Expenditures of Federal Awards and State Financial Assistance, combining statements and related major fund supporting statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable President and
Members of the Board of Education
Township of Mount Laurel School District
Mount Laurel, New Jersey 08054

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund of the Township of Mount Laurel School District, in the County of Burlington, State of New Jersey, as of and for the fiscal year ended June 30, 2010, and have issued our report thereon dated November 11, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township of Mount Laurel School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the school district's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

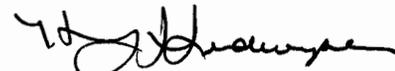

As part of obtaining reasonable assurance about whether the Township of Mount Laurel School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards, and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended solely for the information and use of the finance committee, management of the School District, the Division of Finance of the New Jersey Department of Education, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REQUIRED SUPPLEMENTARY INFORMATION
PART I

TOWNSHIP OF MOUNT LAUREL SCHOOL DISTRICT
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
(Unaudited)

The Management's Discussion and Analysis (MD&A) of the Township of Mount Laurel School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements, and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

- The total assets of the Township of Mount Laurel School District exceeded its total liabilities at the close of the most recent fiscal year by \$28,775,277.13 (net assets).
- The Township of Mount Laurel School District's total net assets increased by \$1,194,221.50.
- The Township of Mount Laurel School District's total Long Term Obligations decreased by \$3,225,147.08

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Township of Mount Laurel School District's basic financial statements. The Township of Mount Laurel School District's basic financial statements comprise three components: (1) district-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements themselves.

District-wide financial statements - The district-wide financial statements are designed to provide readers with a broad overview of the Township of Mount Laurel School District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Township of Mount Laurel School District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township of Mount Laurel School District is improving or deteriorating.

The statement of activities presents information showing how the Township of Mount Laurel School District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused sick leave).

TOWNSHIP OF MOUNT LAUREL SCHOOL DISTRICT

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
(Unaudited) (Cont'd)

Both of the district-wide financial statements distinguish functions of the Township of Mount Laurel School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Township of Mount Laurel School District include the education of students in grades K-8 at the Township of Mount Laurel School District's eight schools. The business-type activities of the Township of Mount Laurel School District include a food service program.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township of Mount Laurel School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township of Mount Laurel School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Most of the Township of Mount Laurel School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Township of Mount Laurel School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

The Township of Mount Laurel School District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, special revenue fund, capital projects fund, and debt service fund

The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Also, the Township of Mount Laurel School District adopts an annual budget for its general fund, special revenue fund, and debt service fund. Budgetary comparison schedules have been provided for both to demonstrate compliance with the budgets.

Proprietary Funds - The Township of Mount Laurel School District maintains one type of proprietary fund. Enterprise funds, which are a proprietary fund type used to report an activity for which a fee is charged to external users for goods or services, are used to report the same functions presented as business-type activities in the district-wide financial statements. The Township of Mount Laurel School District uses an enterprise fund to account for its food service and daycare programs.

Proprietary funds provide the same type of information as the district-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the food service and daycare programs.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the Township of Mount Laurel School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statement - The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements.

District-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Township of Mount Laurel School District, assets exceeded liabilities by \$28,775,277.13 at the close of the most recent fiscal year. Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
(Unaudited) (Cont'd)

- There was an increase of \$1,044,167.13 or 3.97% in governmental activities net assets and an increase of \$150,054.37 or 11.56% increase in business-type activities net assets for an overall increase of \$1,194,221.50 or 4.33% in net assets for the Township of Mount Laurel School District.
- Property taxes increased \$701,691.00 or 1.32% from the prior year. Most of this increase is the product of funding general fund services and programs. Property taxes had increased by \$1,529,859.00 or 2.96% from the 07-08 to the 08-09 school year.
- State and Federal Aid general revenue decrease by \$719,719.19 or 12.89%. General Fund State Aid was reduced \$1,872,858.00 from the original budgeted amount. The District was awarded Federal I.D.E.I.A ARRA funds and spent \$755,435.24 of the awarded amount.
- Total Expenses increased \$2,219,137.22 or 3.44% from the prior year. Health Benefits alone increased by \$536,527.65. An increase in Salaries as per employment contracts also contributed to the increase in expenses.
- Total Expenses decreased \$1,593,388.78 or 2.41% from the 07-08 to the 08-09 school year. Health benefits had decreased by \$1,630,712.38 from the 07-08 to the 08-09 school year.
- Expenses for food service activities increased by \$16,857.34.
- Expenses for daycare activities services increased by \$22,000.17.

