

# Directory of Programs and Resources for Students who are Deaf and Hard of Hearing

**New Jersey Department of Education  
PO Box 500  
Trenton, New Jersey 08625-0500**

**Friday, December 16, 2011**

## ACKNOWLEDGEMENTS

The Office of Special Education Programs, NJ Department of Education staff would like to acknowledge the efforts of Patricia Holcomb-Gray, technology coordinator, in designing this document. Special thanks are also extended to the program administrators who participated in this project.

## INTRODUCTION

This directory is designed to provide updated information to parents, educators and administrators on the programs and services available to students who are deaf or hard of hearing. The program section includes self-reported information from directors of special services and directors of programs within New Jersey who employ a teacher of the deaf/hard of hearing for at least one student. Early intervention, preschool, elementary, secondary, post-secondary and vocational programs are reported by county in alphabetical order. The number of students served, the classifications and eligibility categories of the student population, and the types of programs and related services offered are noted.

The resources component of this document includes local, state and national agencies and organizations which would be beneficial for children, youth and young adults from birth through twenty one years of age. These include child study team services, mental health and substance abuse resources, financial aid and scholarship information, parent groups, recreation and camps, and organizations providing information and training on deafness and hearing impairment. Information for students transitioning from school to work or from school to postsecondary education is also included.

If more information is needed about a program or resource, a contact person and phone numbers are provided for each program and organization. Voice and text telephones are indicated, as well as fax numbers, e-mail address and website, where available.

The Office of Special Education Programs, NJ Department of Education, employs a state coordinator and a state consultant for students who are deaf or hard of hearing. They are available for technical assistance and additional information. Please see the State Resources section for the contact information.

---

**Program Description:**

A self contained program for students with severe to profound hearing loss has been designed to develop language skills in American Sign Language and English. The teacher of the deaf provides instruction in content areas. An educational interpreter provides interpreting as a related services for special subjects in the age appropriate general education programs. Speech and language specialists provide one-to-one speech and language therapy sessions for articulation and auditory training. Group speech sessions are also offered for the development of pragmatic language skills. State of the art FM systems and soundfield systems are available in the classroom. Instructional technology such as Smart Boards and personal computers are also utilized for class instruction.

---

**Program Description:**

The Hackensack High School Program for Students who are deaf/hard of hearing is a program operated by the Bergen County Speical Services School district and located in Hackensack High School. It serves students ages 15-21. They are supported in the general education programs using a teacher consultant model with a teacher of the deaf. Extensive planning with general education teachers and related services personnel is a critical component of the program. Educational interpreters and student notetakers also support students in the general education programs according to the individualized education program.

---

**Program Description:**

Millburn Regional Day School, operated by the Bergen County Special Services School District, is a program serving students with multiple disabilities, ages 3 through 21. The goal of the Millburn School is to promote student independence, and to help students reach their full potential within their communities. To reach this goal, students are instructed with a comprehensive academic, vocational, and functional curriculum, which is integrated with an intensive therapy program offering speech, physical, and occupational therapies. Underlying all the work at Millburn is the commitment to "total communication" including sign language, augmentative communication, and assistive computer technology.

**Age Range:** 3 to 13 years

---

**Program Description:**

The Listening and Spoken Language program, operated by Bergen County Special Services School District, is placed within the school community of Midland Park Public Schools. The elementary program for students who are deaf/hard of hearing, offers a continuum of program options and services for this population. Students have the option of full-time placement in regular education programs with the collaborative team-teaching offered with the regular education teacher and the teacher of the deaf. Small groups are available. Speech therapists are certified in Auditory Verbal Therapy and address listening needs of students with advanced digital hearing aids and cochlear implants. A full time audiologist is on campus to manage equipment needs for the program.

**Program Description:**

The Secondary Hearing Impaired Program offers a continuum of program options: full time placements in regular education programs with related services. A consultative teaching model is used to support general education teachers and small group instruction. Exploratory and support classes are available and taught by a teacher of the deaf. All academic and extracurricular activities are accessible to students who are deaf with the support of the appropriate related services and accommodations. CART provides equal access for students in need of support. FM systems and other assistive devices are available to students, as needed.

