Dr. Robert Zywicki, Superintendent, Weehawken School District and four of his students presented an overview of two AP Capstone Projects that the students are currently engaged. The Capstone projects reflected their research conducted on Minority student's education; and (c) Technology addiction among students.

Teacher Leader Endorsement Advisory Board Update

Acting Commissioner Harrington provided an update on the work of the Teacher Leader Endorsement Advisory Board. She stated that in September 2015, [New Jersey's Teacher Leader Endorsement](#) was signed into law. The endorsement allows teachers to develop their leadership skillsets to enhance their own practice as well as the practices of their colleagues. She also stated that an eleven-member Teacher Leader Endorsement Advisory Board (TLEAB) was established by law (N.J.S.A. 18A:26-2.18) to provide

the Commissioner of Education and the State Board of Education with recommendations related to the eligibility requirements and program of study needed to obtain the Teacher Leader Endorsement.

Acting Commissioner Harrington state that the Board is chaired by Heidi Olson, a special education teacher in the Hopewell Valley Regional School District, and a representative for the New Jersey Education Association. She also stated that the membership if the Board includes representatives from the American Federation of Teachers New Jersey (AFTNJ), New Jersey Association of Colleges for Teacher Education (NJACTE), New Jersey Association of School Administrators (NJASA), New Jersey Department of Education (NJDOE), New Jersey Education Association (NJEA), New Jersey Principals and Supervisors Association (NJPSA), and New Jersey School Boards Association (NJSBA). She further stated that the Department plans to partner with the Teacher Leader Endorsement Advisory Board to release a joint statement that publicly outlines the Board’s guiding principles and recommendations.

Acting Commissioner Harrington stated that by 2020, the Board will make additional recommendations regarding roles and responsibilities related to the teacher leader endorsement.

Petition for Rulemaking

Acting Commissioner Harrington stated that the State Board received a petition for rulemaking request from Ms. Robyn LaTorre on April 26, 2017 requesting that the State Board of Education amend the rules pertaining to graduation requirements and add computer programming as an option for meeting the world language requisite. She also stated that the request was reviewed and it was determined that the petitioners request should be denied essentially because while a computer programming/code course may be valuable for students it does not meet the expectations of the World Languages Standard 7.1 in the New Jersey Student Learning Standards. She further stated that a computer programming course would not assist students in being prepared to engage in meaningful conversation, to understand and interpret spoken and written language, and to present information, concepts, and ideas, while also gaining an understanding of the perspectives of other cultures.

Acting Commissioner Harrington stated that it is unnecessary to amend the regulations because a school district has the discretion to set policy that would allow students to use a computer programming/coding course to fulfill five credits in 21st century life and careers or an elective to meet the 120 credits required for a State-endorsed diploma as established in chapter 8. She also stated that students interested in computer programming/coding also can take Advanced Placement Computer Science, which can be used to fulfill one of the three courses in mathematics required for a State-endorsed high school diploma. She further stated that a notice of action advising that the petition is denied will be filed with the OAL today and a copy of the notice of action will be mailed to the Petitioner as soon as possible.