Financial Analysis of the Government's Funds

As stated earlier, the Township of Mount Laurel School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the Township of Mount Laurel School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township of Mount Laurel School District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Township of Mount Laurel School District's governmental funds reported combined ending fund balances of \$9,566,751.24, a decrease of \$195,672.35 in comparison with the prior year.

Of the combined ending fund balances of \$9,566,751.24, \$1,820,783.58 constitutes unreserved fund balance. Of this unreserved fund balance, \$518,266.21 is earmarked for capital projects. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed. For example; to liquidate contracts and purchase orders of the prior period (\$172,364.10).

TOWNSHIP OF MOUNT LAUREL SCHOOL DISTRICT
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2010
(Unaudited) (Cont'd)

The general fund is the main operating fund of the Township of Mount Laurel School District. At the end of the current fiscal year, unreserved fund balance of the general fund was \$1,297,002.66, while total fund balance was \$8,603,252.51.

The fund balance of the Township of Mount Laurel School District's general fund at June 30, 2010 fund decrease by \$99,993.17 over the previous year.

The debt service fund has a total fund balance of \$192,211.71. Fund balance at June 30, 2010 decreased by \$95,986.28 in comparison to the fund balance at the prior year end.

The capital projects fund had fund balance of \$771,287.02 at the end of the current fiscal year. This was an increase of \$307.10 in comparison to the prior fiscal year.

Proprietary Funds - The Township of Mount Laurel School District's proprietary funds provide the same type of information found in the district-wide financial statements, but in more detail.

Unrestricted net assets consisted of the following: \$381,324.97 for the food service program and \$961,333.50 for the daycare program. Other factors concerning the finance of this fund have already been addressed in the discussion of the Township of Mount Laurel School District's business-type activities.

General Fund Budgetary Highlights

During the course of the 2010 fiscal year, the Township of Mount Laurel School District modified its general fund budget numerous times. The net change in the total budget modification primarily resulted from the rollover of the prior year's encumbrances.

The final budgetary basis revenue was \$56,734,621.00.

During fiscal year 2010, the Township of Mount Laurel School District budgeted \$50,186,321.00 and \$5,905,211.00 for property taxes (local tax levy) and state aid revenues, respectively. The Township of Mount Laurel School District also received \$2,187,478.98 and \$1,835,805.00 in reimbursed T.P.A.F. Social Security Aid and T.P.A.F. Pension Contributions, respectively.

The final budgetary basis expenditure appropriation was \$59,536,203.34 compared to the original estimate of \$59,463,195.00.

The Township of Mount Laurel School District's expenditures also include the reimbursed TPAF Social Security Aid and T.P.A.F. Pension Contributions of \$2,187,478.98 and \$1,835,805.00 respectively, which contributes to an unfavorable expenditure variance for the fiscal year.

Economic Factors and Next Year's Budget

For the 2009-10 school year, the Township of Mount Laurel School District was able to sustain its budget through property taxes, federal and state aid, and miscellaneous revenue sources.

One of the most important factors affecting the Township of Mount Laurel School District's budget is state aid. The 2010-11 budget was adopted March 2010 based in part on the state aid the Township of Mount Laurel School District anticipates receiving. This aid was based on the district's enrollment as of October 15, 2009. Budgeted revenue from state aid is \$3,041,765.00 lower than the prior year.