**Age Range:** 18 to 50 years

---

**Program Description:**

The center was established in 1988 in response to a demand for comprehensive services for students who are deaf and hard of hearing at the postsecondary level in the state of New Jersey. The center is funded by Camden County College, the New Jersey Commission on Higher Education Special Needs Grant Program, and the New Jersey Division of Vocational Rehabilitation Services. As a New Jersey Regional Center, Camden County College also provides technical assistance to other New Jersey post-secondary institutions serving students who are deaf or hard of hearing. The college is also the New Jersey state site for NETAC (Northeast Technical Assistance Center), which is dedicated to working with postsecondary institutions to improve educational access and enhance opportunities for students who are deaf or hard of hearing. The Center for the Deaf and Hard of Hearing at Camden County College in Blackwood, New Jersey offers certificate and degree programs for students who are deaf or hard of hearing seeking career and academic training.

**Operated by:**

**Enrollment:** 3      **Age Range:** 6 to 8 years

---

**Program Description:**

Currently, there are three resident students with a profound hearing loss, one of whom has a cochlear implant. These students have average to above-average ability and are integrated into regular education programs. The two older students are able to do this and be successful with the services of a sign language interpreter. The third student with the cochlear implant has a "shadow" to aid in re-directing her when she does not fully understand teacher directions. In addition, this child has been placed in a classroom with an FM system, as well as a sound field system. Support services are provided in the area of language development, reading and writing with the teacher of the deaf.

Students from out of district are not accepted due to the great difficulty in finding sign language interpreters.

**Operated by:** Gloucester County Special Services School District

**Enrollment:** 23

**Age Range:** Birth to 21 years

---

**Program Description:**

Gloucester County Special Services School District (GCSSSD) operates programs for deaf and hard of hearing students. The programs are staffed by certified teachers of the deaf, speech-language specialists, a certified audiological consultant, teacher assistants with sign language skills, and interpreters for the deaf. Occupational and physical therapies are available on an as-needed basis.

The early intervention program is offered to eligible families with children ages birth to three in Gloucester and Camden counties. Referrals originate from Gloucester and Camden County Special Child Health Services. Early intervention services are delivered in the child's natural environment (i.e. home and/or day care facilities) and are designed to meet individual communication, motor and cognitive needs. Families are active participants and are a vital component in the child's program.

The elementary and middle school programs are located in the Gloucester Public School District. Program delivery is accomplished through placements including self-contained classrooms, resource centers, in-class support and mainstreaming. Sign language classes and parent support meetings are also available to families of the students enrolled in these programs.

**Program Description:**

The Jersey City Program for Students who are Deaf/Hard of Hearing serves preschool through high school-aged students. The preschool through elementary program is housed at P.S. #27. The high school program is at McNair Academic High School. The program options include a regular education program with teachers of the deaf providing in-class support, as well as self-contained classes. All of the students receive speech/language therapy and training in total communication. In addition, all of the youngsters participate in all school activities and are fully mainstreamed for all nonacademic subjects.

**Operated by:** South Brunswick Twp

**Enrollment:** 14

**Age Range:** 5 to 16 years

---

**Program Description:**

The Oral/Aural program was started at Greenbrook School in 1988. Students who are deaf/hard of hearing were placed in regular education classes in order to provide these students with a peer group. They are supported by a teacher of the deaf, speech-language pathologist and an itinerant classroom aide. Classroom teachers receive consultation services from the teacher of the deaf and the speech and language specialist in order to coordinate the regular education curricula with the students' specialized needs.

All of the classrooms, which serve the students who are deaf, are carpeted. Many also have sound field systems. When appropriate, students wear personal FM systems. All classroom teachers and specialists are trained to use the FM systems and are provided with training for classroom management techniques which may be necessary for the students to succeed in the academic setting.

#### **Program Description:**

The Neptune Township Regional Deaf Education Program is sponsored by Neptune Township Board of Education.

The program offers a continuum of educational options for students from preschool age through high school, utilizing a total communication approach. Self-contained classes are available, as well as in-class support with a teacher of the deaf in regular education classes. Interpreter services are provided during elementary specials such as physical education, music, art, and library. Interpreter services are also provided for all regular education classes at Neptune Middle School and High School and for all extracurricular activities.

