I. STUDENT ACADEMIC ACHIEVEMENT

In the following charts, please provide student achievement data from the 2002-2003 school year test administration. Charts have been provided for each of grades 3 through 8 and high school to accommodate the varied State assessment systems in mathematics and reading/language arts during the 2002-2003 school year. States should provide data on the percentage of students scoring at the proficient and advanced levels for those grades in which the State administered mathematics and reading/language arts assessments during the 2002-2003 school year.

New Jersey has not yet administered a grade 3 assessment. In 2002-2003 this measurement was field tested.

II. SCHOOLS IN NEED OF IMPROVEMENT

A. In the following chart, please provide a list of Title I schools identified for improvement, corrective action, or restructuring under section 1116 for the 2003-2004 school year, based upon data from the 2002-2003 school year. For each school listed, please provide the name of the school's district, the reason(s) for identification (e.g., missing proficiency target, participation rate, other academic indicator), and the school improvement status for the 2003-2004 school year (e.g., school in need of improvement year 1, school in need of improvement year 2, corrective action, restructuring).

See Attached

B. Briefly describe the measures being taken to address the achievement problems of schools identified for improvement, corrective action, and restructuring.

In an effort to assist schools identified as “in need of improvement,” the New Jersey Department of Education, in collaboration with other educational constituencies, provides technical assistance and training to school districts and schools on a variety of topics, e.g., comprehensive needs assessment, data analysis, program planning, school choice, supplemental educational services, and early literacy.

Also, quarterly policy forums about best practices in teaching and learning, parental involvement, closing the achievement gap, special education, new Title I managers and transition to secondary schools, and a 2-day Principal Leadership Institute were conducted this past school year.

Ongoing technical assistance to low performing schools is provided by the Regional and County Offices, the Office of Title I Program Planning and Accountability and the Abbott Division.