This reduction of state aid and increase in expenditures will put an additional burden on the taxpayers of Mount Laurel.

 and Changes in Fund Balances of Governmental Funds
 to the Statement of Activities
 For the Fiscal Year Ended June 30, 2010

Total Net Change in Fund Balances - Governmental Funds	\$	(195,672.35)
--	----	--------------

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

Depreciation Expense	\$	(2,427,815.96)	
Capital Outlays		980,590.00	(1,447,225.96)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.		2,744,662.59
---	--	--------------

Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets. Capital Lease Proceeds		(263,090.00)
---	--	--------------

In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation. (+)		27,486.01
--	--	-----------

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).		178,006.84

TOWNSHIP OF MOUNT LAUREL SCHOOL DISTRICT

Notes to Financial Statements
For the Fiscal Year Ended June 30, 2010

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Reporting Entity - The Township of Mount Laurel School District (hereafter referred to as the "School District") is a Type II district located in the County of Burlington, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year terms. These terms are staggered so that three member's terms expire each year. The purpose of the School District is to educate students in grades K-8 at its eight schools. The School District has an approximate enrollment at June 30, 2010 of 4,391.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School District over which the Board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the School District is not includable in any other reporting entity on the basis of such criteria.

Component Units - GASB Statement No. 14, *The Financial Reporting Entity*, provides guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statement No. 14, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. The following organizations are considered component units; however, the School District has determined that they are not significant and, therefore, have not been included in the basic financial statements:

Mount Laurel Public Education Fund, Inc.
P.O. Box 1304
Mount Laurel, New Jersey 08054

Requests for financial information should be addressed to the organization listed above.

Basis of Presentation - The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities, and to its proprietary funds, provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described in this Note.

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Basis of Presentation (Cont'd)**

District-wide Financial Statements - The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The statement of net assets presents the financial condition of the governmental and business-type activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for the business-type activities of the School District. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. The policy of the School District is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary fund is reported by type. The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to, or remodeling of buildings, and the purchase of built-in equipment.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Governmental Funds (Cont'd)**

General Fund (Cont'd) - In addition to the capital outlay sub-fund, the School District is accountable for two additional sub-funds resulting from federal legislation signed into law on February 17, 2009. This federal law requires the tracking and separate reporting of American Recovery and Reinvestment Act (ARRA) funds. ARRA State Fiscal Stabilization Funds were provided to districts to be used for general fund expenses. The New Jersey State Department of Education requires that the ARRA - Education Stabilization Fund (ESF) and the ARRA - Governmental Services Fund (GSF) are to be recorded as separate sub-funds.

Special Revenue Fund - The special revenue fund is used to account for the proceeds of specific revenues from the federal and state government, other than major capital projects, debt service, or the enterprise funds, and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes, or serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Permanent Fund - The permanent fund is used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the School District's programs, that is, for the benefit of the School District or its students. The School District does not maintain a permanent fund.

Proprietary Funds - Proprietary funds are used to account for the School District's ongoing activities, which are similar to those found in the private sector.

Enterprise Funds - The Enterprise Funds are used to account for operations:

1. that are financed and operated in a manner similar to private business enterprises, where the intent of the School District is that the costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or
2. where the School District has decided that periodic determination of revenues earned, expenses incurred, and / or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The School District's Enterprise Funds are:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Daycare Fund - This fund accounts for financial activity related to providing day care services for School District students before school, after school, and during the summer camp.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net assets) is segregated into investment in capital assets, net of related debt, and unrestricted net assets, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Proprietary Funds (Cont'd) - Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment	12 Years
Light Trucks and Vehicles	4 Years
Heavy Trucks and Vehicles	6 Years

Fiduciary Funds - Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and / or other funds (i.e., payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has three fiduciary funds; *an unemployment compensation trust fund, a student activity fund and payroll fund.*

Measurement Focus

District-wide Financial Statements - The district-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. Fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Basis of Accounting (Cont'd)**

Revenues -- Exchange and Non-Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within thirty days of fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (Property) Taxes are susceptible to accrual, as under New Jersey State Statute, a municipality is required to remit to its School District the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The School District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year since the revenue is both measurable and available. The School District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". With the exception of the restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. Restricted formula aids, which include *Preschool Education Aid*, are recorded in the special revenue fund in accordance with The *Audit Program* promulgated by the New Jersey Department of Education, which requires that these grants be realized in an amount equal to program expenditures.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: tuition, grants, fees, and rentals.