---

**Program Description:**

Manalapan-Englishtown offers a comprehensive program for all the deaf students, depending on their needs. Participation in regular education programs is offered with resource center support with teachers of the deaf. Sign language interpreters, sound field systems for students with cochlear implants and FM systems are available. The students receive speech/language therapy according to their individualized education programs (IEPs). The classroom teachers attend meetings where they are provided with educational strategies for the deaf students in their classrooms. The older students are offered the services of a notetaker. Manalapan-Englishtown strives to create appropriate programs to meet the needs of deaf students.

**Age Range:** Birth to 21 years

---

**Program Description:**

The Lake Drive School is a public school program for students who are deaf or hard of hearing which operates within the Mountain Lakes Public School District. The Lake Drive School provides a continuum of educational options for children with hearing loss from birth through high school graduation. The program serves resident students from Mountain Lakes, as well as students from out of district.

The school is dedicated to the development of literacy and communication. Professional staff include teachers of the deaf, speech language pathologists, educational audiologists, social workers, psychologists, occupational and physical therapists, sign language interpreters, counselors, and consultants in areas such as child psychiatry, feeding and oral motor disorders. A team of trained paraprofessionals and other support service providers, including sign language interpreters, complements professional staff.

Mainstream education with comprehensive support services is available throughout the Mountain Lakes School District for students with academic abilities. In addition, a team of itinerant teachers of the deaf provides support and in-service education to students who are educated in their home school districts.

**Operated by:** Lacey Township

**Enrollment:** 6

**Age Range:** 5 to 17 years

---

**Program Description:**

A teacher of the deaf provides pull-out resource center services. Students are seen for 30-40 minutes daily. During this time, notetaking materials are reviewed, and preteaching occurs for academic subject areas which will be covered during the forthcoming week. A teacher of the deaf also consults with regular education teachers in order to provide for continuity of instruction. In-service for all staff members is also available.

**Enrollment:** 4

**Age Range:** 10 to 11 years

---

**Program Description:**

The goal of the program for students who are deaf/hard of hearing in Little Egg Harbor is to support placements within the regular education programs, including academics, specials and extracurricular activities.

A teacher of the deaf provides in-class support, as well as pull-out replacement resource center programming at the middle school level. Interpreting services are available for after-school activities, such as art club, chorus, sports and band.

A teacher of the deaf will also be team-teaching in the preschool program within the district.

**Operated by:** Bridgewater-Raritan Regional Schools

**Enrollment:** 7

**Age Range:** 7 to 16 years

---

**Program Description:**

Currently, seven students enrolled in the Bridgewater-Raritan School District are auditorily impaired. Five of these students receive services in-district, with programs ranging from total mainstreaming in regular education programs with related services, to resource center replacement with certified teachers of the deaf. Two students attend private schools for the handicapped. The district employs one teacher of the deaf for the self-contained, primary-level Communication Impaired class. Two teachers of the deaf/teachers of the handicapped are on the resource center staff in the middle school. All decisions regarding programming are made based on the needs of the students.

**Program Description:**

The Summit Speech School is a private, nonprofit facility, whose mission is to enable children who are deaf or hard of hearing to take their place in a hearing world by providing educational and therapeutic support services through an auditory/oral program. Using intensive speech, language and listening sessions, children learn to maximize their listening, language and speaking skills. The school's educational team tracks the children's vocabulary, listening skills, speech, syntax, and discourse skills. The Parent Infant Program offers parents and caregivers the skills and confidence they need to help their young children learn to listen and talk. The Itinerant Mainstream Support Program provides educational and technical support to children and teachers in mainstream programs. Summit Speech School services children in Essex, Hudson, Morris, Hunterdon, Middlesex, Monmouth, Union and Somerset counties.

---

**Program Description:**

The auditory impairment program provides a language-based curriculum which is infused throughout the program. Although the instruction is provided using multimodalities, the students' preferred modality will be highlighted for instruction. In addition, strategies are utilized to improve and expand appropriate language skills.

The academic curricula for the program follow the scope and sequence of the district's general education curricula in accordance with the New Jersey Core Curriculum Content Standards. The special education curriculum provides additional guidelines for instruction.