Expenses / Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as deferred revenue. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets / Budgetary Control - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds. The budgets are submitted to the county office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23A-16.2(f)1. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Budgets / Budgetary Control (Cont'd) - The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2 and Exhibit I-3 includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances – governmental funds. Note that the School District does not report encumbrances outstanding at fiscal year end as expenditures in the general fund since the general fund budget follows modified accrual basis, with the exception of the revenue recognition policy for the one or more June state aid payments.

Encumbrances - Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the School District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental units shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include state or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Tuition Receivable - Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Tuition Payable - Tuition charges for the fiscal years ended June 30, 2010 and 2009 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

Inventories - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

The cost of inventories in governmental fund types is recorded as expenditures when purchased rather than when consumed.

Inventories recorded on the government-wide financial statements and in the proprietary fund types are recorded as expenditures when consumed rather than when purchased.

Prepaid Expenses - Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2010.

In the governmental fund types, however, payments for prepaid items are fully recognized as an expenditure in the fiscal year payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required. This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Deferred Expenditures – Deferred expenditures are disbursements that are made in one period, but are more accurately reflected as an expenditure / expense in the next fiscal period. Unlike prepaid expenses, deferred expenditures are not regularly occurring costs of operations.

Short-Term Interfund Receivables / Payables - Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the School District and that are due within one year. These amounts are eliminated in the governmental and business-type columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as interfunds receivable and / or interfunds payable.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and the proprietary fund statement of net assets.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The School District maintains a capitalization threshold of \$2,000.00. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Capital Assets (Cont'd) - Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Land Improvements	10-20 Years	N/A
Buildings and Improvements	10-50 Years	N/A
Furniture and Equipment	5-20 Years	12 Years
Vehicles	5-10 Years	4-6 Years

Accrued Salaries and Wages – Certain School District employees, who provide services to the School District over the ten-month academic year, have the option to have their salaries evenly disbursed during the entire twelve-month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account. As of June 30, 2010, the amounts earned by these employees were disbursed to the employees own individual credit union accounts.

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Deferred Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the fund financial statements when due.

Net Assets - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

It is the School District's policy to apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fund Balance Reserves - The School District reserves portions of fund balance which are legally segregated for specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation for expenditures. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Fund balance reserves are established for encumbrances, legally restricted appropriations, tuition, excess surplus, capital reserve accounts, maintenance reserve accounts, emergency reserves, and debt service reserves.

Operating and Non-Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for food service program and fees for the daycare program. Non-operating revenues principally consist of interest income earned on various interest-bearing accounts.

Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Non-operating expenses principally include expenses attributable to the School District's food service and daycare funds.

Interfund Activity - Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures / expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds and after non-operating revenues / expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits – Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act. Of the School District's bank balances of \$12,084,435.08 as of June 30, 2010, \$987,326.02 was uninsured and uncollateralized.

New Jersey Cash Management Fund - During the fiscal year, the School District participated in the New Jersey Cash Management Fund. The Fund is governed by regulations of the State Investment Council, who prescribe standards designed to insure the quality of investments in order to minimize risk to the Funds participants. Deposits with the New Jersey Cash Management Fund are not subject to custodial credit risk as defined above. At June 30, 2010, the School District's deposits with the New Jersey Cash Management Fund are \$304,778.98.

Note 3: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District by inclusion of \$1.00 on September 26, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2009 to June 30, 2010 fiscal year is as follows:

Beginning Balance July 1, 2009	\$ 324,217.00
Increased by:	
Interest Earnings	<u>1,300.00</u>
Ending Balance June 30, 2010 Designated for Subsequent Year's Expenditure	<u><u>\$ 325,517.00</u></u>

Note 4: ACCOUNTS RECEIVABLE

Accounts Receivables at June 30, 2010 consisted of accounts (fees) and intergovernmental grants. All receivables are considered collectible in full due to the stable condition of state programs and the current fiscal year guarantee of federal funds.

Accounts receivables as of fiscal year-end for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

	General Fund	Special Revenue Fund	Proprietary Funds	Fiduciary Funds	Total
Receivables:					
Intergovernmental	\$ 923,937.02	\$ 226,310.94	\$ 24,027.95		\$ 1,174,275.91

Bonds Authorized But Not Issued – As of June 30, 2010, the School District had no authorizations to issue additional bonded debt.

Compensated Absences - Compensated absences will be paid from the fund from which the employees' salaries are paid.

Capital Leases Payable - The School District is leasing buses, trucks and computer equipment totaling \$2,139,774.16 under capital leases. All capital leases are for terms of three to five years. The following is a schedule of the future minimum lease payments under these capital leases, and the present value of the net minimum lease payments at June 30, 2010.

Year Ending June 30,	Principal	Interest	Total

Note 8: PENSION PLANS

A substantial number of the School District's employees participate in one of the following defined benefit pension plans: the Teachers' Pension and Annuity Fund and the Public Employees' Retirement System, which are administered by the New Jersey Division of Pensions and Benefits. In addition, several School District employees participate in the Defined Contribution Retirement Program, which is a defined contribution pension plan. This too is administered by the New Jersey Division of Pensions and Benefits. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to:

State of New Jersey
Division of Pensions and Benefits
P.O. Box 295
Trenton, New Jersey 08625-0295

Teachers' Pension and Annuity Fund - The Teachers' Pension and Annuity Fund (TPAF) is a cost-sharing contributory defined benefit pension plan which was established on January 1, 1955 under the provisions of N.J.S.A. 18A:66. The TPAF provides retirement, death, and disability, and medical benefits to qualified members. Vesting and benefit provisions are established by N.J.S.A. 18A:66.

The contribution requirements of plan members are determined by State statute. In accordance with Chapters 113, 114 and 115, P.L. 1997, plan members enrolled in the TPAF were required to contribute 5% of their annual covered salary. Effective July 1, 2007, however, in accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members were required to contribute 5.5% of their annual covered salary. For employees who were enrolled in the retirement system prior to July 1, 2007, the increase was effective with the payroll period that begins immediately after July 1, 2007. The State Treasurer has the right under the current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the district has been required over several preceding fiscal years.

Public Employees' Retirement System - The Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan which was established as of January 1, 1955. The PERS provides retirement, death, and disability, and medical benefits to qualified members. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 62, P.L. 1994, plan members enrolled in the Public Employees' Retirement System were required to contribute 5% of their annual covered salary. Effective July 1, 2007, however, in accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members were required to contribute 5.5% of their annual covered salary. For employees who were enrolled in the retirement system prior to July 1, 2007, the increase was effective with the payroll period that begins immediately after July 1, 2007. The State Treasurer has the right under the current law to make temporary reductions in member rates based on the existence of surplus pension assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

The School District is billed annually for its normal contribution plus any accrued liability.

The School District's contribution, equal to the required contribution for each fiscal year, was as follows:

Note 8: PENSION PLANS (CONT'D)**Public Employees Retirement System**

<u>Fiscal Year</u>	<u>Normal Contribution</u>	<u>Accrued Liability</u>	<u>Total Liability</u>	<u>Funded by Excess Pension Asset Credit</u>	<u>Paid by School District</u>

Defined Contribution Retirement Program - The Defined Contribution Retirement Program (DCRP) is a cost-sharing multiple-employer defined contribution pension fund which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et. seq.), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Division of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with a tax-sheltered, defined contribution retirement benefit. Vesting provisions are established by N.J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period. The School District had no participants in this program as of June 30, 2010.

Note 9: OTHER POSTEMPLOYMENT BENEFITS (OTHER THAN PENSION)

P.L. 1987, c.384 of P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of postemployment medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of postemployment medical benefits for retired State employees and retired educational employees. As of June 30, 2009, there were 84,590 retirees eligible for postemployment medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a school district or county college with 25 years of service. The State paid \$116.9 million toward Chapter 126 benefits for 13,320 eligible retired members in Fiscal Year 2009.

Note 10: ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2010, the School District has recognized as revenues and expenditures on-behalf payments made by the State for post-retirement costs related to TPAF. The amounts recognized as revenues and expenditures for post retirement costs are \$1,835,805.00.

Note 11: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The School District maintains commercial insurance coverage for property, liability, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

The following is a summary of School District contributions, reimbursements to the State for benefits paid and the ending balance of the School District's expendable trust fund for the current and previous two fiscal years:

<u>Fiscal Year</u> <u>Ended June 30,</u>	<u>School</u> <u>District</u> <u>Contributions</u>	<u>Amount</u> <u>Reimbursed</u>	<u>Ending</u> <u>Balance</u>
2010	-	\$ 97,150.88	\$ 164,521.00
2009	-	51,244.51	193,725.78
2008	-	11,770.62	175,436.17

Joint Insurance Pool - The School District is a member of the Burlington County Insurance Pool Joint Insurance Fund.

The Fund provides the School District with the following coverage:

- Property, Inland Marine and Automobile Physical Damages
- Boiler and Machinery
- Crime
- General and Automobile Liability
- Workers' Compensation
- Educator's Legal Liability
- Pollution Legal Liability

Annual contributions to the Fund are determined by the Fund's Board of Trustees. The School District is jointly and personally liable for claims insured by the Fund and its members during the period of its membership, including liability for supplemental assessments, if necessary. The Fund's Board of Trustees may authorize refunds to its members in any fund year for which contributions exceed the amount necessary to fund all obligations for that year.

The Fund publishes its own financial report for the year ended June 30, 2010 which can be obtained from the following address:

Burlington County Insurance Pool Joint Insurance Fund
P.O. Box 449
Marlton, New Jersey 08053

Note 12: DEFERRED COMPENSATION

The School District offers its employees a choice of six (6) deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457. The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death, or unforeseeable emergency. The plan administrators are as follows:

Fidelity
Equitable
Valic
Lincoln Investment
Tom Sealy Investment
Prudential

Note 13: COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

School District employees are granted vacation and sick leave in varying amounts under the School District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin accumulating and vesting upon commencement of employment. The School District shall pay each employee retiring from the School District for each accumulated unused sick day in accordance with the School District's schedule up to a maximum of 200 days.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. As of June 30, 2010, the liability for compensated absences in the governmental fund type was \$1,640,649.48. As of June 30, 2010 no liability for compensated absences in proprietary fund type exists.

Note 14: RESERVE FOR ARBITRAGE REBATE

The Tax Reform Act of 1986 placed restriction on investments of the proceeds of certain tax-exempt bonds issued after December 31, 1986. Specifically, investment earnings which are above arbitrage bond yield are required to be rebated to the United States Treasury Department within sixty days of the end of the fifth bond year. A bond year is defined as ending on the anniversary date of bond settlement.

The School District issued bonds on December 1, 2003 entitled School District Bonds Series 2003. As of June 30, 2010 no estimated arbitrage rebate liability is deemed to exist on this bond issue.

The School District has established a Reserve for Arbitrage in the amount of \$ 203,052.47 in the event a rebate is required as a result of the occurrence of future events.

Note 15: INTERFUND BALANCES AND TRANSFERS

The following interfund balances were recorded on the various balance sheets as of June 30, 2010:

<u>Fund</u>	<u>Interfunds Receivable</u>	<u>Interfunds Payable</u>
General	\$ 223,063.18	\$ 256.68
Special Revenue	256.68	167,063.18
Capital Projects		5,511.30
Debt Service	5,511.30	
Proprietary		56,000.00
	<u>\$ 228,831.16</u>	<u>\$ 228,831.16</u>

Note 16: FUND BALANCES**RESERVED**

Reservations of fund balances of governmental funds are established to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that is not appropriable for future expenditures. Specific reservations of the fund balance are summarized below:

For Encumbrances - The reserve for encumbrances was created to represent encumbrances outstanding at the end of the fiscal year based on purchase orders and contracts signed by the School District but not completed as of the close of the fiscal year. As of June 30, 2010, \$172,364.10 has been reserved for this purpose.

For Excess Surplus - In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of reserved fund balance-- excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance on a budgetary basis at June 30, 2010 is \$1,522,279.73. Additionally, \$3,979,468.17 of excess fund balance generated during the 2008-2009 has been restricted and designated for utilization in the 2010-2011 budget.

For Other - As of June 30, 2010, \$49,968.34 in the Capital Fund represents funds provided by developers for future construction. The \$402,513.02 in the General Fund represents reserve for Adult Education.

For Legally Restricted Appropriations - As of June 30, 2010, the School District adopted a resolution to utilize restricted fund balance of \$902,287.00 consisting of \$325,517.00 capital reserve and \$576,770.00 emergency reserve in the 2010-2011 budget.

Note 16: FUND BALANCES (CONT'D)**UNRESERVED**

General Fund - Of the \$1,624,340.49 budgetary basis unreserved General Fund balance at June 30, 2010, \$327,337.83 has been appropriated and included as anticipated revenue for the year ending June 30, 2011 and \$1,297,002.66 is undesignated.

Debt Service Fund - Of the \$192,211.71 Debt Service Fund balance at June 30, 2010, \$186,697.00 has been appropriated and includes as anticipated revenue for the year ending June 30, 2011 and \$5,514.71 is undesignated.

Note 17: LITIGATION

The School District is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome, or exposure to the School District, from such litigation is either unknown or potential losses, if any, would not be material to the financial statements.

SINGLE AUDIT SECTION

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE THAT COULD HAVE A DIRECT
AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND
STATE OF NEW JERSEY CIRCULAR 04-04-OMB**

The Honorable President and
Members of the Board of Education
Township of Mount Laurel School District
Mount Laurel, New Jersey 08054

Compliance

We have audited the Township of Mount Laurel School District's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement and the New Jersey State Grant Compliance Supplement that could have a direct and material effect on each of the School District's major federal and state programs for the fiscal year ended June 30, 2010. The School District's major federal and state programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and State of New Jersey Circular 04-04-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, OMB Circular A-133, and State of New Jersey Circular 04-04-OMB, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Township of Mount Laurel School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the Township of Mount Laurel School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2010.

Internal Control Over Compliance

Management of the Township of Mount Laurel School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and State of New Jersey Circular 04-04-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

This report is intended solely for the information and use of the finance committee, management of the School District, the Division of Finance of the New Jersey Department of Education, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

TOWNSHIP OF MOUNT LAUREL SCHOOL DISTRICT
Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2010

Note 1: **GENERAL**

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Township of Mount Laurel School District (hereafter referred to as the "School District"). The School District is defined in Note 1 to the School District's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedule of expenditures of federal awards and state financial assistance.

Note 2: **BASIS OF ACCOUNTING**

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the School District's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 3: **RELATIONSHIP TO FINANCIAL STATEMENTS**

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or two state June payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

The net adjustment to reconcile expenditures from the budgetary basis to the GAAP basis is (\$31,188.00) for the general fund and (\$49,781.23) for the special revenue fund. See Exhibit C-3, Notes to Required Supplementary Information, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

Total	<u>\$ 2,382,991.43</u>	<u>\$ 9,225,389.40</u>	<u>\$ 11,608,380.83</u>

Note 4: **RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS**

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 5: **ADJUSTMENTS**

Amounts reported in the column entitled "Adjustments" represent favorable difference incurred in the liquidation of encumbrances charged as budgetary basis expenditures in 2008-2009.

Note 6: **OTHER**

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distribution respectively. TPAF Social Security Contributions represents the amount reimbursed by the State for the employer's share of social security contributions for TPAF members for the year ended June 30, 2010.
